Wind Power Apr 03 2020 Wind energy today is a booming worldwide industry. The technology has truly come of age, with better, more reliable machinery and a greater understanding of how and where wind power makes sense -- from the independent homestead to a grid-connected utility-wide perspective. Heightened concerns about our environment mean that this resurgence of interest in wind -- a natural and widespread power source -- is here to stay. Wind Power is the completely revised and expanded edition of Paul Gipes definitive 1993 book, Wind Power for Home and Business. In addition to expanded sections on gauging wind resources and siting wind turbines, this edition includes new examples and case studies of successful wind systems, international sources for new and used equipment, and hundreds of color photographs and illustrations.

Midnight in Line and Form Jun 29 2022 When vampires clash, no one is safe. Add a couple of werewolves and hunters into the mix, and there'll be hell to pay. Who has the guts to bargain with a killer to save a city? Kitten Carlyle was all for keeping Austin weird. With a name like Kitten, she has to, but when the famous artist uses her as his model, she doesn't expect the whole world to become weird. Bizarre murders bring unwanted attention to the Vampires. Even the Werewolves fear the coming changes. They all look to Harry, but he paints and does nothing. This leaves the unhumans in a quandary: Flee or Fight?

Operating Manual for Spaceship Earth Jun 25 2019 One of Fuller's most popular works, Operating Manual for

Spaceship Earth, is a brilliant synthesis of his world view. In this very accessible volume, Fuller investigates the great challenges facing humanity. How will humanity survive? How does automation influence individualization? How can we utilize our resources more effectively to realize our potential to end poverty in this generation? He questions the concept of specialization, calls for a design revolution of innovation, and offers advice on how to guide “spaceship earth” toward a sustainable future. Description by Lars Muller Publishers, courtesy of The Estate of Buckminster Fuller

How to Date a Werewolf Jan 25 2022 Romance can be a hairy business-especially when you're a werewolf. As the owner of Get a Mate Dating Service, Rylie is more than happy to step in and lend a hand to lonely lycanthropic hearts all over town. No matter how hopeless Rylie might be in finding her own soul mate, she has a knack for helping others find theirs. Convinced that she is stuck with a family curse, Rylie is positive she will never find her true love. But when drool-worthy Jack Chandler shows up at her door, Rylie wonders if maybe the curse is finally broken. But Rylie's life is about to become complicated courtesy of the after-dark crowd. When she begins receiving strange notes and harassment from a jilted client, events careen out of control. Jack knows she's more hassle than he can handle. What he doesn't know is whether she's seriously in trouble . . . or simply delusional.

Cancer, Faith, and Unexpected Joy May 17 2021 "I've taught you how to live; now I want to teach you how to die. You don't have to be afraid." When Becky Baudouin's mother spoke those words to her, they weren't said lightly. Her mother had an inoperable tumor--and after months of treatment, there was no hope for a longer life. There was, however, assurance of life everlasting. Learned in the dark hours of pain and the bright moments of love, the honest insights on fear, loss, and grief that Becky shares in this book are applicable to everyone's story--including yours. If you're losing a loved one or facing death, you won't be alone on your journey: Becky walks with you every step of the way. There are even questions for reflection to guide you to comfort, whether you're reading on your own or with others sharing the struggle. In times when hope seems lost, Becky's story reveals that God is the only source for a spirit's true healing. For anyone living with the tension of wanting to hold on yet needing to let go, *Cancer, Faith, and Unexpected Joy* demonstrates a powerful and profound love. "In *Cancer, Faith, and Unexpected Joy*, Becky's mother becomes my mother; her grief, my grief; her hope, my hope. With a combination of emotion, vulnerability, and dailiness, this book offers practical comfort and wisdom for anyone in a

