This book is an important reference source for all AMTs

seeking to add Inspection Authorization (IA) to his or her qualifications, as well as AMT schools preparing students for the IA test. All IA candidates must take and pass the FAA's exam, yet it remains a "closed test" in that the exact database of questions is not available to the public, which makes the IA Test Prep a great way to prepare for it. The IA exam differs from other FAA exams in that questions do not refer to a specific figure. Instead, applicants must learn to glean the information they need from the FAA Supplement (CT-8080-8) made available for use during the test. The over 500 sample questions typify those that candidates are likely to encounter, and train readers in the use of the available documents. Answer choices are supported with explanations, with FAA references identified for further study. Also provides details on what applicants need to know about the certification process, insight into the function of an IA, and excerpts of regulations, advisory circulars, airworthiness directives, type certificate data sheets, FAA orders and aircraft specifications. Resources such as pertinent excerpts from these FAA documents and more are reprinted in this study guide; additionally, readers can access additional study material for this book at a special "Reader Resources" page at the ASA website. The IA Test Prep conveniently compiles the reference materials necessary to prepare for this exam into one volume, for an organized study program that AMT schools, instructors,

and individuals alike can use to streamline their studies.

Tuesdays With Morrie Jan 01 2020 THE GLOBAL PHENOMENON THAT HAS TOUCHED THE HEARTS OF OVER 9 MILLION READERS 'Mitch Albom sees the magical in the ordinary' Cecelia Ahern _____ Maybe it was a grandparent, or a teacher or a colleague? Someone older, patient and wise, who understood you when you were young and searching, and gave you sound advice to help you make your way through it? For Mitch Albom, that person was Morrie Schwartz, his college professor from nearly twenty years ago. Maybe, like Mitch, you lost track of this mentor as you made your way, and the

insights faded. Wouldn't you like to see that person again, ask the bigger questions that still haunt you? Mitch Albom had that second chance. He rediscovered Morrie in the last months of the older man's life. Knowing he was dying of ALS - or motor neurone disease - Mitch visited Morrie in his study every Tuesday, just as they used to back in college. Their rekindled relationship turned into one final 'class': lessons in how to live. Tuesdays with Morrie is a magical chronicle of their time together, through which Mitch shares Morrie's lasting gift with the world. Don't miss Mitch's uplifting new novel THE STRANGER IN THE LIFEBOAT, available to order now. _____ WHAT READERS SAY ABOUT TUESDAYS WITH MORRIE 'You cannot put the book down until you reach the end . . . Too good to be missed. It is really an all-time hit' 'One of the most beautiful books I've read in a long, long time . . . It will always be one of my favourite books' 'This book moved me immensely and its teachings will stay with me' 'A simple yet moving account of love and loss - but also hope for something better' 'A book I will read and re-read'
