It's brevity, among other factors, ensures that most people who buy, borrow or steal the book will actually fulfil an intention of reading it cover-to-cover!" --Alan J. Fisher, University of Cape Town Journal of Child and Adolescent Mental Health The purpose of this book is to provide a process for the development of effective community-wide health behavior programs for children and adolescents. Significant behavior change among young people across a variety of behaviors and community-based research studies has been achieved through programs that have been created based on this 10-step process. These steps will be discussed in four primary stages: preparing for program development; determining the program components; creating the health behavior program; and implementing and maintaining a program. [The Parvenu's Plot](#) May 15 2021 In this very readable volume, Stephanie Foote gathers a range of print sources--from novels by Edith Wharton and Henry James to gossip columns, fashion magazines, popular novels, and etiquette manuals--to ask how the

realist period understood the individual experience of class. Examining the female arriviste (the parvenu of the title) in turn-of-the-century New York (where a supposedly stable elite was threatened by the nouveaux riches), Foote shows how class became more than just an economic position: it was a fundamental part of individual identity, exemplified by a shifting set of social behaviors that form the core of many nineteenth-century novels. She persuasively presents the female parvenu as a key figure in turn-of-the-century culture that embodies the volatility of social standing and the continuing project of structuring and justifying it.

Laboring to Play Sep 26 2019 A compelling analysis of how "middling" Americans entertained themselves and how these entertainments changed over time. The changing styles of middle-class home entertainments, Melanie Dawson argues, point to evolving ideas of class identity in U.S. culture. Drawing from 19th- and early-20th-century fiction, guidebooks on leisure, newspaper columns, and a polemical examination of class structures, Laboring to Play interrogates the ways that leisure performances (such as parlor games, charades, home dramas, and tableaux vivants) encouraged participants to test out the boundaries that were beginning to define middle-class lifestyles. From 19th-century parlor games involving grotesque physical contortions to early-20th-century recitations of an idealized past, leisure employments mediated between domestic and public spheres, individuals and class-based affiliations, and ideals of egalitarian social life and visible hierarchies based on privilege. Negotiating these paradigms, home entertainments provided their participants with unique ways of performing displays of individual ambitions within a world of polite social interaction. Laboring to Play deals with subjects as wide ranging as social performances, social history (etiquette and gentility), literary history, representations of childhood, and the history of the book.
