Ethical Hacking and Countermeasures: Web Applications and Data Servers Jan 19 2022 The EC-Council | Press Ethical Hacking and Countermeasures Series is comprised of five books covering a broad base of topics in offensive network security, ethical hacking, and network defense and countermeasures. The content of this series is designed to immerse the reader into an interactive environment where they will be shown how to scan, test, hack and secure information systems. With the full series of books, the reader will gain in-depth knowledge and practical experience with essential security systems, and become prepared to succeed on the Certified Ethical Hacker, or C|EH, certification from EC-Council. This certification covers a plethora of offensive security topics ranging from how perimeter defenses work, to scanning and attacking simulated networks. A wide variety of tools, viruses, and malware is presented in this and the other four books, providing a complete understanding of the tactics and tools used by hackers. By gaining a thorough understanding of how hackers operate, an Ethical Hacker will be able to set up strong countermeasures and defensive systems to protect an organization's critical infrastructure and information. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The 9th Symbol Dec 06 2020 Rose is a princess, a Cinder, and half-human. She is the last one born of her kind, and on her twenty-first birthday, she must enter the woods and travel to find her Prince, as her sisters did before her. ". . . And we will all dance at the Grand Ball," her sisters would always say. But the Human servants are keeping a secret that could prevent the Cinders from reaching their Happily Ever After....Hidden in Rose's dreams and vision are the answers of the past between Cinders and Humans, and she is quickly running out of time trying to solve their hidden messages. She knows the answer lies in her first clue--identifying an animal she has never seen before--that persistent vision of a furry white animal, holding a gold metal object and exclaiming, "Oh dear! Oh dear! I shall be too late!"

Science Focus 3 Aug 22 2019 The Science Focus Second Edition is the complete science package for the teaching of the New South Wales Stage 4 and 5 Science Syllabus. The Science Focus Second Edition package retains the identified strengths of the highly successful First Edition and includes a number of new and exciting features, improvements and components.

Tiny Crimes Oct 04 2020 Forty very short stories that reimagine the genre of crime writing from some of today's most imaginative and thrilling writers "An intriguing take on crime/noir writing, this collection of 40 very short stories by leading and emerging literary voices—Amelia Gray, Brian Evenson, Elizabeth Hand, Carmen Maria Machado, Benjamin Percy, Laura van den Berg and more—investigates crimes both real and imagined. Despite their diminutive size, these tales promise to pack a punch." —Chicago Tribune, 1 of 25 Hot Books for Summer Tiny Crimes gathers leading and emerging literary voices to tell tales of villainy and intrigue in only a few hundred words. From the most hard–boiled of noirs to the coziest of mysteries, with diminutive double crosses, miniature murders, and crimes both real and imagined, Tiny Crimes rounds up all the usual suspects, and some unusual suspects, too. With illustrations by Wesley Allsbrook and flash fiction by Carmen Maria Machado, Benjamin Percy, Amelia Gray, Adam Sternbergh, Yuri Herrera, Julia Elliott, Elizabeth Hand, Brian Evenson, Charles Yu, Laura van den Berg, and more, Tiny Crimes scours the underbelly of modern life to expose the criminal, the illegal, and the depraved.

Axiomatic Design in Large Systems May 31 2020 This book provides a synthesis of recent developments in Axiomatic Design theory and its application in large complex systems. Introductory chapters provide concise tutorial materials for graduate students and new practitioners, presenting the fundamentals of Axiomatic Design and relating its key concepts to those of model-based systems engineering. A mathematical exposition of design axioms is also provided. The main body of the book, which represents a concentrated treatment of several applications, is divided into three parts covering work on: complex products; buildings; and manufacturing systems. The book shows how design work in these areas can benefit from the scientific and systematic underpinning provided by Axiomatic Design, and in so doing effectively combines the state of the art in design research with practice. All contributions were written by an international group of leading proponents of Axiomatic Design. The book concludes with a call to action motivating further research into the engineering design of large complex systems.

