SWOT-Analysis of Aldi in Germany Mar 22 2022 Essay from the year 2016 in the subject Business economics - Marketing, Corporate Communication, CRM, Market Research, Social Media, grade: 1,5, Dr. Buhmann Schule gemeinnützige GmbH, language: English, abstract: In today's society time is becoming more and more limited. People run from one point to another, do many things at the same time and pay less attention to the important things in each's life. While shopping for their groceries the customer's mind is already somewhere else and the variety and quantity of the products in a supermarket are overwhelming. Many groceries used this circumstance to their advantage, and out of it created their principle of discount shopping. The basic idea of this system has its origin in the establishment of Aldi in 1913. They have the idea to make the life of customers easier by keeping shopping as uncomplicated and simple as possible. This concept has proven itself: Aldi is among the most successful discounters worldwide. The aim of this paper is to carry out a SWOT analysis on the basis of Aldi Süd with defining the company's internal strengths and weaknesses and its external opportunities and threats. Therefore, at the beginning the company will be presented and the SWOT analysis will be integrated in the concept of the strategic management. On the back of this a recommendation for the company will be created, referring to actual transitions of the brand Aldi.

Environmental Management in Practice Sep 23 2019 In recent years the topic of environmental management has become very common. In sustainable development conditions, central and local governments much more often notice the need of acting in ways that diminish negative impact on environment. Environmental management may take place on many different levels - starting from global level, e.g. climate changes, through national and regional level (environmental policy) and ending on micro level. This publication shows many examples of environmental management. The diversity of presented aspects within environmental management and approaching the subject from the perspective of various countries contributes greatly to the development of environmental management field of research.

Intelligent Information and Database Systems Nov 06 2020 This volume constitutes the refereed proceedings of the 12th Asian Conference on Intelligent Information and Database Systems, ACIIDS 2020, held in Phuket, Thailand, in March 2020. The total of 50 full papers accepted for publication in these proceedings were carefully reviewed and selected from 180 submissions. The papers are organized in the following topical sections: ?advanced big data, machine learning and data mining; industry applications of intelligent methods and systems; artificial intelligence, optimization, and databases in practical applications; intelligent applications of internet of things; recommendation and user centric applications of intelligent systems.

Apple SWOT Analysis Sep 28 2022 Research paper from the year 2013 in the subject Business economics - Business Management, Corporate Governance, grade: A+, Webster University, course: BUSN 6120-2R, language: English, abstract: When reflecting on technology, and the progress that we have made in the last ten years, it is hard to imagine where we would be today without it. We as a society have integrated technology into our lives every single day. A large part of this is due to the ability to connect to the world with our fingertips whenever and wherever we may be. Whether we are surfing the web, listening to music, face timing with our friends and or loved ones, or simply checking in on our social networks. Technology has become a norm and a hygiene factor of our society that most of us could not live without. Apple Inc. and its former CEO, Steve Jobs deserve a substantial amount of credit for these changes. They have led the way in innovation, user friendliness, and ascetically pleasing products that many have tried to contend with and have had no success. Apple Inc. has created a brand so powerful,

that their products themselves have become fashionable and almost a never-ending trend. Their brand loyalty is so deep that consumers will stand in lines for not hours but, days awaiting the release of the newest product, even if the changes that are made to it are minimal. They are the first and only company to create a line of products that seamlessly integrate together, and are accessible anywhere with a cellphone signal. However, many question the company's viability due to the recent passing of former CEO Steve Jobs. Will Apple Inc. be able to continue in its predecessor's footsteps? Or will Apple Inc. dwindle away like last years fashion trend? This paper will examine Apple Inc. using a SWOT Analysis, and will bring to light Apple Inc. areas of strengths, weaknesses, opportunities and threats.

Metal Matrix Composites Aug 27 2022 Metal Matrix Composites (MMC) are materials that can be tailored to achieve specific properties, influenced by fabrication techniques. "Metal Matrix Composites: Fabrication, Production and 3D Printing" cover various aspects of fabrication, production and new manufacturing techniques including research and development. It includes conventional fabrication techniques and methods required to synthesize micro/nano MMCs. Multivariate approach required to optimize production including development of complex geometries is explained as well. Features: Provides in-depth information on fabrication, production, and advanced manufacturing of Metal Matrix Composites (MMCs). Details about matrix, reinforcement, and application-oriented fabrication processes. Emphasizes on advance processing methods like metal 3D printing, additive and subtractive manufacturing techniques. Provides comprehensive record of fabrication development in MMCs. Focus on materials and application-based processing techniques. This book aims at graduate students, researchers and professionals in micro/nano science and technology, mechanical engineering, industrial engineering, metallurgy, and composites.

