Alaska's Daughter Jan 15 2021 Elizabeth B. Pinson shares with us her memories of Alaska's emergence into a new and modern era, bearing witness to history in the early twentieth century as she recalls it. She draws us into her world as a young girl of mixed ethnicity, with a mother whose Eskimo family had resided on the Seward Peninsula for generations and a father of German heritage. Growing up in and near the tiny village of Teller on the Bering Strait, Elizabeth at the age of six, despite a harrowing, long midwinter sled ride to rescue her, lost both her legs to frostbite when her grandparents, with whom she was spending the winter in their traditional Eskimo home, died in the 1918 influenza epidemic. Fitted with artificial legs financed by an eastern benefactor, Elizabeth kept journals of her struggles, triumphs, and adventures, recording her impressions of the changing world around her and experiences with the motley characters she met. These included Roald Amundsen, whose dirigible landed in Teller after crossing the Arctic Circle; the ill-fated 1921 British colonists of Wrangel Island in the Arctic; trading ship captains and crews; prospectors; doomed aviators; and native reindeer herders. Elizabeth moved on to

boarding school, marriage, and the state of Washington, where she compiled her records into this memoir and where she lived until her death in 2006.

The Crushing Depths (Coastal Guardians Book #2) Apr 17 2021 When an accident claims the life of an oil-rig worker on the first drilling platform off the North Carolina coast, Coast Guard investigators Rissi Dawson and Mason Rogers are sent to take the case. Tensions surrounding the oil rig are high and the death has everyone on edge. Environmental activists are threatening to do whatever it takes to stop the structure from being completed, while rumors are being whispered about ancient curses surrounding this part of the ocean. Mounting evidence shows the death may not have been an accident at all. Was he killed by one of the activists or, perhaps more frighteningly, a member of his own crew? Rissi and Mason have to sort through not only a plethora of suspects, but also their own past and attraction to each other. Just as the case seems like it'll break open, worse news arrives. A tropical storm has turned their way and soon they're cut off from any rescue--and right where the killer wants them. It's a race to discover his identity before he eliminates the threat they pose.

Sea Legs Dec 14 2020 Three years after his return from the Alaskan wilderness, Guy Grieve was living on the Isle of Mull in Scotland with his wife Juliet and their two young sons. Sick of the weather, perennial colds and their increasingly routine lifestyle, they'd all been getting restless. Finally, Guy and Juliet broke in spectacular style - they re-mortgaged their house and bought a yacht. Her name was Forever. The plan? To pick up Forever from her mooring in the Leeward Antilles off the coast of Venezuela, and sail around the West Indies before crossing the Atlantic back to Scotland. This was despite the fact that Guy, skipper of the expedition, had almost no sailing experience. Travelling around the lush tropical islands of the Caribbean and up the waterways of America, the family had countless sublime moments as they discovered the freedoms of sailing - anchoring in deserted bays, night passages under star-studded skies, and entering New York by water, greeted by the Statue of Liberty. But there were also testing times as they grappled with seasickness and bad weather, coping with young children at sea and learning to run a large, complex boat. Far from being the idyllic escape they'd envisaged, the journey forced Guy and Juliet to draw on reserves of courage and endurance they never knew they had. Wry, funny and buccaneering, this is a compelling tale of bravery and endeavour, out on the open sea.

Furious and grief-stricken, he vows to do whatever is needed to bring the mastermind behind the attack to justice. Stunned by the ambush, Coast Guard flight medic Brooke Kesler evacuates in a helicopter carrying the only surviving gunman. The gravely wounded man whispers mysterious information to Brooke that immediately paints a target on her back. As Brooke and Noah race to uncover answers, emotions between them ignite. Noah struggles to protect Brooke at all costs and to conceal the secret that prevents him from becoming what he longs to be--the right man for her. Everything is at stake as a horrifying truth emerges. . . . The attack wasn't the end game. It was only the beginning. Through the eyes of Scout and Jem Finch, Lee explores the issues of race and class in the Deep South of the 1930s with compassion and humour. She also creates one of the great heroes of literature in their father, whose lone struggle for justice pricks the conscience of a town steeped in prejudice and hypocrisy.

Though these women have been known to complain more than contribute, they now must either survive on their own or die trying. In simple but vivid detail, Velma Wallis depicts a landscape and way of life that are at once merciless and starkly beautiful. In her old women, she has created two heroines of steely determination whose story of betrayal, friendship, community and forgiveness "speaks straight to the heart with clarity, sweetness and wisdom" (Ursula K. Le Guin).

Into the Wild Jun 27 2019 Krakauer's page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. "Terrifying... Eloquent... A heart-rending drama of human yearning." —New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of *Into the Wild*. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page.

