Fashion & War in Popular Culture Nov 04 2022 Aside from the occasional nod to epaulettes or use of camouflage, war and fashion seem to be strange partners. Not so, argue the contributors to this book, who connect military industrial practices as well as military dress to textile and clothing in new ways. For instance, the book includes a series of commentaries on the impact of military dress in the airline industry, in illustrated wartime comics and even considers today's muscled soldier's body as a new type of uniform. Elsewhere, the effects of conquest introduce a new set of postcolonial aesthetics as military and colonial regimes disrupt local textile production and garment making. In another chapter, it is argued that textiles and fashion are important because they reflect a core practice, one that bridges textile artists and designers in an expressive, creative and deeply physical way to matters of cultural significance. And the book concludes by calling the very mode of 'military chic' into ethical question. The premier text to illustrate the impact of war on textiles, bodies, costume, art and design, Fashion & War in Popular Culture will be warmly welcomed by scholars of fashion design and theory, historians of fashion and those interested in theories of warfare and military science.

Warfare Prayers for Women Aug 28 2019 Satan has a strategy to wreak havoc in our lives by stirring up strife, disrupting relationships, and overwhelming us with fear, anxiety, anger, and insecurity. Although our adversary is relentless, women are particularly equipped to stand confidently in this war through biblically based, intentional prayer--the heart of spiritual warfare. Written by two veteran prayer warriors and mentors, Warfare Prayers for Women will guide readers to victory in the most challenging areas of life. The book contains specific prayers for

- facing and overcoming hindrances
- approaching life's milestones
- protecting family members
- shining the gospel light into communities and nations

[Women's Journey to Empowerment in the 21st Century](#) Nov 23 2021 "It was a warm fall evening in Beijing when the idea for this book was born. Three social work academics, one Chinese and two Americans, discussed the state of the world for women in the 21st century and the longing for a text that could describe the struggles, and the successes of women in the fight for equity and safety throughout the world, on the table of Beijing style hotpot. As professors and feminist researchers, three of us share some similar but different research interests; Kristen's work is extensively on sexual violence in the United States; Annalisa, as a Philippine American Scholar, has been working on sex trafficking issues in Philippines and throughout the world; while Xiyang, as a Chinese scholar with overseas training, has paid attention to dating violence, domestic violence, and school-bullying. Through the discussion, we found that though our research topics are different, the underlying issues of gender inequality and the surrounding social structures are similar, no matter the place on earth. A short time later, we invited Eugenia whose expertise on feminist global issues, and her being of mixed heritage and from Latin America, as well as her vast editorial experience, could help us make this book everything we knew it needed to be for maximum impact. We felt a compelling need to create a book in a collaborative spirit to include expert contributors that would provide a global lens to survey parts of the world - not just one region, one race, one voice- and study the intersectional issues of gender, race, class, culture, politics that arise in gender- based violence and the advocacy efforts to fight injustice and promote equality for women and girls, across the world"--

[Women and the Olympic Dream](#) Sep 29 2019 On an April morning in 1896, unemployed single mother Stamata Revithi ran the 40 kilometers from Marathon to Athens, finishing in 5 hours 30 minutes. Banned from the first Olympic marathon, she was determined to prove herself. Through more than a century of Olympic Games history, women athletes--who were held back from swimming because long skirts were required, limited to running single-lap races because of fallacies about fragility, or forced to endure invasive gender exams--competed in spite of endless challenges. From Athens 1896 to Tokyo 2020, this history of women's participation in the Olympic Games centers on athletes who overcame entrenched inequity to gain inclusion.

Pioneering Women in American Mathematics Mar 28 2022 More than 14 percent of the PhD's awarded in the United States during the first four decades of the twentieth century went to women, a proportion not achieved again until the 1980s. This book is the result of a study in which the authors identified all of the American women who earned PhD's in mathematics before 1940, and collected extensive biographical and bibliographical information about each of them. By reconstructing as complete a picture as possible of this group of women, Green and LaDuke reveal insights into the larger scientific and cultural communities in which they lived and worked. The book contains an extended introductory essay, as well as biographical entries for each of the 228 women in the study. The authors examine family backgrounds, education, careers, and other professional activities. They show that there were many more women earning PhD's in mathematics before 1940 than is commonly thought. Extended biographies and bibliographical information are available from the companion website for the book: www.ams.org/bookpages/hmath-34. The material will be of interest to researchers, teachers, and students in mathematics, history of mathematics, history of science, women's studies, and sociology. The data presented about each of the 228 individual members of the group will support additional study and analysis by scholars in a large number of disciplines.

