The Memory Wars Jun 23 2019 This volume contains two essays by Frederick Crews attacking Freudian psychoanalysis and its aftermath in the so-called recovered memory movement. The first essay reviews a growing body of evidence indicating that Freud doctored his data and manipulated his colleagues in an effort to consolidate a cult-life following that would neither defy nor upstage him. The second essay challenges the scientific and therapeutic claims of the rapidly growing recovered-memory movement, maintaining that its social effects have been devastating.

The Legend of King Asoka May 27 2022 This first English translation of the *Asokavadana* text, the Sanskrit version of the legend of King Asoka, first written in the second century A.D. Emperor of India during the third century B.C. and one of the most important rulers in the history of Buddhism. Asoka has hitherto been studied in the West primarily from his edicts and rock inscriptions in many parts of the Indian subcontinent. Through an extensive critical essay and a fluid translation, John Strong examines the importance of the Asoka of the legends for our overall understanding of Buddhism. Professor Strong contrasts the text with the Pali traditions about King Asoka and discusses the Buddhist view of kingship, the relationship of the state and the Buddhist community, the king's role in relating his kingdom to the person of the Buddha, and the connection between merit making, cosmology, and Buddhist doctrine. An appendix provides summaries of other stories about Asoka.

[Race, Recognition and Retribution in Contemporary Youth Justice](#) Feb 09 2021 *Race, Recognition and Retribution in Contemporary Youth Justice* provides a cross-national, sociohistorical investigation of the legacy of racial discrimination, which informs contemporary youth justice practice, in Canada and England. The book links racial disparities in youth justice, especially exclusion from ideologies of care and notions of future citizenship, with historical practices of exclusion. Despite the logic of care, found in both rehabilitative and retributive forms of youth justice, Black inner-city youth remain excluded from lenience and social welfare considerations. This exclusion reflects a historical legacy of racial discrimination apparent in the harsher sanctions levied against Black, innercity youth. In exploring race's role in this arrangement, the book asks: To what extent were Black youth excluded from historic considerations of the lenience and social care, built into the logic of youth justice in England and Canada? To what extent are the disproportionately high incarceration rates, for Black,

inner-city youth in the contemporary system, a reflection of a historic exclusion from considerations of lenience and social care? How might contemporary justice efforts be reoriented to explicitly prioritize considerations of lenience and social care ahead of penalty for Black, inner-city youth? Examining the entrenched structural continuities of racial discrimination, the book draws on archival and interview data, with interviewees including professionals who work with inner-city youth. In concert with the archival and interview data, the book offers the Intractability, Malleability I/M thesis, an integrated social theoretical logic with the capacity to expand the customary analytical scope for understanding the contemporary entrenched normalization of racialized youth as punishable. The aim is to advance a historicized account, exploring youth's positioning as constitutive of a continuity of racialized peoples', in general, and youth's, in particular, historic exclusion from the benefits of modern rights, including lenience and care. The I/M logic takes its analytical currency from a combined critical race theory (CRT) and recognition theory. The book argues that a truly progressive era of youth justice necessitates cultivating policy and practice which explicitly prioritizes considerations of lenience and social care, ahead of reliance on penalty. This multidisciplinary book is valuable reading for academics and students researching criminology, sociology, politics, anthropology, critical race studies, and history. It will also appeal to practitioners in the field of youth justice, policymakers, and third-sector organizations.

The Annotated Turing Aug 18 2021 Programming Legend Charles Petzold unlocks the secrets of the extraordinary and prescient 1936 paper by Alan M. Turing Mathematician Alan Turing invented an imaginary computer known as the Turing Machine; in an age before computers, he explored the concept of what it meant to be computable, creating the field of computability theory in the process, a foundation of present-day computer programming. The book expands Turing's original 36-page paper with additional background chapters and extensive annotations; the author elaborates on and clarifies many of Turing's statements, making the original difficult-to-read document accessible to present day programmers, computer science majors, math geeks, and others. Interwoven into the narrative are the highlights of Turing's own life: his years at Cambridge and Princeton, his secret work in cryptanalysis during World War II, his involvement in seminal computer projects, his speculations about artificial intelligence, his arrest and prosecution for the crime of "gross indecency," and his early death by apparent suicide at the age of 41.

Chickenhawk Dec 10 2020 'Robert Mason tells a gripping account of the relentless courage and heroism amidst the insanity of the Vietnam war. The final few pages are the most shocking I have read in any book.' - Tim Peake A stunning book about the right stuff in the wrong war. As a child, Robert Mason dreamed of levitating. As a young man, he dreamed of flying helicopters - and the U.S. Army gave him his chance. They sent him to Vietnam where, between August 1965 and July 1966, he flew more than 1,000 assault missions. In *Chickenhawk*, Robert Mason gives us a devastating bird's eye-view of that war in all its horror. He experiences the accelerating terror, the increasingly desperate courage of a man 'acting out the role of a hero long after he realises that the conduct of the war is insane,' says the *New York Times*. 'And we can't stop ourselves from identifying with it.' *CHICKENHAWK* contains the most vivid, astoundingly intense descriptions of flying ever written. It is a devastating account of men at war, of courage and cowardice, boredom and exhilaration, lasting friendship and sudden death. It is not a book for weak stomachs, but its powerful message will stay in the memory long after the last page is turned.

Beyond Nature's Housekeepers Jul 25 2019 From pre-Columbian times to the environmental justice movements of the present, women and men frequently responded to the environment and environmental issues in profoundly different ways. Although both environmental history and women's history are flourishing fields, explorations of the synergy produced by the interplay between environment and sex, sexuality, and gender are just beginning. Offering more than biographies of great women in environmental history, *Beyond Nature's Housekeepers* examines the intersections that shaped women's unique environmental concerns and activism and that framed the way the larger culture responded. Women featured include Native Americans, colonists, enslaved field workers, pioneers, homemakers, municipal housekeepers, immigrants, hunters, nature writers, soil conservationists, scientists, migrant laborers, nuclear protestors, and environmental justice activists. As women, they fared, thought, and acted in ways complicated by social, political, and economic norms, as well as issues of sexuality and childbearing. Nancy C. Unger reveals how women have played a unique role, for better and sometimes for worse, in the shaping of the American environment.

Daisy Miller Aug 30 2022 Henry James's *Daisy Miller* was an immediate sensation when it was first published in 1878 and has remained popular ever since. In this novella, the charming but inscrutable young American of the title shocks European society with her casual indifference to its social mores. The novella was popular in part because of the debates it sparked about foreign travel, the behaviour of women, and cultural clashes between people of different nationalities and social classes. This Broadview edition presents an early version of James's best-known novella within the cultural contexts of its day. In addition to primary materials about nineteenth-century womanhood, foreign travel, medicine, philosophy, theatre, and art—some of the topics that interested James as he was writing the story—this volume includes James's ruminations on fiction, theatre, and writing, and presents excerpts of *Daisy Miller* as he rewrote it for the theatre and for a much later and heavily revised edition.
