[Gynaecology E-Book](#) Sep 08 2020 Long recognized as the standard general reference work providing a complete overview of contemporary gynaecological practice, this new edition of Shaw, Gynaecology provides all the information that trainees need to master in order to successfully take their professional certification exams as well as providing the practicing gynaecologist with an accessible overview of the "state of play" of diagnostic and therapeutic procedures. Totally rewritten, it gives a succinct but comprehensive account of all currently available resources in the management of gynaecological disorders. Comprehensive overview of contemporary gynaecological practice with a clinically focused approach. It covers all of the areas that a gynaecologist covers on a day-to-day basis and helps in the formulation and implementation of the most effective treatment. Details the use of various imaging modalities and investigative techniques as they relate to specific diseases in order to provide a solid foundation for clinical practice. User-friendly features such as chapter outlines, summary tables, key point boxes incorporated throughout. Provides quick access to the most necessary information for practitioners needing a quick consult or trainees preparing for exams. Copiously illustrations clarify and enhance the text whenever appropriate. Highly selective and current list of references quickly directs the reader to further investigations. New full colour illustrations incorporated throughout to accurately depict the full range of both common and rare disorders. Details up-to-date investigative and minimally invasive therapeutic techniques to keep the user abreast of the latest diagnostic and management options. Enhanced emphasis on surgical outcomes to help the user select the most appropriate procedure for any given patient. Two brand new editors and many brand new contributors provide a fresh perspectives on gynaecological oncology, reproductive and urogynaecological conditions.

Language Policy and Social Reproduction Oct 22 2021 During the nineteenth century Irish-speaking communities declined almost to the point of extinction. But in 1922 the new Irish state launched a broad strategy to re-establish Irish as a national language. This book is about that policy and its impact over the last seventy years. Ó Riagáin focuses on the evolving structure of bilingualism in Ireland but he is more centrally concerned with the process of bilingual reproduction. His analysis is based on a series of language surveys conducted between 1973 and 1993. In Part I he reviews the evolution of language policy and the main theoretical perspectives emerging in Irish research. In Part II he is concerned with the position of the Irish language in the residual Irish-speaking areas, and in Part III with the present position of the Irish language in the English-speaking areas. He examines the role of policy in education, in the public sector, and in the forming of Irish-speaking networks. He argues that the various dimensions of Irish language policy have been heavily conditioned by the way the Irish economy and, in turn, Irish society has developed since independence. He concludes in Part IV with a discussion of current issues within Irish language policy.

[Rethinking Drug Use in Sport](#) Sep 28 2019 Drug free sport is an unattainable aspiration. In this critical, paradigm-shifting reappraisal of contemporary drug policy in sport, Bob Stewart and Aaron Smith argue that drug use in sport is an inexorable consequence of the nature, structure and culture of sport itself. By de-mythologising and de-moralising the assumptions that prop up current drug management controls, and re-emphasising the importance of the long-term well being and civil rights of the athlete, they offer a powerful argument for creating a legitimate space for drug use in sport. The book offers a broad ranging overview of the social and commercial pressures impelling drug use, and maps the full historical and social extent of the problem. With policy analysis at the centre of the discussion, the book explores the complete range of social, management, policy, scientific, technological and health issues around drugs in sport, highlighting the irresolvable tension between the zero-tolerance model as advanced by WADA and the harm-reduction approach adopted by drug education and treatment agencies. While there are no simple solutions, as long as drugs use is endemic in wider society the authors argue that a more nuanced and progressive approach is required in order to safeguard and protect the health, social liberty and best interests of athletes and sports people, as well as the value of sport itself.

Comprehensive Cytopathology E-Book Aug 27 2019 This best-selling book provides you with a comprehensive guide to the diagnostic applications of exfoliative and aspiration cytology. The book takes a systemic approach and covers the recognized normal and abnormal cytological findings encountered in a particular organ. Appropriate histopathological correlations and a consideration of the possible differential diagnosis accompany the cytological findings. The book is lavishly illustrated, making it the perfect practical resource for daily reference in the laboratory. Provides an accessible guide to diagnostic investigation and screening. Includes a summary of major diagnostic criteria and discusses the pitfalls and limitations of cytology. Utilizes a consistent chapter structure to make finding the answers you need quick and easy. Provides updates to crucial chapters to keep you on top of the latest diagnosis and techniques. Incorporates differential diagnosis tables for easy comparison/contrast of diagnoses. Offers more than 1800 full-color images depicting a full range of normal and abnormal findings. Discusses new concepts on molecular basis of neoplasia. Explores the role of cytogenetics in cancer development.

