Regions and Powers Aug 19 2021 This book develops the idea that since decolonisation, regional patterns of security have become more prominent in international politics. The authors combine an operational theory of regional security with an empirical application across the whole of the international system. Individual chapters cover Africa, the Balkans, CIS Europe, East Asia, EU Europe, the Middle East, North America, South America, and South Asia. The main focus is on the post-Cold War period, but the history of each regional security complex is traced back to its beginnings. By relating the regional dynamics of security to current debates about the global power structure, the authors unfold a distinctive interpretation of post-Cold War international security, avoiding both the extreme oversimplifications of the unipolar view, and the extreme deterritorialisations of many globalist visions of a new world disorder. Their framework brings out the radical diversity of security dynamics in different parts of the world.

Race, Hull-House, and the University of Chicago Jul 26 2019 Examines Chicago race relations in the context of work at Hull-House and the University of Chicago between 1892 and 1960.

Expectations of Life Feb 10 2021 Destined to become a classic epidemiological study, EXPECTATIONS OF LIFE surveys world mortality, describing and explaining the declines of mortality which have become especially evident in this century.

[An Introduction to Accounting: Accountability in Organisations and Society](#) Aug 31 2022 Written by one of ANZ's premier sustainability and social accounting academics, *An Introduction to Accounting: Accountability in Organisations and Society* brings today's accounting hot topics of corporate accountability, sustainability and social responsibility to life with the only complete textbook created from the ground up for these modern accounting teaching and learning concepts. *An Introduction to Accounting: Accountability in Organisations and Society* takes a unique approach in embracing from the start the notion of accountability for the environment and sustainability in accounting; the structure, content and learning activities provide students with an understanding of accounting's pervasive and transformative role as a social practice and organisational driver. It shows that environments, ideas and values change; the interconnectivity of society; that the planet must be respected as a resource; and that people are affected/influenced by the information they receive and the way it is presented. It is emphasised that accounting and accountability are key aspects of every person's life and that the practice of accounting, while often being seen as very technical in nature, has many social implications. Learning accounting through the lens of sustainability and the environment embeds this perspective in students' minds so that in their careers they will actively seek and use accounting information to make decisions that take into consideration accountability for the environment. Nucleic Acids Mar 02 2020 This edited book, "Nucleic Acids - From Basic Aspects to Laboratory Tools", contains a series of chapters that highlight the development and status of the various aspects of the nucleic acids related to DNA chemistry and biology and the molecular application of these small DNA molecules and related synthetic analogues within biological systems. Furthermore, it is hoped that the information in the present book will be of value to those directly engaged in the handling and use of nucleic acids, and that this book will continue to meet the expectations and needs of all who are interested in the different fascinating aspects of molecular biology.

[Accounting Theory](#) Nov 29 2019 *Accounting Theory* 5th edition is the new edition of the market leading theory textbook. The 5th edition has been updated to enhance student understanding of the role of accounting theory and the application of accounting theory in the professional environment. Increasingly, students have failed to appreciate the relevance of studying accounting theory due to the esoteric nature of the discipline and its lack of any obvious correlation to a discrete accounting process. The new edition addresses this issue and makes the link to industry more clear through chapter vignettes and case studies. The new edition goes further to align the study of accounting theory to the professional environment domestically and internationally. To achieve this, the new edition includes a "International View" vignette in each chapter to profile the international response or thinking on relevant issues, ?Theory in Action? boxes illustrate the chapter material by way of presenting professional examples to build understanding and end of chapter case studies have develop and apply student understanding of the material. The new edition continues to provide the latest research and the most comprehensive discussion of material whilst maintaining its critical perspective.

Introduction to Accounting Aug 07 2020

Tourism: Principles and Practice Aug 26 2019 Thanks to its engaging writing style and accessible structure, Fletcher has become the ultimate one-stop text for any student studying Tourism. Its broad appeal and popularity increases with each new edition, making it excellent value for any student who wants to understand and explore the principles of the subject. Well-liked by students and lecturers alike, *Tourism: Principles and Practice* is the ultimate reference text for anyone wishing to understand the complex and varied issues involved with such a diverse and constantly changing subject.

