Hidden Treasures Oct 09 2020 Europe is often presented as a declining global power, in which red tape, incumbency interests and governance flaws hamper economic performance, innovation and productivity. Part of this can be traced back to the inherent challenge and ambition of the European integration project; but also to external factors, including the rise of the United States as a global superpower during the past century, and the worldwide diffusion of ideas, especially in politics and economics, which were seldom originated in Europe, or tailored to its peculiar legal, economic and social traditions. Until recently, Europe has sought to carve out its model and role in global governance by mimicking many US policy approaches: shareholder capitalism, deregulation and unconstrained movement of capital. As the global community increasingly sees the rise of protectionist stances, and a growing inability to face emerging challenges such as sustainable development and the breath-taking rise of disruptive digital technologies, Europe should look at its best qualities to revamp and reclaim its position in the global order, to the benefit of all. The prospect of Brexit, while certainly not favourable for the Union, paradoxically opens up new opportunities to face emerging challenges with a greater degree of cohesion. This new book, a joint effort between Donald Kalff and a group of CEPS researchers led by Andrea Renda, aims at identifying and exploring Europe's 'hidden treasures', often neglected competitive advantages that could, if adequately nurtured, return the Old Continent to the forefront of the global order. 'Hidden treasures' are a feature of the EU economy, legal system or legal tradition that are being given insufficient attention in EU public policy, and which bear the potential to increase Europe's competitiveness and overall positioning in the global context. The authors find them in ten policy domains, from contract law to corporate governance, taxation, control of corruption, competition policy, trade, innovation and the EU's unique approach to governing the digital economy. Uncovering and promoting hidden treasures becomes, as of today, a timely and highly needed exercise, as the EU approaches its post-elections transition, and the global governance context seems to be rapidly changing, shaping a new playing field in which Europe has no obvious allies, and is increasingly challenged by superpowers with different, if not diverging, priorities.

One Enchanted Evening May 16 2021 Time-travel romances have made Lynn Kurland a bestseller in the here-and-now. A duty-bound knight has taken on the task of rebuilding the most dilapidated castle in all of England. A costume designer gets her chance to shine by showcasing her fairy-tale designs at an upscale party in an authentic medieval castle. And the magic that whispers along the castle's hallways is about to orchestrate an improbable happily-ever-after.

The Global Smartphone Jul 18 2021 The smartphone is often literally right in front of our nose, so you would think we would know what it is. But do we? To find out, 11 anthropologists each spent 16 months living in communities in Africa, Asia, Europe and South America, focusing on the take up of smartphones by older people. Their research reveals that smartphones are technology for everyone, not just for the young. The Global Smartphone presents a series of original perspectives deriving from this global and comparative research project. Smartphones have become as much a place within which we live as a device we use to provide 'perpetual opportunism', as they are always with us. The authors show how the smartphone is more than an 'app device' and explore differences between what people say about smartphones and how they use them. The smartphone is unprecedented in the degree to which we can transform it. As a result, it quickly assimilates personal values. In order to comprehend it, we must take into consideration a range of national and cultural nuances, such as visual communication in China and Japan, mobile money in Cameroon and Uganda, and access to health information in Chile and Ireland – all alongside diverse trajectories of ageing in AI Quds, Brazil and Italy. Only then can we know what a smartphone is and understand its consequences for people's lives around the world.

Reflections on Socialism in the Twenty-First Century Mar 02 2020 In this volume, the authors reflect on the question "what is socialism" as it pertains to today's economy. There is particular emphasis on democratic socialism models as a potential alternative to classic authoritarian socialism. A number of topical questions are addressed such as: What is democratic socialism and is it feasible, or even viable? What can be learnt from existing democratic socialist experiences? What would an ideal democratic socialist society look like today? Under what circumstances, and where, could such a model emerge today? In exploring these questions, several themes arise within these chapters such as the role of socialist values and inspirations in capitalist societies; and how capitalism and socialism relate to the knowledge economy. The contemporary world is showing many contradictions with uncertain future scenarios that preoccupy mankind. The global capitalist system as we know it is in deep crisis—and some even predict its slow death, because of its inability to handle the environmental imperative. At the same time,

classic socialism as experienced in the Soviet Union and its proxies is a stone dead alternative to capitalism today. So what options remain? The book considers this question as it examines a range of countries where socialism (in one form or another) has arisen, or where democratic socialism could be possible, including Brazil, Chile, Cuba, Sweden and the United States.

