Commitment in the Artistic Practice of Aref el-Rayess Jul 07 2020 In April 1968, ten months after the Arab defeat of the 1967 June War, Aref El-Rayess's *Dima? wa Hurriyya* (Blood and Freedom) opened to the public in the exhibition hall of the *L'Orient* newspaper headquarters in Beirut, Lebanon. The 5th of June, or, *The Changing of Horses*, a realist mural painting on canvas, was the exhibition's centerpiece. With this artwork, El-Rayess declared his commitment to national liberation and socialist revolution. *The Changing of Horses* was presented and received as an allegory of political commitment, but the slips, silences, and repetitions in the public reception point to its excessive, disturbing, and fundamentally uncanny character. In *Commitment in the Artistic Practice of Aref El-Rayess*, the first comprehensive study of the work, Natasha Gasparian weaves together a social art history from the artist's writings, exhibition reviews, guestbook comments, personal correspondences and testimonies, as well as social, political, and aesthetic shifts, particularly as they related to the debates on commitment (*iltizam*) in the aftermath of the June 1967 war. By attempting to reconstruct this history of the artwork and tracing the caesuras in the discourse around it, Gasparian exposes the social antagonism that is repressed and obfuscated in the idealized narrative sustained by El-Rayess and his audiences. She argues that the oversight in the reception—the critics' and audiences' inability to see—attests to the delay in grasping the work historically and signals its avant-gardism.

Statemaking and Territory in South Asia May 29 2022 "Statemaking and Territory in South Asia: Lessons from the Anglo-Gorkha War (1814–1816)" seeks to understand how European colonization transformed the organization of territory in South Asia through an examination of the territorial disputes that underlay the Anglo-Gorkha War of 1814–1816 and subsequent efforts of the colonial state to reorder its territories. The volume argues that these disputes arose out of older tribute, taxation and property relationships that left their territories perpetually intermixed and with ill-defined boundaries. It also seeks to describe the long-drawn-out process of territorial reordering undertaken by the British in the nineteenth and twentieth centuries that set the stage for the creation of a clearly defined geographical template for the modern state in South Asia.

The Entrepreneurial State May 05 2020 From one of the world's leading economists, a bestselling expose of the state's crucial role in sparking innovation and growth—and the dangers of ignoring this truth. Conventional wisdom holds that innovation is the preserve of the private sector, best left in the hands of that modern day folk hero—the lone entrepreneur. In this popular tale, the role of the public sector is simply to get out of the way, at best fixing market failures, in order to facilitate our daring hero's bold, risk-taking endeavours. But what if this powerful, contemporary myth is wrong? In this sharp and controversial expose, Mariana Mazzucato comprehensively debunks the myth of a lumbering, bureaucratic state weighing down a dynamic private sector, to reveal how public investments have been behind many of the greatest innovations of our time. From the technologies that make the iPhone 'smart', to biotech, pharmaceuticals and today's emerging green technologies, it is the state that has been the investor of first resort, our boldest and most valuable innovator. Meanwhile, the private sector only finds the courage to invest after the entrepreneurial state has made the truly pioneering, high-risk investments. This false narrative has real world consequences - a select few get credit for what is an intensely collective effort, privatising rewards reaped from socialized risks. Mazzucato makes a powerful case that a failure to understand the state's entrepreneurial role is leading us down the wrong path—towards a future of stagnant growth and increased inequality. As we face the new challenges of the twenty-first century, Mazzucato argues that we need to reinvent the entrepreneurial state, to co-create the opportunities of the future -- and the kinds of public-private deals that will allow smart, innovation-led growth to also be more

inclusive growth.