The Silent War Jun 12 2021 As the head of Swedish Intelligence in Brussels Bente Jensen has many enemies, even among those who ought to be her allies, like Jonathan Green of MI6. In a city heaving with competing espionage agencies he is the person she fears and distrusts most. She has good reason. They share a past. Green has been part of an MI6 conspiracy to hold, interrogate, torture and kill its political prisoners in a safe house in Syria. This explosive information has been leaked to Bente by a conscience-stricken British operative. When it is clear she can expose this operation MI6 uses its full arsenal of dirty tricks to shame her, disgrace her, destroy her relationships and remove her from active service. But Green's private life has more in common with Bente's than he acknowledges. He is far from fireproof himself. Both spies will find themselves targets of the UK establishment's precisely calculated revenge. Like its highly acclaimed predecessor Into A Raging Blaze Andreas Norman's new novel is a morally and politically complex international thriller. Its nail-biting plot and sympathetic characters show the tragic human consequences of private and public treachery.

Algorithmic Aspects in Information and Management Sep 27 2022 This volume constitutes the proceedings of the 14th International Conference on Algorithmic Aspects in Information and Management, AAIM 2020, held in Jinhua, China in August 2020. The 39 full papers and 17 short papers presented were carefully reviewed and selected from 76 submissions. The papers deal with emerging important algorithmic problems with a focus on the fundamental background, theoretical technology development, and real-world applications associated with information and management analysis,

modeling and data mining. Special considerations are given to algorithmic research that was motivated by real-world applications.

Handbook of Pharmaceutical Granulation Technology Feb 20 2022 This fully revised edition of Handbook of Pharmaceutical Granulation Technology covers the rapid advances in the science of agglomeration, process control, process modelling, scale-up, emerging particle engineering technologies, along with current regulatory changes presented by some of the prominent scientist and subject matter experts around the globe. Learn from more than 50 global subject matter experts who share their years of experience in areas ranging from drug delivery and pharmaceutical technology to advances in nanotechnology. Every pharmaceutical scientist should own a copy of this fourth edition resource. Key Features: Theoretical discussions covering granulation and engineering perspectives. Covers new advances in expert systems, process modelling and bioavailability Chapters on emerging technologies in particle engineering Updated Current research and developments in granulation technologies

LTE for UMTS Aug 14 2021 From the editors of the highly successful WCDMA for UMTS, this new book gives a complete and up-to-date overview of Long Term Evolution (LTE) in a systematic and clear manner. It starts with an in-depth explanation of the background and standardization process before moving on to examine the system architecture evolution (SAE). The basics of air interface modulation choices are introduced and key subjects such as 3GPP LTE physical layer and protocol solutions are described. Mobility aspects and radio resource management together with radio and end-to-end performance are assessed. The voice solution and voice capacity in LTE are also illustrated. Finally, the main differences between LTE TDD and FDD modes are examined and HSPA evolution in 3GPP Releases 7 and 8 is described. LTE for UMTS is one of the first books to provide a comprehensive guide to the standards and technologies of LTE. Key features of the book include: Covers all the key aspects of LTE in a systematic manner Presents full description of 3GPP Release 8 LTE Examines the expected performance of LTE Written by experts actively involved in the 3GPP standards and product development.

Persuasive Technology Jul 01 2020 This book constitutes the refereed post-conference proceedings of the 16th International Conference on Persuasive Technology, PERSUASIVE 2021, held as a virtual event, in April 2021. The 17 full papers presented in this book together with 8 short papers were carefully reviewed and selected from 67 submissions. The papers are grouped in topical sections as follows: persuasive affective

technology; digital marketing, ecommerce, etourism and smart ecosystems; and persuasion and education.

Essential Components of Cognitive-behavior Therapy for Depression Sep 15 2021 Though grounded in traditional cognitive behavior therapy, this book refines the practical aspects of its application. The method described is flexible enough to be used for disorders other than depression.

