Traditions Redirecting Contemporary Indonesian Cultural Productions Jan 11 2021 This volume is the result of a conference held in October 2015 in connection with the Frankfurt Book Fair discussing developments that are considered important in contemporary Indonesian cultural productions. The first part of the book reflects on the traumatic experiences of the Indonesian nation caused by a failed coup on October 1, 1965. In more general theoretical terms, this topic connects to the field of memory studies, which, in recent decades, has made an academic comeback. The focus of the chapters in this section is how certain, often distressing, events are represented in narratives in a variety of media that are periodically renewed, changed, rehearsed, repeated, and performed, in order to become or stay part of the collective memory of a certain group of people. The second part of the book explores how forces of globalisation have impacted upon the local and, linguistically surprisingly, rather homogeneous cultural productions of Indonesia. The main strands of inquiry in this second section are topics of global trends in religion, responses to urban development, the impact of popular literary developments, and how traditions are revisited in order to come to terms with international cultural developments.

Instead, they blame her excruciatingly average ex-boyfriend—and Tobias's nephew—and so she takes matters into her own hands. Now all she has to do to uncover the truth is to get over her aversion to Other People. Besides that, it's just a matter of getting beyond some yellow tape, dodging her former BFF Tallulah from secondary school, and getting into Branwell's pants—he seems strangely reluctant. What Arya doesn't realize is that the murderer is dangerous, preying on lonely people who've experienced trauma, and that she might have to do all she can not to become the next victim.

Introduction to Bilingualism Jun 15 2021 An Introduction to Bilingualism provides a comprehensive review of the most important aspects of individual and societal bilingualism, examining both theoretical and practical issues. At the level of the individual, it addresses such questions as: What is involved in the study of bilingual children? What are the patterns of bilingual language acquisition? In which ways do the language competence and the speech of bilinguals differ from those of monolinguals? Topics that sometimes arouse controversy are explored - such as the question of whether there is a relationship between bilingualism and a child's cognitive, psychological and social development. The book is also concerned with multilingualism, that is, bilingualism as a societal phenomenon. It focuses on such issues as language choice in bilingual and multilingual communities, national identity and the education of bilinguals. The inclusion of several case studies of European linguistic minorities serves to exemplify the topics dealt with at the theoretical level and to illustrate the linguistic complexities found in contemporary Europe.

But Katya, one of the few women in the medical examiner's office, is determined to make her work mean something. When the body of a brutally beaten woman is found on the beach in Jeddah, the city's detectives are ready to dismiss the case as another unsolvable murder-chillingly common in a city where the veils of conservative Islam keep women as anonymous in life as this victim is in death. If this is another housemaid killed by her employer, finding the culprit will be all but impossible. Only Katya is convinced that the victim can be identified and her killer found. She calls upon her friend Nayir for help, and soon discovers that the dead girl was a young filmmaker named Leila, whose controversial documentaries earned her many enemies. With only the woman's clandestine footage as a guide, Katya and Nayir must confront the dark side of Jeddah that Leila struggled to expose: an underworld of prostitution, violence, exploitation, and jealously guarded secrets.
