Volume 12, Tome III: Kierkegaard's Influence on Literature, Criticism and Art Jan 28 2020 While Kierkegaard is primarily known as a philosopher or religious thinker, his writings have also been used extensively by literary writers, critics and artists. This use can be traced in the work of major cultural figures not just in Denmark and Scandinavia but also in the wider world. They have been attracted to his creative mixing of genres, his complex use of pseudonyms, his rhetoric and literary style, and his rich images, parables and allegories. The present volume documents this influence in the different language groups and traditions. Tome III investigates the works of Swedish and Norwegian writers and artists inspired by Kierkegaard. In Sweden the novelist Victoria Benedictsson made use of Kierkegaard during the period of the so-called Modern Breakthrough, as did the playwright August Strindberg. Later Swedish writers have continued to draw on his thought, such as Selma Lagerlof, Lars Ahlin, Lars Gyllensten, and Carl-Henning Wijkmark. The Norwegian reception of Kierkegaard also began remarkably early and was shaped by the leading names in Norwegian cultural life. Despite his coy responses to questions about his relation to Kierkegaard, Henrik Ibsen clearly seems to have been inspired by the Dane in works such as Brand. Norwegian writer and poet Bjornstjerne Bjornson, who was influenced by the Modern Breakthrough movement, was also deeply inspired by Kierkegaard. Finally, the celebrated Norwegian artist Edvard Munch (1863-1944) closely studied key Kierkegaardian concepts such as anxiety, and his influence is notable in his iconic paintings such as The Scream.

The Oxford English Literary History: Volume 12: The Last of England? Mar 30 2020 English Literature in the 1960s soon threw off its post-war weariness and the tepid influences of the previous decade. New voices, new visions, and new commitments profoundly reshaped writing during the 60s, and throughout the rest of the century. Drama thrived on its rapidly rebuilt foundations. New freedoms of style and form revitalised fiction. Poetry, too, gradually recovered the variety and inventiveness of earlier years. As well as comprehensively charting these changes in the literary field, Randall Stevenson persuasively pinpoints their origins in the historical, social, and intellectual pressures of the times. Literary developments are revealingly related to the wider evolution and profound changes in English experience in the late twentieth-century to shadows of war and loss of empire; declining influences of class; shifting relations between the genders; emergent minority and counter-cultures; and the broadening democratization of contemporary life in general. Analyses of the rise of literary theory, of publishing and the book trade, and of the pervasive influences of modernism and postmodernism contribute further to an impressively thorough, insightful description of writing in the later twentieth-century a literary period Stevenson shows to be far more imaginative and exciting than has yet been recognised. Lucid, accessible, and engaging, this volume of the Oxford English Literary History presents a unique illumination of its age - one we have lived through, but are only just beginning to understand. The first full account of its period, it will set the agenda for discussion of late twentieth-century literature for many years to come.

Volume 12, Tome I: Kierkegaard's Influence on Literature, Criticism and Art Nov 25 2019 While Kierkegaard is primarily known as a philosopher or religious thinker, his writings have also been used extensively by literary writers, critics and artists worldwide who have been attracted to his creative mixing of genres, his complex use of pseudonyms, his rhetoric and literary style, and his rich images, parables, and allegories. The goal of the present volume is to document this influence in different language groups and traditions. Tome I explores Kierkegaard's influence on literature and art in the Germanophone world. He was an important source of inspiration for German writers such as Theodor Fontane, Thomas Mann, Rainer Maria Rilke, Alfred Andersch, and Martin Walser. Kierkegaard's influence was particularly strong in Austria during the generation of modernist authors such as Rudolf Kassner, Karl Kraus, Robert Musil, and Hermann Broch. Due presumably in part to the German translations of Kierkegaard in the Austrian cultural journal Der Brenner, Kierkegaard continued to be used by later figures such as the novelist and playwright, Thomas Bernhard. His thought was also appropriated in Switzerland through the works of Max Frisch and Friedrich Dürrenmatt. The famous Czech author Franz Kafka identified personally with Kierkegaard's love story with Regine Olsen and made use of his reflections on this and other topics.

Saracens and Franks in 12th - 15th Century European and Near Eastern Literature Apr 23 2022 Saracens and Franks in 12th - 15th Century European and Near Eastern Literature examines the tension between two competing discourses in the medieval Muslim Mediterranean and medieval Christian Europe: one rooted in the desire to understand the world and one's place in it, and another promoting an ethnocentric narrative. To this end, it examines the construction of an image of the Other for Muslims in the Eastern Mediterranean and for Christians in Western Europe in works of literature, particularly in the works produced in the centuries preceding the Crusades; and it explores the ways in which both Muslim and Christian writers depicted the Enemy in historical accounts of the Crusades. The author focuses on medieval works of ethnography and geography, travel literature, Muslim and Christian accounts of the Crusades, and the romances of Western Europe to trace the evolution of the image of the Eastern Mediterranean Muslim in medieval Western Europe and the Western European Christian in the medieval Muslim world, first to understand the construct in the respective scholarly communities, and then to analyze the ways in which this conception informs subsequent works of non-fiction and fiction (in the Western European context) in which this Muslim or Christian Other plays a prominent role. In its analysis of the medieval Mediterranean Muslim and European Christian approaches to difference, this book interrogates the premises underlying the concept of the Other, challenging formulations of binary opposition such as the West versus Islam/Muslims.