Sustainable Development and Planning VIII Apr 23 2022 The 8th International Conference on Sustainable Development and Planning is part of a series of biennial conferences on the topic of sustainable regional development which began in Greece in 2003. The papers included in these proceedings report on the latest advances from scientists specialising in the range of subjects included within sustainable development and planning. Planners, environmentalists, architects, engineers, policy makers and economists have to work together in order to ensure that planning and development can meet our present needs without compromising the ability of future generations. The use of modern technologies in planning gives us new potential to monitor and prevent environmental degradation. Problems related to development and planning, which affect both rural and urban areas, are present in all regions of the world and accelerated urbanisation has resulted in both the deterioration of the environment and quality of life. Urban development can also intensify problems faced by rural areas such as forests, mountain regions and coastal areas, which urgently require solutions in order to avoid irreversible damage. The papers in the book cover the following topics: City planning; Regional planning; Rural developments; Sustainability and the built environment; Sustainability indicators; Policies and planning; Environmental planning and management; Energy resources; Cultural heritage; Quality of life; Community planning and resilience; Sustainable solutions in emerging countries; Sustainable tourism; Learning from nature; Transportation Social and political issues and Community planning.

Effect of Operational Variables on Nitrogen Transformations in Duckweed Stabilization Ponds Aug 03 2020 There is an urgent need to develop and improve low cost technologies for wastewater treatment. Simultaneously treating wastewater and producing duckweed in a pond system is, therefore, an attractive solution contributing to both environmental protection and food production. Duckweed has excellent qualities: a high protein content, a high growth rate and is an easy crop to handle. The small plant turns nitrogen from wastewater into a food source. This thesis reports on the effect of different operational variables, like anaerobic pre-treatment, the combination of algae and duckweed ponds and pond depth. Improved nitrogen removal was obtained through the combination of duckweed ponds with algae ponds. Duckweed pond systems could be designed with shallow depth without affecting nitrogen removal efficiency. This research is the result of the cooperative effort between the EIDENAR, Univalle, Cali, Colombia and the UNESCO-IHE Institute for Water Education in Delft, the Netherlands.

Proceedings of the 19th International Symposium on Advancement of Construction Management and Real Estate Jun 01 2020 These conference proceedings cover an outstanding view for academics and professionals to share research findings on the latest developments in real estate and construction management. The Chinese Research Institute of Construction Management (CRIOCM) in collaboration with Chongqing University organized CRIOCM2014, the 19th International Symposium on "Advancement of Construction Management and Real Estate." The proceedings collect 105 selected papers addressing the following key themes: Sustainable Urbanization, Sustainable Construction, Urban Construction and Management, Affordable Housing, Urban Land Development and Utilization, Management for Large Infrastructure Projects, Green Construction Materials and Construction Waste Management, Development and Management for Mountainous Towns, Advancement of Construction Project Management, Redevelopment in Disaster Areas, Law and Policies for Construction and Real Estate, Information Technology for Construction Management and Real Estate and lastly Other Topics.

Envisioning Uncertain Futures May 12 2021 This book contains a collection of projects and scenarios dealing with new risks from emerging technologies, future peace keeping operations, and water distribution issues by combining analysis with dialogue. Special attention is paid to the methodology of narrative scenarios, and the role of imagination in the generation of these scenarios. Appearing as short stories, narrative scenarios include a great amount of explicit and implicit knowledge and they need story telling skills to become consistent, coherent as well as compelling and convincing pictures of the future.