Conduct Books and the History of the Ideal Woman Nov 22 2021 The longest-running war is the battle over how women should behave. "Conduct Books and the History of the Ideal Woman" examines six centuries of advice literature, analyzing the print origins of gendered expectations that continue to inform our thinking about women's roles and abilities. Close readings of numerous conduct manuals from Britain and America, written by men and women, explain and contextualize the legacy of sexism as represented in prescriptive writing for women from 1372 to the present. While existing period-specific studies of conduct manuals consider advice literature within the society that wrote and read them, "Conduct Books and the History of the Ideal Woman" provides the only analysis of both the volumes themselves and the larger debates taking place within their pages across the centuries. Combining textual literary analysis with a social history sensibility while remaining accessible to expert and novice, this book will help readers understand the on-going debate about the often-contradictory guidelines for female behavior.

Republic Or Death! Jan 13 2021 "There are a couple of hundred songs that are sung by millions across the world each day, that school children know by heart and sports fans belt out perfectly even after eight beers. And they aren't pop songs u they are national anthems. These are songs which inspire the fiercest of feelings: for some they are a declaration of nationalistic pride; for others a rallying cry for revolution; and for others still they serve as a shameful reminder of past wrongs. And yet, despite the fact that for many of us they form a fundamental part of our national consciousness, the fascinating stories underlying the creation and adoption of each national anthem have rarely, if ever, been told. In *Republic or Death*, Alex Marshall brings the incredible stories of the world's national anthems to life. Taking in Europe, the Middle East, Asia, Africa and the Americas North and South, he embarks on an adventure that includes cycling the route along which French revolutionaries marched as they first sang *La Marseillaise*; entering a competition for the best singer of the *Star-Spangled Banner*; and attempting to bribe his way to an audience with the king of Nepal in order to uncover the story behind the only national anthem written on a Casio keyboard. In the course of his enthralling and often hilarious travels, Alex encounters everyone from senior politicians and anthem composers to the sports fans and activists from whom these songs evoke such a wide range of emotions. Along the way, he uncovers the fascinating cultural and musical history of the world's anthems, and also asks us to consider what they mean for us today."

Photography, Early Cinema and Colonial Modernity Jun 25 2019 'Photography, Early Cinema and Colonial Modernity' is not a biography of Frank Hurley the man; it is instead an examination of the social life of the many marvellous and meaningful things he made as a professional photographer and film maker. The focus of this volume surrounds the media events that encompassed these various creations – what Hurley called his 'synchronized lecture entertainments'. These media events were at once national and international; they involved Hurley in an entire culture industry that was constantly in movement along global lines of travel and communication. This raises complex questions both about the authorship of Hurley's photographic and filmic texts – which were often produced and presented by other people – and about their ontology, as they were often in a state of reassemblage in response to changing market opportunities. This unique study re-imagines, from inside the quiet and stillness of the archive, the prior social life enjoyed by Hurley's creations amidst the complicated topography of the early twentieth century's rapidly internationalizing mass-media landscape. As a way to conceive of that space, and of the social life of the people and things within it, this study uses the concept of 'colonial modernity'.

Colonialism and Transnational Psychiatry Mar 27 2022 This book focuses on the Ranchi Indian Mental Hospital, the largest public psychiatric facility in colonial India during the 1920s and 1930s. It breaks new ground by offering unique material for a critical engagement with the phenomenon of the 'indigenisation' or 'Indianisation' of the colonial medical services and the significance of international professional networks. The work also provides a detailed assessment of the role of gender and race in this field, and of Western and culturally specific medical treatments and diagnoses. The volume offers an unprecedented look at both the local and global factors that had a strong bearing on hospital management and psychiatric treatment at this institution.