Women in Mathematics Jan 14 2021 This collection of refereed papers celebrates the contributions, achievements, and progress of female mathematicians, mostly in the 20th and 21st centuries. Emerging from the themed paper session "The Contributions of Women to Mathematics: 100 Years and Counting" at MAA's 2015 MathFest, this volume contains a diverse mix of current scholarship and exposition on women and mathematics, including biographies, histories, and cultural discussions. The multiplicity of authors also ensures a wide variety of perspectives. In inspiring and informative chapters, the authors featured in this volume reflect on the accomplishments of women in mathematics, showcasing the changes in mathematical culture that resulted as more women obtained tenure-track and tenured academic positions, received prestigious awards and honors, served in leadership roles in professional societies, and became more visibly active in the mathematical community. Readers will find discussions of mathematical excellence at Girton College, Cambridge, in the late 19th and early 20th centuries; of perseverance by Polish women in mathematics during and after World War II and by Black women in mathematics in the United States from the 1880s onward; and of the impact of outreach programs ranging from EDGE's promotion of graduate education to the Daughters of Hypatia dance performances. The volume also provides informative biographies of a variety of women from mathematics and statistics, many of them well-known and others less well-known, including Charlotte Angas Scott, Emmy Noether, Mina Rees, Gertrude Cox, Euphemia Lofton Haynes, Norma Hernandez, Deborah Tepper Haimo, and Teri Perl. These essays provide compelling reading for a wide audience, including mathematicians, historians of science, teachers of mathematics, and students at the high school, college, and graduate levels. Anyone interested in attracting more girls and women as students, faculty, and/or employees will also find this volume engaging and enlightening.

War Trauma and its Aftermath Feb 24 2022 War trauma has long been associated with post-traumatic stress disorder (PTSD), a term coined in 1980 to explain the post-war impact of Vietnam veterans. The Gulf and Balkan wars added new dimensions to the traditional PTSD definition, due largely to the changing dynamics of these wars.

Invisible Women Aug 09 2020 *THE SUNDAY TIMES NUMBER ONE BESTSELLER* *OVER HALF A MILLION COPIES SOLD* *HELL YES. This is one of those books that has the potential to change things - a monumental piece of research' Caitlin Moran Imagine a world where... · Your phone is too big for your hand · Your doctor prescribes a drug that is wrong for your body · In a car accident you are 47% more likely to be injured. If any of that sounds familiar, chances are you're a woman. From government policy and medical research, to technology, workplaces, and the media. Invisible Women reveals how in a world built for and by men we are systematically ignoring half of the population, often with disastrous consequences. Caroline Criado Perez brings together for the first time an impressive range of case studies, stories and new research from across the world that illustrate the hidden ways in which women are forgotten, and the profound impact this has on us all. Discover the shocking gender bias that affects our everyday lives as discussed in Caroline's new podcast, Visible Women. The Mental Load Jul 20 2021 A new voice in comics is incisive, funny, and fiercely feminist. "The mental load. It's incessant, gnawing, exhausting, and disproportionately falls to women. You know the scene--you're making dinner, calling the plumber/doctor/mechanic, checking homework and answering work emails--at the same time. All the while, you are being peppered with questions by your nearest and dearest 'where are my shoes?', 'do we have any cheese?...' "--Australian Broadcasting Corp on Emma's comic In her first book of comic strips, Emma reflects on social and feminist issues by means of simple line drawings, dissecting the mental load, ie all that invisible and unpaid organizing, list-making and planning women do to manage their lives, and the lives of their family members. Most of us carry some form of mental load--about our work, household responsibilities, financial obligations and personal life; but what makes up that burden and how it's distributed within households and understood in offices is not always equal or fair. In her strips Emma deals with themes ranging from maternity leave (it is not a vacation!), domestic violence, the clitoris, the violence of the medical world on women during childbirth, and other feminist issues, and she does so in a straightforward way that is both hilarious and deadly serious.. If you're not laughing, you're probably crying in recognition. Emma's comics also address the everyday outrages and absurdities of immigrant rights, income equality, and police violence. Emma has over 300,000 followers on Facebook, her comics have been shared 215,000 times, and have elicited comments from 21,000 internet users. An article about her in the French magazine L'Express drew 1.8 million views--a record since the site was created. And her comic has just been picked up by The Guardian. Many women will recognize themselves in THE MENTAL LOAD, which is sure to stir a wide ranging, important debate on what it really means to be a woman today.

Marxist Shakespeares Jan 02 2020 Marxist Shakespeares uses the rich analytic resources of the Marxist tradition to look at Shakespeare's plays afresh. The book offers new insights into the historical conditions within which Shakespeare's representations of class and gender emerged, and into Shakespeare's role in the global culture industry stretching from Hollywood to the Globe Theatre. A vital resource for students of Shakespeare which includes Marx's own readings of Shakespeare, Derrida on Marx, and also Bourdieu, Bataille, Negri and Alice Clark.

