**Spring and All** Aug 02 2020 Heavily influenced by T. S. Eliot's "The Waste Land," the poems of Spring and All express the author's beliefs about the role and form of art in a modern context. William Carlos Williams offers an intensely stylized set of exercises in reduction that capture, in his words, "the immediacy of experiences." Sections of vivid, sensuous prose — described by the poet as "a mixture of philosophy and nonsense"—alternate with straightforward free verse that explores the creative uses of imagination and the power of language. "Spring and All," the title work of this 1923 collection, represents Williams's first major achievement as a poet, and was praised by The New York Times as one of the greatest poems of the twentieth century. This groundbreaking compilation also features some of the poet's best-known verse, including the modernist masterpieces: "The Red Wheelbarrow" and "To Elsie."

**How to Read Literature Like a Professor Revised** Sep 22 2019 A thoroughly revised and updated edition of Thomas C. Foster's classic guide—a lively and entertaining introduction to literature and literary basics, including symbols, themes, and contexts—that shows you how to make your everyday reading experience more rewarding and enjoyable. While many books can be enjoyed for their basic stories, there are often deeper literary meanings interwoven in these texts. How to Read Literature Like a Professor helps us to discover those hidden truths by looking at literature with the eyes—and the literary codes—of the ultimate professional reader: the college professor. What does it mean when a literary hero travels along a dusty road? When he hands a drink to his companion? When he's drenched in a sudden rain shower? Ranging from major themes to literary models, narrative devices, and form, Thomas C. Foster provides us with a broad overview of literature—a world where a road leads to a quest, a shared meal may signify a communion, and rain, whether cleansing or destructive, is never just a shower—and shows us how to make our reading experience more enriching, satisfying, and fun. This revised edition includes new chapters, a new preface, and a new epilogue, and incorporates updated teaching points that Foster has developed over the past decade.

**Communication Criticism** Jul 21 2019 This introduction to criticism teaches students critical skills, whether examining television, fiction, nonfiction, visual arts, or oral and written discourse. Three introductory chapters provide a foundation to explore nine approaches to critical study. The perspectives presented bridge disciplinary boundaries and include: asking questions about how audiences process communication, understanding human symbol systems and social relations as vehicles for comprehending the world, value and narrative analysis, and psychoanalytic and ideological criticism. The discussions of using each approach contain questions critics are most likely to ask, assumptions governing the approach, an exploration of sample analyses that reveal vocabulary most frequently used, and a review of the problems encountered by critics.

**Film and the Nuclear Age** Apr 10 2021 First published in 1998. Routledge is an imprint of Taylor & Francis, an informa company. Just as we generally pay scant attention to the potential dangers of nuclear power and nuclear war, until quite recently, scholars have made limited critical attempts to understand the cultural manifestations of the nuclear status quo. Films that feature nuclear issues most often simplify and trivialize the subject. They also convey a sense of the ambivalence and anxiety that pervades cultural responses to our nuclear capability. The production of popular narrative films with nuclear topics largely conforms to periods of heightened nuclear awareness or fear, such as the fear of fallout from nuclear testing manifested in the atomic creatures in science fiction movies of the late 1950s. By their very numbers, and through a set of recurring stylistic and narrative conventions, nuclear films reflect a deep-seated cultural anxiety. This study includes detailed textual analysis of films that depict nuclear issues including the development and use of the first atomic bombs, nuclear testing and the fear of fallout, nuclear power, the Cold War arms race, "loose nukes", and future nuclear war and its aftermath.(Includes bibliographic references, index, filmography, chronology; Illustrated)

*The Lake* Jan 27 2020 The latest from Governor General's Literary Award winner Perrine Leblanc is a mesmerizing story about the disappearance of three young women and a deeply disturbing portrait of a small town gone bad. In between the mountains and the sea, on the north shore of the Baie des Chaleurs, there's a village called Malabourg. The village is surrounded by all the usual features of the region: a river with wild salmon, a stretch of the national highway, and a coniferous forest. But Malabourg has one unusual feature: in the heart of the forest there's a lake the kids call "the tomb." It's the place where three young women have disappeared, one by one. As rumours and allegations spread through the village, Alexis and Mina struggle to make sense of the tragedies before deciding the only way to forget is to leave. Alexis relocates to France to learn how to compose perfume and Mina moves hundreds of kilometres away from the sea. But, in spite of the distance, Alexis and Mina can't forget Malabourg, or each other. Unfolding along the beautiful, rugged landscape of the Gulf of St. Lawrence, The Lake is the gripping story of the disappearance of three young women, the unsettling aftermath, and the search for life beyond the limits of a small town.