Final Cut Pro X Dec 18 2021 With this new release of Final Cut Pro, Apple has completely re-engineered its popular film and video editing software to include an incredible lineup of features intended to close the gap between the prosumers and the pros. Following right in step, this Visual QuickStart Guide has been completely revised to address all the new features as well as the new paradigm of editing that Apple has put forward. An undisputed master of the digital video medium, Lisa Brenneis once again demystifies the complexities of the program and she is joined this time by the Final Cut Pro guru Michael Wohl to provide a clear, straightforward guide to Final Cut Pro X. Tasked-based, step-by-step instructions and loads of visuals and time-saving tips make it so professionals and newcomers alike can quickly find and learn tasks specific to their needs, benefiting from the award-winning Visual QuickStart style. Topics covered include essential editing tasks and media-management strategies, transitions, effects and filters, rendering options, and much more. It includes coverage of all the new features such as the new dynamic interface, Magnetic Timeline, Clip Connections, Auditions, Content Auto-Analysis, Range-Based Keywords, and much more. Now in four-color, this must-have reference also includes several free downloadable videos from the publisher's site.

Designing Interactive Systems Jun 24 2022 The authors in this work focus on and explore human computer interaction (HCI) by bringing together the best practice and experience from HCI and interaction design.

How You Can Be in the Perfect Will of God Jul 21 2019 ..". that ye may prove what is that good, and acceptable, and perfect will of God." - Romans 12:2. ... There simply is no topic more important than being in the perfect will of God. The single thing that will distinguish ministers of the gospel is their ability to hear the voice of God accurately. How vital it is to follow the holy Spirit into the perfect will of God! That is where you will flourish and achieve all that you desire for Him. This outstanding work by Dag Heward-Mills cannot fail to have a great impact on your personal life and public ministry. How You Can Be in the Perfect Will of God is another best seller from a man of God, who excels for Christ. Dag Heward-Mills is the founder of Lighthouse Chapel International, which has become a worldwide denomination. He is the author of several best-selling books and his radio, TV and internet programmes reach millions around the world. Other outreaches include conferences for pastors and ministers, and the renowned Anagkazo Bible Ministry & Training Centre. ..". He has been a true inspiration to all of us in the Church Growth International ministry, and he is one of our honoured Board Members. His wisdom, insight and experience can inspire you." - Dr David Yonggi Cho, Senior Pastor, Yoido Full Gospel Church, Seoul, South Korea

Design Pedagogy Aug 02 2020 Design Pedagogy explains why it is vital for design students that their education helps them construct a 'passport' to enter the professional sphere. Recent research into design teaching has focused on its signature pedagogies, those elements which are particularly characteristic of the disciplines. Typically based on core design theory, enlivened by approaches imported to the area, such work has utility when it recognizes the visual language of designing, the media of representation used, and the practical realities of tackling design questions. Increasingly the 21st century sees these activities in a global context where the international language of the visual artefact is recognized. This book draws on recent work in these areas. It includes a number of chapters which are developed from work undertaken during the period of special funding for centres of teaching excellence in the UK up until 2010. Two of those in design have provided the basis for research and innovative developments reported on here. They have helped to enliven the environment for design pedagogy research in other establishments which are also included. Design students need support for the agile navigation through the design process. Learning experiences should develop students' natural motivations and

professionalise motivation to create a resilient, informed and sustainable capacity. This is the essence of 'transformative learning'. This collection explores how design education is, in itself, a passport to practice and showcases how some of the key developments in education use techniques related to collaboration, case studies and experience to motivate students, enable them to express their identity, reflect and learn.