HCI International 2022 - Late Breaking Papers. Interaction in New Media, Learning and Games Nov 18 2021 This proceedings LNCS 13517 constitutes the refereed proceedings of the 24th International Conference on Human-Computer Interaction, HCII 2022, which was held virtually as part of the 24th International Conference, HCII 2022, in June/July 2022. HCII 2022 received a total of 5583 submissions from academia, research institutes, industry, and governmental agencies from 88 countries submitted contributions, and 1276 papers and 275 posters were included in the proceedings that were published just before the start of the conference. Additionally, 296 papers and 181 posters are included in the volumes of the proceedings published after the

conference, as “Late Breaking Work” (papers and posters). The contributions thoroughly cover the entire field of human-computer interaction, addressing major advances in knowledge and effective use of computers in a variety of application areas. Apple Inc. - An Analysis Aug 15 2021 Research Paper (undergraduate) from the year 2012 in the subject Business economics - Marketing, Corporate Communication, CRM, Market Research, Social Media, grade: A, University of Kent, course: Masters of Business Administration, language: English, abstract: This paper looks at Apple Inc., which primarily operates in U.S. and involves in development, design, and marketing of computers, portable digital music players, and media devices. It evaluates the macro environment in which Apple Inc. is operating with the help of the PESTLE analysis. Next, it studies the strength and competitive positions of Apple Inc with the help of Porter’s five forces analysis. Later, a SWOT analysis is conducted to understand the micro environment of Apple Inc. Finally, Comprehensive analyses of financial ratios and share performance are conducted to understand the financial condition and the stock performance of Apple Inc.

Research Anthology on Big Data Analytics, Architectures, and Applications Dec 07 2020 Society is now completely driven by data with many industries relying on data to conduct business or basic functions within the organization. With the efficiencies that big data bring to all institutions, data is continuously being collected and analyzed. However, data sets may be too complex for traditional data-processing, and therefore, different strategies must evolve to solve the issue. The field of big data works as a valuable tool for many different industries. The *Research Anthology on Big Data Analytics, Architectures, and Applications* is a complete reference source on big data analytics that offers the latest, innovative architectures and frameworks and explores a variety of applications within various industries. Offering an international perspective, the applications discussed within this anthology feature global representation. Covering topics such as advertising curricula, driven supply chain, and smart cities, this research anthology is ideal for data scientists, data analysts, computer engineers, software engineers, technologists, government officials, managers, CEOs, professors, graduate students, researchers, and academicians.

Strategic Decision Making. Debiasing, Nudging and SWOT Analysis Dec 27 2019 Essay from the year 2020 in the subject Business economics - Business Management, Corporate Governance, grade: 1,3, University of applied sciences Frankfurt a. M., course: Strategic Management, language: English, abstract: Decision making is part of the management process. Before making decisions, certain variables are assigned to the various possible alternatives to assess their advantages. However, our decisions are far from being as rational as we think, and as classical economic theory suggests. This fact has far-reaching consequences - not only for strategic business areas such as the finance function and the management consulting function. How decisions are made, how they can be improved, and the methods involved are described in this essay. The essay is divided into two main parts. The first part includes a theoretical discussion of the process of decision making and provides an introduction to the concept of different approaches of the decision-making process in light of economic theories. The second part reflects the strategic approach to decision-making. It will be explained how neuroscience can be used and how basic management tools can be exploited; these will be explained at the example of the swot analysis. In the end, there will be a summary with a conclusion of this scientific essay.

Computer and Computing Technologies in Agriculture VII Jan 20 2022 The two-volume set IFIP AICT 419 and 420 constitutes the refereed post-conference proceedings of the 7th IFIP TC 5, WG 5.14 International Conference on Computer and Computing Technologies in Agriculture, CCTA 2013, held in Beijing, China, in September 2013. The 115 revised papers presented were carefully selected from numerous submissions. They cover a wide range of interesting theories and applications of information technology in agriculture, including Internet of things and cloud computing; simulation models and decision-support systems for agricultural production; smart sensor, monitoring, and control technology; traceability and e-commerce technology; computer vision, computer graphics, and virtual reality; the application of information and communication technology in agriculture; and universal information service technology and service systems development in rural areas.

Multiple Criteria Decision Making Aug 23 2019 The book discusses state-of-the-art applications and methodologies of the Multiple Criteria Decision Making (MCDM) techniques and approaches. The book focuses on critical literature, underlying principles of methods and models, solution approaches, testing and validation, real-world applications, case studies, etc. The book helps evaluate strategic decision-making through advanced MCDM and integrated approaches of AI, big data, and IoT to provide realistic and robust solutions to the current problems. The book will be a guideline to the potential MCDM researchers about the choice of approaches for dealing with the complexities and modalities. The contributions of the book help readers to explore new avenues leading towards multidisciplinary research discussions. This book will be interesting for engineers, scientists, and students studying/working in the related areas.

