**The Tragic Paradox** Nov 29 2019 How do an author's techniques establish the recurring paradox raised by the tragic genre? I have called upon the valuable arguments offered by Plato, Aristotle, Hegel, and Nietzsche to help the student and lay reader understand the operation of basic literary languages. But fiction is not philosophy. My study focuses on the narrative sequence, im-ages, and rhetorical devices that embody a dilemma envisioned by prominent tragedians in both the ancient and modern worlds.

**National Electrical Code** Mar 14 2021 Safe, efficient, code-compliant electrical installations are made simple with the latest publication of this widely popular resource. Like its highly successful previous editions, the National Electrical Code 2011 spiral bound version combines solid, thorough, research-based content with the tools you need to build an in-depth understanding of the most important topics. New to the 2011 edition are articles including first-time Article 399 on Outdoor, Overhead Conductors with over 600 volts, first-time Article 694 on Small Wind Electric Systems, first-time Article 840 on Premises Powered Broadband Communications Systems, and more. This spiralbound version allows users to open the code to a certain page and easily keep the book open while referencing that page. The National Electrical Code is adopted in all 50 states, and is an essential reference for those in or entering careers in electrical design, installation, inspection, and safety.

**Ancient Slavery and Abolition** Jan 12 2021 "Originating in a conference organised in 2007 by the Centre for the Reception of Greece and Rome at Royal Holloway, University of London, and held at the British Library ... this accessible volume offers a pathbreaking study of the role played by the interpreters of ancient Greek and roman texts in the debates over the abolition of slavery. Focusing on Britain, North America, the Caribbean, and South Africa from the late 17th century, the essays examine the arguments of critics and defenders of slavery and legacy of slavery, in later periods." --Book jacket.

**Computerworld** Apr 02 2020 For more than 40 years, Computerworld has been the leading source of technology news and information for IT influencers worldwide. Computerworld's award-winning Web site (Computerworld.com), twice-monthly publication, focused conference series and custom research form the hub of the world's largest global IT media network.

**The Smell of Sweat** Jul 26 2019 A survey of Greek athletics from Homeric times through the fourth century C.E. From the games of the "Iliad, to the foundation of the Olympic games, to the poetry of Pindar and the Olympic Festival, this book covers all aspects of Greek athletics: the events themselves--from the running events held at the first competitions to the later "heavy" events of wrestling, boxing, and the pankration, to the pentathlon, jump, discus, and javelin, held only at festival; the religious and athletic centers; the festivals in which the games took place; the voices of the games' celebrators (like the poet Pindar), critics, and the athletes themselves; the "gymnasion and its culture; and the evidence--literary, artistic, archeological, and historical. The introduction examines the nineteenth-century bias that created the myth of Greek amateurism. An extensive bibliography aids the reader in pursuing further study.

**Fox Populism** Dec 31 2019 Shows how Fox News' appeal is based on its populist presentational style, not its conservative ideological bias.

[Medical and Health Information Directory](#) Oct 21 2021 A guide to associations, agencies, companies, institutions, research centers, hospitals, clinics, treatment centers, educational programs, publications, audiovisuals, databases, libraries, and information services in clinical medicine, basic biomedical sciences, and the technological and socioeconomic aspects of health care.

**Airborne Trailblazer** Oct 28 2019 This book is the story of a very unique airplane and the contributions it has made to the air transportation industry. NASA's Boeing 737-100 Transport Systems Research Vehicle was the prototype 737, acquired by the Langley Research Center in 1974 to conduct research into advanced transport aircraft technologies. In the twenty years that followed, the airplane participated in more than twenty different research projects, evolving from a research tool for a specific NASA program into a national airborne research facility. It played a critical role in developing and gaining acceptance for numerous significant transport technologies, including "glass cockpits," airborne windshear detection systems, data link for air traffic control communications, the microwave landing system, and the satellite-based global positioning system (GPS). Since the airplane played a role in such a wide variety of research programs, its story also provides an enlightening study of the many factors that influence the selection, development, and application of new technologies.

**Cop Shows** Apr 14 2021 From cops who are paragons of virtue, to cops who are as bad as the bad guys...from surly loners, to upbeat partners...from detectives who pursue painstaking investigation, to loose cannons who just want to kick down the door, the heroes and anti-heroes of TV police dramas are part of who we are. They enter our living rooms and tell us tall tales about the social contract that exists between the citizen and the police. Love them or loathe them—according to the ratings, we love them—they serve a function. They've entertained, informed and sometimes infuriated audiences for more than 60 years. This book examines *Dragnet*, *Highway Patrol*, *Naked City*, *The Untouchables*, *The F.B.I.*, *Columbo*, *Hawaii Five-O*, *Kojak*, *Starsky & Hutch*, *Hill Street Blues*, *Cagney & Lacey*, *Miami Vice*, *Law & Order*, *Homicide: Life on the Street*, *NYPD Blue*, *CSI*, *The Shield*, *The Wire*, and *Justified*. It's time to take another look at the "perps," the "vics" and the boys and girls in blue, and ask how their representation intersects with questions of class, gender, sexuality, and "race." What is their socio-cultural agenda? What is their relation to genre and televisuality? And why is it that when a TV cop gives a witness his card and says, "call me," that witness always ends up on a slab?