[Perpetual Transformation](#) Jan 12 2021 Transformation is no longer a short-lived initiative. It is not a program. It is not linear. Instead, the world's leading organizations now embrace transformation as a challenging, stretching, exciting and essential constant in their lives. Welcome to the age of perpetual transformation. Now, the Brightline Initiative and Thinkers50 have collaborated to bring together some of the world's leading minds on the theme of perpetual transformation. Curated by Thinkers50 cofounder Stuart Crainer and introduced by PMI COO Michael DePrisco, *Perpetual Transformation* features ideas and insights from Didier Bonnet, Susie Kennedy, Kaihan Krippendorff, Jeffrey Kuhn, Habeeb Mahaboob, Tony O'Driscoll, Martin Reeves, Lars F&æste, Tom Deegan, April Rinne, Antonio Nieto-Rodriguez, Gabriele Rosani, Paolo Cervini, Robin Speculand, Behnam Tabrizi and a host of others.

The Forester's Daughter Jun 24 2019 *Faber Stories*, a landmark series of individual volumes, presents masters of the short story form at work in a range of genres and styles. The evening is fine. In the sky a few early

stars are shining of their own accord. She watches the dog licking the bowl clean. This dog will break her daughter's heart, she's sure of it. Claire Keegan's mesmeric story takes us into the heart of the Wicklow countryside, and of the farming family of Victor Deegan, with his 'three teenagers, the milking and the mortgage'. When Deegan finds a gun dog and gives it as a present to his only daughter, his wife is filled with foreboding at this seeming act of kindness. As the seasons pass, long-buried family secrets threaten to emerge.

Once A Pilgrim (John Carr, Book 1) Jan 24 2022 'You couldn't make it up. Brilliant.' Jeffrey Archer 'Decades of war has given James Deegan a natural ability to create a world that is incredibly realistic and exciting. This takes military fiction to a whole new level entirely. Deegan is a master' Tom Marcus Mi5 Surveillance officer, Author of Capture or Kill

Sociology Dec 31 2019 SOCIOLOGY: A GLOBAL PERSPECTIVE, Enhanced International Edition, introduces you to the concepts and theories of sociology, demonstrates how they can be used to think about the most significant and pressing global issues of our day, and uses powerful visual images to illustrate their impact on individuals, local communities, and society. The enhanced seventh edition has been substantially updated to reflect the current global economic crisis.

Social and Environmental Disclosure by Chinese Firms Dec 23 2021 Given the increased social and environmental problems in China, this book looks into the social and environmental (environmental) disclosure practices of socially responsible Chinese listed firms by constructing a stakeholder-driven, three-dimensional, disclosure index. The book contains a three-part study: the first part explores the current status of social and environment disclosure practices. The second part empirically examines the relationship between corporate social and environmental disclosure and various influencing factors (i.e. stakeholders' power and corporate characteristics). The third part empirically examines the link between corporate social responsibility (CSR) reporting (i.e. publishing a CSR report and the quality of the CSR report) and socially responsible reputation. The book finds that the CSR report provided more stakeholder-relevant social and environmental disclosure than the annual report. It also finds that corporate characteristics such as firm size, profitability and industry classification are all statistically significant factors influencing social and environmental disclosure of the Chinese firms studied. Shareholders significantly influenced firms' social and environmental disclosure, and creditors significantly influenced firms' disclosure related to their environmental performance. The final part of the study reports that publishing a CSR report and CSR reporting quality had a positive influence on firms' socially responsible reputation and that the CEO/chairman duality negatively influenced firms' socially responsible reputation. The book also highlights that financial performance and firm size were the two corporate characteristics that had a positive influence on corporate socially responsible reputation. This book will be of interest to those who are keen to learn more about corporate social responsibilities in the context of Chinese firms.

Human Behavior and the Larger Social Environment, Third Edition Feb 22 2022 From schools to the military and from class structure to cultural diversity-all individuals function within complex social systems that shape them and are, in turn, shaped by them. This text introduces students to these broader social contexts within which human behavior occurs and how a community's social settings may promote or deter people in maintaining or achieving personal health and well-being. Johnson and Rhodes use seven basic theoretical perspectives as the frameworks to explore how clients are impacted by social institutions and social structures. Keeping up to date with emerging societal trends and changing environmental contexts is important and Human Behavior and the Larger Social Environment provides readers with the tools necessary to use their knowledge to provide appropriate interventions at all levels of practice, as well as promote social and economic justice. This book offers complex concepts in a simple format, allowing students to analyze the relationship between individuals and various systems, and better retain and apply their knowledge as they prepare to engage with clients and client systems.

