**Hexhunter** Jul 21 2019 Detective Bill Quigley fell in love with the familiar Isaac the night they met. But after more than two years, it's time to admit to himself that Isaac doesn't return his feelings. Isaac knows he's too broken by his experiences for anyone to fall in love with. Especially someone like Bill, who deserves a partner unplagued by Isaac's nightmares and doubts. When children go missing from an orphanage, Bill and Isaac must work together to find them. And as years of yearning threaten to ignite into passion, they must decide once and for all whether to take a chance on love.

*Advanced Light Alloys and Composites* Jun 12 2021 An expert exposition of the structural and mechanical properties of light alloys and composites,

bridging the gap between scientists and industrial engineers in its consideration of advanced light materials, their structure, properties, technology and application. Includes basic problems of alloy constitution and phase transformations. The aluminium alloys are the main topic of the book, consideration being given to their properties, casting technology, thermomechanical treatment and structure. Attention is also given to the magnesium alloys, particularly those having rare earth metal constituents. Both commercial titanium alloys and intermetallic compounds are discussed, as are metallic composites. The latest engineering techniques are discussed in both theoretical and practical terms.

*Widdershins* Dec 06 2020 Some things should stay buried. Repressed scholar Percival Endicott Whyborne has two skills: reading dead languages and hiding in his office at the Ladysmith Museum. After the tragic death of the friend he secretly loved, he's ruthlessly suppressed any desire for another man. So when handsome ex-Pinkerton Griffin Flaherty approaches him to translate a mysterious book, Whyborne wants to finish the job and get rid of the detective as quickly as possible. Griffin left the Pinkertons following the death of his partner, hoping to start a new life. But the powerful cult which murdered Glenn has taken root in Widdershins, and only the spells in the book can stop them. Spells the intellectual Whyborne doesn't believe are real. As the investigation draws the two men closer, Griffin's rakish charm threatens to shatter Whyborne's iron control. When the cult resurrects an evil sorcerer who commands terrifying monsters, can Whyborne overcome his fear and learn to trust? Will Griffin let go of his past and risk falling in love? Or will Griffin's secrets cost Whyborne both his heart and his life?

*Necropolis* May 23 2022 Introverted scholar Percival Endicott Whyborne has spent the last few months watching his lover, Griffin Flaherty, come to terms with the rejection of his adoptive family. So when an urgent telegram from Christine summons them to Egypt, Whyborne is reluctant to risk the fragile peace they've established. Until, that is, a man who seems as much animal as human tries to murder Whyborne in the museum. Amidst the ancient ruins of the pharaohs, they must join Christine and face betrayal, murder, and a legendary sorceress risen from the dead. In the forge of the desert heat, the trio will either face their fears and stand together—or shatter the bonds between them forever.

Spectr Mar 09 2021 From best-selling author Jordan L. Hawk, the second half of the SPECTR series is now in a box set! SPECTR: Volume 2 contains: Eater of Lives Destroyer of Worlds Summoner of Storms All for less than the separate retail price! What happens when an exorcist falls in love with the demon he's supposed to destroy? After becoming possessed by the vampire spirit Gray, telekinetic Caleb Jansen thought he'd hit bottom. But between the hunt for a cannibalistic killer and the increasingly sinister actions on the part of SPECTR, the situation is rapidly going from bad to worse. Caleb's boyfriend, SPECTR agent John Starkweather, has suspicions of his own. With the help of his friend Sean and a shadowy organization known only by their symbol of a moth, John intends to save Caleb and Gray at any cost. When divided loyalties threaten his last chance at exorcism, Caleb discovers love may come at a price higher than he'd ever imagined. Novel: 111,622 words

*Objects and Databases* Oct 24 2019 These post-proceedings contain the revised versions of the papers presented at the "Symposium on Objects and Databases" which was held in Sophia-Antipolis, France, June 13, 2000, in conjunction with the Fourteenth European Conference on Object-Oriented Programming, ECOOP 2000. This event continued the tradition established the year before in Lisbon (Portugal) with the First Workshop on Object-Oriented Databases. The goal of the symposium was to bring together researchers working in various corners of the field of objects and databases, to discuss the current state of research in the field and to critically evaluate existing solutions in terms of their current usage, their successes and limitations, and their potential for new applications. The organizing committee received 21 papers which were reviewed by a program committee of people active in the field of objects and databases. There were 3 reviews for each paper, and finally the organizing committee selected 9 long papers, 2 short papers, and a demonstration to be presented and discussed at the symposium. The selected papers cover a wide spectrum of topics, including data modeling concepts, persistent object languages, consistency and integrity of persistent data, storage structures, class versioning and schema evolution, query languages, and temporal object-oriented databases. In addition to the regular papers, the symposium included an invited presentation, given by Prof. Malcolm Atkinson from the University of Glasgow (Scotland) where he heads the Persistence and Distribution Group.

Total Knee Arthroplasty Jun 19 2019 "Take away my knee pain and give me better motion". This is what the arthritic patient expects from a Total Knee Arthroplasty (TKA). By virtue of standardization of the TKA procedure, surgeons can nowadays solve the pain issue for the majority of the patients. Restoration of function is a goal of a different order and forms the scope of this book. The editors confronted today's leading knee surgeons with the limitations of current surgical techniques and technology. They challenged them to define new thresholds of functional capacity after Total Knee Arthroplasty. "A Guide to Get Better Performance in TKA" describes the cutting edge in surgical techniques, prosthetic design and achievement of excellent function for these patients.

**Inclusion: The Dynamic Of School Development** Sep 22 2019 Inclusion has been adopted as a policy goal in many countries. It is one of the buzzwords in education and a topic of much theoretical debate, often without allowing for real life in today's schools. Bridging the gap between theoretical discussions and the real attitudes and experiences of teachers, this book: Features case studies of inclusion initiatives in English secondary schools Illustrates the complex nature of the school development process Describes teachers' attitudes towards inclusion Challenges the idea that there needs to be consensus among school staff for inclusion to work. Inclusion: The Dynamic of School Development also examines the dominant influence of the discourse of deviance on the history of education policy in the West during the twentieth century. The book concludes by articulating an alternative vision of the relationship between education and society for education policy, pedagogy and the curriculum.