**Networking All-in-One Desk Reference For Dummies** Nov 02 2022 10 books in 1 - your key to networking success! Your one-stop guide to the latest updates on networking Packed with new and updated material on Windows Server 2008, the latest Red Hat(r) Fedora(r), Vista, and Office 2007, and the most up-to-date wireless standards, this solitary reference contains everything you need to manage both large and small networks. With these ten minibooks, you'll discover how to make your network share information in the most efficient way possible. Discover how to: Manage Macs in a Windows environment Handle mobile devices on a network Configure Windows(r) XP and Vista clients Back up and protect your data Set up a wireless network

**The Well-Rounded Soccer Coach** Oct 09 2020 The Well-Rounded Soccer Coach is a unique book about coaching soccer. The author shares successful secrets for long-term player development, which is a current hot topic in the soccer world. This special resource combines credibility, experiences of a coach who has coached U9-U19 age groups (competitive club and high school teams), and comprehensive coverage of coaching soccer. It raises the standards for coaching resources by including: • Proven methods and techniques • Examples of a complete season of actual training sessions • Explanations as to the "how" and "why" of selected exercises • Useful resources for coaches, players, and parents in a variety of areas on and off the field • Credibility through anecdotes from coaches, players, and parents • Objective results achieved by teams • Direct access to someone who is actively involved in the areas of player development, coaching excellence, team culture, and education Anyone wishing to become a successful coach of a winning team needs this book on his shelf.

**StarBriefs Plus** May 04 2020 With about 200,000 entries, StarBriefs Plus represents the most comprehensive and accurately validated collection of abbreviations, acronyms, contractions and symbols within astronomy, related space sciences and other related fields. As such, this invaluable reference source (and its companion volume, StarGuides Plus) should be on the reference shelf of every library, organization or individual with any interest in these areas. Besides astronomy and associated space sciences, related fields such as aeronautics, aeronomy, astronautics, atmospheric sciences, chemistry, communications, computer sciences, data processing, education, electronics, engineering, energetics, environment, geodesy, geophysics, information handling, management, mathematics, meteorology, optics, physics, remote sensing, and so on, are also covered when justified. Terms in common use and/or of general interest have also been included where appropriate.

**Scale, Space, and Canon in Ancient Literary Culture** Sep 07 2020 A history of ancient literary culture told through the quantitative facts of canon, geography, and scale.

**TV Guide** Jun 24 2019

**Historical Acoustics** Jan 30 2020 This book is a collection of contributions to the Special Issue "Historical Acoustics: Relationships between People and Sound over Time". The research presented here aims to explore the origins of acoustics and examine the relationships that have evolved over the centuries between people and auditory phenomena. Sounds have indeed accompanied human civilizations since the beginning of time, helping them to make sense of the world and to shape their cultures. Several key topics emerged, such as the acoustics of historical worship buildings, the acoustics of sites of archaeological interest, the acoustics of historical opera houses, and the topic of soundscapes as cultural intangible heritage. The book, as a whole, reflects the vibrant research activity around the "acoustics of the past", which will hopefully be serve as a foundation for inspiring the future path of this discipline.

**Privatising Culture** Aug 19 2021 Chin-tao Wu offers a provocative contribution to the debate on public culture in Britain and America as she details the various ways in which business values and the free-market ethos have come to permeate the sphere of the visual arts since the 1980s. From Absolut Vodka's sponsorship of student art shows to BMW's logo on the banners advertising major art exhibitions, corporate sponsorship and business involvement in the visual arts have become increasingly common features of our cultural lives. Chin-tao Wu's book is the first concerted attempt to detail the various ways in which business values and the free-market ethos have come to permeate the sphere of the visual arts since the 1980s. It analyzes the role of government in injecting the principles of the free market into public arts agencies in particular the Arts Council in Great Britain and the National Endowment for the Arts in the USA. It looks at the corporate take-over of art museums, highlighting the ways in which cultural capital can thereby be garnered by business elites; and it considers the ways in which corporations have succeeded in integrating themselves into the infrastructure of the art world itself by showcasing contemporary art in their own corporate premises.

