Working for the Japanese May 03 2020 This book is an exploration into the relations between Americans and Japanese at the Mazda-Flat Rock plant. The presence of Japan Inc. looms larger than ever for millions of American managers and workers, as hundreds of Japanese companies open plants and offices in local communities across the United States. What is it like to work for the Japanese? Can Americans, with their strong tradition of individualism, adjust to a Japanese "team system" that emphasizes harmony and close cooperation? How do Americans and Japanese resolve the misunderstandings that arise from differences in language and culture? Journalists Joseph and Suzy Fucini sought the answers by studying relations between Americans and Japanese at the Mazda plant in Flat Rock, Michigan, the first wholly-owned Japanese auto plant to employ a unionized American workforce. For three years, the Fucinis followed events at the plant, interviewing more than one hundred workers, managers and outside suppliers. The authors conclude that for all its strengths, the team system requires the sacrifice of individual interests to the good of the group, and that no matter how hard an individual tries to become part of the Mazda team, advancement for both managers and workers will be limited by the fact that they are not Japanese.

Away Bus! Jul 17 2021 This book is a collection of well-researched newspaper articles published in Ghana in The Mirror over a six-year period (2011 - 2017), under the banners of Lokomotion Corner and Your DriveWorld. The primary audience being the Ghanaian populace, the topics and content are nevertheless relevant for the urban dweller in any modern city across the globe. These articles will educate, inform, entertain and resonate with any reader, as a driver, vehicle owner, pedestrian or just a keen observer of traffic issues in the world out there. Cars are decidedly cool, and you will ultimately need to read this book to understand why we firmly believe so.

Mazda MX-5/Miata Mk1 & 2 Apr 13 2021 An easy to follow guide to restoring a classic Mazda MX-5/Miata - the world's favourite small sports car. This book takes you step-by-step through choosing a project car, looking the car over, planning the restoration, and buying parts and tools to perform the work. The comprehensive text is fully supported by high-resolution photographs, guiding you through stripping the car down, cutting out and repairing rust, restoration of interiors, replacing the hood, refurbishing the underside of the car including the floor pan, suspension, brakes, undersealing, reassembly, replacing the cam belt and waterpump, replacing engine seals and gaskets to cure common leaks. It also provides a guide to handy upgrades as you go along. Whether you are looking to restore to original condition or build an out-and-out track weapon, the techniques described in this book will assist you in getting the right base to start with. The book is based on an actual restoration of a vehicle carried out by the author, with before and after shots.

Plunkett's Automobile Industry Almanac 2007 Nov 20 2021 Provides information on the truck and specialty vehicles business, including: automotive industry trends and market research; mergers, acquisitions, globalization; automobile manufacturers; truck makers; makers of specialty vehicles such as RVs; automobile loans, insurance and other financial services; dealerships; and, components manufacturers.

Textual Sources for the Study of Zoroastrianism Nov 28 2019 "Boyce is a, perhaps the, world authority on Zoroastrianism. . . . Prefaced by a 27-page introduction, this anthology contains selections which offer a complete picture of Zoroastrian belief, worship and practice. There are historical texts from the sixth century B.C. onwards, and extracts from modern Zoroastrian writings representing traditionalism, occultism and reformist opinion. Anyone wishing to know more about this 'least well known of the world religions' should sample these selections."—The Methodist Church "Wide-ranging. . . . An indispensable one-volume collection of primary materials."—William R. Darrow, Religious Studies Review

The Automotive Industry and European Integration Apr 25 2022 This book chronicles the divergent growth trends in car production in Belgium and Spain. It delves into how European integration, high wages, and the demise of GM and Ford led to plant closings in Belgium. Next, it investigates how lower wages and the expansion strategies of Western European automakers stimulated expansion in the Spanish auto industry. Finally, it offers three alternate scenarios regarding how further EU expansion and Brexit may potentially reshape the geographic footprint of European car production over the next ten years. In sum, this book utilizes history to help expand the knowledge of scholars and policymakers regarding how European integration and Brexit may impact future auto industry investment for all EU nations.

Global Supply Chain Quality Management Mar 01 2020 While there is substantial research surrounding manufacturing and design-related product hazards, little has been written about supply chain product hazards and how they impact supply chain quality management. Filling this need, Global Supply Chain Quality Management: Product Recalls and Their Impact draws together key insights and research findings from a global research project on product safety and recalls. The book presents detailed case studies of six extended global supply chains within three industries: toys, food, and pharmaceuticals. These case studies cover U.S. companies with supply chains that extend into China and provide the perspectives of both U.S. and Chinese executives. It includes coverage of several highly publicized product recalls, including Ford Pinto, Extra Strength Tylenol, melamine-tainted milk, Mattel, and Toyota. Presenting detailed examples of both poor and best practices, the text supplies firsthand accounts from key players in well-known product recalls. It outlines an event study methodology that can help readers determine the true financial impact of a product recall announcement. It also describes how to conduct controlled experiments to determine the effect of various recall strategies on consumers. The book describes how alternative product recall strategies can influence consumers' perception of your organization's corporate social legitimacy as well as their future purchasing behaviors. Although the text focuses on product quality within the supply chain, it also sheds light on other sources of product hazards—sharing a wide-ranging perspectives and current methodologies.

Abhandlungen Der Akademie Der Wissenschaften Zu Göttingen. Neue Folge Jun 03 2020 This is the first modern comprehensive account of the syntax of Old Avestan, the earliest known form of Iranian language, attested in the Gathas of Zarathushtra and the Liturgy in Seven Chapters. It is based on the most up-to-date understanding of the texts, while following traditional principles of grammatical analysis. There are also substantial sections on word order, stylistics, and figures of speech. Translations are provided for almost all passages quoted. The work will be welcomed by Iranianists as well as by historical linguists with wider Indo-European interests.
