*An Introduction to Political Geography Jul 12 2021 An Introduction to Political Geography continues to provide a broad-based introduction to contemporary political geography for students following undergraduate degree courses in geography and related subjects. The text explores the full breadth of contemporary political geography, covering not only traditional concerns such as the state, geopolitics, electoral geography and nationalism; but also increasing important areas at the cutting-edge of political geography research including globalization, the geographies of regulation and governance, geographies of policy formulation and delivery, and themes at the intersection of political and cultural geography, including the politics of place consumption, landscapes of power, citizenship, identity politics and geographies of mobilization and resistance. This second edition builds on the strengths of the first. The main changes and enhancements are: four new chapters on: political geographies of globalization, geographies of empire, political geography and the environment and geopolitics and critical geopolitics significant updating and revision of the existing chapters to discuss key developments, drawing on recent academic contributions and political events new case studies, drawing on an increasing number of international and global examples additional boxes for key concepts and an enlarged glossary. As with the first edition, extensive use is made of case study examples, illustrations, explanatory boxes, guides to further reading and a glossary of key terms to present the material in an easily accessible manner. Through employment of these techniques this book introduces students to contributions from a range of social and political theories in the context of empirical case study examples. By providing a basic introduction to such concepts and pointing to pathways into more specialist material, this book serves both as a core text for first- and second- year courses in political geography, and as a resource alongside supplementary textbooks for more specialist third year courses.*

*Fieldwork for Human Geography* Apr 09 2021 "A highly readable and superbly fun guide to the why and how of doing fieldwork in human geography... I recommend it highly to any geographer-wannabes and practicing-geographers. The latter group, including myself, might well rediscover the fun of doing geography." - Professor Henry Yeung, National University of Singapore "An excellent introduction to the art and science of fieldwork. It makes clear that fieldwork is not just about getting out of the classroom and gaining first-hand experience of places, it is about instilling passion about those places." - Professor Stuart C. Aitken, San Diego State University "An indispensable guide to fieldwork that will enrich the practice of geography in a myriad of different ways. In particular, the diverse materials presented here will encourage students and academics alike to pursue new approaches to their work and instil a greater understanding of the conceptual and methodological breadth of their discipline." - Professor Matthew Gandy, University College London "If fieldwork is an indispensable component of geographical education then this book is equally essential to making the most of fieldwork... This book gives students the tools to realise the full potential of what, for many, is the highlight of their geography degree." - Professor Noel Castree, Manchester University Fieldwork is a core component of Human Geography degree courses. In this lively and engaging book, Richard Phillips and Jennifer Johns provide a practical guide to help every student get the most out of their fieldwork. This book: Encourages students to engage with fieldwork critically and imaginatively Explains methods and contexts Links the fieldwork with wider academic topics. It looks beyond the contents of research projects and field visits to address the broader experiences of fieldwork: working in groups, understanding your ethical position, developing skills for learning and employment and opening your eyes, ears and minds to the wider possibilities of your trip. Throughout the book, the authors present first person descriptions of field experiences and predicaments, written by fieldtrip leaders and students from around the world including the UK, Canada, Singapore, Australia and Africa.

Geography Education in the Digital World Jun 30 2020 Geography Education in the Digital World draws on theory and practice to provide a critical exploration of the role and practice of geography education within the digital world. It considers how living within a digital world influences teacher identity and professionalism and is changing young people's lives. The book moves beyond the applied perspective of educational technology to engage with wider social and ethical issues of technology implementation and use of digital data within geography education. Situated at the intersection between research and practice, chapters draw on a wide range of theory to consider the role, adoption and potential challenges of a range of digital technologies in furthering geographical education for future generations. Bringing together academics from the fields of geography, geography education and teacher education, the book engages with four key themes within the digital world: Professional practice and personal identities. Geographical sources and connections. Geospatial technologies. Geographical fieldwork. This is a crucial read for geographers, geography educators and geography teacher educators, as well as those engaging with existing and new technologies to support geographical learning in the dynamic context of the digital world. It

will also be of interest to any students, academics and policymakers wanting to better understand the impact of digital media on education.
