Die Bronzen des Massimiliano Soldani Benzi (1656-1740) Feb 22 2022 Das Streben nach einer Königskrone, die Veredelung einer klugen Finanzpolitik oder die Verewigung glorreicher Siege - all dies spiegelt sich im Glanz der Bronzen Massimiliano Soldani Benzis. Wer um 1700 die Venus Medici oder andere originalgroße Antikenkopien von der Hand des Florentiner Münzmeisters erwarb, wie die Liechtenstein oder die Marlborough, erhielt nicht nur ein technisch brillantes

Meisterwerk, sondern ein Privileg, denn sie stammten aus einer der bedeutendsten Antikensammlungen ihrer Zeit, jener der Medici. Soldani, auf Geheiß Großherzogs Cosimo III. in Rom und Paris ausgebildet, schuf raffinierte Neuschöpfungen der antiken Originale, die nur über diplomatische Netzwerke zu erlangen waren, lange bevor der Kunstmarkt des 18. Jahrhunderts Antikenkopien zu einem Massenprodukt werden ließ.

The Cigarette Century Aug 07 2020 The

invention of mass marketing led to cigarettes being emblazoned in advertising and film, deeply tied to modern notions of glamour and sex appeal. It is hard to find a photo of Humphrey Bogart or Lauren Bacall without a cigarette. No product has been so heavily promoted or has become so deeply entrenched in American consciousness. And no product has received such sustained scientific scrutiny. The development of new medical knowledge demonstrating the dire harms of smoking ultimately shaped the evolution of evidence-

based medicine. In response, the tobacco industry engineered a campaign of scientific disinformation seeking to delay, disrupt, and suppress these studies. Using a massive archive of previously secret documents, historian Allan Brandt shows how the industry pioneered these campaigns, particularly using special interest lobbying and largesse to elude regulation. But even as the cultural dominance of the cigarette has waned and consumption has fallen dramatically in the U.S., Big Tobacco remains securely positioned to expand into new global markets. The implications for the future are vast: 100 million people died of smoking-related diseases in the 20th century; in the next 100 years, we expect 1 billion deaths worldwide.

Planetary Economics Sep 19 2021 How well do our assumptions about the global challenges of energy, environment and economic development fit the facts? Energy prices have varied hugely between countries and over time, yet the share of national income spent on energy has remained surprisingly constant. The foundational theories of economic growth account for only about half the growth observed in practice. Despite escalating warnings for more than two decades about the planetary risks of rising greenhouse gas emissions, most governments have seemed powerless to change course. Planetary Economics shows the surprising links between these seemingly unconnected facts. It argues that tackling the energy and environmental problems of the 21st Century requires three different domains of

decision-making to be recognised and connected. Each domain involves different theoretical foundations, draws on different areas of evidence, and implies different policies. The book shows that the transformation of energy systems involves all three domains - and each is equally important. From them flow three pillars of policy - three quite distinct kinds of actions that need to be taken, which rest on fundamentally different principles. Any pillar on its own will fail. Only by understanding all three, and fitting them together, do we have any hope of changing course. And if we do, the oft-assumed conflict between economy and the environment dissolves - with potential for benefits to both. Planetary Economics charts how.

Accounting Questions & Answers Mar 26 2022 An accounting study guide with questions, and answers is a helpful tool for anyone that is taking an an accounting class. An accounting course book covers topics extensively. With the study guide the person can take the quizzes, and check their answers. The study guide shows which answer is correct. Some study guide books will explain why the other answers is close, but not correct. Once the person takes the quiz on a specific topic. They will find out where their weakness is, and what areas they have to study. The book will help them prepare for class exams, and any professional exams they may take.

Cry the Beloved Country Sep 07 2020 *Transforming the Workforce for Children Birth*

Through Age 8 Jun 24 2019 Children are already learning at birth, and they develop and learn at a rapid pace in their early years. This provides a critical foundation for lifelong progress, and the adults who provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. *Transforming the Workforce for Children Birth Through Age 8* explores the science of child development, particularly looking at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge and competencies for care and education

professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress. Transforming the Workforce for Children Birth Through Age 8 offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development, and research to continue to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children.

