**Anderson's Ohio Consumer Law Manual** Nov 19 2021 Anderson's Ohio Consumer Law is ideal resource for lawyers, lenders, collectors, sellers and consumer advocates. Designed to capture the most important elements of consumer law, this convenient desk reference contains federal and state consumer statutes as well as extensive treatment of common law doctrines that are frequently invoked in consumer disputes. Plus, unlike many consumer law books, this one includes substantial coverage of both warranty law under Article 2 of the Uniform Commercial Code and the law of products liability, which are both critically important to consumers.

*Designing Cost-Efficient Mechanisms* Jul 16 2021 A successful engineer and entrepreneur shares his secrets for producing consistently superior designs at substantial cost savings. Minimum constraint design (MinCD) is a new systematic design strategy that yields major cost reductions and greatly improves the reliability of manufactured mechanisms. For the first time, this practical reference provides the "how-to-do-it" information you need to put this powerful design tool to work right away -- no matter what your level of training or experience. Based upon the author's extensive experience in product design, this timely book clearly explains the advantages of MinCD and tells you how to create better, more cost-efficient product designs using readily available commercial components. Packed with original ideas, design tips, helpful examples, and references - including directories of component vendors - this unique blend of practical and theoretical knowledge will revolutionize the way you work. Contents include: Part 1 - Minimum Constraint Design (MinCD), Semi-MinCD, and Redundant Constraint Design (RedCD) General Description Degrees of Constraint Kinds of Constraint Beneficial Non-MinCD Part 2 - Designing with Commercial Components General Discussion Rotary Motion Linear Motion Power Other Components Part 3 - Topics in Design Engineering Designing with Uncommon Manufacturing Processes Manufacturing Engineering Optimum Level of Mechanization and Automation Robots Robot Grippers Selecting Power Forms Backlash Hype Prod Deterioration Electrical and Mechanical Technologies: Competition and Cooperation References and Bibliography Reviews