Not One Drop Jun 07 2020 Betrayed by oilmen's promises in the 1970s, the people of Prince William Sound, Alaska, awaken on March 14, 1989, to the nation's largest oil spill. *Not One Drop* is an extraordinary tale of ordinary lives ripped apart by disaster and of community healing through building relationships of trust. This story offers critical lessons for a society traumatized by political divides and facing the looming catastrophe of global climate change. Author Riki Ott, a rare combination of commercial salmon "fisherm'am" and PhD marine biologist, describes firsthand the impacts of oil companies' broken promises when the Exxon Valdez spills most of its cargo and despoils thousands of miles of shore. Ott illustrates in stirring fashion the oil industry's 20-year trail of pollution and deception that predated the tragic 1989 spill and delves deep into the disruption to the fishing community of Cordova over the following 19 years. In vivid detail, she describes the human trauma coupled inextricably with that of the sound's wildlife and its long road to recovery. Ott critically examines shifts in scientific understanding of oil-spill effects on ecosystems and communities, exposes fundamental flaws in governance and the legal system, and contrasts hard won spill-prevention and spill-response measures in the sound to dangerous conditions on the Alaska pipeline. Her human story, varied background, professional training, and activist heart lead readers to the root of the problem: a clash of human rights and corporate power embedded in law and small-town life. *Not One Drop* is as much an example of how too many corporate owners and political leaders betray everyday citizens as it is one of the universal struggle to maintain heart, to find the courage to overcome disaster, and to forge a new path from despair to hope.

A Child Called It Sep 30 2019 This book chronicles the unforgettable account of one of the most severe child abuse cases in California history. It is the story of Dave Pelzer, who was brutally beaten and starved by his emotionally unstable, alcoholic mother: a mother who played tortuous, unpredictable games--games that left him nearly dead. He had to learn how to play his mother's games in order to survive because she no longer considered him a son, but a slave; and no longer a boy, but an "it." Dave's bed was an old army cot in the basement, and his clothes were torn and raunchy. When his mother allowed him the luxury of food, it was nothing more than spoiled scraps that even the dogs refused to eat. The outside world knew nothing of his living nightmare. He had nothing or no one to turn to, but his dreams kept him alive--dreams of someone taking care of him, loving him and calling him their son.

The Sun Is a Compass Feb 02 2020 For fans of Cheryl Strayed, the gripping story of a biologist's human-powered journey from the Pacific Northwest to the Arctic to rediscover her love of birds, nature, and adventure. During graduate school, as she conducted experiments on the peculiarly misshapen beaks of chickadees, ornithologist Caroline Van Hemert began to feel stifled in the isolated, sterile environment of the lab. Worried that she was losing her passion for the scientific research she once loved, she was compelled to experience wildness again, to be guided by the sounds of birds and to follow the trails of animals. In March of 2012, she and her husband set off on a 4,000-mile wilderness journey from the Pacific rainforest to the Alaskan Arctic, traveling by rowboat, ski, foot, raft, and canoe. Together, they survived harrowing dangers while also experiencing incredible moments of joy and grace -- migrating birds silhouetted against the moon, the steamy breath of caribou, and the bond that comes from sharing such experiences. A unique blend of science, adventure, and personal narrative, *The Sun is a Compass* explores the bounds of the physical body and the tenuousness of life in the company of the creatures who make their homes in the wildest places left in North America. Inspiring and beautifully written, this love letter to nature is a lyrical testament to the resilience of the human spirit. Winner of the 2019 Banff Mountain Book Competition: Adventure Travel

The Final Frontiersman Jan 03 2020 The inspiration for The Last Alaskans—the eight-part documentary series on the Discovery Channel! Called “[one of] the greatest life-or-death-tales ever told” (Esquire), James Campbell’s inimitable insider account of a family’s nomadic life in the unshaped Arctic wilderness “is an icily gripping, intimate profile that stands up well beside Krakauer’s classic [Into the Wild], and it stands too, as a kind of testament to the rough beauty of improbably wild dreams” (Men’s Journal). Hundreds of hardy people have tried to carve a living in the Alaskan bush, but few have succeeded as consistently as Heimo Korth. Originally from Wisconsin, Heimo traveled to the Arctic wilderness in his feverous twenties. Now, more than three decades later, Heimo lives with his wife and two daughters approximately 200 miles from civilization—a sustainable, nomadic life bounded by the migrating caribou, the dangers of swollen rivers, and by the very exigencies of daily existence. In *The Final Frontiersman*, Heimo’s cousin James Campbell chronicles the Korth family’s amazing experience, their adventures, and the tragedy that continues to shape their lives. With a deft voice and in spectacular, at times unimaginable detail, Campbell invites us into Heimo’s heartland and home. The Korths wait patiently for a small plane to deliver their provisions, listen to distant chatter on the radio, and go sledding at 44° below zero—all the while cultivating the hard-learned survival skills that stand between them and a terrible fate. Awe-inspiring and memorable, *The Final Frontiersman* reads like a rustic version of the American Dream and reveals for the first time a life undreamed by most of us: amid encroaching environmental pressures, apart from the herd, and alone in a stunning wilderness that for now, at least, remains the final frontier.
