Moving into the Ecumenical Future Mar 22 2022 Moving into the Ecumenical Future identifies some necessary "foundations" of any paradigm for Ecumenical Ethics. It emphasizes the guidance of the Holy Spirit, the teaching and example of Jesus, biblical foundations, and pastoral relationships in developing paradigms for Ecumenical Ethics. The book suggests that virtue ethics is an important paradigm that includes these elements. The text explores how the Faith and Order "Tool," Receptive Ecumenism, Differentiated Consensus, Internal Polarities, and Spiritual Discernment can be used to move toward moral consensus. The author calls for a national or international task force to explore these foundations in greater depth.

Pass the Peace Oct 17 2021 Are you dissatisfied with the church, unsure of how to think about the Holy Spirit's power in light of the evil in our world, or wishing that worship engaged your imagination? In *Pass the Peace: A New Paradigm for Christian Community*, Dr. Chet B. Gean translates Christian theology into meaningful practice. Pastors and laypersons are encouraged to: Apply spiritual practices and disciplines. Define and work with parish dynamics. Harness the power of the Holy Spirit. Unmask evil in the world. Engage imagination in worship. Transform grace into service. Dr. Gean, denominational leader and church consultant, calls for a new paradigm of church leadership and community involvement. His message embraces the mystical energy of God, transcending religious institutions and flowing freely into the world that we are called to serve. His is a call to peace; to the mystery of inner healing; to wholeness; and to our God, who alone loves in a manner unique and perfectly suited to each one of us. Gean discloses his love, respect, and solicitude for the church in *Pass the Peace*. His book opens a new paradigm for pastoral ministry, through which he draws both church leadership and laity into a more immediate spirituality of living in God's presence. -Dr. Herman C. Waetjen, Robert S. Dollar Emeritus Professor of New Testament San Francisco Theological Seminary *Pass the Peace* gives the community-called church a new resource as it engages in the creative process of constructing its future. - Rev. Dave Brown, Immanuel Presbyterian Church, Tacoma, WA

[Relational Spirituality](#) Mar 10 2021 Human beings are fundamentally relational—we develop, heal, and grow through relationships. Integrating insights from psychology and theology, Todd W. Hall and M. Elizabeth Lewis Hall present a definitive model of spiritual transformation based on a relational paradigm, showing how transformation works practically in the context of relationships and community.

[A New Christian Paradigm](#) Aug 27 2022 Dr Carter argues that the church that Protestant missionaries planted in the non-Western World can no longer be adequately described as a Protestant church. Instead, it has produced what is effectively a new way of understanding Christian truth. This new paradigm, recently emerged from Protestantism, shares much in common with Protestantism, but also embraces a host of theologies and ecclesiologies that reflect developments distinct from those that produced the Reformation. Dr Carter traces the origins of this new theological paradigm and argues that it will largely determine the future of non-Western Christianity.

[The Jesus Paradigm](#) Jan 28 2020 The church is in disarray. Theologians and commentators speak of the demise of evangelicalism. Are they alarmists? Is Christianity as we know it in the process of dying? Writer, scholar, teacher, and missionary Dr. David Alan Black thinks that the answer does not lie in the politics of the left or the right. In fact, he doesn't think that Jesus tells us what our politics should be. He doesn't see answers in Christian nationalism. But even further, he sees serious flaws in the very structure of our churches and denominations that prevent us from truly being obedient to the gospel. The solution lies, not in renewal, revival, or even in reformation, but rather in restoration—a restoration of the church organized as Jesus intended it and according to the example provided by the earliest church sources in the New Testament. To make the church and its members true servants of Jesus Christ again, we need to change our entire paradigm—to The Jesus Paradigm.

A New Dawn for Christianity. . . Jul 14 2021 Many, if not most, Christians are unaware of the advancements made in Biblical knowledge during the past two hundred years. A NEW DAWN FOR CHRISTIANITY explores this fascinating and revealing knowledge which is taught in colleges and seminaries, but seldom spoken from the pulpit. Recent surveys show that this knowledge gap is the leading cause of the decline of Christianity in the United States. The authors of A NEW DAWN FOR CHRISTIANITY have: (1) brilliantly explained the roots of this problem; (2) suggested what today's Christians might do to overcome the situation; and (3) recommended several resources for both Clergy and laity to introduce this new knowledge to their congregation in a non-threatening ways.

