Deliciae Fictiles V. Networks and Workshops Apr 25 2022 Temples are the most prestigious buildings in the urban landscape of ancient Italy, emerging within a network of centres of the then-known Mediterranean world. Notwithstanding the fragmentary condition of the buildings' remains, these monuments – and especially their richly decorated roofs – are crucial sources of information on the constitution of political, social and craft identities, acting as agents in displaying the meaning of images. The subject of this volume is thematic and includes material from the Eastern Mediterranean (including Greece

and Turkey). Contributors discuss the network between patron elites and specialized craft communities that were responsible for the sophisticated terracotta decoration of temples in Italy between 600 and 100 BC, focusing on the mobility of craft people and craft traditions and techniques, asking how images, iconographies, practices and materials can be used to explain the organization of ancient production, distribution and consumption. Special attention has been given to relations with the Eastern Mediterranean (Greece and Anatolia). Investigating craft communities, workshop organizations and networks has never been thoroughly undertaken for this period and region, nor for this exceptionally rich category of materials, or for the craftspeople producing the architectural terracottas. Papers in this volume aim to improve our understanding of roof production and construction in this period, to reveal relationships between main production centres, and to study the possible influences of immigrant craftspeople.

Historical Painting Techniques, Materials, and Studio Practice Sep 18 2021 Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled "Historical Painting Techniques, Materials, and Studio Practice" at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.

Pity the Reader Jan 23 2022 “A rich, generous book about writing and reading and Kurt Vonnegut as writer, teacher, and friend . . . Every page brings pleasure and insight.”—Gail Godwin, New York Times bestselling author Here is an entirely new side of Kurt Vonnegut, Vonnegut as a teacher of writing. Of course he’s given us glimpses before, with aphorisms and

short essays and articles and in his speeches. But never before has an entire book been devoted to Kurt Vonnegut the teacher. Here is pretty much everything Vonnegut ever said or wrote having to do with the writing art and craft, altogether a healing, a nourishing expedition. His former student, Suzanne McConnell, has outfitted us for the journey, and in these 37 chapters covers the waterfront of how one American writer brought himself to the pinnacle of the writing art, and we can all benefit as a result. Kurt Vonnegut was one of the few grandmasters of American literature, whose novels continue to influence new generations about the ways in which our imaginations can help us to live. Few aspects of his contribution have not been plumbed—fourteen novels, collections of his speeches, his essays, his letters, his plays—so this fresh view of him is a bonanza for writers and readers and Vonnegut fans everywhere. “Part homage, part memoir, and a 100% guide to making art with words, *Pity the Reader: On Writing with Style* is a simply mesmerizing book, and I cannot recommend it highly enough!”—Andre Dubus III, #1 New York Times bestselling author “The blend of memory, fact, keen observation, spellbinding descriptiveness and zany characters that populated Vonnegut’s work is on full display here.”—James McBride, National Book Award-winning author

[Critical Medical Anthropology](#) Oct 08 2020 Critical Medical Anthropology presents inspiring work from scholars doing and engaging with ethnographic research in or from Latin America, addressing themes that are central to contemporary Critical Medical Anthropology (CMA). This includes issues of inequality, embodiment of history, indigeneity, non-communicable diseases, gendered violence, migration, substance abuse, reproductive politics and judicialisation, as these relate to health. The collection of ethnographically informed research, including original theoretical contributions, reconsiders the broader relevance of CMA perspectives for addressing current global healthcare challenges from and of Latin America. It includes work spanning four countries in Latin America (Mexico, Brazil, Guatemala and Peru) as well as the trans-migratory contexts they connect and are defined by. By drawing on diverse social practices, it addresses challenges of central relevance to medical anthropology and global health, including reproduction and maternal health, sex work, rare and chronic diseases, the pharmaceutical industry and questions of agency, political economy, identity, ethnicity, and human rights.

The State Of Affairs Apr 13 2021 ***NEW YORK TIMES BESTSELLER*** Is there such a thing as an affair-proof marriage? Is it possible to love more than one person at once? Why do people cheat? Can an affair ever help a marriage? Infidelity is the ultimate betrayal. But does it have to be? Relationship therapist Esther Perel examines why people cheat, and unpacks why affairs are so traumatic; because they threaten our emotional security. In infidelity, she sees something unexpected - an expression of longing and loss. A must-read for anyone who has ever cheated or been cheated on, or who simply wants a new framework for understanding relationships. 'Esther Perel does nothing short of strip us of our deepest biases, remind us of our purpose in connecting as lovers, and save relationships that might otherwise sink into the sea-all with even-handed wisdom, fresh morality, and wise prose. Thank heavens for this woman.' - Lena Dunham 'Beautiful. A brilliantly intelligent plea for complexity, understanding, and - as always - kindness.' - Alain de Botton 'She's the guru on relationships... she's the first person I ask for advice' - Cara Delevingne 'Wisest sex therapist we ever did meet. Her new book, THE STATE OF AFFAIRS, proposes a new perspective on infidelity' - GRAZIA 'This is a must-have for all married couples and has completely changed my thinking.' - SUNDAY TIMES STYLE