Managerial Issues in Finance and Banking Oct 17 2021 This book discusses competitive issues related to globalization, financial system and institutions from a managerial perspective. Contributions in this volume cover competitive strategies, risk management, controlling and custom finance in Finance & Banking. The novelty of the book is in demonstrating the innovative solutions to managerial issues in the global financial system. The contributions in this volume are peer-reviewed by the Society for the Study of Business and Finance?.

Selected Papers from the 8th Annual Conference of Energy Economics and Management Jul 14 2021 This collection represents successful invited submissions from the papers presented at the 8th Annual Conference of Energy Economics and Management held in Beijing, China, 22–24 September 2017. With over 500 participants, the conference was co-hosted by the Management Science Department of National Natural Science Foundation of China, the Chinese Society of Energy Economics and Management, and Renmin University of China on the subject area of “Energy Transition of China: Opportunities and Challenges”. The major strategies to transform the energy system of China to a sustainable model include energy/economic structure adjustment, resource conservation, and technology innovation. Accordingly, the conference and its associated publications encourage research to address the major issues faced in supporting the energy transition of China. Papers published in this collection cover the broad spectrum of energy economics issues, including building energy efficiency, industrial energy

demand, public policies to promote new energy technologies, power system control technology, emission reduction policies in energy-intensive industries, emission measurements of cities, energy price movement, and the impact of new energy vehicle.

Designing and Implementing a Strategic Management Concept in an High-Tech SME Oct 25 2019 Bachelor Thesis from the year 2019 in the subject Engineering - Industrial Engineering and Management, grade: 1,7, Karlsruhe Institute of Technology (KIT), language: English, abstract: Although extant literature on small and medium-sized enterprises (SMEs) suggests that strategic management positively affects organizational outcomes, evidence supporting this suggestion is limited to a few qualitative case studies. As many SMEs struggle with limited access to resources and with it no opportunity to enact a large and complex strategic management concept. This thesis develops a strategic management concept that considers these limitations. Drawing on resource-related arguments this study presents a framework for how a strategic management concept can be designed and implemented at a high-tech SME. Methods: A single case study at a German technology company was applied, in which the strategy was formulated with the strengths-, weaknesses-, opportunities- and threats- (SWOT) analysis and further, the strategy was employed with the Balanced Scorecard. Therefore, an expert interview with the chief executive officer (CEO) was conducted, and a team out of high-level employees of the enterprise was assembled to discuss the steps of the developing processes. Results: As it was possible to design and implement a framework that includes strategy -formulation and -implementation with limited resources of the case company, this study extends the literature by providing a reference case for other companies, especially SMEs. Furthermore, the paper provides evidence how the SWOT analysis and BSC theories can be applied in a practical case.

The SWOT Analysis Oct 29 2022 Seminar paper from the year 2008 in the subject Business economics - Marketing, Corporate Communication, CRM, Market Research, Social Media, grade: 1,0, University of Applied Sciences Berlin, language: English, abstract: Marketing offers numerous valuable tools to analyze a company's current situation. Though, most of them have the weakness of providing only a very isolated view that is not suitable for a long-term entrepreneurial decision. The SWOT analysis, however, pursues an integrated approach including key company and environmental variables. The objective is the confrontation of the company's internal strengths and its weaknesses as well as company-external business opportunities and risks in order to generate possible strategic options. The SWOT analysis particularly supports a combined and integrated approach of the current company situation enabling well-balanced and comprehensive decisions. One main benefit is thus the reduction of complexity through the integrated approach, leaving the key factors and strategies as analytical residue. In practice, the SWOT method is a well established tool to analyze business units in larger companies and smaller start-ups in particular during their launch. The SWOT analysis though reveals limited possibilities when analyzing all business units of large companies. For this task other, more holistic, approaches as the share-holder-value concept or the portfolio analysis are appropriate. However, this large field of tools will not be treated in this assignment. The SWOT analysis is though, despite its disadvantages, one of the most important instruments for the internal analysis of a company's situation that - in every case - delivers a pretty comprehensive and resilient foundation for further entrepreneurial decisions and strategic planning.