The national forest Jun 28 2022 The National Forest project was established in 1995 with the aim of creating a new English forest across a 200 square mile area, embracing parts of Leicestershire, Staffordshire and Derbyshire. The National Forest's purpose is to increase woodland cover to a third of The National Forest area, whilst demonstrating sustainable, multi-purpose land use, including growing timber, providing leisure and tourism facilities and developing natural habitats. Key features of The National Forest are its linkage of previously isolated ancient woodlands and the establishment of new nature reserves, as well as the provision of a framework for farm

diversification and the regeneration of former coalfields. It is delivering tangible environmental, economic and social benefits to an area of the Midlands - much of which was suffering economic and environmental decline - through planting trees to create new woods and forests. Its achievement is not so much in trebling the proportion of land with tree cover to 18 per cent, but that, in so doing, it has helped to regenerate the local economy, open up the Forest to greater public use and improve the natural environment. The success has been built on the commitment and skills of all the partner organisations, and The National Forest Company has played a crucial leadership role to enable the project to deliver effectively the multiple benefits of forestry. There needs to be a systematic approach to disseminating the company's experiences so that lessons learned can be exploited across England.

Churchill and the Anglo-American Special Relationship Mar 14 2021 This book examines Winston Churchill's role in the creation and development of the Anglo-American special relationship. Drawing together world leading and emergent scholars, this volume offers a critical celebration of Churchill's contribution to establishing the Anglo-American special relationship. Marking the seventieth anniversary of Churchill's pronouncement in 1946 of that special relationship in his famous Iron Curtain speech, the book provides new insights into old debates by drawing upon approaches and disciplines that have hitherto

been marginalised or neglected. The book foregrounds agency, culture, values, ideas and the construction and representation of special Anglo-American relations, past and present. The volume covers two main themes. Firstly, it identifies key influences upon Churchill as he developed his political career, especially processes and patterns of Anglo-American convergence prior to and during World War Two. Second, it provides insights into how Churchill sought to promote a post-war Anglo-American special relationship, how he discursively constructed it and how he has remained central to that narrative to the present day. From this analysis emerges new understanding of the raw material from which Churchill conjured special UK-US relations and of how his conceptualisation of that special relationship has been shaped and re-shaped in the decades after 1946. This book will be of much interest to students of Anglo-American relations, Cold War Studies, foreign policy, international history and IR in general.

Assisted Reproduction Across Borders Aug 19 2021 Today, it often seems as though Assisted Reproductive Technologies (ARTs) have reached a stage of normalization, at least in some countries and among certain social groups. Apparently some practices - for example in vitro fertilization (IVF) - have become standard worldwide. The contributors to Assisted Reproduction Across Borders argue against normalization as an uncontested overall trend. This volume reflects on the state of the art of ARTs. From feminist perspectives, the contributors focus on contemporary political debates triggered by ARTs. They examine the varying ways in which ARTs are interpreted and practised in different contexts, depending on religious, moral and political approaches. Assisted Reproduction Across Borders embeds feminist analysis of ARTs across a wide variety of countries and cultural contexts, discussing controversial practices such as surrogacy from the perspective of the global South as well as the global North as well as inequalities in terms of access to IVF. This volume will appeal to scholars and students of anthropology, ethnography, philosophy, political science, history, sociology, film studies, media studies, literature, art history, area studies, and

interdisciplinary areas such as gender studies, cultural studies, and postcolonial studies.

The Spirit of Medieval English Popular Romance Oct 09 2020 The Middle English popular romances enjoyed a wide appeal in later medieval Britain, and even today students of medieval literature will encounter examples of the genre, such as Sir Orfeo, Sir Tristrem, and Sir Launfal. This collection of twelve specially commissioned essays is designed to meet the need for a stimulating guide to the genre. Each essay introduces one popular romance, setting it in its literary and historical contexts, and develops an original interpretation that reveals the possibilities that popular romances offer for modern literary criticism. A substantial introduction by the editors discusses the production and transmission of popular romances in the Middle Ages, and considers the modern reception of popular romance and the interpretative challenges offered by new theoretical approaches. Accessible to advanced students of English, this book is also of interest to those working in the field of medieval studies, comparative literature, and popular culture.

