[Deeper Souls, Less Shoes](#) Dec 25 2019 Imagine a top producing real estate salesperson, single mom, bad relationships with men, unhealthy, self-styled dumb blonde... who awakens to her destiny of healing bodies, minds and souls. Meet Nadine Mercey, high vibrational healer. This is her personal story. Reading it will change yours. Her mission is raising awareness about the potential in all of us to boost our personal vibration so we can be healthy, in loving relationships, and laughing often and out loud. lol About the Author Nadine Mercey is a high vibrational healer. She grew up in Brantford, Ontario, and confesses to having never done well at formal education. "My mind just didn't work like other people's." Looking back, she recognizes signs of mild autism in her behavior. For twenty years, Nadine worked in real estate, rising to become one of Canada's top realtors. Her success came from an uncanny ability to intuitively understand the needs and motivations of buyers and sellers. Her awakening to the extent of her intuitive capabilities came from selling a haunted house - one that had been featured in her dreams since childhood. Soon she was experiencing great vibrational development -- and receiving messages in her mind from voices who identified themselves as angels. She is guided and protected by the Gabrielle Collective and other energies. Nadine conducts readings, often at great distances, during which she communicates with the client's spirit guide(s) and/or angel(s). These entities provide instruction about what is required to raise the person's vibration, in order to restore balance to soul, mind and body. Generally energy flows into the person's body as Nadine visualizes areas that need help. Healing happens through creative visualization, and only when intended for the highest and best interest -- to help that person progress toward his or her predetermined life purpose. Blessed with extraordinarily high vibration, Nadine devotes a portion of her practice to healing other intuitives and to making people aware of their own intuitive capabilities. She is a medical intuitive, who has helped doctors identify illnesses in their patients. Nadine is a dynamic presenter at seminars, and has been the subject of a documentary film. Discussions are underway about hosting a television show. She is also developing her own line of healing products. Nadine lives in Ancaster, Ontario, Canada with her two teenaged sons, Eric and Jaxon. She loves to dance and laugh. And she does own way too many shoes. Reviews "Nadine's healing is amazing. Pro and amateur athletes will gain new awareness and better health by reading her new book." -- Peter Zezel, NHL hockey legend and coach "Nadine Mercy is the most powerful healer that I know and will astonish even her most ardent skeptic. This profound book is a must read!" -- renown psychic medium Karyn Reece (as seen on Lifetime Channel, TLC and Discovery Channel) "Deeper Souls, Less Shoes is a fascinating and breezy narrative. At first I felt like a voyeur, but soon I realized this book was all about me, too! Nadine's tale gives me permission to fully embrace the many odd occurrences that fall into my life daily and to expect that these occurrences or clues, will fit together to create a picture, MY LIFE, larger, more fulfilling and powerful than I can currently imagine. After reading Nadine's book I am filled with confidence to look, and guess what... it's there. Thank you, sister! -- Linda Schaumleffel, Olympic athlete and brain fitness expert

Self Observation Jan 26 2020 This book is an in-depth examination of the much needed process of "self" study known as self observation. We live in an age where the "attention function" in the brain has been badly damaged by TV and computers-up to 90 percent of the public under age 35 suffers from attention-deficit disorder! This book offers the most direct, non-pharmaceutical means of healing attention dysfunction. The methods presented here are capable of restoring attention to a fully functional and powerful tool for success in life and relationships. This is also an age when humanity has lost its connection with conscience. When humanity has poisoned the Earth's atmosphere, water, air and soil, when cancer is in epidemic proportions and is mainly an environmental illness, the author asks: What is the root cause? And he boldly answers: Failure to develop conscience! Selfobservation, he asserts, is the most ancient, scientific, and proven means to develop this crucial inner guide to awakening and a moral life. This book is for the lay-reader, both the beginner and the advanced student of self observation. No other book on the market examines this practice in such detail. There are hundreds of books on self-help and meditation, but almost none on self-study via self-observation, and none with the depth of analysis, wealth of explication, and richness of experience which this book offers. Red Hawk, author of 5 collections of poetry, was the Hodder Fellow at Princeton University (1992-93) and is currently a full professor at the University of Arkansas, Monticello. He has practiced self-observation for over 30 years, under the guidance of the Gurdjieff Society of Arkansas, meditation master Osho Rajneesh, and spiritual teacher, Lee Lozowick.

The Millionaire Manual Jul 24 2022 This book presents a refreshingly new method for coaching the individual on accumulating one million dollars or more in the public markets. This uniqueness takes several forms. The first of these is the structure of the book itself. It is divided into four components. These components are Tools, Parts, Assembly and Warranty. In other words, it is set up as an Owners Manual for the individual. By analogy to other Owners Manuals which we have all seen and attempted to read, the Tools are generally things that are not included with a new item that we purchase and are required to assemble. We must either already have them or purchase them before we can begin the assembly process. The Tools section of this book is completely unlike other investment books. A reader can gain more from reading this section of the book than from most full texts on the subject. The Parts and Assembly sections of the book are in reality the how to of making money in the market. Although admittedly of little value without the first section, these areas combine academic theories with practical experience. Art and science are merged with real life examples of how you can make your money work for you. As a reader goes through these pages, his or her mind is transformed into new modes of thought. It is as if a light comes on and it all begins to make sense. The delivery is powerful and enlightening. The book concludes with a warranty section. It is of little value to accumulate assets if you are going to lose them. Insights are given on protecting not only your investment portfolio but other assets as well. There are full chapters on how to protect the home and auto as well as methods of getting maximum income while reducing taxes. The other area of uniqueness is the detail regarding how an investor must react to bull and bear markets and why they must act in a certain way. Making millions in the market is as much about being able to refrain from certain innate problems that we all possess as investors and converting our natures and subconscious minds in a way that allows us to be successful. Of particular interest are the stories which relate to everything from astro-physics to world history in teaching the reader about the investment world. This moves a rather bland subject from the area of boredom to very interesting reading. A reader will want to read this book again and again and keep it where it can be referred back to. It will be one Owners Manual that will not be locked away in a drawer.

This book reclaims type as a way to talk about people's inner potential and the choices they make in order to honor it. Using everyday examples from popular culture—films, Star Trek, soap operas, comic strips—it describes the sixteen basic ways people come to terms with their gifts and values. In this book you will find tools to understand: • How your personality takes shape • How your type reflects not only your current priorities, but your hidden potential • How un-lived possibilities are trying to get your attention • How relationships at home and at work can help you to tap your unrealized gifts
