The Voyager's Handbook : The Essential Guide to Blue Water Cruising Jul 20 2019 " Belongs in the bookshelf of every cruising vessel. " —Blue Water Sailing " If you are serious about that extended voyage, read The Voyager ' s Handbook. " —Sailing " Every now and then a new voice emerges in the world of sailing literature that stands out, a voice that is both clear and of lasting quality. The appearance of such a new voice is something of an event, and that ' s what we ' d call the publication of The Voyager ' s Handbook. " —Blue Water Sailing This inspirational and comprehensive manual leads you step by step through every aspect of choosing, planning, and following the voyager ' s life. Using three example boats representing three cruising lifestyles—Simplicity, Moderation, and Highlife—Beth Leonard helps make your bluewater dreams come true, whether you ' re sailing on a shoestring or a CEO ' s pension. Starting with the things you can ' t do without—an enthusiastic crew, a seaworthy boat, and, of course, money—Leonard offers sage advice on how to select crewmembers who are truly committed to the voyage, how to choose the right boat for you, and how to find just the right approach to financing your voyage and making the most of every dollar spent. Managing life from a floating home and keeping that home livable, seaworthy, and safe requires you to become, among other things, the ship ' s purser, engineer, doctor, cook, and cruise director. You ' ll discover how to prepare for these new roles and put necessary equipment and arrangements in place before you untie your docklines. This exquisitely detailed guide also helps you master the skills you ' ll need to handle a boat at sea with a small crew, including Weather forecasting Passage planning Watchkeeping Heavy-weather sailing Emergency management Midcoast repairs Complete with dozens of easy-to-use graphs and tables for quick reference, along with the hard-won wisdom of experienced cruisers, The Voyager ' s Handbook is the ultimate resource for anyone who is planning, preparing for, or just dreaming about a great adventure on the high seas.

Clinker Plywood Boatbuilding Manual Jun 30 2020 After a successful career in centreboard racing dinghies, Ian Oughtred became one of the leading lights of the British wooden boat revival, designing, building and sailing many remarkable craft. These boats have gained a world-wide reputation for their elegance of line, sound construction and excellent sailing performance. His perfectionist approach may be unbusinesslike, but provides highly refined designs and detailed plans. In this he hopes to encourage a return to a deep appreciation of traditional values of craftsmanship, believing this is the vital part of the true education, and thus helps to nourish the human spirit in an impoverished age.

HMS Victory Pocket Manual 1805 Feb 07 2021 This new addition to the best-selling Conway pocket-book range features Admiral Nelson's fully preserved flagship HMS Victory, the most tangible symbol of the Royal Navy's greatest battle off Cape Trafalgar on October 21st 1805. In the HMS Victory Pocket Manual, Peter Goodwin adopts a fresh approach to explain the workings of the only surviving 'line of battle' ship of the Napoleonic Wars. And, as Victory was engaged in battle during only two per cent of her active service, the book also provides a glimpse into life and work at sea during the other ninety-eight per cent of the time. This volume presents answers to questions such as: 'What types of wood were used in building Victory?'; 'What was Victory's longest voyage?'; 'How many shots were fired from her guns at Trafalgar?'; 'How many boats did Victory carry?'; 'What was prize money?'; 'What was grog?'; 'When did her career as a fighting ship end?'; and 'How many people visit Victory each year?'. It gives a full history of the world's most famous warship through a highly accessible pocket-book format. The book includes a pertinent and varied selection of contemporary documents and records to explain the day-to-day running of a three-decker Georgian warship. The leading historian of the sailing man of war, Peter Goodwin was technical and historical advisor to HMS Victory in Portsmouth for more than 20 years, and is in a unique position to investigate and interpret not only the ship's structure but also the essential aspects of shipboard life: victualling, organisation, discipline, domestic arrangements and medical care.
