It is generally dated to 1610-11 and accepted as the last play written solely by him, although some scholars have argued for an earlier dating. Ending the War Between Humanity and Nature Aug 12 2021 This book offers plausible explanations for people's puzzling unwillingness to address the human-nature interactions that have led us to the precipice that is climate change today. Humanity and nature are at war; the evidence is all around us: catastrophic weather events, rising sea levels, extinction of species, famine, wildfires, melting polar ice, millions of environmental refugees, and toxic pollution of air, water, and soil. The list goes on and on. What is causing this war, and how can

it be stopped? Is this war an unintended consequence of economic and environmental imperatives pulling in opposite directions? This book takes the question—and its answer—to a deeper level. It argues that the root cause of our war on nature might be found in the time-honored, historically deep myths, narratives and stories we tell ourselves—and have been telling ourselves for centuries—about humanity's place in (or out of) the natural world.

Shakespeare's Tragic Form Sep 13 2021 Since about 1960, when five-act division in Shakespeare's plays was strongly disputed, most critics have focused on individual scenes rather than holistic form. This book argues for Shakespeare's use of five acts, arranged in three cycles to form a 2-1-2 pattern. It also examines the role of multiple plots and centers of consciousness, especially in the festive comedies and romances. Additionally, it traces Shakespeare's gradual mastery of the art of epiphany, compares it to Spenser's complementary focus on transcendent reality, and traces in Macbeth the dark mode of Shakespeare's dramaturgical pattern.

The Respiratory Therapist's Legal Answer Book Sep 01 2020 Each day a new law or regulation affects the way respiratory therapists perform their jobs. This basic legal guide contains the extensive information respiratory therapists need to know about the court system, lawyers, law,

and litigation. Written by the author, a lawyer and therapist with 13 years of clinical experience ranging from floor therapy to administrative and management functions, this book combines the author's knowledge of the complex interactions in the legal system and how the legal system relates to therapy delivered at the bedside. A resource for students and professionals, the book presents 16 areas of the law, including medical negligence, hospital law and employment law. The text also contains a series of questions and answers about the subject areas of the law, and provides extensive guidance for therapists navigating the treacherous currents of ever changing laws. This is a book for anyone who treats respiratory therapy patients or manages therapists. Most legal texts are written either by non-lawyers or non-therapists. Non-lawyers do not understand the complex interactions in the legal system, and are not permitted to give advice. Non-therapists may understand the law very well, but be unable to relate to how therapy is delivered at the bedside. This book is written by a therapist who is a lawyer, and who has been at the bedside. With thirteen years of clinical experience ranging from floor-therapy to administration and management functions, the author understands how a hospital works. The result is a book that is useful both as a course-book and as a reference
