**Deathwish** Nov 05 2022 The fourth book in the Cal Leandros series that began with *Nightlife*, *Deathwish* is clever, ironic and hugely entertaining urban fantasy in the vein of Jim Butcher by the New York Times bestselling author, Rob Thurman. 'How I felt the mental stirrings of a bloodthirsty heritage when I passed through the gray light wasn't my favourite topic . . . the Auphe nature wasn't mine. I wouldn't let it be. And if I said that to myself over and over and sprinkled around enough frigging fairy dust, maybe it would be true.' Half-human Cal Leandros and his brother, Niko, are barely getting by with their preternatural detective agency when the vampire Seamus hires them. He's being followed, and he wants to know by whom. But the Leandros brothers have to do more than they had planned when Seamus turns up dead (or un-dead). Worse still is the return of Cal's nightmarish family, the Auphe. The last time Cal and Niko faced them, the Auphe were almost wiped out. Now they want revenge. Cal know that before the Auphe get to him, they will try to destroy everything and everyone he holds dear. Because for the Auphe, Cal's pain is a pleasure. And they're feeling good. A dark contemporary fantasy with a humorous edge, Rob Thurman's *Deathwish* should not be missed. Praise for Rob Thurman: 'Supernatural elements put this in the company of Jim Butcher and Charlaine Harris' SFRevu 'A roaring rollercoaster of a read . . . it'll take your breath away' Simon R. Green Rob Thurman lives in Indiana, land of rolling hills and cows. *Research Methodologies and Ethical Challenges in Digital Migration Studies* Jul 29 2019 This Open Access book investigates the methodological and ethical dilemmas involved when working with digital technologies and large-scale datasets in relation to ethnographic studies of digital migration practices and trajectories. Digital technologies reshape not only every phase of the migration process itself (by providing new ways to access, to share and preserve relevant information) but also the activities of other actors, from solidarity networks to border control agencies. In doing so, digital technologies create a whole new set of ethical and methodological challenges for migration studies: from data access to data interpretation, privacy protection, and research ethics more generally. Of specific concern are the aspects of digital migration researchers accessing digital platforms used by migrants, who are subject to precarious and insecure life circumstances, lack recognised papers and are in danger of being rejected and deported. Thus, the authors call for new modes of caring for (big) data when researching migrants' digital practices in the configuration of migration and borders. Besides taking proper care of research participants' privacy, autonomy, and security, this also spans carefully establishing analytically sustainable environments for the respective data sets. In doing so, the book argues that it is essential to carefully reflect on researchers' own positioning as being part of the challenge they seek to address.

**Contentious Migrant Solidarity** Jan 15 2021 In the context of both the financial crisis and the crisis of European migration politics, the notion of solidarity has gained renewed prominence and - as this book argues - its practice has become increasingly contentious. Intersecting crises have sharpened social and political polarization and have contracted simultaneously the space for migrant and minority rights as well as the rights around political dissent. Building upon social movement and migration studies, this book maps the two sides of 'contentious solidarity': a shrinking civic space and its contestation by civil society. The book thereby unfolds the variety of repressive means (physical, legal, administrative and discursive) employed by governmental and non-governmental bodies against migrant solidarity, but also looks at how civil society organizations react to these restrictions through at times moderation and at times increasing contention. The diagnosis of 'contentious solidarity' is located within two broader trends affecting the relationship between the state and civil society in a neoliberal context in general and since the financial crisis in particular. Bridging studies on social movement studies and civil society organizations, this volume contributes to recent reflections on repression of social movements as well as of a hybridization of civil society organizations. Given its broad scope and the utmost timeliness of the issues it addresses, the volume will be of interest to a broad academic and non-academic audience.