Paradigm Shift: Why International Students Are so Strategic to Global Missions Mar 30 2020 It is of strategic importance for international students and scholars to come under the umbrella of global missions. The author is convinced there is need for a paradigm shift in global missions. With over one million international students from practically every country on the face of the earth, many being Christian, having come to the U.S. for their higher education, we cannot afford to waste this golden opportunity. Reasons will be provided why this is our divine "moment" in history for Christian leadership to rise up and take action. The potential is there for us to create a tremendous impact for Christ on nations which in the past have been difficult to reach. God works in mysterious ways and this has to be one of them. It is imperative that we get with God's program and focus on: • identifying Christian international students soon after their arrival on campus. • training them Biblically and theologically. • equipping them for their return home. • following them up after their return with support. Documentation is provided, some from missionaries themselves, showing that properly trained Christian international students after returning home are much more effective than traditional foreign missionaries. Reasons why are clearly and with great conviction provided. However, we still need traditional foreign missionaries because of the fields being white unto harvest but the laborers are few. The reader will be fascinated by the illustrations of those Christian international students who returned home to accomplish feats for God on a scale that never before had been thought possible.

Jesus and Christian Origins Nov 25 2019 There has been a varied range of studies on Jesus. Though now it seems there is a pause and perhaps opening to new orientation, with the aim not simply to cover old ground or repeat past mistakes. This is a study of Jesus and Christian origins with a primary focus on the Gospels. There have been comprehensive and important contributions, like N. T. Wright's The New Testament and the People of God. At the same time, more defined studies have appeared. The purpose here is not to develop particular New Testament themes as such. Rather, in this volume the writers take up Gospel related topics in the context of the early church in order to illuminate specific baselines for New Testament interpretation and to discern directions toward a new paradigm. There is much to do. The need to take account of reception history and so of the "external evidence" for the New Testament documents; also eyewitness and oral

tradition as embodied in the Gospel accounts. The genre of the Gospels with reference to biography or history has its own importance. The reception and "authority" of the Gospels in the early church marks another baseline. Jesus in his Jewish context and in relation to emerging Christianity is also a critical baseline for interpretation.

Wisdom and Eloquence Sep 28 2022 Defines the purpose of teaching liberal arts and explores the methods and content of Christian education.

The Beauty of the Cross Jun 20 2019 From the earliest period of its existence, Christianity has been recognized as the "religion of the cross." Some of the great monuments of Western art are representations of the brutal torture and execution of Christ. Despite the horror of crucifixion, we often find such images beautiful. The beauty of the cross expresses the central paradox of Christian faith: the cross of Christ's execution is the symbol of God's victory over death and sin. The cross as an aesthetic object and as a means of devotion corresponds to the mystery of God's wisdom and power manifest in suffering and apparent failure. In this volume, Richard Viladesau seeks to understand the beauty of the cross as it developed in both theology and art from their beginnings until the eve of the renaissance. He argues that art and symbolism functioned as an alternative strand of theological expression -- sometimes parallel to, sometimes interwoven with, and sometimes in tension with formal theological reflection on the meaning of the Crucifixion and its role in salvation history. Using specific works of art to epitomize particular artistic and theological paradigms, Viladesau then explores the contours of each paradigm through the works of representative theologians as well as liturgical, poetic, artistic, and musical sources. The beauty of the cross is examined from Patristic theology and the earliest representations of the Logos on the cross, to the monastic theology of victory and the Romanesque crucified "majesty," to the Anselmian "revolution" that centered theological and artistic attention on the suffering humanity of Jesus, and finally to the breakdown of the high scholastic theology of the redemption in empirically concentrated nominalism and the beginnings of naturalism in art. By examining the relationship between aesthetic and conceptual theology, Viladesau deepens our understanding of the foremost symbol of Christianity. This volume makes an important contribution to an emerging field, breaking new ground in theological aesthetics. The Beauty of the Cross is a valuable resource for scholars, students, and anyone interested in the passion of Christ and its representation.

Nietzsche Was Probably Right: A Postcritical Assessment of the Christian Paradigm and Its Deity Jul 26 2022 For a variety of reasons, recent literature that focuses on the rationality of belief in God and the viability of the Christian worldview fails to stimulate critical thinking in the general population of believers. Nietzsche Was Probably Right succeeds where many of these other works miss the mark. It educates rather than coerces; it focuses on issues critically relevant to the vast majority of Christians; most importantly, it does not "preach to the choir," but instead offers a balanced, objective, comprehensive overview of the issues. Its tone and inclusive, unbiased approach welcomes nonbelievers and believers into this important conversation, offering a perspective that will satisfy anyone seeking a critical understanding of the Christian faith and its deity.