Global Economic Governance and the Development Practices of the Multilateral Development Banks Apr 14 2021 As pillars of the post-1945 international economic system the Regional and Sub-Regional Development Banks (RSDBs) have long been considered mini-World Banks, reiterating the policy approach of the largest official multilateral development

lender in the world. The main objective of the collection is to identify what role the RSDBs play in global economic governance and why. This edited collection draws together cutting edge original research on these understudied institutions. In the burgeoning sub-field of global economic governance as well as the broader study of international organisations (IOs), too often the focus remains on the World Bank and the International Monetary Fund (IMF). Second-order IOs, such as the RSDBs, receive much less attention despite their longevity and regional importance. This volume corrects this oversight by bringing together methodologically diverse research on the RSDBs that interrogates the role and impact of these organisations in global economic governance. The book investigates: the African Development Bank (AfDB); the Asian Development Bank (AsDB); the Inter-American Development Bank (IDB), and the European Bank for Reconstruction and Development (EBRD) and select sub-regional development banks in comparison to the World Bank Group. This work will be of great interest to students and scholars of IPE, IR and Development Studies.

The Coding Manual for Qualitative Researchers Jul 06 2020 The Second Edition of Johnny Saldaña's international bestseller provides an in-depth guide to the multiple approaches available for coding qualitative data. Fully up to date, it includes new chapters, more coding techniques and an additional

*Access Free oldredlist.iucnredlist.org on December 3, 2022

glossary. Clear, practical and authoritative, the book: -describes how coding initiates qualitative data analysis -demonstrates the writing of analytic memos -discusses available analytic software -suggests how best to use The Coding Manual for Qualitative Researchers for particular studies. In total, 32 coding methods are profiled that can be applied to a range of research genres from grounded theory to phenomenology to narrative inquiry. For each approach, Saldaña discusses the method's origins, a description of the method, practical applications, and a clearly illustrated example with analytic follow-up. A unique and invaluable reference for students, teachers, and practitioners of qualitative inquiry, this book is essential reading across the social sciences.

Financial and Business Management for the Doctor of Nursing Practice Oct 01 2022

"This book will guide the theory and practice of financial management by DNPs now and for years to come. It is practical, evidence-based, and up to date. I commend the editors and authors for their important contributions."

-Susan J. Penner, RN, MN, MPA, DrPH, CNL, author of Economics and Financial Management for Nurses and Nurse Leaders, Third Edition From the Foreword This award-winning resource is the only text to focus on the financial and business skills needed by students in DNP programs. The third edition, updated to reflect key changes in our healthcare system and in nursing competencies, includes three new chapters addressing Big Data, Population

Health, and Financial Management in Times of Uncertainty. It examines the impact of COVID on our healthcare system as it relates to nursing competencies, provides expansive coverage of clinical environments beyond acute care, and presents five comprehensive new case studies emphasizing the financial aspects of DNP roles and the DNP Project. Clear and well-organized, the third edition emphasizes critical skills that nurse leaders need to participate in strategic health care planning. It addresses recent changes to reimbursement and health care regulations. The third edition offers updated information on ambulatory care, cost and ratio analysis, new examples of financial statements, and a new business plan. Enhanced teaching strategies include real-life case studies, challenging critical thinking questions, learning games, key terms, and an extensive glossary. New PowerPoint slides add to the text's value as a vital teaching tool. New to the Third Edition: New chapters: Financial Implications of Population Health Management Role of Technology/Information/AI, and Big Data in Health Care Finance Financial Management in Times of Uncertainty, Shortages, and Change Covers managing outpatient microsystems and building the CNO/CFO relationship Discusses quantifying the value of academic/practice partnerships Addresses key changes to reimbursement and health care regulations Provides enhanced teaching strategies including new PowerPoint slides Key Features: Embeds economic and

financial concepts in nursing practice and nursing health care systems Provides a framework for developing critical competencies in the Essentials 10 domains Teaches students how to make business case for DNP projects, how to prepare a budget, determine staffing expenses, prepare a cost-benefit analysis, and more Includes critical thinking questions, learning games, key terms, glossary

