SIMPLE TRICKS & TIPS IN CHEMISTRY PART-2 (For Class 12) Sep 21 2021  
A STRATEGIC BOOK THAT GIVES YOU A SURE SHOT COMPETITIVE EDGE §  
Competitive exams test the conceptual knowledge of students along with time management skills. However, several students generally do not get the expected rank/score despite knowing all the concepts. §  
It is an irony that students spend several precious hours and parents spend huge money running from one coaching institute to another, but

nobody guides them on time management right from the beginning, and when students attend crash courses (about 1-2 months before competitive exam), they hardly have any time to master these skills. § The author of this book strongly believes that with proper and timely strategic guidance on time management, every student can achieve well in Competitive Exams. § This book has the strength to cover the entire syllabus in 10 days. For fast track coverage of the entire course/ online coaching, students can contact the author at [monicabhandari.books@gmail.com](mailto:monicabhandari.books@gmail.com). § This book encompasses 10 chapters. Each chapter starts with a quick review of the important concepts followed by shortcuts, tips & tricks. The strategic manner in which topics are inter-linked in this book will help in building a strong conceptual clarity among the students. For illustration, questions from previous years papers of JEE and NEET with accurate & shortest possible solutions are provided along with each topic. The questions are based on the author's interactions with students who had appeared in the aforementioned competitive exams in the past years. Solving the carefully handpicked questions given in this book, students will find themselves at ease with the Chemistry paper in any Competitive as well as Board examination. This book will enable the students with advanced abilities to attempt maximum number of questions accurately within the stipulated time. § Remember! Practice is the key to success. So, practice more and more questions on each and every topic from a good question bank. § And here's the last but not the least and the most important tip - revise all your incorrectly attempted questions repeatedly and bookmark important questions so that you gain perfection in attempting questions having similar concept or trick. IT'S NOT ALWAYS ABOUT STUDYING HARD, BUT STUDYING SMART!!

Regards, Dr. Monica Bhandari