Christological Paradigm Shifts in Prophetic Pentecostalism in South Africa Aug 15 2021 This book explores recent developments in South African Pentecostalism, focusing on new prophetic churches. The chapters engage with a number of paradigm shifts in Christology, identified as complementing Christ, competing with Christ, removing Christ and replacing Christ. What are the implications of these shifts? Does it mean that believers no longer believe in Christ but in their leaders? Does it shift believers' faith towards materiality than the person of Christ? This volume will be valuable for scholars of African Christianity and in particular those interested in the neo-prophetic movement and Christology in a South African context.

The Jesus Paradigm Nov 18 2021 The church is in disarray. Theologians and commentators speak of the demise of evangelicalism. Are they alarmists? The New Covenant as a Paradigm for Optimal Relations Jul 22 2019 The New Covenant as a Paradigm for Optimal Relations regards the New Covenant primarily as a gracious and merciful redemptive deal, springing from God's unilateral, unconditional, and proactive initiative. The New Covenant is adopted as representing both a salvific and an exemplary paradigm that displays God's gracious and merciful ways toward his children. Ten discrete, yet interwoven principles are extracted from, interpreted, and abstracted from Scriptures pertaining to the promised New Covenant. These principles apply to those who, as dearly beloved children, are invited to imitate God's loving ways. God's manner of love defines the foundational basis from which the author derives and elaborates the propositions that guide the considerations pertaining to thoughts, feelings, motivations, and behaviors that enter into play in relational transactions. In terms of style, an architectural design permeates the content of this book, offering and encompassing a metacognitive view of God's covenantal ways: a top-down perspective that applies to bottom-up endeavors of relational nature. The challenges posed by our cultural, postmodern trends--devoid of absolute principles and lacking a moral compass--are countered and addressed by the author in insightful fashion, offering theologically-based guidelines integrated to sound psychological principles, applicable to psychotherapeutic and counseling endeavors as well as to pastoral care.

Developing a Kingdom Paradigm Jul 02 2020 Want to understand the scriptures, not just what you have been taught? Want to apply the scriptures as they were intended? Want to understand the differences between your religious perspective and others? This book's for you.

The Oxford Handbook of the Epistemology of Theology Aug 23 2019 This work features forty-one original essays which reflect a broad range of perspectives and methodological assumptions. It focuses on standard epistemic concepts that are usually thought of as questions about norms and sources of theology (including reasoning, experience, tradition, scripture, and revelation). Furthermore it explores general epistemic concepts that can be related to theology (i.e. wisdom, understanding, virtue, evidence, testimony, scepticism, and disagreement). Each chapter provides an analysis of the crucial issues and debates while identifying and articulating the relevant epistemic considerations. This work will stimulate future research.

Why Christians Should Not Tithe May 12 2021 The premise of Why Christians Should Not Tithe is simple: God, having freed his people from

the Law through faith in Jesus Christ, does not place on them a burden from the Law. The thesis is equally as simple: Christian giving is not a tithe. Christ challenges the believer to give himself and his possessions to the gospel cause, but the tithe fixes a limit and implies nothing more is needed. *Why Christians Should Not Tithe* is a thorough discussion of the four tithes in Moses' Law, Jesus' comments on tithing, and the twenty-one principles of giving developed by the apostles' in Acts and the epistles. Included is a brief review of the history of tithing from post-apostolic times to the present. The book concludes with a new paradigm for giving not based on the tithe, but on the apostles' doctrine of Christian giving. Should Christians tithe to support the gospel? Here is a study that will help every Christian discover the biblical answer for him or her self.

Teaching Science So that Students Learn Science Sep 04 2020

Towards an Ecumenical Paradigm for Christian Mission May 24 2022 Toward this visionary paradigm, the ecclesiological basis has a crucial task. As sacrament the Church is the sign and instrument for the coming unity of humankind. In this respect, an adequate ecclesiology has to present the Church as the Church for others. The Church's existence must reveal the Kingdom of God, not only as the fulfillment of the Church but also as the future of the world. This vision is not so far above; if theology is considered as a science through which God becomes comprehensible and accessible to people of all cultural and religious backgrounds. Thus, the author creates a new paradigm for Christian Mission which could be stated in the words of Pope Benedict, As Christians we should never limit ourselves to asking how I can save myself. We should also ask: what can I do in order that the others may be saved and that for them too the star of hope may rise? Then I shall have done my utmost for my personal salvation as well³. This paradigm applies not merely to an individual Christian but to all churches that are engrossed in preserving their identity and their 'narrow' missions. Documenta Missionalia is pleased to present this work, which was originally submitted as a doctoral thesis at Pontifical University Gregorian. Paulus Y Pham has made some necessary changes for the publication. I am convinced that this book, since it highlights the common approaches to mission, will be of great inspiration and help for all Christians who in theoria and praxis prolong *missio Dei* in our modern world toward the universal Lordship Christ which would be expressed in His Kingdom. Christopher Shelke, S.J.