Anthem H Dec 12 2020 When twenty-six-year-olds Shainee Gabel and Kristin Hahn quit their Hollywood jobs, packed up a borrowed car and hit the road, it was with the deeply felt conviction that somewhere, shrouded in the din of talk shows and tabloid headlines, they'd discover the real America, alive and well in all of its regions and demographics. Armed with a

Powerbook, a couple of video cameras and the names and phone numbers of over two hundred Americans they viewed as visionaries or cultural icons, they embarked on a journey that would take them from historic New Orleans to the rainforests of Washington, from the skyscraper-lined avenues of New York City to the dusty roads of the Great Plains. Never did they imagine that they'd drive recklessly through the back roads of Aspen with Hunter S. Thompson, see the President of the United States lose his temper, be in the CNN newsroom on the day of the O. J. Simpson verdict, or survive the hottest day in Chicago history with America's chronicler, Studs Terkel. During their six-month journey, Gabel and Hahn interviewed luminaries from every field and walk of life. They talked to business people, politicians, activists, scientists, writers and artists, including Robert Redford, Michael Stipe, Willie Nelson, Geraldine Ferraro, John Irving and American poet laureate, Rita Dove, to name a few. They also talked to everyday people they encountered along the way, from a sixty-five-year-old waitress in Iowa to a haygrinder in North Dakota.

Anthem Dec 24 2021 For people of African descent, music constitutes a unique domain of expression. From traditional West African drumming to South African kwaito, from spirituals to hip-hop, Black life and history has been dynamically displayed and contested through sound. Shana Redmond excavates the sonic histories of these communities through a genre emblematic of Black solidarity and citizenship: anthems. An interdisciplinary cultural history, *Anthem* reveals how this "sound franchise" contributed to the growth and mobilization of the modern, Black citizen. Providing new political frames and aesthetic articulations for protest organizations and activist-musicians, Redmond reveals the anthem as a crucial musical form following World War I. Beginning with the premise that an analysis of the composition, performance, and uses of Black anthems allows for a more complex reading of racial and political formations within the twentieth century, Redmond expands our understanding of how and why diaspora was a formative conceptual and political framework of modern Black identity. By tracing key compositions and performances around the world—from James Weldon Johnson's "Lift Ev'ry Voice and Sing" that mobilized the NAACP to Nina Simone's "To Be Young, Gifted & Black" which became the Black National Anthem of the Congress of Racial Equality (CORE)—*Anthem* develops a robust recording of Black social movements in the twentieth century that will forever alter the way you hear race and nation. Shana L. Redmond is Assistant Professor of American Studies and Ethnicity at the University of Southern California. She is a former musician and labor organizer.

Star-Spangled Banner Mar 15 2021 " In September, 2014, Baltimore and the United States will mark the bicentennial of the event that inspired "The Star-Spangled Banner." But Francis Scott Key's poem, set to a British drinking song, has not always been our anthem, nor even especially popular. Aiming at a broad readership, Ferris examines the history of the song through the generations that followed the War of 1812, the kinds of Americans who rallied behind the song, and the successful lobbying effort that in 1933 convinced Congress to adopt the music and four stanzas as our official national anthem. Since then many citizens have called for its replacement with something less warlike; people quarrel over its apparent militarism and also difficulty level. Politically, Ferris finds, the song has an interesting and somewhat tortured story. Are we the only nation on earth with a controversial national anthem?"--Provided by publisher.

Ethical Teachings of Abū Muḥammad al-Ghazālī Nov 30 2019 This book studies the interplay of economic philosophy and moral conduct as reflected in the writings of one of the most renowned scholars in Islamic history, Abū Muḥammad ibn Muḥammad al-Ghazālī (d. 1111). As is well known, Imām al-Ghazālī, nicknamed "the proof of Islam", contributed immensely to Islamic theology, philosophy, and Sufism or Islamic mysticism (taʿawwuf). Strikingly enough, al-Ghazālī also made seminal contributions to the field of economic thought, but this contribution has been largely neglected, although al-Ghazālī dedicated many chapters to what he considered just and Sharʿa-based economic conduct in (Muslim) society. This book aims to analyse and revive al-Ghazālī's understudied contribution to economic thought by emphasizing his economic philosophy and its correlation between Sharʿa's moral law and the tradition of taʿawwuf, as well as to situate his thought within the context of modern economic theories.