IBM i 7.2 Technical Overview with Technology Refresh Updates Oct 28 2022 This IBM® Redbooks® publication provides a technical overview of the features, functions, and enhancements that are available in IBM i 7.2, including all the available Technology Refresh (TR) levels, from TR1 to TR3. This publication provides a summary and brief explanation of the many capabilities and functions in the operating system. It also describes many of the licensed programs and application development tools that are associated with IBM i. The information that is provided in this book is useful for clients, IBM Business Partners, and IBM service professionals that are involved with planning, supporting, upgrading, and implementing IBM i 7.2 solutions.

Making the Invisible Visible Nov 17 2021 This publication, "Making the Invisible Visible: A History of the Spitzer Infrared Telescope Facility (1971-2003)," makes visible the invisible forces that influenced the design of Space Infrared Telescope Facility (SIRTF's) innovative technology. The lessons learned by the project team over the course of building SIRTF, now better known as the Spitzer Space Telescope, are about managing innovation over time and in the face of uncertainty. These are universal lessons, applicable to any project whose stakeholders control the necessary resources. SIRTF's stakeholders focused on a variety of issues: technical, scientific, political, and economic, as well as organizational needs and goals. What made SIRTF's evolution particularly difficult was that the stakeholders changed over time-in their composition, goals, and influence.

First 101 Words Apr 10 2021 This oversized lift-the-flap board book of a child's first 101 words has big, clearly labeled photos of objects in a baby and toddler's world with an interactive puzzle activity on each spread. Identifying words and their meanings is an important foundational step in language development for babies and toddlers, and Highlights brings Fun with a Purpose® into this essential learning. Babies will love looking at and naming the photos in this sturdy book, while toddlers and parents will enjoy the lift-the-flap questions and answers that help them find the cute red bird hidden on each spread.

The Rationale Divinorum Officiorum of William Durand of Mende Apr 22 2022 The Rationale Divinorum Officiorum is arguably the most important medieval treatise on the symbolism of church architecture and rituals of worship. Written by the French bishop William Durand of Mende (1230-1296), the treatise ranks with the Bible as one of the most frequently copied and disseminated texts in all of medieval Christianity.This book marks the first English translation of the prologue and book one of the Rationale in almost two centuries. Timothy M. Thibodeau begins with a brief biography of William Durand and a discussion of the importance of the work during its time. Thibodeau compares previous translations of the Rationale in the medieval period and afterward. Then he presents his translation of the prologue and book one. The prologue discusses the principles of allegorical interpretation of the liturgy, while book one features detailed descriptions of the various parts of the church and its ecclesiastical ornaments. It also features extensive commentary on cemeteries, various rites of consecration and dedication, and a discussion of the sacraments.

3G Evolution Jul 13 2021 This very up-to-date and practical book, written by engineers working closely in 3GPP, gives insight into the newest technologies and standards adopted by 3GPP, with detailed explanations of the specific solutions chosen and their implementation in HSPA and LTE. The key technologies presented include multi-carrier transmission, advanced single-carrier transmission, advanced receivers, OFDM, MIMO and adaptive antenna solutions, advanced radio resource management and protocols, and different radio network architectures. Their role and use in the context of mobile broadband access in general is explained. Both a high-level overview and more detailed step-by-step explanations of HSPA and LTE implementation are given. An overview of other related systems such as TD SCDMA, CDMA2000, and WIMAX is also provided. This is a 'must-have' resource for engineers and other professionals working with cellular or wireless broadband technologies who need to know how to utilize the new technology to stay ahead of the competition. The authors of the book all work at Ericsson Research and are deeply involved in 3G development and standardisation since the early days of 3G research. They are leading experts in the field and are today still actively contributing to the standardisation of both HSPA and LTE within 3GPP. * Gives the first explanation of the radio access technologies and key international standards for moving to the next stage of 3G evolution: fully operational mobile broadband * Describes the new technologies selected by the 3GPP to realise High Speed Packet Access (HSPA) and Long Term Evolution (LTE) for mobile broadband * Gives both higher-level overviews and detailed explanations of HSPA and LTE as specified by 3GPP