Oswaal ISC English Paper-1, English Paper-2, Accountancy, Economics & Business Studies Class 11 Sample Question Papers (Set of 5 Books) (For 2023 Exam) May 24 2022 The ISC Class 11 sample Paper for English Paper-1, English Paper-2, Accountancy, Economics & Business Studies 2022-2023 is considered by an expert panel to be one of the best ISC reference books for class 11 English Paper-1, English Paper-2, Accountancy, Economics & Business Studies exam. It includes MCQs & objective type questions for ample practice. Students of class 11 shouldn't leave any stone unturned, and therefore this is the best ISC reference book for class 11 English Paper-1, English Paper-2, Accountancy, Economics & Business Studies exam as it's curated with latest ISC specimen papers. The ISC Class 11 sample Paper for English Paper-1, English Paper-2, Accountancy, Economics & Business Studies 2022-2023 includes 10 sample question paper which are further divided into 5 solved and 5 self-assessment papers which are strictly designed as per the latest CISCE syllabus & board specimen paper making it the best ISC reference book for class 11 English Paper-1, English Paper-2, Accountancy, Economics & Business Studies exam. On top of that, the ISC Class 11 sample Paper for English Paper-1, English Paper-2, Accountancy, Economics & Business Studies 2022-2023 on-tips notes and revision notes for 1000+ concepts for quick and advanced revision. The ISC Class 11 sample Paper for English Paper-1, English Paper-2, Accountancy, Economics & Business Studies 2022-2023 also contains Mind Maps and Mnemonics for robust learning to prepare for ISC class 11 exams 2023. This best ISC reference book for the class 11 English Paper-1, English Paper-2, Accountancy, Economics & Business Studies exam contains 200+ MCQs and objective-type questions for robust practice and score maximum in the ISC exam. It contains proper explanations for all the ISC exam questions that students might encounter in exams. The ISC Class 11 sample Paper for English Paper-1, English Paper-2, Accountancy, Economics & Business Studies 2022-2023 will assist in understanding the dos and don'ts for the ISC class 11 exams. This ISC reference book for the class 11 English Paper-1, English Paper-2, Accountancy, Economics & Business Studies exam provides a holistic approach toward learning, and therefore, enhances the preparation level of students making it the best ISC Class 11 sample Paper for English Paper-1, English Paper-2, Accountancy, Economics & Business Studies 2022-2023

Kodak, Fight to Revive. SWOT Analysis and Strategy Plan Jun 25 2022 Seminar paper from the year 2012 in the subject Business economics - Business Management, Corporate Governance, University of Southern California, language: English, abstract: In this paper, we first use SWOT Analysis and Porter's five-force analysis to fully analyze Kodak's current position in the market. In addition, we discuss financial strategy, marketing strategy and several suggestions on the changing of company culture. Globalization and shifts in technology have changed the thinking of consumers. Digital cameras and cell phones have created a shift in the way most people take pictures and retrieve their photos. Kodak failed in reinventing the company's core business model successfully during the past few years. The growth of new core business didn't make up the effects of Kodak's fast-fading film revenues. Kodak is currently in serious financial trouble: quickly going through cash, selling patents and accessing credit lines. We are facing a difficult task in what can be considered one of the hardest financial times Kodak has ever

been through.

Life Skills and Career Coaching for Teens Feb 21 2022 Setting out a year-long curriculum based programme for education and youth professionals, this book provides a challenging and engaging workshop-based approach to developing school engagement and ambitions in young people aged 11-18. The programme, which is informed by CBT, helps professionals to understand barriers to young people's school engagement and learning. It outlines a case for a practical, well-rounded curriculum that readies students for life post-education through eight core themes, including 'believing in me', 'money matters' and 'business basics'. The second part of the book is a photocopiable manual for use in classroom settings, making this an essential, hands-on manual for nurturing young people's life skills.

SWOT Analysis of Netflix Mar 10 2021

Psychologists Magazine April 2022 issue Feb 27 2020 Psychologists is a Mental Health Magazine that offers a wide range of awareness and knowledge about Mental health published by Utsaah Psychological Services. Reliable & authentic source of expert advice from renowned Mental Health professionals in India.

