Dentistry Interview Questions and Answers With Full Explanations (Includes Sections on Mmi and 2013 Nhs Changes) May 28 2022 The Dentistry interview book is the number one selling dentistry book worldwide, providing an up-to-date review of the most common questions, with full answers and pointers on what the interviewers are looking for. Described as the 'essential guide', it is a vital resource as part of your preparation. Example question: Consider the case of nine year old Rebecca who comes in to surgery with her parents. This is her first dental visit. She has been kept awake with a painful tooth. Examination shows that she has several decayed teeth and that a lower right primary molar is causing the present pain. Rebecca is crying and climbing out of the dental chair. What is the best way to handle this situation. Clinically Rebecca's case draws on various themes. Without starting your undergraduate training you will not need to know about the clinical implications in detail. However, an understanding of the themes will make you stand out. A common answer is to indicate that some dentists may consider writing a brief referral letter to the local hospital for this tooth to be extracted with a general anaesthetic. The questions that you want to be thinking about clinically are: • Can this tooth be restored or does it need extraction? • What are the implications if I extract in the future (orthodontically can it have consequences) • Does the patient need General Anaesthetic or can this be managed within practice under Local Anaesthetic. • Rebecca has other dental needs as stated and has never attended a dentists before, how would I like to manage this to cause her the least upset? All of the above would require consideration of who would be consenting for the patient. In this case at 9 years old, the patient would require a parent or legal guardian to consent for her. 'Gillick Competence' allows for a child up to the age of eighteen to make their own decision regarding their care. However, the dentist must carefully assess that all the criteria for valid consent detailed in question four are present. There is particular emphasis placed on the patient's ability to understand and retain all the information given and communicate their reasoned decision. 'Gillick Competence' will be more relevant for scenarios where the child in question is slightly older. The ethical and legal responsibility to respect children as well as those who support them is essential in establishing strong professional relationships. In this particular situation explaining the options and offering choices will help the parents to make their decisions appropriately after understanding what's on offer, which in turn will increase the likelihood of co-operation, whichever option is finally decided upon. For Example: "The dentist should tell the family about the options and explain how the pain can be controlled with analgesics and a simple dressing. He /she should explain that it may be wise to slowly introduce Rebecca to dental care so that she becomes familiar with the dental environment before starting treatment. In this way he is enforcing the act of beneficence by acting in the patient's best interests and enabling the child's parents to make an informed decision- thereby enabling autonomy" Topics covered: GENERAL POINTS TO CONSIDER TRADITIONAL INTERVIEWS AND MMIS SCIENCE QUESTIONS ETHICAL QUESTIONS ABOUT THE UNIVERSITY PERSONAL QUALITIES ABOUT YOU WORK EXPERIENCE AND EDUCATION DENTAL & INDUSTRY DENTISTRY IN THE NHS CURRENT AFFAIRS Want to be tutored by the authors for your dentistry interview? Inside, you'll find the basics of philosophy, written in plain English, and thoughts for applying these important theories to your own life. You'll also be encouraged to dig deep into the philosophical reasoning behind your everyday actions with a series of fascinating prompts, such as: If you had ten times your wealth and ten times your income, what would you do then that you can't do now? What's a version of that activity that you could do right now? Is it ten times less meaningful, important, or enjoyable than the activity you would do with more money? From Socrates and Epicurean to Kierkegaard and Nietzsche, The Philosopher's Book of Questions and Answers will not only help you grasp history's greatest thoughts, but will also unveil the world in a whole new light.

Japanese Contractors in Overseas Markets Apr 26 2022 This book explores the differences in cultural attributes and management factors to enable managers working for Japanese contractors to reduce misunderstandings and misinterpretations when communicating with project team members from different cultural backgrounds. It focuses on Japanese contractors operating in Singapore, since the Singapore construction industry has, for many years, been one of the largest overseas construction markets for the top-5 Japanese contractors. Using Hofstede's national cultural framework for the cultural studies in construction project management, it reveals various real-world management practices and discusses national cultural differences relating to managers working for Japanese contractors in Singapore as well as the communication weaknesses of current management practices and styles. The results presented provide useful lessons for Japanese contractors operating in Singapore, as well as other parts of the world, to bridge cultural and communication gaps.

Handbook of Research on Mixed Methods Research in Information Science Aug 07 2020 Mixed methods research is becoming prevalent in many fields, yet little has been done to elevate mixed methods research in information science. A comprehensive picture of information science and its problems is needed to further understand and address the issues associated with it as well as how mixed methods research can be adapted and used. The Handbook of Research on Mixed Methods Research in Information Science discusses the quality of mixed methods studies and methodological transparency, sampling in mixed methods research, and the application of theory in mixed methods research throughout various contexts. Covering topics such as the issues and potential directions for further research in mixed methods, this comprehensive major reference work is ideal for researchers, policymakers, academicians, librarians, practitioners, instructors, and students.
