Arkham House Books Oct 27 2019 This reference work covers the supernatural and speculative fiction published by Arkham House Publishers, Inc., of Sauk City, Wisconsin. In 1937, promising Wisconsin writer August Derleth decided to publish a collection of the stories of his recently deceased friend, H. P. Lovecraft. After two years of failed attempts, Derleth and another Lovecraft fan, Donald Wandrei, published the collection themselves under the name of Arkham. In the years that followed, Arkham House published the works of many of the foremost American and British writers of weird fiction, including Basil Copper, Lord Dunsany, Robert E. Howard, and Robert Bloch. Arkham published Ray Bradbury's first book, *Dark Carnival*, in 1947. The work begins with a history of the house and biography of August Derleth; it also includes a chapter on H. P. Lovecraft's connection to Arkham. The main body of the text consists of chronologically listed descriptions and current values of the more than 230 titles published by Arkham House and its two imprints, Mycroft & Moran and Stanton & Lee. These entries detail editions, reprints, special points, restoration, care, buying and selling, investment, and future trends. Other features include alphabetical indexes of titles and authors, lists of scarcity and value ranking, a list of annual stock lists and catalogs, and a bibliography of reference literature. On Being an Introvert or Highly Sensitive Person Jul 25 2019 In a culture that ranks sociability and extroversion above the introverted traits of deep thinking and being alone, Ilse Sand shows how to find joy and meaning as an introvert or highly sensitive person. She debates whether these traits are caused by nature or nurture, and shows how someone like this can organise their life to keep them content. What she says is appropriate for people who are temporarily, or for some other reason, in a sensitive situation - for example, because of stress, trauma or burn-out. It describes the introverted personality type and the highly sensitive trait, highlighting the strengths that come with it such as good listening skills and rich imagination, and suggests ways to overcome the negatives such as the need to avoid overstimulation and over-critical thinking. Including advice from other introverts or highly sensitive people, and two self-tests for sensitive and introverted traits, this book provides a deeper understanding of introversion and high sensitivity and gives those with these personality types greater faith and courage in their own talents.

At the Mountains of Madness May 03 2020 At the Mountains of Madness, Lovecraft's incontrovertible masterpiece, written in February-March 1931, is a story details the events of a disastrous expedition to the barren, windswept Antarctic continent, where the secret history of our planet is preserved, amidst the ruins of its first civilization, in September 1930, and what was found there by a group of explorers led by the narrator, Dr. William Dyer of Miskatonic University. Throughout the story, Dyer details a series of previously untold events in the hope of deterring another group of explorers who wish to return to the continent. It uncovers strange fossils and mind-blasting terror. Since it was originally serialized in the February, March, and April 1936 issues of Astounding Stories during the classic pulp era, 'At the Mountains of Madness' has influenced both horror and science fiction worldwide. Lovecraft scholar S.T. Joshi describes the novella as representing the decisive "demythology" of the Cthulhu Mythos by reinterpreting Lovecraft's earlier supernatural stories in a science fiction paradigm.
