**Questions Are the Answer** Jan 27 2022 2018 Nautilus Book Awards Silver Winner What if you could unlock a better answer to your most vexing problem—in your workplace, community, or home life—just by changing the question? Talk to creative problem-solvers and they will often tell you, the key to their success is asking a different question. Take Debbie Sterling, the social entrepreneur who created GoldieBlox. The idea came when a friend complained about too few women in engineering and Sterling wondered aloud: "why are all the great building toys made for boys?" Or consider Nobel laureate Richard Thaler, who asked: "would it change economic theory if we stopped pretending people were rational?" Or listen to Jeff Bezos whose relentless approach to problem solving has fueled Amazon's exponential growth: "Getting the right question is key to getting the right answer." Great questions like these have a catalytic quality—that is, they dissolve barriers to creative thinking and channel the pursuit of solutions into new, accelerated pathways. Often, the moment they are voiced, they have the paradoxical effect of being utterly surprising yet instantly obvious. For innovation and leadership guru Hal Gregersen, the power of questions has always been clear—but it took some years for the follow-on question to hit him: If so much depends on fresh questions, shouldn't we know more about how to arrive at them? That sent him on a research quest ultimately including over two hundred interviews with creative thinkers. Questions Are the Answer delivers the insights Gregersen gained about the conditions that give rise to catalytic questions—and breakthrough insights—and how anyone can create them.

**Questions Without Answers** May 07 2020 This major work presents a remarkable sequence of photo-stories from pioneering photo agency VII, documenting world history as we have experienced it since the end of the Cold War. The 11 extraordinarily talented photographers who make up this agency work at the cutting edge of digital photojournalism, committed to recording social and cultural change as it happens around the world. Questions Without Answers is an ambitious book featuring a strikingly broad selection of photo stories. Photos documenting Barack Obama giving a speech on Afghanistan to American troops sit alongside a collection of portraits featuring famous cultural figures such as David Bowie and Bernardo Bertolucci. We move from an exploration of the spread and impact of AIDS in Asia to dispatches from the current economic crisis and its effect on those working in finance. The crucial work done by VII in documenting conflict - environmental, social and political, both violent and non-violent - is also represented, including stories from the war in Iraq, the crisis in Darfur and the terrible events of 9/11. With an introduction by the eminent David Friend, Vanity Fair's editor of creative development and the former director of photography of Life magazine, this book is an important, moving and compelling record of the world we live in.

[The Philosopher's Book of Questions & Answers](#) Aug 22 2021 Your life through the lens of the world's greatest thinkers! Do you ever wonder how important money really is in life or what you need to do to achieve happiness? With The Philosopher's Book of Questions and Answers, you will be one step closer to solving these uncertainties. Inside, you'll find the basics of philosophy, written in plain English, and thoughts for applying these important theories to your own life. You'll also be encouraged to dig deep into the philosophical reasoning behind your everyday actions with a series of fascinating prompts, such as: If you had ten times your wealth and ten times your income, what would you do then that you can't do now? What's a version of that activity that you could do right now? Is it ten times less meaningful, important, or enjoyable than the activity you would do with more money? From Socrates and Epicurean to Kierkegaard and Nietzsche, The Philosopher's Book of Questions and Answers will not only help you grasp history's greatest thoughts, but will also unveil the world in a whole new light.

**Lord of the Flies** Jun 27 2019 A plane crashes on a desert island and the only survivors, a group of schoolboys, assemble on the beach and wait to be rescued. By day they inhabit a land of bright fantastic birds and dark blue seas, but at night their dreams are haunted by the image of a terrifying beast. As the boys' delicate sense of order fades, so their childish dreams are transformed into something more primitive, and their behaviour starts to take on a murderous, savage significance. First published in 1954, Lord of the Flies is one of the most celebrated and widely read of modern classics. Now fully revised and updated, this educational edition includes chapter summaries, comprehension questions, discussion points, classroom activities, a biographical profile of Golding, historical context relevant to the novel and an essay on Lord of the Flies by William Golding entitled 'Fable'. Aimed at Key Stage 3 and 4 students, it also includes a section on literary theory for advanced or A-level students. The educational edition encourages original and independent thinking while guiding the student through the text - ideal for use in the classroom and at home.

**The Meaning of Life** Sep 10 2020 The phrase "the meaning of life" for many seems a quaint notion fit for satirical mauling by Monty Python or Douglas Adams. But in this spirited, stimulating, and quirky enquiry, famed critic Terry Eagleton takes a serious if often amusing look at the question and offers his own surprising answer. Eagleton first examines how centuries of thinkers and writers--from Marx and Schopenhauer to Shakespeare, Sartre, and Beckett--have responded to the ultimate question of meaning. He suggests, however, that it is only in modern times that the question has become problematic. But instead of tackling it head-on, many of us cope with the feelings of meaninglessness in our lives by filling them with everything from football to sex, Kabbala, Scientology, "New Age softheadedness," or fundamentalism. On the other hand, Eagleton notes, many educated people believe that life is an evolutionary accident that has no intrinsic meaning. If our lives have meaning, it is something with which we manage to invest them, not something with which they come ready made. Eagleton probes this view of meaning as a kind of private enterprise, and concludes that it fails to hold up. He argues instead that the meaning of life is not a solution to a problem, but a matter of living in a certain way. It is not metaphysical but ethical. It is not something separate from life, but what makes it worth living--that is, a certain quality, depth, abundance and intensity of life. Here then is a brilliant discussion of the problem of meaning by a leading thinker, who writes with a light and often irreverent touch, but with a very serious end in mind. "If you were to ask what provides some meaning in life nowadays for a great many people, especially men, you could do worse than reply 'football.' Not many of them perhaps would be willing to admit as much; but sport stands in for all those noble causes--religious faith, national sovereignty, personal honor, ethnic identity--for which, over the centuries, people have been prepared to go to their deaths. It is sport, not religion, which is now the opium of the people."