Proceedings of the Ninth International Conference on Management Science and Engineering Management Jul 22 2019

This is the Proceedings of the Ninth International Conference on Management Science and Engineering Management (ICMSEM) held from July 21-23, 2015 at Karlsruhe, Germany. The goals of the conference are to foster international research collaborations in Management Science and Engineering Management as well as to provide a forum to present current findings. These proceedings cover various areas in management science and engineering management. It focuses on the identification of management science problems in engineering and innovatively using management theory and methods to solve engineering problems effectively. It also establishes a new management theory and methods based on experience of new management issues in engineering. Readers interested in the fields of management science and engineering management will benefit from the latest cutting-edge innovations and research advances presented in these proceedings and will find new ideas and research directions. A total number of 132 papers from 15 countries are selected for the proceedings by the conference scientific committee through rigorous referee review. The selected papers in the first volume are focused on Intelligent System and Management Science covering areas of Intelligent Systems, Logistics Engineering, Information Technology and Risk Management. The selected papers in the second volume are focused on Computing and Engineering Management covering areas of Computing Methodology, Project Management, Industrial Engineering and Decision Making Systems.

Advances in Artificial Systems for Logistics Engineering Jun 20 2019 The book comprises high-quality refereed research papers presented at the Second International Conference on Artificial Intelligence and Logistics Engineering (ICAILE2022), held in Kyiv, Ukraine, on February 20–22, 2022, organized jointly by the National Technical University of Ukraine "Igor Sikorsky Kyiv Polytechnic Institute," Wuhan University of Technology, Nanning University, National Aviation University, and the International Research Association of Modern Education and Computer Science. The topics discussed in the book include state-of-the-art papers in artificial intelligence and logistics engineering. It is an excellent source of references for researchers, graduate students, engineers, management practitioners, and undergraduate students interested in artificial intelligence and its applications in logistics engineering.

Forests for Public Health Jun 13 2021 Forests have diverse values and functions that produce not only material products, but also non-material services. The health functions provided by forests have been used for a very long time, but they have only been emphasized in many fields of society in recent years. The rapid increase in urbanization and the problems of stress, sedentary occupations, and hazardous urban environmental conditions due to modern life may be factors that place great demand on forests' health functions. Scientific research has shown that there are various psychological and physiological human health benefits of exposure to forests, parks, and green spaces. This collection of papers highlights up-to-date findings and evidence to reveal the beneficial effects of forests on human and public health. The findings provided here can be implemented in practice and policy using forests and nature for human and public health.

Tighten The Screws Mar 30 2020 “Both of them are such wonderful individuals. I really do not understand why they are getting divorced.” “We have 1.3 billion people, but we don’t even have a decent football team to qualify for the FIFA World Cup.” “She is so intelligent, well-qualified and hardworking but why is she not getting promoted?” “There was so much hue and cry after the Nirbhaya case followed by tough anti-rape laws and strictures, but I don’t think there has been any impact.” Why is it that well-thought-out plans of capable individuals, institutions and organisations fail to take off? Why is it that well-intended ideas with clear benefits find no takers? Why do we find it challenging to follow laws knowing well the dire consequences of not doing so? 80% of the problems in electrical circuits are due to loose connections. All you need to do is to Tighten the Screws. Is it possible that most challenging personal and global issues can also be solved by a bit of tightening of the screws? Maybe. Maybe not. No harm in trying though. Eh!

The Emotional Intelligence in Action Activities Guide Dec 19 2021 Emotional Intelligence has been proven to be key to leadership success. In this book, EI expert Marcia Hughes provides a broad array of activities for developing EI in both the coaching and team environment. All of these activities have stood the test of time and will help trainers at all levels engage the learner in active, experiential learning. Additionally, there are introductions to each activity that provide tips and techniques that will ensure success every time. The activities are organized with separate sections for individual coaching and team development.

Sweet November Feb 09 2021 This has been a journey of self-love, hope, peace, and love. The main character was named after my late brother Montierre who passed away at a very young age. This book is dedicated to my friend who passed away, I hope you rest in paradise.

Business, Economics, Financial Sciences, and Management Jan 28 2020 A series of papers on business, economics, and financial sciences, management selected from International Conference on Business, Economics, and Financial Sciences,

Management are included in this volume. Management in all business and organizational activities is the act of getting people together to accomplish desired goals and objectives using available resources efficiently and effectively. Management comprises planning, organizing, staffing, leading or directing, and controlling an organization (a group of one or more people or entities) or effort for the purpose of accomplishing a goal. Resourcing encompasses the deployment and manipulation of human resources, financial resources, technological resources and natural resources. The proceedings of BEFM2011 focuses on the various aspects of advances in Business, Economics, and Financial Sciences, Management and provides a chance for academic and industry professionals to discuss recent progress in the area of Business, Economics, and Financial Sciences, Management. It is hoped that the present book will be useful to experts and professors, both specialists and graduate students in the related fields.