Formation Of The First Black Holes Jan 11 2021 The formation of the first supermassive black holes is one of the main open questions in our understanding of high-redshift structure formation. In this book, we aim to provide a summary of state-of-the-art modern research on this topic, exploring the formation of massive black holes from a fluid-dynamical, stellar-dynamical and chemical perspective. The book thus presents a solid theoretical foundation, a comparison with current observations and future observational perspectives with upcoming missions such as the Square Kilometre Array, the European Extremely Large Telescope, the Euclid satellite as well as possible detections via gravitational waves.

Erbstein: the triumph and tragedy of football's forgotten pioneer Mar 13 2021 Ern? Egri Erbstein was one of the greatest coaches there has ever been, a pioneering tactician and supreme man-manager who created Il Grande Torino, the team that dominated Italian football in the years immediately after the Second World War. His was an extraordinary life that was characterised by courage and resourcefulness in the face of adversity. Erbstein was part of the great Jewish coaching tradition developed in the coffee houses of Budapest and, playing in Hungary, Italy and the USA, he moved to Bari to embark on a coaching career that soon became noted for its innovativeness. That he and his family survived the Holocaust was a matter of astonishing good fortune, but just four years after the end of the war, Erbstein was killed with his team in the

Superga air crash. Dominic Bliss, through a combination of interviews, painstaking archival research and careful detective work, pieces together the lost history of one of football's most influential early heroes. Like our quarterly publications, Blizzard Books will provide the same freedom as in our quarterly editions for writers to write about the football-related subjects that are important to them, be that at the highest level or the lowest, at home or abroad. Eclecticism, and the desire to provide an alternative to that which already exists, is the key.

Mini May 03 2020 Mini celebrates 60 amazing years of this iconic car, from its revolutionary introduction to the popularity

of its new-generation models. The first two-door Mini, introduced in 1959 and built until 2000, revolutionized automotive design with its innovative front-wheel-drive layout that made the car appear bigger on the inside than the outside. In 1999, the Mini was voted the second most influential car of the 20th century, behind the Ford Model T. Designed for British Motor Corporation (BMC) by Sir Alec Issigonis and manufactured in England, Australia, Spain, Belgium, Chile, Italy, Portugal, South Africa, Uruguay, Venezuela, and Yugoslavia, the Mini was as successful in competition as it was on the street, winning the Monte Carlo Rally four times from 1964 through 1967. Originally built by BMC, the Mini's later parent company, Rover, was acquired by BMW in 1994. In 2000, BMW sold most of the Rover Group but retained the Mini brand. The last and 5,387,862nd original Mini rolled off the production line in October, 2000. In July 2001, BMW launched production of the new-generation of Mini which was soon joined by Countryman, Clubman, convertible, Cooper Works, and numerous special editions. Nearly 20 years later, the new Minis remain as popular as the original from 1959.

Losing Earth Oct 20 2021 ‘Nathaniel Rich’s account starts in Washington in the 1990s and tells the story of how climate change could have been stopped back then, if only the powerful had acted. But they didn’t want to.’ – Observer By 1979, we knew all that we know now about the science of climate change – what was happening, why it was happening, and how to stop it. Over the next ten years, we had the very real opportunity to stop it. Obviously, we failed. Nathaniel Rich tells the essential story of why and how, thanks to the actions of politicians and businessmen, that failure came about. It is crucial to an understanding of where we are today. ‘The excellent and appalling Losing Earth by Nathaniel Rich describes how close we came in the 70s to dealing with the causes of global warming and how US big business and Reaganite politicians in the 80s ensured it didn’t happen. Read it.’ – John Simpson ‘An eloquent science history, and an urgent eleventh-hour call to save what can be saved.’ – Nature ‘To change the future, we must first understand our past, and Losing Earth is a crucial part of that when it comes to the environmental battles we’re facing.’ – Stylist

It happens I've found something I'd like to share, something joyous, yet unsettling, amateur, yet smart. I'm talking about Splatterpunk Zine." - Snakebite Horror