Classics of International Relations Dec 25 2021 Classics of International Relations introduces, contextualises and assesses 24 of the most important works on international relations of the last 100 years. Providing an indispensable guide for all students of IR theory, from advanced undergraduates to academic specialists, it asks why are these works considered classics? Is their status deserved? Will it endure? It takes as its starting point Norman Angell's best-selling *The Great Illusion* (1909) and concludes with Daniel Deudney's award winning *Bounding Power* (2006). The volume does not ignore established classics such as Morgenthau's *Politics Among Nations* and Waltz's *Theory of International Politics*, but seeks to expand the 'IR canon' beyond its core realist and liberal texts. It thus considers emerging classics such as Linklater's critical sociology of moral boundaries, *Men and Citizens in the Theory of International Relations*, and Enloe's pioneering gender analysis, *Bananas, Beaches and Bases*. It also innovatively considers certain 'alternative format' classics such as Kubrick's satire on the nuclear arms race, *Dr Strangelove*, and Errol Morris's powerful documentary on war and US foreign policy, *The Fog of War*. With an international cast of contributors, many of them leading authorities on their subject, *Classics of International Relations* will become a standard reference for all those wishing to make sense of a rapidly developing and diversifying field. *Classics of International Relations* is designed to become a standard reference text for advanced

undergraduates, post-graduates and lecturers in the field of IR.

Restaging War in the Western World Aug 01 2022 This collection seeks to move noncombatant perspectives to center stage, acknowledging their importance, destabilizing the primacy of the combatant, and explaining or undermining the staging of warfare as a singular and acontextual production.

Don't Cry For Us, Saigon Jul 28 2019 The United States military did not lose the Vietnam War! The South Vietnamese government lost the Vietnam War. With many inaccurate books, biased statements, lack of understanding, and facts, I decided to write a Vietnamese history book with emphasis on the Second Indochina War. This book will correct many of those misconceptions about the Vietnam War, answer controversial questions, and give readers a microcosm and basic dynamics of the Vietnam War. I recorded and archived highlights of the Vietnam War and the accounts of American military heroes whose sacrifices and heroic exploits might otherwise be lost to history. The poignant, riveting, and the gripping reality of war and the demons and misfortune of the Vietnam veterans will be depicted in the book. This book is intended for a variety of audiences: veterans, family members, gold star mothers, organizations, agencies, clubs, college students, faculty, and history buffs. Search-and-destroy operations in South Vietnam will be described in comprehensive detail and why President Johnson later changed the name of search-and-destroy operations to reconnaissance in force. This book will show that the worst atrocity of the Vietnam War occurred in the United States when America shunned and discriminated against its Vietnam War veterans and gold star mothers! This book is a first-person account of high school teenyboppers suddenly answering the call for duty and turning into elite combat warriors virtually overnight. Vietnam War veterans saw and experienced horrific savage and direct combat repeatedly that humans aren't intended to see. Testimonies of seasoned combat Airborne Infantry soldiers, Pathfinders, and Special Forces whose average age was twenty-one will be depicted through empirical vignettes. These first-person vignettes will describe the carnage of firefights, mortar attacks, the stench of human decay and flesh torn and broken, and the camaraderie and bonds of men at war. Do not judge these warrior-leader heroes unless you have walked a mile in their jungle boots through a jungle in a combat environment. Remember, once upon a time, we were all like you! Myths of the Vietnam War will be refuted, rebutted, and debunked. Agent Orange and other herbicides used in the Vietnam War will be discussed. This book will help all veterans, their families, and America to better understand and come to some closure and aid in catharsis. We are awesome! It is chic and vogue to be a Vietnam veteran now.

Rethinking the American Anti-War Movement Oct 03 2022 Between 1965 and 1973, hundreds of thousands of ordinary Americans participated in one of the most remarkable and significant people's movements in American history. Through marches, rallies, draft resistance, teach-ins, civil disobedience, and non-violent demonstrations at both the national and local levels, Americans vehemently protested the country's involvement in the Vietnam War. Rethinking the American Anti-War Movement provides a short, accessible overview of this important social and political movement, highlighting key events and key figures, the movement's strengths and weaknesses, how it intersected with other social and political movements of the time, and its lasting effect on the country. The book is perfect for anyone wanting to obtain an introduction to the Anti-War movement of the twentieth century.