The Sleepwalkers Nov 09 2020 The pacy, sensitive and formidably argued history of the causes of the First World War, from acclaimed historian and author Christopher Clark SUNDAY TIMES and INDEPENDENT BOOKS OF THE YEAR 2012 The moments that it took Gavrilo Princip to step forward to the stalled car and shoot dead Franz Ferdinand and his wife were perhaps the most fateful of the modern era. An act of terrorism of staggering efficiency, it fulfilled its every aim: it would liberate Bosnia from Habsburg rule and it created a powerful new Serbia, but it also brought down four great empires, killed millions of men and destroyed a civilization. What made a seemingly prosperous and complacent Europe so vulnerable to the impact of this assassination? In The Sleepwalkers Christopher Clark retells the story of the outbreak of the First World War and its causes. Above all, it shows how the failure to understand the seriousness of the chaotic, near genocidal fighting in the Balkans would drag Europe into catastrophe. Reviews: 'Formidable ... one of the most impressive and stimulating

studies of the period ever published' Max Hastings, Sunday Times 'Easily the best book ever written on the subject ... A work of rare beauty that combines meticulous research with sensitive analysis and elegant prose. The enormous weight of its quality inspires amazement and awe ... Academics should take note: Good history can still be a good story' Washington Post 'A lovingly researched work of the highest scholarship. It is hard to believe we will ever see a better narrative of what was perhaps the biggest collective blunder in the history of international relations' Niall Ferguson '[Reading The Sleepwalkers], it is as if a light had been turned on a half-darkened stage of shadowy characters cursing among themselves without reason ... [Clark] demolishes the standard view ... The brilliance of Clark's far-reaching history is that we are able to discern how the past was genuinely prologue ... In conception, steely scholarship and piercing insights, his book is a masterpiece' Harold Evans, New York Times Book Review 'Impeccably researched, provocatively argued and elegantly written ... a model of scholarship' Sunday Times Books of the Year 'Superb ... effectively consigns the old historical consensus to the bin ... It's not often that one has the privilege of reading a book that reforges our understanding of one of the seminal events of world history' Mail Online 'A monumental new volume ... Revelatory, even revolutionary ... Clark has done a masterful job explaining the inexplicable' Boston Globe 'Superb ... One of

the great mysteries of history is how Europe's great powers could have stumbled into World War I ... This is the single best book I have read on this important topic' Fareed Zakaria 'A meticulously researched, superbly organized, and handsomely written account Military History Clark is a masterly historian ... His account vividly reconstructs key decision points while deftly sketching the context driving them ... A magisterial work' Wall Street Journal About the author: Christopher Clark is Professor of Modern History at the University of Cambridge and a Fellow of St Catharine's College. He is the author of The Politics of Conversion, Kaiser Wilhelm II and Iron Kingdom. Widely praised around the world, Iron Kingdom became a major bestseller. He has been awarded the Officer's Cross of the Order of Merit of the Federal Republic of Germany.

Delphi Complete Works of Samuel

Richardson (Illustrated) Dec 23 2021

Regarded by some as the leading novelist of the Eighteenth Century, Samuel Richardson is best known for his epistolary novels, which changed the course of English literature. This comprehensive eBook presents the complete works of Samuel Richardson, with numerous illustrations, rare texts appearing in digital print for the first time, informative introductions and the usual Delphi bonus material. (Version 1) * Beautifully illustrated with images relating to Richardson's life and works * Concise introductions to the novels and

other texts * ALL 4 novels, with individual contents tables * Images of how the books were first printed, giving your eReader a taste of the original texts * Excellent formatting of the texts * The complete translation of AESOP'S FABLES, first time in digital print * Special numerical and alphabetical contents tables for the fables * Includes Richardson's non-fiction, with rare essays - spend hours exploring the author's wide range of texts * Special criticism section, with essays evaluating Richardson's contribution to literature * Features two biographies, including Thomson's seminal study - discover Richardson's literary life * Scholarly ordering of texts into chronological order and literary genres Please visit www.delphiclassics.com to browse through our range of exciting titles CONTENTS: The Novels PAMELA; OR, VIRTUE REWARDED PAMELA IN HER EXALTED CONDITION CLARISSA; OR THE HISTORY OF A YOUNG LADY THE HISTORY OF SIR CHARLES GRANDISON The Fables AESOP'S FABLES The Non-Fiction THE INFIDEL CONVICTED THE APPRENTICE'S VADE MECUM THE SEASONABLE EXAMINATION OF THE PLEAS AND PRETENSIONS LETTERS WRITTEN TO AND FOR PARTICULAR FRIENDS A TOUR THRO' THE WHOLE ISLAND OF GREAT BRITAIN COPY OF LETTER TO A LADY, WHO WAS SOLICITOUS FOR AN ADDITIONAL VOLUME TO THE HISTORY OF SIR CHARLES GRANDISON ANSWER TO A LETTER FROM A FRIEND SIX ORIGINAL LETTERS UPON

Near Abroad Oct 28 2019 "In sum, by showing how and why local regional disputes quickly develop into global crises through the paired power of historical memory and time-space compression, Near Abroad reshapes our understanding of the current conflict raging in the center of the Eurasian landmass and international politics as a whole"--

Black Consciousness in South Africa Mar 02 2020 Court transcripts of South African activist Steve Biko; includes background information.

