Being Numerous Aug 08 2020 An urgent challenge to the prevailing moral order from one of the freshest, most compelling voices in radical politics today Being Numerous shatters the mainstream consensus on politics and personhood, offering in its place a bracing analysis of a perilous world and how we should live in it. Beginning with an interrogation of what it means to fight fascism, Natasha Lennard explores the limits of individual rights, the criminalization of political dissent, the myths of radical sex, and the ghosts in our lives. At once politically committed and philosophically capacious, Being Numerous is a reevaluation of the idea that the personal is political, and situates as the central question of our time-How can we live a non-fascist life?

The New Sultan Nov 10 2020 In a world of rising tensions between Russia and the United States, the Middle East and Europe, Sunnis and Shites, Islamism and liberalism, Turkey is at the epicentre. And at the heart of Turkey is its right-wing populist president, Recep Tayyip Erdoğan. Since 2002, Erdoğan has consolidated his hold on domestic politics while using military and diplomatic means to solidify Turkey as a regional power. His crackdown has been brutal and consistent - scores of journalists arrested, academics officially banned from leaving the country, university deans fired and many of the highest-ranking military officers arrested. In some senses, the nefarious and failed 2016 coup has given Erdoğan the licence to make good on his repeated promise to bring order and stability under a 'strongman'. Here, leading Turkish expert Soner Cagaptay will look at Erdoğan's roots in Turkish history, what he believes in and how he has cemented his rule, as well as what this means for the world. The book will also unpick the 'threats' Erdogan has worked to combat - from the liberal Turks to the Gulen movement, from coup plotters to Kurdish nationalists - all of which have culminated in the crisis of modern Turkey.

Políticas del cuerpo. Manual general sobre la criminalización de la sexualidad y la reproducción. Jan 01 2020 La criminalización de la sexualidad y la reproducción supone un gran obstáculo para la realización de los derechos humanos y niega la dignidad humana a millones de personas. En todo el mundo, los gobiernos utilizan la legislación penal y otras leyes y políticas punitivas para limitar o controlar con quién y por qué decidimos mantener relaciones sexuales, cómo accedemos a información y servicios de salud sexual y reproductiva y qué decisiones tomamos respecto al embarazo y sobre si tenemos hijos y cuándo.

Police: A Field Guide Sep 08 2020 A radical guide to the language of policing This field guide arms activists-and indeed anyone concerned about police abuse-with critical insights that ultimately redefine the very idea of policing. When we talk about police and police reform, we speak the language of police legitimation through euphemism. So state sexual assault becomes "body-cavity search," and ruthless beatings "non-compliance deterrence." In entries such as "police dog," "stop and frisk," and "rough ride," the authors expose the way "cop-speak" suppresses the true meaning and history of law enforcement. In field guide fashion, they reveal a world hidden in plain view. The book argues that a redefined language of policing might help us chart a future that's free. Including explanations of newsmaking terms such as "deadname," "kettling," and "qualified immunity," and a foreword by leading justice advocate Craig Gilmore.
