Energy Research Abstracts May 05 2020 Semiannual, with semiannual and annual indexes. References to all scientific and technical literature coming from DOE, its laboratories, energy centers, and contractors. Includes all works deriving from DOE, other related government-sponsored information, and foreign nonnuclear information. Arranged under 39 categories, e.g., Biomedical sciences, basic studies; Biomedical sciences, applied studies; Health and safety; and Fusion energy. Entry gives bibliographical information and abstract. Corporate, author, subject, report number indexes.

Leadership Resources Jul 27 2019 This guide provides over 300 pages of resources suggested by leadership educators in surveys, Center for Creative Leadership staff, and search of library resources. This eighth edition is half-new, including web sites and listserv discussion groups, and it places a stronger focus on meeting the needs of human resources professionals and corporate trainers. An annotated bibliography groups leadership materials in several broad categories: overview; in context; history, biography and literature; competencies; research, theories, and models; training and development; social, global, and diversity issues; team leadership; and organizational leadership (180 pages). Includes annotated lists of: journals and newsletters (9 pages); instruments (21 pages); exercises (41 pages); instrument and exercise vendors (5 pages); videos (29 pages); video distributors (4 pages); web sites (6 pages); organizations (21 pages); and conferences (9 pages). (Contains a 66-page index of all resources.) (TEJ)

Handbook of nutrition, diet and sleep Dec 24 2021 Emerging literature and research have currently shown that sleep, sleep disturbances, diet and nutrition are interlinked in

numerous ways. For example, sleep deprivation alters food intake and snacking behaviour. On the other hand, dietary restriction and obesity alter sleep. Specific nutrients such as caffeine and alcohol also affect sleep. Furthermore, variations in these relationships differ with respect to age, gender and state of health. There is a connection between sleep and disordered nutrition as defined by conditions such as diabetes and metabolic syndrome. This book demonstrates that disruptive sleep patterns can be remedied by appropriate dietary or nutritional changes including the usage of supplements. The contribution of sleep to our daily lives is not yet fully understood, but it is clear that its impact should not be underestimated. This handbook discusses the important relationship between diet and nutrition and disruptive or abnormal sleep in the sub-clinical or clinical setting. Authorities in the field offer a wide range of scientifically sound perspectives and approaches of the link between sleep, nutrition and diet.