Local Government and Urban Governance in Europe Nov 02 2022 This book discusses innovative responses and reforms developed in critical areas of urban governance in European countries. It examines the impact of European Union's policies on the urban agenda and on local governance, and the impact of the transition to democracy in Central and in Southern Europe on local self-government systems. The book is divided into three parts: i) Crisis, Reform and Innovation in Local

Government; ii) EU Policies, the Urban Agenda and Local Governance; and iii) Citizen Participation in Local Government. Providing an extensive and updated overview of key challenges in the governance of cities in Europe, the book will be of interest to students and researchers in the broader field of urban studies, and for policy-makers, especially those engaged in urban governance in European countries. /div

Bayern und die Monumenta Germaniae

Historica Aug 26 2019

An Introduction to Neural Networks Oct 21 2021 Though mathematical ideas underpin the study of neural networks, the author presents the fundamentals without the full mathematical apparatus. All aspects of the field are tackled, including artificial neurons as models of their real counterparts; the geometry of network action in pattern space; gradient descent methods, including back-propagation; associative memory and Hopfield nets; and self-organization and feature maps. The traditionally difficult topic of adaptive resonance theory is clarified within a hierarchical description of its operation. The book also includes several real-world examples to provide a concrete focus. This should enhance its appeal to those involved in the design, construction and management of networks in commercial environments and who wish to improve their understanding of network simulator packages. As a comprehensive and highly accessible introduction to one of the

most important topics in cognitive and computer science, this volume should interest a wide range of readers, both students and professionals, in cognitive science, psychology, computer science and electrical engineering. *Florilegium Neolatinum* Sep 27 2019 Der anlässlich des 90. Geburtstags von Prof. Dr. Dr. h. c. Walther Ludwig, Hamburg, erschienene Band enthält 2014-2018 von ihm verfasste Aufsätze zur neuzeitlichen lateinischen Literatur des 16.-19. Jahrhunderts in Europa, und zwar 26 revidierte und teilweise erweiterte Nachdrucke aus Buchbeiträgen und Zeitschriften und 7 Erstveröffentlichungen. Die Untersuchungen betreffen Deutschland, Österreich, Frankreich, die Niederlande, Italien, Großbritannien, Spanien, Tschechien, Polen, Ungarn und Rumänien und handeln von Bild-Text-Beziehungen, Buchgeschichte, Deklamationen, Emblemen, Epigrammatik, Epistolographie, Fabeldichtung, Historiographie, Invektiven, konfessionellen Kontroversen, Lyrik, Medaillen, Philosophie, Reiseliteratur, Satiren, Schuldramen, Schul- und Universitätsgeschichte, Stammbüchern, Wortkunst und auch von humanistischer griechischer Dichtung. Sie geben insgesamt ein Panorama der Bedeutung, Stellung und Wirkung des in den neuzeitlichen Jahrhunderten entstandenen lateinischen Schrifttums und sind deshalb für alle Disziplinen, die sich mit der Kultur der frühen Neuzeit beschäftigen, von Interesse. ***** This volume, published to mark the 90th birthday of

Prof. Dr. Dr. h.c. Walther Ludwig of Hamburg, contains essays on Neo-Latin literature of the 16th-19th centuries in Europe written by him between 2014 and 2018, as well as 26 revised and in some cases expanded articles from books and journals and 7 pieces published here for the first time. The essays cover the relationship between image and text, book history, declamations, emblems, epigrams, epistolography, fables, historio-graphy, invective, confessional controversies, lyric poetry, medals, philosophy, travel writing, satires, school dramas, school and university history, alba amicorum, rhetoric and Greek humanistic poetry. They present a panorama of the significance, position and influence of Latin works written in the centuries of the modern age.