Proceedings of the Eighth International Conference on Management Science and Engineering Management Oct 05 2020

This is the Proceedings of the Eighth International Conference on Management Science and Engineering Management (ICMSEM) held from July 25 to 27, 2014 at Universidade Nova de Lisboa, Lisbon, Portugal and organized by International Society of Management Science and Engineering Management (ISMSEM), Sichuan University (Chengdu, China) and Universidade Nova de Lisboa (Lisbon, Portugal). The goals of the conference are to foster international research collaborations in Management Science and Engineering Management as well as to provide a forum to present current findings. A total number of 138 papers from 14 countries are selected for the proceedings by the conference scientific committee through rigorous referee review. The selected papers in the first volume are focused on Intelligent System and Management Science covering areas of Intelligent Systems, Decision Support Systems, Manufacturing and Supply Chain Management.

Handbook Of Green Materials: Processing Technologies, Properties And Applications (In 4 Volumes) Jul 02 2020

Green materials and green nanotechnology have gained widespread interest over the last 15 years; first in academia, then in related industries in the last few years. The Handbook of Green Materials serves as reference literature for undergraduates and graduates studying materials science and engineering, composite materials, chemical engineering, bioengineering and materials physics; and for researchers, professional engineers and consultants from polymer or forest industries who encounter biobased nanomaterials, bionanocomposites, self- and direct-assembled nanostructures and green composite materials in their lines of work. This four-volume set contains material ranging from basic, background information on the fields discussed, to reports on the latest research and industrial activities, and finally the works by contributing authors who are prominent experts of the subjects they address in this set. The four volumes comprise of: The first volume explains the structure of cellulose; different sources of raw material; the isolation/separation processes of nanomaterials from different material sources; and properties and characteristics of cellulose nanofibers and nanocrystals (starch nanomaterials). Information on the different characterization methods and the most important properties of biobased nanomaterials are also covered. The industrial point of view regarding both the processability and access of these nanomaterials, as well as large scale manufacturing and their industrial application is discussed — particularly in relation to the case of the paper industry. The second volume expounds on different bionanocomposites based on cellulose nanofibers or nanocrystals and their preparation/manufacturing processes. It also provides information on different characterization methods and the most important properties of bionanocomposites, as well as techniques of modeling the mechanical properties of nanocomposites. This volume presents the industrial point of view regarding large scale manufacturing and their applications from the perspective of their medical uses in printed electronics and in adhesives. The third volume deals with the ability of bionanomaterials to self-assemble in either liquids or forming organized solid materials. The chemistry of cellulose nanomaterials and chemical modifications as well as different assembling techniques and used characterization methods, and the most important properties which can be achieved by self-assembly, are described. The chapters, for example, discuss subjects such as ultra-light biobased aerogels based on cellulose and chitin, thin films suitable as barrier layers, self-sensing nanomaterials, and membranes for water purification. The fourth volume reviews green composite materials — including green raw materials — such as biobased carbon fibers, regenerated cellulose fibers and thermoplastic and thermoset polymers (e.g. PLA, bio-based polyolefines, polysaccharide polymers, natural rubber, bio-based polyurethane, lignin polymer, and furfurylalcohol). The most important composite processing technologies are described, including: prepregs of green composites, compounding, liquid composite molding, foaming, and compression molding. Industrial applications, especially for green transportation and the electronics industry, are also described. This four-volume set is a must-have for anyone keen to acquire knowledge on novel bionanomaterials — including structure-property correlations, isolation and purification processes of nanofibers and nanocrystals, their important characteristics, processing technologies, industrial up-scaling and suitable industry applications. The handbook is a useful reference not only for teaching activities but also for researchers who are working in this field.

Advances in Artificial Intelligence: From Theory to Practice Nov 25 2019 The two-volume set LNCS 10350 and 10351 constitutes the thoroughly refereed proceedings of the 30th International Conference on Industrial, Engineering and Other Applications of Applied Intelligent Systems, IEA/AIE 2017, held in Arras, France, in June 2017. The 70 revised full papers presented together with 45 short papers and 3 invited talks were carefully reviewed and selected from 180 submissions. They are organized in topical sections: constraints, planning, and optimization; data mining and machine learning; sensors, signal processing, and data fusion; recommender systems; decision support systems; knowledge representation and reasoning; navigation, control, and autonome agents; sentiment analysis and social media; games, computer vision; and animation; uncertainty management; graphical models: from theory to applications; anomaly detection; agronomy and artificial intelligence; applications of argumentation; intelligent systems in healthcare and mhealth for health outcomes; and innovative applications of textual analysis based on AI.