Australian Financial Accounting Oct 01 2022 Australia's market-leading financial accounting text provides students with a detailed grasp of reporting requirements in an accessible and engaging manner. Fully updated throughout, AUSTRALIAN FINANCIAL ACCOUNTING further develops and extends its coverage of consolidations and encompasses topical issues such as social and environmental accounting. Renowned for his clear writing style, Craig Deegan successfully communicates the detail necessary to understand, challenge and critically evaluate financial reporting. Complete in theoretical and practical coverage, this text gives students a strong foundation for current study and their future professional lives.

Recovery of People with Mental Illness: Philosophical and Related Perspectives Jul 06 2020 It is only in the past 20 years that the concept of 'recovery' from mental health has been more widely considered and

researched. Before then, it was generally considered that 'stability' was the best that anyone suffering from a mental disorder could hope for. But now it is recognised that, throughout their mental illness, many patients develop new beliefs, feelings, values, attitudes, and ways of dealing with their disorder. The notion of recovery from mental illness is thus rapidly being accepted and is inserting more hope into mainstream psychiatry and other parts of the mental health care system around the world. Yet, in spite of conceptual and other challenges that this notion raises, including a variety of interpretations, there is scarcely any systematic philosophical discussion of it. This book is unique in addressing philosophical issues - including conceptual challenges and opportunities - raised by the notion of recovery of people with mental illness. Such recovery - particularly in relation to serious mental illness such as schizophrenia - is often not about cure and can mean different things to different people. For example, it can mean symptom alleviation, ability to work, or the striving toward mental well-being (with or without symptoms). The book addresses these different meanings and their philosophical grounds, bringing to the fore perspectives of people with mental illness and their families as well as perspectives of philosophers, mental health care providers and researchers, among others. The important new work will contribute to further research, reflective practice and policy making in relation to the recovery of people with mental illness. It is essential reading for philosophers of health, psychiatrists, and other mental care providers, as well as policy makers.

Auditing Ecosystem and Strategic Accounting in the Digital Era Dec 11 2020 This book examines current topics and trends in strategic auditing, accounting and finance in digital transformation both from a theoretical and practical perspective. It covers areas such as internal control, corporate governance, enterprise risk management, sustainability and competition. The contributors of this volume emphasize how strategic approaches in this area help companies in achieving targets. The contributions illustrate how by providing good governance, reliable financial reporting, and accountability, businesses can win a competitive advantage. It further discusses how new technological developments like artificial intelligence (AI), cybersystems, network technologies, financial mobility and smart applications, will shape the future of accounting and auditing for firms.

Catalog of Copyright Entries. Third Series Jun 04 2020

The third volume of the series "Progress in Physical Chemistry" comprises 27 articles, most of them with review character, written by the members of the Priority Program (SPP) 1145 of the German Research Foundation (DFG).

Corporate Governance Ethics and CSR Sep 07 2020 The rise of CSR (corporate social responsibility) is creating a paradigm shift in contemporary corporate culture and organizational behaviour with shareholder and stakeholder activism on the rise as international banking crises and global corporate scandals dominate the headlines. Through accountability and transparency, fiduciary capitalism is being challenged to tie sustainability and corporate conscience to the bottom line. With the emergence of impact investing, social responsibility and ethics in corporate governance is becoming essential to long-term success in the new global marketplace. Corporations need to demonstrate that ethical, environmentally conscious business practices and profit are no longer mutually exclusive. Justine Simpson and John R. Taylor's Corporate Governance Ethics and CSR gives the reader a comprehensive guide to today's requirements for governance and reporting that organizations must adopt to successfully strike a balance between financial gain and socially responsible, green business practices that enhance the greater good. Employing current examples (Walmart, Goldman Sachs, Citigroup) and case studies in both the public and private sectors, Simpson and Taylor have compiled a thorough and fascinating roadmap, including historical context, for anyone seeking to understand the complex workings of the international corporate economy that affects us all. This book is perfect for students of, and those wishing to participate in, this revolutionary wave sweeping our planet.