Woman Aug 21 2021 The creation of a woman was the best thing that happened to divinity and humanity which the devil has twisted to his advantage. His lies have bullied women of their place of assignment and left them disoriented about who they are. Because of insecurities, women have settled for less, trying to prove their value and validate their identity. This identity crisis has caused tragic breakdowns economically, socially, culturally, morally, ecclesiastically and spiritually leaving a human race, a victim of this fate because a woman is a key player in this game of life. This book is a great mirror for every woman who wants to see the real image of who she was created to be and how vital her existence is to divinity and humanity. It redefines who she is, her value, her purpose, what she represents, the divine mysteries hidden in her and how she affects the totality of human life. Today, it is imperative that every woman rediscovers God's original blueprint for her life in order to maximize her potential and preserve life in her domain. Everything about, within, without and around a woman is connected. Therefore, she cannot be defined by one title. She is plural. She is on a mission as an undercover agent hired by God, licensed by Jesus Christ and empowered by the Holy Spirit.

I Am Malala Jun 26 2019 "Winner of the 2014 Nobel Peace Prize" In 2009 Malala Yousafzai began writing a blog on BBC Urdu about life in the Swat Valley as the Taliban gained control, at times banning girls from attending school. When her identity was discovered, Malala began to appear in both Pakistani and international media, advocating the freedom to pursue education for all. In October 2012, gunmen boarded Malala's school bus and shot her in the face, a bullet passing through her head and into her shoulder. Remarkably, Malala survived the shooting. At a very young age, Malala Yousafzai has become a worldwide symbol of courage and hope. Her shooting has sparked a wave of solidarity across Pakistan, not to mention globally, for the right to education, freedom from terror and female emancipation.

The Women's Army Corps, 1945-1978 May 06 2020 The Women's Army Corps makes a significant contribution to women's history and the history of the Army. Bettie J. Morden weaves the ideas and moral attitudes that existed in the middle decades of the twentieth century to chronicle thirty-three years of WAC history from V-J Day 1945 to 20 October 1978, when the Women's Army Corps was abolished by Public Law 95-584 and discontinued by Department of the Army General Order 20, with the WAC officers assimilated into the other branches of the Army (except the combat arms). For the most part taking a chronological approach, Morden focuses on the interaction of plans, decisions, and personalities that affected the WAC directors as they pushed and prodded the Army, the Department of Defense, and Congress to achieve Regular Army and Reserve status, military credit for Women's Army Auxiliary Corps service, and promotion above the grade of lieutenant colonel. The early WAC directors, according to Morden, had the task of fighting for progress and equity, whereas their successors fought a losing battle to keep entry standards high and to retain the corps' separate status. She provides readers with a comprehensive picture of WAC growth and development and the transformation in the status of Army women brought by the advent of the all-volunteer Army and the women's rights movement of the seventies.

The Feminist Revolution Jul 08 2020 Explores the global history and contributions of the feminist revolution. The Feminist Revolution offers an overview of women's struggle for equal rights in the late twentieth century. Beginning with the auspicious founding of the National Organization for Women in 1966, at a time when women across the world were mobilizing individually and collectively in the fight to assert their independence and establish their rights in society, the book traces a path through political campaigns, protests, the formation of women's publishing houses and groundbreaking magazines, and other events that shaped women's history. It examines women's determination to free themselves from definition by male culture, wanting not only to "take back the night" but also to reclaim their bodies, their minds, and their cultural identity. It demonstrates as well that the feminist revolution was enacted by women from all backgrounds, of every color, and of all ages and that it took place in the home, in workplaces, and on the streets of every major town and city. This sweeping overview of the key decades in the feminist revolution also brings together for the first time many of these women's own unpublished stories, which together offer tribute to the daring, humor, and creative spirit of its participants.

The Women Who Made Television Funny Feb 12 2021 Most of the bright and talented actresses who made America laugh in the 1950s are off the air today, but their pioneering Hollywood careers irrevocably changed the face of television comedy. These smart and sassy women successfully negotiated the hazards of the male-dominated workplace with class and humor, and the work they did in the 1950s is inventive still by today's standards. Unable to fall back on strong language, shock value, or racial and sexual epithets, the female sitcom stars of the 1950s entertained with pure talent and screen savvy. As they did so, they helped to lay the foundation for the development of television comedy. This book pays tribute to 10 prominent television actresses who played lead roles in popular comedy shows of the 1950s. Each chapter covers the works and personalities of one actress: Lucille Ball (I Love Lucy), Gracie Allen (The George Burns and Gracie Allen

Show), Eve Arden (Our Miss Brooks), Spring Byington (December Bride), Joan Davis (I Married Joan), Anne Jeffreys (Topper), Donna Reed (The Donna Reed Show), Ann Sothern (Private Secretary and The Ann Sothern Show), Gale Storm (My Little Margie and The Gale Storm Show: Oh! Susanna), and Betty White (Life with Elizabeth). For each star, a career sketch is provided, concentrating primarily on her television work but also noting achievements in other areas. Appendices offer cast and crew lists, a chronology, and an additional biographical sketch of 10 less familiar actresses who deserve recognition.