Company Valuation of a Fish Farm Company. SWOT Analysis, Growth Rate, and Forecast Apr 30 2020 Academic Paper from the year 2020 in the subject Business economics - Miscellaneous, grade: 1,0, Corvinus University Budapest, language: English, abstract: This paper is about the company valuation with salmon in Norway. Norway is the world leading supplier of Atlantic

salmon. The country supplies approximately twice as much as Chile, which is the second largest supplier. From 2018 to 2019, Norwegian export increased by 7% due to the stable price of salmon. Europe, as the most important export destination accounted for 74% of the export in 2019. Poland, Denmark, and Sweden were the most significant single markets along the 56 countries SalMar exports to. In addition, Asia is another important market for SalMar. The imports in the region grew by 29% between 2018 and 2019.

Fuel Cell Renewable Hybrid Power Systems Jan 08 2021 Climate change is becoming visible today, and so this book—through including innovative solutions and experimental research as well as state-of-the-art studies in challenging areas related to sustainable energy development based on hybrid energy systems that combine renewable energy systems with fuel cells—represents a useful resource for researchers in these fields. In this context, hydrogen fuel cell technology is one of the alternative solutions for the development of future clean energy systems. As this book presents the latest solutions, readers working in research areas related to the above are invited to read it.

Oceanobs'19: An Ocean of Opportunity. Volume III Sep 04 2020 This eBook is a collection of articles from a Frontiers Research Topic. Frontiers Research Topics are very popular trademarks of the Frontiers Journals Series: they are collections of at least ten articles, all centered on a particular subject. With their unique mix of varied contributions from Original Research to Review Articles, Frontiers Research Topics unify the most influential researchers, the latest key findings and historical advances in a hot research area! Find out more on how to host your own Frontiers Research Topic or contribute to one as an author by contacting the Frontiers Editorial Office: frontiersin.org/about/contact.

Reasons for an IPO. A Term paper in International Finance & Accounting Jul 26 2022 Document from the year 2018 in the subject Business economics - Investment and Finance, grade: 2,0, University of Applied Sciences Essen (FOM Hannover), language: English, abstract: The following paper will concentrate on the strategic analyses of company Raumluf24, a family owned small company. It will only cover a small and short SWOT analysis to not exceed the paper frame. How can a change in strategy effect Raumluf24 and speed up the development and growth of the company? Which problems must be eliminated? To suggest some changes in strategy for Company Raumluf24, a summary of the strategic capability which might have an impact on the strategic development is necessary, as well as a summary of the key issues from the surroundings of the company. This summary can be done with a SWOT analysis where the results can be used as a basis for the implementation of strategic options and changes, to find out the strengths and weaknesses of Company Raumluf24.

Architecture and Engineering Apr 11 2021 The book is addressed to architects and civil engineers. Design and research are areas connecting their activities. The contents of the book confirm the fact that the interface between architecture and engineering is multidimensional. The ways of finding points of contact between the two industries are highlighted. This is favored by the dynamically changing reality, supported by new design paradigms and new research techniques. The multithreaded subject matter of the articles is reduced to six sections: Research Scopes, Methods, Design Aspects, Context, Nature of Research, and Economy and Cost Calculation. Each of the articles in these six blocks has its weight. And so, in the Nature of Research section, the following areas have been underscored: laboratory tests, in situ research, field investigations, and street perception experiments. The section Design Aspects includes design-oriented thinking, geometrical forms, location of buildings, cost prediction, attractor and distractor elements, and shaping spatial structures. The new design and research tools are an inspiration and a keystone bonding architects and engineers.

CALL communities and culture – short papers from EUROCALL 2016 Sep 16 2021 The 23rd EUROCALL conference was organised by the Cyprus University of Technology Language Centre. The theme of the conference was “CALL communities and Culture”. Between the 24th and 27th August 2016, over 135 presentations were delivered and 27 posters were presented; 84 of these presentations appear in this volume of selected peer-reviewed short papers.