Dante's Lyric Redemption Jul 17 2021 Dante's Lyric Redemption offers a re-examination of two strongly interrelated aspects of the poet's work: the role and value he ascribes to earthly love and his relationship to the Romance lyric tradition of his time. It argues that an account of Dante's poetic journey that posits a stark division between earthly and divine love, and between the secular lyric poet and the Christian auctor, does little justice to his highly distinctive and often polemical handling of these categories. The book firstly contextualizes, traces, and accounts for Dante's intriguing commitment to love poetry, from the 'minor works' to the *Commedia*. It highlights his attempts, especially in his masterpiece, to overcome normative oppositions in formulating a uniquely redemptive vernacular poetics, one oriented towards the eternal while rooted in his affective, and indeed erotic, past. It then examines how this matter is at stake in Dante's treatment of three important lyric predecessors: Guittone d'Arezzo, Arnaut Daniel, and Folco of Marseilles. Through a detailed reading of Dante's engagement with these poets, the book illuminates his careful departure from a dualistic model of love and conversion and shows his erotic commitment to be at the heart of his claims to pre-eminence as a vernacular author.

Dosso's Fate Feb 09 2021 Dosso Dossi has long been considered one of Renaissance Italy's most intriguing artists. Although a wealth of documents chronicles his life, he remains, in many ways, an enigma, and his art continues to be as elusive as it is compelling. In *Dosso's Fate*, leading scholars from a wide range of disciplines examine the social, intellectual, and historical contexts of his art, focusing on the development of new genres of painting, questions of style and chronology, the influence of courtly culture, and the work of his collaborators, as well as his visual and literary sources and his painting technique. The result is an important and original contribution not only to literature on Dosso Dossi but also to the study of cultural history in early modern Italy.

Improving Diagnosis in Health Care Jun 03 2020 Getting the right diagnosis is a key aspect of health care - it provides an explanation of a patient's health problem and informs subsequent health care decisions. The diagnostic process is a complex, collaborative activity that involves clinical reasoning and information gathering to determine a patient's health problem. According to *Improving Diagnosis in Health Care*, diagnostic errors-inaccurate or delayed diagnoses-persist throughout all settings of care and continue to harm an unacceptable number of patients. It is likely that most people will experience at least one diagnostic error in their lifetime, sometimes with devastating consequences. Diagnostic errors may cause harm to patients by preventing or delaying appropriate treatment, providing unnecessary or harmful treatment, or resulting in psychological or financial repercussions. The committee concluded that improving the diagnostic process is not only possible, but also represents a moral, professional, and public health imperative. *Improving Diagnosis in Health Care*, a

continuation of the landmark Institute of Medicine reports *To Err Is Human* (2000) and *Crossing the Quality Chasm* (2001), finds that diagnosis-and, in particular, the occurrence of diagnostic errors"has been largely unappreciated in efforts to improve the quality and safety of health care. Without a dedicated focus on improving diagnosis, diagnostic errors will likely worsen as the delivery of health care and the diagnostic process continue to increase in complexity. Just as the diagnostic process is a collaborative activity, improving diagnosis will require collaboration and a widespread commitment to change among health care professionals, health care organizations, patients and their families, researchers, and policy makers. The recommendations of *Improving Diagnosis in Health Care* contribute to the growing momentum for change in this crucial area of health care quality and safety.

A Convenient Hatred Feb 21 2022 *A Convenient Hatred* chronicles a very particular hatred through powerful stories that allow readers to see themselves in the tarnished mirror of history. It raises important questions about the consequences of our assumptions and beliefs and the ways we,as individuals and as members of a society, make distinctions between "us" and "them," right and wrong, good and evil. These questions are both universal and particular.

People and Stories / Gente Y Cuentos Nov 28 2019 "Sarah Hirschman's book is ... really a manifesto for an approach to education that does all these more human, more important things." -Danielle Allen, Professor, Institute for Advanced Study, Princeton, New Jersey "I'd love to see *People and Stories* programs for the parents of children in every at-risk school district in the country." -Robert Hass, US Poet Laureate, 1995-1997 *People and Stories / Gente y Cuentos* describes how men and women on welfare or in rehabilitation centers, prisoners, rural workers, disadvantaged youth, or just ordinary community members are offered the chance to experience literature in a way they have not been able to in the past. Founded by Sarah Hirschman, *People and Stories / Gente y Cuentos* encompasses groups of common, often under-served adults in the United States, France, and Colombia who enjoy reading and discussing works of literature. Upon attending a seminar with the philosopher, Paulo Freire, and working with groups in New York's Lower East Side and Dorchester, Massachusetts, she created *Gente y Cuentos* in Spanish. Some years later, the English-language *People and Stories* program was added. Currently, *Gens et Recits* in French is being developed in Paris and in the southwest of France. This book describes the various influences that led to the development of this method. The clarity of the explanations and the attention to detail

should help those who want to organize similar discussion groups in their own communities."