place of trial or suffering." --Jane Rubietta, international speaker and author

Reflections of Power Mar 15 2021 To Samson Slater, his abrupt recall to RADCAL Corporation means only one thing—a security threat to SUNRAY, a solar satellite project designed to end America's crippling dependency on Mideast oil. Like a spider hidden in a web of corporate intrigue, there lurks a sinister conspiracy, and in the corridors of power of Washington, the budget ax hangs over the bill to fund SUNRAY. As Sam struggles through a serpentine maze to track down pieces of a deadly puzzle... Aboard a luxury yacht, a plot unfurls. On a cruise ship, a gigolo seduces a RADCAL secretary to steal the technology. At RADCAL, Sam is charmed by Daria, an exquisite Russian scientist. In a Houston gay nightclub, the gigolo, who knows too much, is murdered. In Sugarland Texas, inspectors uncover shortages in US soil reserves. Inside Morgan Oil's executive suite, a deadly power game plays out. On the Senate floor, an eloquent orator pleads for SUNRAY funding. From the Oval Office, the President threatens a veto. In Cuba, a clandestine UHF radio station targets the SUNRAY space launch. ...and while scrambling to unmask the mastermind behind the conspiracy, Sam discovers he must choose between Daria and the success of SUNRAY.

Nine One One Jul 07 2020 Damon can't forget 9/11 and all the precious things he lost... It's ten years after the horror of 9/11. Former NYPD cop Damon Summerfield was there. He lost his firefighter partner, Justin, in the collapse of the Twin Towers and fled to Canada to attempt to rebuild his shattered life. Now he is back in New York for Christmas with his family for the first time since his loss. Still deep in mourning with no end in sight, he visits Justin's favorite bar near Ground Zero and there meets Simon, a firefighter with the FDNY and a fellow survivor of 9/11. Simon is smitten by him from the start, but despite feeling the same way, Damon can't bear to give them a chance, not when he thinks Simon's job will tear them apart someday too...

Simplified Signs Oct 22 2021 "Simplified Signs presents a system of manual sign communication intended for special

populations who have had limited success mastering spoken or full sign languages. It is the culmination of over twenty years of research and development by the authors. The Simplified Sign System has been developed and tested for ease of sign comprehension, memorization, and formation by limiting the complexity of the motor skills required to form each sign, and by ensuring that each sign visually resembles the meaning it conveys. Volume 1 outlines the research underpinning and informing the project, and places the Simplified Sign System in a wider context of sign usage, historically and by different populations. Volume 2 presents the lexicon of signs, totalling approximately 1000 signs, each with a clear illustration and a written description of how the sign is formed, as well as a memory aid that connects the sign visually to the meaning that it conveys. While the Simplified Sign System originally was developed to meet the needs of persons with intellectual disabilities, cerebral palsy, autism, or aphasia, it may also assist the communication needs of a wider audience - such as healthcare professionals, aid workers, military personnel, travellers or parents, and children who have not yet mastered spoken language. The system also has been shown to enhance learning for individuals studying a foreign language. Lucid and comprehensive, this work constitutes a valuable resource that will enhance the communicative interactions of many different people, and will be of great interest to researchers and educators alike."--Publisher's website

The Return of the Spanish Lady Sep 08 2020 Nicolette Scott

is an archaeologist whose knowledge of early airplanes has won her kudos as an expert, a reputation for ignoring authority, and a job at the Smithsonian. Shortly after she begins working there, she is thrilled to be included in the museum's latest project. E-Group, a large pharmaceutical company, is equipping an expedition to a remote region of Alaska, where a Japanese "Val" bomber plane was shot down during World War II. It's a gamble, but the money is being provided, and if the small group of experts can locate the plane and somehow bring it back to Washington, it will be a coup-and a boost for Nicolette's career. Not long after the search begins, Nicolette is shocked to discover that there is a darker reason for E-Group's generous sponsorship. The expedition's real goal reaches all the way back to the great Spanish flu epidemic of 1918-1919, grimly nicknamed "the Spanish Lady," which killed millions around the world. The virus of this flu still exists in those few victims who are preserved in frozen ground-and once the pharmaceutical company learns that three World War I veterans searching Alaska for gold had died of the disease near the Val, they will do everything in their power to get their hands on the bodies. Unless Nicolette risks her own life to defuse E-Group's nefarious plan, the lives of hundreds of millions will be at stake.

The Devil Went to Law School May 05 2020 David Marshall is a law student with no morals, self-control or sense of ethics ... he is a perfect candidate to become a lawyer. In this hilarious book, law students, law professors, lawyers and

even judges are exposed for everyone to see. Think you can trust your lawyer? How about the judge? Think again. They went to law school and learned how to lie, cheat and steal. Law school is the training ground for the worst society has to offer, and David Marshall drinks, fornicates and lies his way through school all the way to his ultimate goal: A law license. A legal license to lie, cheat and steal.
