[The Palgrave Handbook of Auto/Biography](#) Aug 20 2021 In a neo-liberal era concerned with discourses of responsible individualism and the 'selfie', there is an increased interest in personal lives and experiences. In contemporary life, the personal is understood to be political and these ideas cut across both the social sciences and humanities. This handbook is specifically concerned with auto/biography, which sits within the field of narrative, complementing biographical and life history research. Some of the contributors emphasise the place of narrative in the construction of auto/biography, whilst others disrupt the perceived boundaries between the individual and the social, the self and the other. The collection has nine sections: creativity and collaboration; families and relationships; epistolary lives; geography; madness; prison lives; professional lives; 'race'; and social justice and disability. They illustrate the inter- and multi-disciplinary nature of auto/biography as a field. Each section features an introduction from a section editor, many of whom are established researchers and/or members of the British Sociological Association (BSA) Auto/Biography study group. The handbook provides the reader with cutting-edge research from authors at different stages in their careers, and will appeal to those with an interest in auto/biography, auto-ethnography, epistolary traditions, lived experiences, narrative analysis, the arts, education, politics, philosophy, history, personal life, reflexivity, research in practice and the sociology of the everyday. **Auto Opium Apr 27 2022** The automobile continues to be the privileged product of the culture of mass consumption, yet there has been little scholarly attention to what concerns consumers most - the appearance of cars. Auto Opium is the first comprehensive history of the profession and aesthetics of American automobile design. The author reveals how the appearance of vehicles became an integral part of the system of mass production and mass consumption forged in the struggles of American society. The book traces the development of automobile design, from the first utilitarian cars around the turn of the century to the most modern of symbol-laden cultural icons. The author shows that the aesthetic qualities of vehicles were shaped by the social conflicts generated by the process of mass production. These conflicts became channeled into the realm of mass consumption, where working Americans demanded beautiful, stylish, and constantly improving cars to compensate them for the deprivations of mass production. Creating a unique blend of business, social, and cultural history, Auto Opium connects the social struggles of America to the organizational struggles of designers and the marketplace struggles of firms.

While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

Between Two Worlds: The autos sacramentales of Sor Juana Inés de la Cruz Jul 19 2021 The seventeenth-century Mexican poet, playwright and nun, Sor Juana Inés de la Cruz, is best known for her secular works, most notably her damning indictment of male double standards, *Hombres necios* (Stupid Men). However, her *autos sacramentales* (allegorical one-act plays on the Eucharist) have received little attention, and have only been discussed individually and out of sequence. By examining them as a collection, in their original order, their meaning and importance are revealed. ¶ The *autos* combine Christian and classical 'pagan' imagery from the 'Old World' with the conquest and conversion of the 'New World'. As the plays progress, the mystery of Christ's 'greatest gift' to mankind is deciphered and is mirrored in Spain's gift of the True Faith to the indigenous Mexicans. Sor Juana's own image is also situated within this baroque landscape: presented as a triumph of Spanish imperialism, an exotic muse between two worlds.

Auto Roto Font Nov 10 2020 Collected Writing: 1993-2003 brings together many of Frances Stark's texts for the first time, including essays on artists and artist's [sic] text pieces. Stark's writing is not specifically sited in visual art, but is rooted in the condition of contemporary life encountering along the way the literary tradition, music and philosophy. These provide the backbone to much of her thinking, as do the problems faced by being both an artist and writer today. These themes are presented through a pseudo-autobiographical style which frequently presents itself as poetic musings, that create meandering, off-centred texts that are often humorous and at the same time highly readable. This book also includes facsimiles of &'The Unspeakable Compromise of the Portable Work of Art' as well as specially designed pages by Stark, making this anthology a fascinating insight into the artist's practice. The book includes a forward [sic] by Matthew Higgs.

*Auto da Fay* Jun 17 2021 A New York Times Notable Book: The "wise and haunting" memoir from one of England's most witty and beloved writers is "from first to last a wonder" (Jonathan Yardley, *The Washington Post*). From life as a poor unwed mother in London to becoming one of England's bestselling authors, Fay Weldon has crammed more than most into her years. Wife, lover, playwright, novelist, feminist, antifeminist, winer and diner—Fay leads us through her peripatetic life with barely a role she can't illuminate. Born Franklin Birkinshaw in 1931, Fay spent most of her youth in New Zealand. With her glamorous father, a philandering doctor, generally absent, Fay's intrepid mother and bohemian grandmother raised her along with her sister, Jane. Brought up among women, Fay found men a mystery until the swinging sixties in London where she became a central figure in the literary scene. She scraped along penning winning advertising slogans before she began to write fiction. As this memoir comes to a close, we witness the stirring of her first novel. Riddled with Weldon's fierce opinions, as well as her "stinging wit, jaunty prose, memorable bon mots," this frank and absorbing memoir is vintage Fay. An icon to many, a thorn in the flesh to others, she has never failed to excite, madden, or interest. And now she has finally turned her authorial wit and keen eye on . . . herself (*Publishers Weekly*, starred review).