The Future of Christian Mission in India Apr 23 2022 Colonial missionaries, both Catholic and Protestant, arrived in India with the grandiose vision of converting the pagans because, like St. Peter (Acts 4:12) and most of the church fathers, they honestly believed that there is no salvation outside the church (*extra ecclesiam nulla salus*). At the end of the "great Protestant century," however, Christians made up less than 3 percent of the population in India, and the hope of the missionary was nearly shattered. But if one looks at mission in India qualitatively rather than quantitatively, one sees a number of positive outcomes. Missionaries in India, particularly Protestant missionaries espousing the social gospel, in collaboration with a few British evangelical administrators, dared to challenge numerous social evils and even began to eradicate them. The scientific and liberal English education began to enlighten and transform the Indian mindset. Converts belonging to the upper caste, although small in number, laid the foundation stone of Indian theology and an inculturated church using Indian genius. The end of colonialism in India coincided with the painful death of colonial mission theology. Now, the power of the Word of God, extricated from political power, is slowly and peacefully gaining ground, like the mustard seed of the parable. A paradigm shift from the ecclesio-centric mission to *missio Dei* offers reason for further optimism. In short, the future of mission in India is as bright as the kingdom of God. In today's new context, theologians, despite objections from some quarters, are struggling to discover the Asian face of Jesus, disfigured by the Greco-Roman Church. And the missionary is challenged to become a living Bible that, undoubtedly, everyone will read.

Moral Transformation Oct 29 2022 Recent scholarship has challenged post-Reformation ideas about the early Christian doctrines of salvation. This ground-breaking book draws together the conclusions of recent scholarship into a compelling and clear view of the early Christian paradigm of salvation. It presents the case that the early Christians focussed not on Christ's death on the cross or 'saving faith', but on moral transformation. They saw Jesus as God's appointed teacher, prophet, and leader, who died as a martyr in order to teach them a new way of life. Their paradigm of salvation centred upon this way of life taught by Jesus, and on following faithfully his example and teachings. Part 1: 'How the Gospels present Jesus' explores the way in which the early Christians understood the teaching of Jesus. It highlights five themes of Jesus' message: economics and wealth, moral purity, social equality, the temple system, and physical and spiritual affliction. It shows why people viewed Jesus as a divinely appointed teacher, prophet, and leader, and saw his death as a martyrdom for his cause and movement. Part 2: 'Doctrines of the early Christians' presents the key early Christian doctrines of salvation and shows why several post-Reformation doctrines conflict with their views. It shows that the early Christians believed God's final judgment is made on the basis of character and conduct. They believed that by following Jesus and transforming their lives morally, they would obtain positive judgment and resurrection. This part shows how the early Christians' ideas of faith, justification, forgiveness and grace all fit into this paradigm. Part 3: 'The importance of Jesus' looks at why the early Christians considered Jesus so significant; they focussed on the moral transformation he brought to their lives. This part highlights what they believed Jesus achieved for them, and how they used sacrificial language to explain these beliefs. It explores the evidence for viewing Jesus' death as a martyrdom, and for seeing his resurrection as equally important. Part 4: 'Ideas throughout history' shows that Christians held this paradigm of salvation for several centuries. It outlines the key changes that occurred from the 4th century through to the Reformation, which moved tradition away from the early Christian ideas. Finally, it offers a critique of modern post-Reformation doctrines of salvation.

Capitalism & Christianity Apr 30 2020 Laskias book wrestles with the ahypocrisya of Christians as business types. While coming very close to suggesting an impossible relationship between the business world and the Christian establishment, Laski cleverly leaves some room to maneuver. Capitalizing on the differing forms of capitalism suggested by Michael Moffett, and allowing that the Christian paradigm is unlikely to bend, he holds out an olive branch of sorts]which includes taking a good, hard, introspective look at the behaviors and relationships of both paradigms as they relate to each other.
