[More Than Guided Reading Dec 31 2019](#) Is there too much emphasis on guided reading in primary classrooms? It's a question that many educators, like kindergarten teacher and literacy coach Cathy Mere, are starting to ask. Guided reading provides opportunities to teach students the strategies they need to learn how to read increasingly challenging texts, but Cathy found that she needed to find other ways to help students gain independence. While maintaining guided reading as an important piece of their reading program, teachers need to offer students opportunities during the day to develop as readers, to learn to choose books, to find favorite genres and authors, and to talk about their reading. In *More Than Guided Reading*, Cathy shares her journey as she moved from focusing on guided reading as the center of her reading program to placing children at the heart of literacy learning—not only providing more time for students to discover their reading lives, but also shaping instruction to meet the needs of the diverse learners in her classroom. By changing the structure of the day, Cathy found she was better able to adjust the support she was providing students, allowing time for whole-class focus lessons, conferences, and opportunities to share ideas, as well as reading from self-selected texts using the strategies, skills, and understandings acquired in reader's workshop. The focus lesson is the centerpiece of the workshop. It is often tied to a read-aloud and connected to learning from the previous day, helping to build skills, extend thinking, and develop independence over time. This thoroughly practical text offers numerous sample lessons, questions for conferences, and ideas for revamping guided reading groups. It will help teachers tweak the mix of instructional components in their reading workshops, and provoke school-wide conversations about the place of guided reading in a complete literacy curriculum.

Reading the Sermons of Thomas Aquinas: A Beginner's Guide Nov 09 2020 Preaching was immensely important in the medieval Church, and Thomas Aquinas expended much time and effort preaching. Today, however, Aquinas's sermons remain relatively unstudied and underappreciated. This is largely because their sermo modernus style, typical of the thirteenth century, can appear odd and inaccessible to the modern reader. In *Reading the Sermons of Thomas Aquinas*, Randall Smith guides the reader through Aquinas's sermons, explaining their form and content. In the process, one comes to appreciate the sermons in their rhetorical brilliance, beauty, and profound spiritual depth while simultaneously being initiated into a fascinating world of thought concerning Scripture, language, and the human mind. The book also includes analytical outlines for all of Aquinas's extant sermons. *Reading the Sermons of Thomas Aquinas: A Beginner's Guide* is an indispensable volume for those interested in the thought of Aquinas, in the intellectual and spiritual milieu in which he worked, and in the manifold ways of preaching the Gospel message.

Truly Guided Reading Jun 28 2022 Guided Reading is the classroom Reading Recovery with supplements. In the classroom every child is involved in focussed reading instruction, small groups necessitate exceptional organization, all this without the year-long training that Reading Recovery participants have. Over the years teachers have been directed towards Guided Reading without knowledge of how to organize the class while working with small groups and further, without the knowledge of what is involved in overt reading instruction. This book will change that and give teachers the resources to organize and put in place worthwhile and relevant activities for children to independently engage in. In this book, significant suggestions are forwarded to make Guided Reading easier to implement and more effective. This book challenges held views about Guided Reading - misconceptions and misapplications of Guided Reading will be highlighted and in place will be effective pedagogy to help children move towards being truly confident, thinking readers. The teaching practices emphasized are: * Managing differentiated reading instruction for early, developing, early fluent readers, including a chapter relating to older readers. * Class management while working with small groups - independent tasks. * Questioning and prompting so children acquire and use self-help reading and comprehension strategies. * Encouraging student talk where they explore and exchange ideas. * Assessment (and recording) that informs instruction.
