[Ranger Medic Handbook](#) Aug 10 2020 Historically in warfare, the majority of all combat deaths have occurred prior to a casualty ever receiving advanced trauma management. The execution of the Ranger mission profile in the Global War on Terrorism and our legacy tasks undoubtedly will increase the number of lethal wounds. Ranger leaders can significantly reduce the number of Rangers who die of wounds sustained in combat by simply targeting optimal medical capability in close proximity to the point of wounding. Survivability of the traumatized Ranger who sustains a wound in combat is in the hands of the first responding Ranger who puts a pressure dressing or tourniquet and controls the bleeding of his fallen comrade. Directing casualty response management and evacuation is a Ranger leader task; ensuring technical medical competence is a Ranger Medic task. A solid foundation has been built for Ranger leaders and medics to be successful in managing casualties in a combat environment. An integrated team response from non-medical personnel and medical providers must be in place to care for the wounded Ranger. The Ranger First Responder, Squad EMT, Ranger Medic Advanced Tactical Practitioner, and Ranger leaders, in essence, all Rangers must unite to provide medical care collectively, as a team, without sacrificing the flow and violence of the battle at hand. An integrated team approach to casualty response and care will directly translate to the reduction of the died of wounds rate of combat casualties and minimize the turbulence associated with these events in times of crisis. The true success of the Ranger Medical Team will be defined by its ability to complete the mission and greatly reduce preventable combat death. Rangers value honor and reputation more than their lives, and as such will attempt to lay down their own lives in defense of their comrades. The Ranger Medic will do no less. I will never leave a fallen comrade...

**SAS Urban Survival Handbook** Nov 12 2020 John "Lofty" Wiseman is the author of the bestselling SAS Survival Handbook, the definitive guide to survival in the wild from Britain's Special Air Service. Now he has compiled a complete guide to survival in the urban jungle. Every year in America there are thousands of fatal accidents in the home—more than on the roads, and many more than in the great outdoors. Fire, electricity, water, gas, sharp knives, poisons, chemicals—these valuable tools can quickly become dangerous weapons when not treated with proper respect and understanding. Add to these the risks of travel, terrorism, muggings, rape, tsunamis, and earthquakes. We are constantly reminded that the world is a dangerous place. Wiseman shows readers how to think realistically and practically about these perils in order to avoid them, whether they are at home, on the street, in school, or in transit. From self-defense techniques to home security systems to coping with natural disasters, this book will teach readers to recognize risks, make quick decisions, and live confidently in the modern urban world.

**Mother Nature is Not Trying to Kill You** Dec 02 2019 Living With Mother Nature—and Other Things Learned in the Wild "Having this book in your backpack just may save your life one day." —Jesse Weiland, national park ranger #1 New Release in Earth Sciences, Natural Disasters Prepare for all the worst case scenarios mother earth throws at you with *Mother Nature is Not Trying to Kill You*—the only survival kit you need to overcome wildlife, natural disasters, and everything else outdoors. Survive the unexpected. Statistically, you're more likely to die from a vending machine than a shark. But, Rob Nelson knows many shark survivors. His college girlfriend was attacked by a crocodile and his roommate, a grizzly bear. His wife was sucked by a wave down a blowhole, he was left stranded at sea after a storm sank his sailboat, and the list goes on and on. To Rob, these "improbable" altercations are "random acts of nature," and he's learned how to survive them. On knots, poisonous plants, and natural disasters. Featuring 52 challenges you can encounter in the wilderness, this survival guide is your year-long crash course for ultimate disaster management. Whether you're preparing for a moose attack or a nuclear fallout, *Mother Nature is Not Trying to Kill You* enables you to confront the natural world with skill and confidence. This wilderness survival guidebook also includes: • Pop culture examples like *Jaws* and *The Revenant* • Nature and science-packed stories and narratives • Diagrams, survival tips, and more! If you enjoyed books like *Bushcraft 101*, *The Worst Case Scenario*, or *SAS Survival Handbook*, then *Mother Nature is Not Trying to Kill You* is your next read!

**Outback Survival** Jan 03 2020 Outback Survival is a timeless, practical run down on everything you need to know to survive in the outback. Bob Cooper's incredible bushcraft skills have been developed through more than 25 years of experience in Australia's harsh outback. He has picked up tools of survival from the experiences of living with traditional Aboriginal communities, instructing with Special Forces Units, lecturing with the Texas Parks and Wildlife Service on desert survival in the Mexican Desert, delivering wilderness lessons in the UK and learning the skills of the bushmen of the Kalahari Desert in Botswana. Bob has put his own lessons to the test, dropping himself off in the 42C heat of the Australian desert with only a map and soap box sized survival kit, no food, water or sleeping gear, and a 10 day walk across 160km of rough terrain back to safety. He did this alone and showed that with the right knowledge of the land, you can survive in even the harshest of conditions. The outback of Australia is one of the most unforgiving regions of the world, but Bob is committed to protecting and enhancing the experience people have when venturing out into the bush.