**Populism** Feb 22 2022 A timely overview of populism, one of the most contested concepts in political journalism and the social sciences.

**Downtown Film and TV Culture 1975-2001** Jun 16 2021 Downtown Film and TV Culture 1975–2001 brings together essays by filmmakers, exhibitors, cultural critics and scholars from multiple generations of the New York Downtown scene to illuminate individual films and filmmakers and explore the creation of a Downtown Canon, the impact of AIDS on younger filmmakers, community access to cable television broadcasts, and the impact of the historic downtown scene on contemporary experimental culture. The book includes J. Hoberman's essay 'No Wavelength: The Parapunk Underground', as well as historical essays by Tony Conrad and Lynne Tillman, interviews with filmmakers Bette Gordon and Beth B, and essays by Ivan Kral and Nick Zedd.

**Capone Bloodline** Sep 19 2021 Al Scar Face Capone, head of the Chicago Crime Family, was born in Brooklyn in 1898 and moved to Chicago when he was eighteen years old in 1916. Allegedly, Al Capone orchestrated the February 14th, 1929 St. Valentines Day Massacre. Some say it was the most notorious mass murder of the 20th Century. Al Capone head of the Boston Capone Family was born in Avellino Italy in 1895 and came to America through Ellis Island, New York in 1913 when he was eighteen years old. The family settled in the North End of Boston. Albert Frank Capone of Boston was allegedly first cousin to Al and Frank Capone of Chicago. Capone, was grateful to have brought his .45mm automatic pistol to the Sherwood Boston Hotel that day in June 1973. His father had always told him to make sure he landed the first punch in a fight. Actually, he said, Make sure you cold cock the bastard with the first punch and then run like hell before he knows what hit him. Upon entering the hotel garage, Capones reaction came instinctively. A potential armed robber, brandishing a firearm, stepped out from behind a pillar, and demanded his money. There was no time to weigh the pros and cons of taking him out. The man had already produced his weapon, making Capones decision for him. What might have happened, however, suddenly took a twist. Capone pulled out his weapon a moment too late, giving the robber a momentary edge. Maybe it was complacency, or maybe it was stupidity, but the would-be-robber had neglected to disengage the safety on his weapon. In that instant Capone closed the distance between them. Who knew how many times he had robbed before? Tonight he had selected the wrong target. The taste of bile formed a lump in Capones throat as he contemplated what might have been

**The Advent of Pluralism** May 28 2022 The Advent of Pluralism explores how the philosophical position of pluralism - the idea, made famous by Isaiah Berlin, that values and moral codes can and will come into conflict with one another - has clear and important roots in the Classical Greek world. The book falls into three parts each of which focuses on one author and the ways in which pluralism manifests itself in his particular genre. Part I is concerned with the sophist Protagoras, who was one of the world's first philosophers and arguably the first exponent of the idea that there can be more than one perspective on truth. Part II looks at pluralism in historical writing, contrasting the methodological and moral styles of the two best-known Greek historians, Thucydides and Herodotus. Part III, on conflict in the tragedies of Sophocles, uses pluralism as a context in which to make sense of the horrible choices the playwright so powerfully dramatizes. Overall, Lauren Apfel's study identifies a pluralist temper of thought in the age of Sophocles and, in doing so, offers an enriched understanding of this crucial intellectual period.

**Computer Telephony Encyclopedia** Jun 28 2022 If you want to grasp the full length and breadth of the rapidly developing computer telephony field, this book is the place to start. Author Richard Grigonis thoroughly explains even the most abstruse ideas in a concise manner that is aimed at all kinds of readers -- students, business executives, telecom managers, call center supervisors or entrepreneurial developers. Each encyclopedia entry is both an adroit explanation of computer telephony technology and a buyer's guide-like discussion of real-world products based upon technology currently available for business and residential communications solutions. ;

**Highway Safety Literature** Nov 21 2021

**Botnets** Jul 06 2020 The book begins with real world cases of botnet attacks to underscore the need for action. Next the book will explain botnet fundamentals using real world examples. These chapters will cover what they are, how they operate, and the environment and technology that makes them possible. The following chapters will analyze botnets for opportunities to detect, track, and remove them. Then the book will describe intelligence gathering efforts and results obtained to date. Public domain tools like OurMon, developed by Jim Binkley of Portland State University, will be described in detail along with discussions of other tools and resources that are useful in the fight against Botnets. This is the first book to explain the newest internet threat - Botnets, zombie armies, bot herders, what is being done, and what you can do to protect your enterprise Botnets are the most complicated and difficult threat the hacker world has unleashed - read how to protect yourself
