**The Poor Kid With Rich Dreams** Sep 26 2022 Duku talks too much. He was only 10 years old when his family emigrated from a Ugandan refugee camp to Australia. As a refugee, life in Australia had already been proving to be difficult. But Duku had a lot of dreams, and nothing - not being a victim of bullying, nor his speech impediment and being expelled from his school - could stop him from going after everything he has ever dreamed off. Even though life in Australia was hard, Duku always had his loving family by his side. Together, they overcame the different culture shocks by learning the new language, getting used to the new foods and making a life for themselves. Their parent's sacrifice and work

ethics were the inspiration Duku and his 6 siblings needed to help ignite their dreams. Duku's two best friends Adam and Boni were always around when there was something to laugh about or a dream to chase. But after managing to graduate high school and getting into university, Duku made a spontaneous decision to travel to the other side of the world to eat a sandwich! The video on YouTube about the sandwich was so inspiring that Duku didn't know it would lead him to getting lost in Hong Kong, becoming an illegal migrant in Thailand and speaking at the UN Headquarters in New York just for him to achieve his dream! An inspiring figure, Duku's story will move and amuse you as he discovers his rich dreams. **Hidden Agenda** Oct 15 2021 Space expert

Bara delves into the secret space program, examining the possibility that there are secret bases on the Moon, and exploring the many other rumors surrounding the military's secret projects in space. Starting with the mysterious airship flap of 1897, tracing its possible origin to a 19th century Prussian secret society, Bara posits that man has had anti-gravity technology for quite a long time. What else doesn't the public know? Bara brings to light a lot of evidence showing that there is plenty. • On June 8, 1959, a group at the Army Ballistic Missile Agency produced for the U.S. Army a report entitled Project Horizon, a "Study for the Establishment of a Lunar Military Outpost." The permanent outpost was predicted to cost \$6 billion and was to become operational in

December 1966 with twelve soldiers stationed at the Moon base. Did this happen? • The Brookings Report drawn up at the inception of NASA said we could expect to find alien artifacts in our exploration of space. Did NASA and the Pentagon find evidence of alien bases on the Moon? Did the Apollo 12 astronauts deliberately damage the mission's TV cameras in order to hide their explorations of one of these bases? • Does hacker Gary Mackinnon's discovery of defense department documents identifying "non-terrestrial officers" serving in space mean that the U.S. has clandestine space platforms designed to fight a war with an alien race? And, have civilian observers here on Earth photographed these secret military space platforms? Bara explores the evidence surrounding these questions and more in this explosive book. He maintains that aside from the actual secret space program, even the public space program—NASA—has at its core a secret agenda. Bara also examines the many allegations that the government has long been clandestinely working with aliens in various covert programs.

**India and Counterinsurgency** Jun 18 2019

This edited volume focuses on India's

experiences waging counterinsurgency campaigns since its independence in 1947. Filling a clear gap in the literature, the book traces and assesses the origins, evolution and current state of India's counterinsurgency strategies and capabilities, focusing on key counterinsurgency campaigns waged by India within and outside its territory. It also analyzes the development of Indian doctrine on counterinsurgency, and locates this within the overall ebb and flow of India's defense and security policies. The central argument is that counterinsurgency has been an integral part of India's overall security policy and can thereby impart much to political and military leaders in other states. Since its emergence from British colonialism, India's defence policies have not merely sought to protect and preserve India's inherited colonial borders from threats by rival states, but have also sought to prevent and suppress secessionist movements. In countering insurgencies, the Indian state has fashioned strategies that seek to repress militarily any secessionist movement, while simultaneously forging a range of civilian administrative and institutional arrangements that attempt to address the grievances of disaffected populations. The book highlights key strategic and tactical innovations that the Indian Army and security forces made to deal with a range of insurgent movements. Simultaneously, it also examines how the civilian-military nexus enabled India's policy makers to utilize existing, and formulate novel,

institutional means to address extant political grievances. India has been most successful where it has managed to use calibrated force, obtained the trust of much of the aggrieved population and made persuasive commitments to political and institutional reform. Examination of these elements of India's counterinsurgency performance can be compared to counterinsurgency doctrine developed by other countries, including the United States, and thus yield comparative policy prescriptions and recommendations that can be applied to other counterinsurgency contexts. This book will be of great interest to students of counterinsurgency and irregular warfare, Indian politics, Asian Security Studies and Strategic Studies in general.

**My Brother's Keeper** Jan 26 2020 Ten years ago there were no faith-based units in prisons outside South America. Today, they are spreading all over the world, including the United States, Europe and the Commonwealth. My Brother's Keeper is the first major study of a global phenomenon. Exploring the roots of

faith-based units in South America, it explains why the Prison Service of England and Wales set up the first Christian-based unit in the western world in 1997 - and its rapid expansion. It also explains how, at exactly the same time, the United States introduced Christian-based units - and why they were complimented by interfaith and multifaith initiatives. At the heart of *My Brother's Keeper* is an interior account of life inside four Christian-based prison units in England. It draws on the findings of a detailed evaluation conducted by the authors for the Home Office, Prison Service and Kainos Community between 2000 and 2001, including an updated reconviction study. It is an authoritative account of an innovative programme. Its analysis of what works and what doesn't in faith-based units around the world makes *My Brother's Keeper* a valuable roadmap for all who care about improving prison conditions. It presents a vision of justice that is not just concerned with building more prisons but with rebuilding more prisoners. It argues that by making prisons more human and punishment more humane, faith-based units can be of value - and keep faith in prisons.

### **A Most Stirring and Significant Episode**

Feb 07 2021 When Atlanta enacted prohibition in 1885, it was the largest city in the United States to do so. A Most Stirring and Significant Episode examines the rise of temperance sentiment among freed African Americans that made this vote possible--as well as the forces that resulted in its 1887 reversal well before the 18th Amendment to the Constitution created a national prohibition in 1919. H. Paul Thompson Jr.'s research also sheds light on the profoundly religious nature of African American involvement in the temperance movement. Contrary to the prevalent depiction of that movement as being one predominantly led by white, female activists like Carrie Nation, Thompson reveals here that African Americans were central to the rise of prohibition in the south during the 1880s. As such, A Most Stirring and Significant Episode offers a new take on the proliferation of prohibition and will not only speak to scholars of prohibition in the US and beyond, but also to historians of religion and the African American experience.