May We Forever Stand Feb 11 2021 The twin acts of singing and fighting for freedom have been inseparable in African American history. May We Forever Stand tells an essential part of that story. With lyrics penned by James Weldon Johnson and music composed by his brother Rosamond, "Lift Every Voice and Sing" was embraced almost immediately as an anthem that captured the story and the aspirations of black Americans. Since the song's creation, it has been adopted by the NAACP and performed by countless artists in times of both crisis and celebration, cementing its place in African American life up through the present day. In this rich, poignant, and readable work, Imani Perry tells the story of the Black National Anthem as it traveled from South to North, from civil rights to black power, and from countless family reunions to Carnegie Hall and the Oval Office. Drawing on a wide array of sources, Perry uses "Lift Every Voice and Sing" as a window on the powerful ways African Americans have used music and culture to organize, mourn, challenge, and celebrate for more than a century.

The Cop and the Anthem Sep 28 2019 While some try to get out of prison, Soapy, the only character in O. Henry's short story, tries to get into it. Soapy is a homeless guy who prefers the warm cell to the cold night under the New York sky. He does everything he can think of in order to draw the attention of the police. However without any success. Until he hears a magical organ anthem. How will this story develop? Will Soapy manage to get into jail or he will find another way to sort out his life? "The Cop and the Anthem" is a comical short story with a touch of irony which emphatically presents the lower class and the obstacles man has to face. William Sidney Porter (1862-1919), known simply as O. Henry, was a prolific American author of humorous literary pieces. His fame came exceptionally quickly and he became a bestselling author of short story collections, among the most famous being "Cabbages and Kings", "The Voice of the City", and "Strictly Business." As a result of the outstanding literature legacy that O. Henry left behind, there is an American annual award after his name, given to exceptional short stories.

Winner of the Karachi Literary Festival Peace Prize 2015.

Anthem for Doomed Youth Jun 05 2020 Leading poet and former professor of English Literature, Jon Stallworthy, tells the story of the lives and work of twelve major poets of the First World War and provides selections of their best work. The First World War began with flag-waving, parades and poets inspired by abstract ideals. In part this reflected the national mood, but it revealed an almost universal failure to understand what modern mass warfare would really mean. The story of the 'war poets' is also the story of an awakening to the full horror of what the twentieth century came to know as 'The Great War'. Wilfred Owen said, 'My subject is War - and the pity of War'. He also said 'true Poets must be truthful'. The best war poetry was the work of writers who were also serving soldiers and was born out of their desire to tell the truth about what it was to be a soldier in the trenches - what it felt like, what it did to you and what it did to your fellow soldiers, friend or foe. The greatness of the poetry lay not just in the writer's talent, but in the unflinching accuracy with which it portrayed their terrible circumstances.

Library Bookwatch "Recommended" -- Choice A History of Modern India provides a comprehensive chronological analysis of India's vibrant and diverse history. As well as examining the evolution of the relationship between the society and the state in its various economic, social, cultural and political forms, A History of Modern India analyses the major empires in modern India from the Moghuls (1580-1739) to the Raj (1818-1947), and discusses the economic, social and intellectual dynamism that accompanied intervening periods of political fragmentation. The book explores the difficulties confronting the rise of Indian nationalism and the consequent confrontation between religious communities: what should have been the crowning victory of a pacifist anti-colonial movement was instead brutally resolved with the violence of Partition in 1947.

Communication and Colonialism in Eastern India Sep 01 2022 Through a regional focus on Bihar between the 1760s and 1880s, 'Communication and Colonialism in Eastern India' reveals the shifting and contradictory nature of the colonial state's policies and discourses on communication. The volume explores the changing relationship between trade, transport and mobility in India, as evident in the trading and mercantile networks operating at various scales of the economy. Of crucial importance to this study are the ways in which knowledge about roads and routes was collected through practices of travel, tours, surveys, and map-making, all of which benefited the state in its attempts to structure a regime that would regulate 'undesirable' forms of mobility.
