**Power Maths Year 6 Textbook 6A** Dec 23 2021 The whole-class mastery approach that works for every child. Underpinned by the most effective teaching practices, and created by a team of mastery experts led by Series Editor Tony Stanef. Power Maths is designed to make the whole-class mastery teaching approach work for you, your children and your school. The powerful lesson structure of Power Maths comes to life through the high-quality textbooks. They provide a coherent structure through the curriculum and support children on their journey to deeper understanding. The textbooks set out the core learning objectives for the whole class. 'Discover', 'Share' and 'Think Together' sections help promote discussion and ensure mathematical ideas are introduced to children in a logical way to support conceptual understanding. Engaging contexts for problem solving help children to discover patterns and concepts for themselves in a meaningful way. Clear mathematical structures and representations (using the Concrete-Pictorial-Abstract approach) ensure children make connections and grasp concepts. Lovable characters prompt and question children to promote reasoning skills and help to build a growth mindset.

*The RIA's Compliance Solution Book* Jun 24 2019 Registered investment advisers are accustomed to regulatory scrutiny. But the pressure to understand changing compliance regulations and to meet the requirements they impose has never been more intense. A range of scandals and abuses—from the laundering of terrorist funds to mutual fund trading shenanigans—has caused the Securities and Exchange Commission to tighten regulation and step up enforcement. Unfortunately, definitive compliance information—the kind that can save advisers precious time and spare them serious trouble—has not been easy to find. Until now. The RIA's Compliance Solution Book gathers the information needed most and puts it all in one place. Here advisers will find plain-English translations of the rules that regulate such issues as: advisory contracts and fees advertising and client communications RIA compliance programs and codes of ethics custody of customer accounts completing, filing, and amending Form ADV selecting brokers and executing trades

**New Trends in Language Acquisition Within the Generative Perspective** May 04 2020 This book presents a comprehensive, state-of-the-art treatment of the acquisition of Indo- and Non-Indo-European languages in various contexts, such as L1, L2, L3/Ln, bi/multilingual, heritage languages, pathology as well as language impairment, and sign language acquisition. The book explores a broad mix of methodologies and issues in contemporary research. The text presents original research from several different perspectives, and provides a basis for dialogue between researchers working on diverse projects with the aim of furthering our understanding of how languages are acquired. The book proposes and refines new theoretical constructs, e.g. regarding the complexity of linguistic features as a relevant factor forming children's, adults' and bilingual individuals' acquisition of morphological, syntactic, discursive, pragmatic, lexical and phonological structures. It appeals to students, researchers, and professionals in the field.
