The Poetry Home Repair Manual Jan 20 2022 Recently appointed as the new U. S. Poet Laureate, Ted Kooser has been writing and publishing poetry for more than forty years. In the pages of The Poetry Home Repair Manual, Kooser brings those decades of experience to bear. Here are tools and insights, the instructions (and warnings against instructions) that poets—aspiring or practicing—can use to hone their craft, perhaps into art. Using examples from his own rich literary oeuvre and from the work of a number of successful contemporary poets, the author schools us in the critical relationship between poet and reader, which is fundamental to what Kooser believes is poetry's ultimate purpose: to reach other people and touch their hearts. Much more than a guidebook to writing and revising poems, this manual has all the comforts and merits of a long and enlightening conversation with a wise and patient old friend—a friend who is willing to share everything he's learned about the art he's spent a lifetime learning to execute so well.

Reference Librarianship Jun 13 2021 A daily diary of actual interactions between a reference desk librarian and his patrons Reference Librarianship documents a year in the life of a young librarian working in the "trenches" at a library in the Midwestern United States. This one-of-a-kind book provides a daily diary of every librarian/patron transaction—no matter how mundane or absurd—to demonstrate not only how advances in technology have affected the reference librarian's job, but how the public's expectations have changed, as well. The book also includes observations by a now-retired reference librarian on the current state of the field based on these unedited interactions. Over the past two decades, the job of reference librarian has seen many changes. But in many ways, reference desk work hasn't changed a bit, with its mix of odd, humorous, routine, and ridiculous requests that capture what it's like to deal with patrons day after day. Reference Librarianship paints a clear picture of the field for library school students, provides emotional and philosophical support to practitioners, and reminds library administrators of what life was like on the "front lines." A sampling of the daily transactions documented in Reference Librarianship: Monday, May 19, 2003: pencil pencil network down I tell people that I can't sign them up for an Internet terminal because the network is down and they just stand there, staring into space One of them asks for three days worth of newspapers microfiche machine explanation Sorry, Sir, the network is still down (multiply by twenty and insert randomly into the remainder of the day) magic tricks, but he pretty much knew where they were One of our large interior plate glass windows shattered. No one was hurt and it made a fascinating noise, like a crystal waterfall landing on soil. "Books on prostitution, you know—whores?" Someone from the County called to ask if any criminal activity had occurred on a particular street. Someone else referred her to us. She was dubious—with good reason. "Math puzzles." Okay. I show him the books. "Just math." Certainly. I show him the books. "I need them in Spanish." Grrr ... Reference Librarianship is an enlightening, educational, and entertaining look at the real world of reference desk work. It's an essential read for reference librarians (both public and academic), library administrators, and library school students, as well as anyone who works with the public.

Repair Manual for Uncle Sam and America Nov 18 2021 The Repair Manual for Uncle Sam and America is written to cut through the infinite mass of psycho-babble that has been thrown at the American people for decades. Thousands of books and articles have been written to analyze our problems, yet with all that verbiage we have not fixed anything. Today we are broke and in debt, we have wasted our wealth on needless wars, our drug problems have not abated, our prisons are overcrowded, illegals mooch off our system, our health care system is broke along with our Social Security, we are in trouble and there is no more American Dream. Our government does not understand globalization and we are loosing jobs because of it. Our politicians are stalemated along party lines and nothing is done to benefit the people. This Repair Manual points out our greatest dangers and offers simple rational, logical solutions to fix the problems. At one time America had a great world image, a great economy, it was a land of opportunity for everyone, where is all that now? Today we must start to fix it, restore it because the road we are on today will lead to anarchy and then to a totalitarian socialist state. Americans must become informed and involved in our political system because without their help our politicians will take us down the same path we are on, leading down