Financial Accounting Nov 02 2022 Financial accounting in Australia, preparing financial statements, understanding and applying accounting standards, understanding the Conceptual Framework for Financial Accounting, accounting for corporate social responsibility.

The Public Relations Handbook Mar 14 2021 In this updated edition of the successful Public Relations Handbook, a detailed introduction to the theories and practices of the public relations industry is given. Broad in scope, it traces the history and development of public relations, explores ethical issues which affect the industry, examines its relationships with politics, lobbying organisations and journalism, assesses its professionalism and regulation, and advises on training and entry into the profession. It includes: interviews with press officers and PR agents about their working practices case studies, examples, press releases and illustrations from a range of campaigns including Railtrack, Marks and Spencer, Guinness and the Metropolitan Police specialist chapters on financial public relations, global PR, business ethics, on-line promotion and the challenges of new technology over twenty illustrations from recent PR campaigns. In this revised and updated practical text, Alison Theaker successfully combines theoretical and organisational frameworks for studying public relations with examples of how the industry works in practice.

The American Psychiatric Association Practice Guidelines for the Psychiatric Evaluation of Adults, Third Edition Mar 26 2022 Since the publication of the Institute of Medicine (IOM) report Clinical Practice Guidelines We Can Trust in 2011, there has been an increasing emphasis on assuring that clinical practice guidelines are trustworthy, developed in a transparent fashion, and based on a systematic review of the available research evidence. To align with the IOM recommendations and to meet the new requirements for inclusion of a guideline in the National Guidelines Clearinghouse of the Agency for Healthcare Research and Quality (AHRQ), American Psychiatric Association (APA) has adopted a new process for practice guideline development. Under this new process APA's practice guidelines also seek to provide better clinical utility and usability. Rather than a broad overview of treatment for a disorder, new practice guidelines focus on a set of discrete clinical questions of relevance to an overarching subject area. A systematic review of evidence is conducted to address these clinical questions and involves a detailed assessment of individual studies. The quality of the overall body of evidence is also rated and is summarized in the practice guideline. With the new process, recommendations are determined by weighing potential benefits and harms of an intervention in a specific clinical context. Clear, concise, and actionable recommendation statements help clinicians to incorporate

recommendations into clinical practice, with the goal of improving quality of care. The new practice guideline format is also designed to be more user friendly by dividing information into modules on specific clinical questions. Each module has a consistent organization, which will assist users in finding clinically useful and relevant information quickly and easily. This new edition of the practice guidelines on psychiatric evaluation for adults is the first set of the APA's guidelines developed under the new guideline development process. These guidelines address the following nine topics, in the context of an initial psychiatric evaluation: review of psychiatric symptoms, trauma history, and treatment history; substance use assessment; assessment of suicide risk; assessment for risk of aggressive behaviors; assessment of cultural factors; assessment of medical health; quantitative assessment; involvement of the patient in treatment decision making; and documentation of the psychiatric evaluation. Each guideline recommends or suggests topics to include during an initial psychiatric evaluation. Findings from an expert opinion survey have also been taken into consideration in making recommendations or suggestions. In addition to reviewing the available evidence on psychiatry evaluation, each guideline also provides guidance to clinicians on implementing these recommendations to enhance patient care.

ICETLAWBE 2020 Apr 02 2020 We are delighted to introduce the proceedings of The International Conference on Environment and Technology of Law, Business and Education on Post Covid 19 - 2020 (ICETLAWBE 2020). Circus, Science and Technology May 28 2022 This book explores the circus as a site in and through which science and technology are represented in popular culture. Across eight chapters written by leading scholars - from fields as varied as performance and circus studies, art, media and cultural history, and engineering - the book discusses to what extent the engineering of circus and performing bodies can be understood as a strategy to promote awe, how technological inventions have shaped circus and the cultures it helps constitute, and how much of a mutual shaping this is. What kind of cultural and aesthetic effects does engineering in circus contexts achieve? How do technological inventions and innovations impact on the circus? How does the link between circus and technology manifest in representations and interpretations - imaginaries - of the circus in other media and popular culture? *Circus, Science and Technology* examines the ways circus can provide a versatile frame for interpreting our relationship with technology.