Entrepreneurship and Business Management

Apr 26 2022 Globalization has fueled the growth of entrepreneurship. Starting a new venture involves risk taking as well as capital investment. This book delves into all the varied aspects of entrepreneurship. The impact of economic policies, finances, opportunity and capacity are some of the topics covered in this text. It will prove beneficial to students, scholars, professionals, aspiring entrepreneurs, etc.

The Market and Other Orders Jan 30 2020 In

addition to his groundbreaking contributions to pure economic theory, F. A. Hayek also closely examined the ways in which the knowledge of many individual market participants could culminate in an overall order of economic activity. His attempts to come to terms with the "knowledge problem" thread through his career and comprise the writings collected in the fifteenth volume of the University of Chicago Press's Collected Works of F. A. Hayek series. *The Market and Other Orders* brings together more than twenty works spanning almost forty years that consider this question. Consisting of speeches, essays, and lectures, including Hayek's 1974 Nobel lecture, "The Pretense of Knowledge," the works in this volume draw on a broad range of perspectives, including the philosophy of science, the physiology of the brain, legal theory, and political philosophy. Taking readers from Hayek's early development of the idea of spontaneous order in economics through his integration of this insight into political theory and other disciplines, the book culminates with Hayek's integration of his work on these topics into an overarching social theory that accounts for spontaneous order in the variety of complex systems that Hayek studied throughout his career. Edited by renowned Hayek scholar Bruce Caldwell, who also contributes a masterly introduction that provides biographical and historical context, *The Market and Other Orders* forms the definitive compilation of Hayek's work on spontaneous order.

Study Guide for CTET Paper 2 (Class 6 - 8

Teachers) Social Studies/ Social Science with

Past Questions 4th Edition Jul 30 2022 The new

edition of the book *Study Guide for CTET Paper*

2 - English 4th edition (Class 6 - 8 Social

Studies/ Social Science teachers), has been

updated with the CTET Solved Papers of July

2013 to Sep 2018. • The languages covered in

the book are English (1st language) and Hindi

(2nd language). • The book provides separate

sections for Child Development & Pedagogy,

English Language, Hindi Language and Social

Studies/ Social Science. • Each section has

been divided into chapters. For each chapter an

exhaustive theory has been provided which

covers the complete syllabus as prescribed by

the CBSE/ NCERT/ NCF 2005. • This is

followed by 2 sets of exercise. • The exercise 1

contains a set of MCQs from the PREVIOUS

YEAR Question Papers of CTET and various

STET's. • The exercise 2, "TEST YOURSELF"

provides carefully selected MCQs for practice. •

The book is a must for all the candidates

appearing in the Paper 2, Social Studies stream

of the CTET and State TETs like UPTET,

Rajasthan TET, Haryana TET, Bihar TET,

Uttarakhand TET, Punjab TET, Tamil Nadu TET

etc.

Greener Homes for the Future? May 04 2020

This report examines three overarching issues: the impact of the growth of house-building targets; what sort of homes should be built; and where these homes should be built. The Committee on Climate Change should assess the impact of the Government's new house-building targets for three million new homes by 2020 on the UK's 2020 carbon reduction target. In light of the latest economic projections, fundamental changes in the mortgage market, and falling house prices, the Government should review the assumptions on which its target is based. And the target for 2 million new homes to be built before the zero carbon target comes into effect in 2016, with a further 1 million to be built afterwards, should change to increase significantly the proportion built afterwards. Zero carbon homes must source their heat and power from renewable sources. Ideally these will come from on-site renewable power generation; where this is impractical, off-site renewables should be built or funded. The Government should ensure that an excess of land is not made available to developers, something which is already leading to greenfield sites being developed in preference to brownfield sites. The Government should urgently reintroduce a clear sequential test in favour of brownfield development into planning policy. Greater emphasis ought to be placed on energy efficiency and sustainability within the building control regime that inspects new

housing. The Government should consider introducing higher penalties for developers who fail to meet energy efficiency standards. The same environmental tests used for eco-towns should be applied to all major housing developments from 2016. The Government should re-examine eco-town proposals, to ensure they have good public transport links, and are located close to commercial centres and employment opportunities.