Serger Nov 21 2021 Did you know that major fashion houses and retailers like Zara, H&M, Gucci and even Tom Ford use a serger to make their garments look better? Do you want to unlock the true potential of your serger? Have you come across a serger for the first time, and have no manual to help you out? Have you got your wife a new serger, and want her to learn it's secrets? Do you want to save \$37+ on classes and workshops, and start getting better at serging sitting at home? A serger, also known as an overlock machine, is different from a standard sewing machine. It's the secret ingredient for fashion houses and retailers, to add many speciality effects to their trendiest garments. It's impossible to make on your sewing machine what you can make on a serger Just as a kitchen has a stove and a microwave oven, every sewing room should have a sewing machine and a serger. It can be used for more than just seam finishing. Once you start working with a serger, you'll be amazed at how much time you save. You'll love the results, too. Soon, you'll wonder how you ever got along without one! If mindless factories can manufacture things you love to spend money on, imagine what YOU could make with the right techniques! Note: This book has two parts Part 1: Beginner's Guide to Serger: What Every Beginner Needs to Know to Unlock Her Serger's True Potential Part 2: Intermediate Guide to Serger: Get Better Finishing, Improve Stitch Formation and Troubleshoot Effortlessly Inside this book you will discover: The secrets of your serger and how to unlock its full potential The #1 high-performance thread every beginner seamstress should use to avoid breakages The #1 key factor to improving stitch formation while using a serger How to diagnose the problem with your threading very quickly and without frustration One simple tip that will help you stabilize your stitches, even if the material is too thin How to make a face mask with your serger How to revive expensive sergers back to life How to adjust the knife system in your serger correctly (A lot of beginners get this wrong) How to troubleshoot your serger, even if you lost your manual Christmas stockings - How to make them in 12 simple steps Best part is you can get a brand new serger for less than \$200! Thankfully, not only can you get sergers for a good deal, but with this book, you can easily learn how to use it to make the most out of clothing and home decor you already have! You don't even need to read a manual to get started! The directions are step-by-step with illustrations, and designed such that they can be used for any serger. So whether you have the latest Juki or the original baby lock from the 60s, you can begin your serging journey here! Everyday that you delay is another day you miss out on the instant upgrade of your favorite clothes, decor and more. Don't give up on your serger yet. Take action now by scrolling up and clicking the 'Add to Cart' button, to receive this book at your doorstep!

Higher Education in Innovation Ecosystems Jun 24 2019 Higher education has been considered both an 'engine' for innovation and a 'catalyst' for sustainability development; the integration of both the innovation engine and sustainability catalyst roles are discussed in a recently published Special Issue on the theme of Higher Education in Innovation Ecosystems in the journal Sustainability. Based on 16 articles contributing to the Special Issue from various perspectives, the Special Issue editors have developed an overarching framework about the relationships between higher education and innovation ecosystems. In the framework, we re-define the concept of innovation ecosystem and identify emerging roles of universities in developing sustainable innovation ecosystems. Re-conceptualization of innovation ecosystems In the editorial of the Special Issue, innovation ecosystem is defined as: co-innovation networks in which actors from organizations concerned with the functions of knowledge production, wealth creation, and norm control interact with each other in forming co-evolution and interdependent relations (both direct or indirect) in cross-geographical contexts and through which new ideas and approaches from various internal and external sources are integrated into a platform to generate shared values for the sustainable transformation of society. Compared with most commonly cited definitions of innovation ecosystem, our definition highlights three new aspects of interactions in co-innovation networks: cross-sectoral, transnational, and indirect, drawing insights from the literature including innovation, geography, and biology studies. The roles of universities in innovation ecosystems The emerging roles of universities in innovation ecosystems are as follows: (1) The role of universities is changing from being a central player in technology transfer to being an anchor in knowledge exchange; (2) universities are assuming a new role in trust-building between actors in innovation ecosystems; and (3) universities are not merely an entrepreneurial universities but are also institutional entrepreneur in the innovation ecosystem. The three emerging roles all indicate that universities are becoming the catalysts for sustainable development in innovation ecosystems. Knowledge exchange is crucial for sustainability; trust is the foundation of the sustainable networks; social entrepreneurship is indispensable for sustainable social change. Evidence in wider contexts A total of 44 authors from 10 countries contributed to the discussions on the changing roles of higher education in innovation ecosystems from varying perspectives. They also report transformations within higher education and universities' responses to both external and internal transformations. When addressing these issues, the studies provide both theoretical and methodological contributions to the research on higher education in innovation ecosystems. The 16 articles can be generally placed into four categories: (1) new demands for universities arising from the transformation in society toward innovation ecosystems, (2) transformations within higher education responding to emerging societal demands, (3) dynamics of the interaction of university with other innovation actors in a transnational context, and (4) academic and student mobility for higher education innovation. Calling for a new research agenda While societal changes demand broader roles of universities, they also call for and leads to substantial changes within the internal fabric of the university. The innovations in both society and the universities necessitate a renewed understanding of higher education in society, which has become a new research agenda in studies on innovation in higher education. We hope our Special Issue will inspire and encourage more scholars to join the research field.