[Mobility Analytics for Spatio-Temporal and Social Data](#) Jul 27 2019 This book constitutes the refereed post-conference proceedings of the First International Workshop on Mobility Analytics for Spatio-Temporal and Social Data, MATES 2017, held in Munich, Germany, in September 2017. The 6 revised full papers and 2 short papers included in this volume were carefully reviewed and selected from 13 submissions. Also

included are two keynote speeches. The papers intend to raise awareness of real-world problems in critical domains which require novel data management solutions. They are organized in two thematic sections: social network analytics and applications, and spatio-temporal mobility analytics.

Gas Insulated Substations Dec 12 2020 The increase in demand for electricity and the growing energy density in metropolitan cities have made it necessary to extend the existing high voltage network right up to the consumer. Stepping down the voltage from transmission to the distribution level at the substations located near the actual consumers not only yields economic advantages, but also ensures reliable power supply. Such substations are required to meet a number of severe requirements, including small installation size, effective protection against atmospheric pollution and moisture, noiseless operation, nonexplosive and flame resistant, reduced maintenance, minimal radio interference while providing excellent electric characteristics. Conventional substations using atmospheric air as the main dielectric cannot satisfy these requirements, but totally enclosed substations using sulphur hexafluoride (SF6) gas insulation that are also known as Gas Insulated Substations (GIS). GIS is now in widespread use in the electrical power industry, especially in metropolitan areas. This book will serve as a valuable reference for the novice as well as the expert who needs a wider and detailed scope of coverage within the area of GIS. Gas Insulated Substations provides a comprehensive coverage of a wide range of topics which include: \* Introduction to GIS & Properties of SF6 \* Layout, Design, Construction, Testing & Maintenance of GIS \* Special Problems and Diagnostic Techniques \* VFTO Phenomena and its Effects in GIS \* Service Experience \* Standards Specifications \* Future Trends \* Extensive References Gas Insulated Substations (GIS) is the first single source for authoritative information on the state of the art in GIS.

The 1989 FAO Standard Specifications for the Marking and Identification of Fishing Vessels: Use and options for review Oct 10 2020 The marking of fishing vessels is important for their identification, to support the global efforts to promote sustainable fisheries, for safety at sea and to combat illegal, unreported and unregulated fishing. For this reason, the FAO Standard Specifications for the Marking and Identification of Fishing Vessels were developed and endorsed by COFI in 1989 as a voluntary instrument providing a standardized system for the identification of fishing vessels operating, or likely to operate, in waters of another State. Global developments have had an impact on the usefulness of the FAO Standard Specifications, specifically the increased use of the International Maritime Organization number as a unique vessel identifier and the establishment of the FAO's Global Record. This document provides background to the development of the FAO Standard Specifications and the results of a study to assess the level of their adoption at the national, regional and international levels. It also describes progress in the areas of vessel identity, vessel tracking, different vessel types and catch traceability and how these impact the usefulness of the FAO Standard Specifications. Finally, the document proposes a review and update of the FAO Standard Specifications.

The book is especially valuable for those interested in the aspects of Web 2.0 and its inherent dynamic and diversity of user-generated content.

Essential Neuropharmacology Sep 01 2022 Essential Neuropharmacology: The Prescriber's Guide reviews the full range of medications used by neurologists in clinical practice. Expert knowledge is given about the best use of medications in patient care. Each drug listing contains the full range of indications, their advantages and disadvantages, and tips for dosing and avoiding adverse effects. Evidence is taken from recent clinical trials, which helps the reader relate the drug descriptions to everyday clinical practice. Where appropriate, off-label uses are also described. The detailed descriptions of each medication enable the user to make quick and informed decisions with the confidence they need to serve the clinical needs of their patients effectively. The new edition is fully updated throughout. Major new additions include neuro-oncology drugs, new multiple sclerosis agents, sleep medications and new formulations. This book is an essential, user-friendly reference suitable for neurologists at all stages of their careers.

Implementing e-Navigation May 29 2022 This one-of-a-kind new resource, written by an expert in the field, provides a comprehensive introduction to global e-navigation. This book presents the vision, development, and objectives of this strategy to increase awareness, safety, and security in the navigation of commercial shipping. Current equipment and practices of maritime navigation are discussed including ship reporting, shore based services, communications, and challenges in vessel travel services (VTS) and port areas. This book identifies performance gaps and demonstrates how to identify user needs as well as solutions through gap analysis. E-navigation architectures, solutions, and standards are explored. Readers find useful insight into how new concepts of e-navigation are being adapted internationally and some of the difficulties that will need to be overcome. This resource focuses on the use of e-navigation in security, cyber security, environmental protection, communications, and global and technical standardization. Navigation equipment, systems, displays, bridge systems, and other current equipment and practices are explored in this book. Readers get a look into the future of e-navigation, including the impact that digital globalization, unmanned ships, and big data will have on this strategy.