**Miraculous Abundance** May 11 2021 The Bec Hellouin model for growing food, sequestering carbon, creating jobs, and increasing biodiversity without using fossil fuels When Charles and Perrine Hervé-Gruyer set out to create their farm in an historic Normandy village, they had no idea just how much their lives would change. Neither one had ever farmed before. Charles had been circumnavigating the globe by sail, operating a floating school that taught students about ecology and indigenous cultures. Perrine had been an international lawyer in Japan. Each had returned to France to start a new life. Eventually, Perrine joined Charles in Normandy, and Le Ferme du Bec Hellouin was born. Bec Hellouin has since become a celebrated model of innovative, ecological agriculture in Europe, connected to national and international organizations addressing food security, heralded by celebrity chefs as well as the Slow Food movement, and featured in the inspiring César and COLCOA award-winning documentary film, Demain ("Tomorrow"). Miraculous Abundance is the eloquent tale of the couple's evolution from creating a farm to sustain their family to delving into an experiment in how to grow the most food possible, in the most ecological way possible, and create a farm model that can carry us into a post-carbon future—when oil is no longer moving goods and services, energy is scarcer, and localization is a must. Today, the farm produces a variety of vegetables using a mix of permaculture, bio-intensive, four-season, and natural farming techniques—as well as techniques gleaned from native cultures around the world. It has some animals for eggs and milk, horses for farming, a welcome center, a farm store, a permaculture school, a bread oven for artisan breads, greenhouses, a cidery, and a forge. It has also become the site of research focusing on how small organic farms like theirs might confront Europe's (and the world's) projected food crisis. But in this honest and engaging account of the trials and joys of their uncompromising effort, readers meet two people who are farming the future as much as they are farming their land. They envision farms like theirs someday being the hub for a host of other businesses that can drive rural communities—from bread makers and grain millers to animal care givers and other tradespeople. Market farmers and home gardeners alike will find much in these pages, but so will those who've never picked up a hoe. The couple's account of their quest to design an almost Edenlike farm, hone their practices, and find new ways to feed the world is an inspiring tale. It is also a love letter to a future in which people increasingly live in rural communities that rely on traditional skills, locally created and purveyed goods and services, renewable energy, and greater local governance, but are also connected to the larger world.

**The Political Poetess** Mar 09 2021 The Political Poetess challenges familiar accounts of the figure of the nineteenth-century Poetess, offering new readings of Poetess performance and criticism. In performing the Poetry of Woman, the mythic Poetess has long staked her claims as a creature of "separate spheres"—one exempt from emerging readings of nineteenth-century women's political poetics. Turning such assumptions on their heads, Tricia Lootens models a nineteenth-century domestic or private sphere whose imaginary, apolitical heart is also the heart of nation and empire, and, as revisionist histories increasingly attest, is traumatized and haunted by histories of slavery. Setting aside late Victorian attempts to forget the unfulfilled, sentimental promises of early antislavery victories, The Political Poetess restores Poetess performances like Julia Ward Howe's "Battle Hymn of the Republic" and Emma Lazarus's "The New Colossus" to view—and with them, the vitality of the Black Poetess within African-American public life. Crossing boundaries of nation, period, and discipline to "connect the dots" of Poetess performance, Lootens demonstrates how new histories and ways of reading position poetic texts by Felicia Dorothea Hemans, Elizabeth Barrett Browning, Dinah Mulock Craik, George Eliot, and Frances E. W. Harper as convergence points for larger engagements ranging from Germaine de Staël to G.W.F. Hegel, Virginia Woolf, Elizabeth Bishop, Alice Walker, and beyond.

*Selected Poems And Four Plays* Jun 19 2019 Since its first appearance in 1962, M. L. Rosenthal's classic selection of Yeats's poems and plays has attracted hundreds of thousands of readers. This newly revised edition includes 211 poems and 4 plays. It adds The Words Upon the Window-Pane, one of Yeats's most startling dramatic works in its realistic use of a seance as the setting for an eerily powerful reenactment of Jonathan Swift's rigorous idealism, baffling love relationships, and tragic madness. The collection profits from recent scholarship that has helped to establish Yeats's most reliable texts, in the order set by the poet himself. And his powerful lyrical sequences are amply represented, culminating in the selection from Last Poems and Two Plays, which reaches its climax in the brilliant poetic plays The Death of Cuchulain and Purgatory. Scholars, students, and all who delight in Yeats's varied music and sheer quality will rejoice in this expanded edition. As the introduction observes, "Early and late he has the simple, indispensable gift of enchanting the ear....He was also the poet who, while very much of his own day in Ireland, spoke best to the people of all countries. And though he plunged deep into arcane studies, his themes are most clearly the general ones of life and death, love and hate, man's condition, and history's meanings. He began as a sometimes effete post-Romantic, heir to the pre-Raphaelites, and then, quite naturally, became a leading British Symbolist; but he grew at last into the boldest, most vigorous voice of this century." Selected Poems and Four Plays represents the essential achievement of the greatest twentieth-century poet to write in English.