Universities as Living Labs for Sustainable Development Nov 29 2019 This book fills an important gap in the literature, and presents contributions from scientists and researchers working in the field of sustainable development who have engaged in dynamic approaches to implementing sustainability in higher education. It is widely known that universities are key players in terms of the implementation and further development of sustainability, with some having the potential of acting as "living labs" in this rapidly growing field. Yet there are virtually no publications that explore the living labs concept as it relates to sustainability, and in an integrated manner. The aims of this book, which is an outcome of the "4th World Symposium on Sustainable Development at Universities" (WSSD-U-2018), held in Malaysia in 2018, are as follows: i. to document the experiences of universities from all around the world in curriculum innovation, research, activities and practical projects as they relate to sustainable development at the university level; ii. to disseminate information, ideas and experiences acquired in the execution of projects, including successful initiatives and good practice; iii. to introduce and discuss methodological approaches and projects that seek to integrate the topic of sustainable development in the curricula of universities; and iv. to promote the scalability of existing and future models from universities as living labs for sustainable development. The papers are innovative, cross-cutting and many reflect practice-based experiences, some of which may be replicable elsewhere. Also, this book, prepared by the Inter-University Sustainable Development Research Programme (IUSDRP) and the World Sustainable Development Research and Transfer Centre (WSD-RTC), reinforces the role played by universities as living labs for sustainable development.

*The Dinner Aug 26 2019 NEW YORK TIMES BESTSELLER • The darkly suspenseful tale of two families struggling to make the hardest decision of their lives—all over the course of one meal. Now a major motion picture. "Chilling, nasty, smart, shocking, and unputdownable."—Gillian Flynn, author of *Gone Girl* It's a summer's evening in Amsterdam, and two couples meet at a fashionable restaurant for dinner. Between mouthfuls of food and over the scrapings of cutlery, the conversation remains a gentle hum of polite discourse. But behind the empty words, terrible things need to be said, and with every forced smile and every new course, the knives are being sharpened. Each couple has a fifteen-year-old son. The two boys are united by their accountability for a single horrific act—an act that has triggered a police investigation and shattered the comfortable, insulated worlds of their families. As the dinner reaches its culinary climax, the conversation finally touches on their children, and as civility and friendship disintegrate, each couple shows just how far they are prepared to go to protect those they love. A NEW YORK TIMES NOTABLE BOOK "A European *Gone Girl* . . . A sly psychological thriller."—The Wall Street Journal "Brilliantly engineered . . . The novel is designed to make you think twice, then thrice, not only about what goes on within its pages, but also the next time indignation rises up, pure and fiery, in your own heart."—Salon "You'll eat it up, with some fava beans and a nice Chianti."—Entertainment Weekly "[Koch] has created a clever, dark confection . . . absorbing and highly readable."—New York Times Book Review "Tongue-in-cheek page-turner."—The Washington Post "[A] deliciously Mr. Ripley-esque drama."—O: The Oprah Magazine*