Study Guide for CTET Paper 2 (Class 6 - 8 Teachers) Social Studies/ Social Science with Past Questions 5th Edition Feb 10 2021
Reputation and Power Nov 29 2019 How the FDA became the world's most powerful regulatory agency The U.S. Food and Drug Administration is the most powerful regulatory agency in the world. How did the FDA become so influential? And how exactly does it wield its extraordinary power? *Reputation and Power* traces the history of FDA regulation of pharmaceuticals, revealing how the agency's organizational reputation has been the primary source of its power, yet also one of its ultimate constraints. Daniel Carpenter describes how the FDA cultivated a reputation for competence and vigilance throughout the last century, and how this organizational image has enabled the agency to regulate an industry as powerful as American pharmaceuticals while resisting efforts to curb its own authority. Carpenter explains how the FDA's reputation and power have played out among committees in Congress, and with drug companies, advocacy

groups, the media, research hospitals and universities, and governments in Europe and India. He shows how FDA regulatory power has influenced the way that business, medicine, and science are conducted in the United States and worldwide. Along the way, Carpenter offers new insights into the therapeutic revolution of the 1940s and 1950s; the 1980s AIDS crisis; the advent of oral contraceptives and cancer chemotherapy; the rise of antiregulatory conservatism; and the FDA's waning influence in drug regulation today. *Reputation and Power* demonstrates how reputation shapes the power and behavior of government agencies, and sheds new light on how that power is used and contested. Some images inside the book are unavailable due to digital copyright restrictions.

Best Practice Guidance for Healthcare Engineering May 16 2021 This publication contains guidance on the standards and principles applicable to all health technical memoranda in this series in relation to the management of engineering and technical service provision in the NHS and other healthcare facilities. It seeks to ensure that everyone concerned with the management, design, procurement and use of the healthcare facility understands the requirements of the specialist, critical building and engineering technology involved, in order to provide effective and reliable systems and a safe and caring environment for patient care. It is divided into nine chapters and topics covered include: an overview of the Health technical memoranda (HTM) series; statutory and legislative requirements; appropriate professional and technical support; operational policies; emergency preparedness; staff training; design and access availability.
Freedom's Children Dec 31 2019 This is the first comprehensive history of Jamaica's watershed 1938 labor rebellion and its aftermath. The rebellion produced two rival leaders who dominated the political life of the colony through the achievement of independence in 1962. Alexander Bustamante,

a moneylender, founded the Bustamante Industrial Trade Union and its progeny, the Jamaica Labour Party. Norman Manley, an eminent barrister, led the struggle for self-government and with others established the People's National Party. Palmer sheds new light on the nature of Bustamante's collaboration with the imperial regime, the rise of the trade-union movement, the struggle for constitutional change, and the emergence of party politics in a modernizing Jamaica.

Pregnant in the Time of Ebola Jan 24 2022 This comprehensive account of the deadliest Ebola outbreak in history examines its devastating effects on West Africa's most vulnerable populations: pregnant women and children. Noted experts across disciplines assess health care systems' responses to the epidemic in Liberia, Guinea, and Sierra Leone, emphasizing key areas such as pregnancy, prenatal services, childbirth, neonatal care, and survivor health among pregnant and non-pregnant women. The 30 chapters hone in on gender-based social issues exacerbated during the outbreak, from violence against women and girls to barriers to female education. At the same time, chapters pinpoint numerous areas for service delivery and policy improvements for more coordinated, effective, and humane

actions during future pandemics. A sampling of the topics: Ebola virus disease: perinatal transmission and epidemiology Comprehensive clinical care for children with Ebola virus disease Maternal and reproductive rights: Ebola and the law in Liberia Ebola-related complications for maternal, newborn, and child health service delivery and utilization in Guinea The Ebola epidemic halted female genital cutting in Sierra Leone—temporarily Maternity care for Ebola at Médecins Sans Frontières centers Stigmatization of pregnant women with and without Ebola Exclusion of women and infants from Ebola treatment trials Role of midwives during the Ebola epidemic Pregnant in the Time of Ebola is a powerful resource for public health specialists, anthropologists, social scientists, physicians, epidemiologists, nurses, midwives, and governmental and non-governmental agency staff studying the effects of the epidemic on women and children as a result of the most widespread Ebola outbreak to date.

The Languages of Early Medieval Charters Nov 21 2021 This is the first major study of the interplay between Latin and Germanic vernaculars in early medieval records, examining the role of language choice in the documentary cultures of the Anglo-Saxon and eastern Frankish worlds.
