**Church Parish Marketing E-handbook** Jul 28 2019 GOD is Jesus & Mahomad. God revealed to the author that now is the time to share and help explain this Revelation. It was initially revealed to author, Bryan Foster, in the early morning on 28th, May 2016 while camping on the plains of Mt Warning in Murwillumbah. This is the fifth book published in the 'GOD Today' Series. It highlights three Revelations from God. Key concepts covered in this book's series of articles are: God/Allah is Jesus & Mahomad; the Truth was revealed by God through 21 Revelations received by the author in 2016 and November, 2018; the various Revelations not explained in the first four books are explained now; the prophecy of the author and Tears from God help prove the Incarnations of God as Jesus and Mahomad. God needs the religious leaders, scriptural scholars, theologians, etc., from both Islam and Christianity to explain these Revelations as each applies to them. Other religions should also be included through the offer to become an integral part of God's place in today's world by helping with the explanations, and the theology of One God only, the same God, for all time etc..

**A User'S Guide to Your Mind Volume I: How to Win in Love & Get Along with Each Other** Mar 16 2021 Thoughts are very real things. They can be compared to the elements that create the weather we experience. From clear and sunny to overcast and dreary, your thought-machine mind creates your reality. Whether or not you are consciously aware of it, you alone control the angles and rotations of the kaleidoscopic mirrors within the workings of your mind. If you don't like your reality, you can always adjust your outlook simply by adjusting your way of thinking. One of life's mercies is that we can retrain our mind. This guide is an appeal for rational thinking. When all is said and done, there are only three fundamental areas over which you have any real control in your life: how you think/feel (as in two sides of the same coin), how you act, and how you react. When you are unhappy in life or love, the best place to start looking for both the cause and the cure is within the inner narrative of your thoughts. It is here you will find the fountainhead of resiliency from which your strength and well-being flow. Resiliency in people is not an accidental occurrence; rather, it is the cumulative effect of an individual's decision making. In a nutshell, humans need not always interpret things in the negative, instead, the choice to view things either as a positive or as a negative is entirely your own to make. The intelligent approach insists you strive to see both the positive and the negative in people, situations, and events. Doing so won't negate the

negative, it simply helps to balance it. The knowledge contained in *A Users Guide to Your Mind* is threefold: how to live mindfully of your thoughts, how to exercise emotional intelligence in relationships, and how to exercise social intelligence in everyday life. Exercising social and emotional intelligence along with good old common sense is essential to soundly managing your thoughts, feelings, and behaviors. If you are tired of just talking about making changes and are now actually prepared to do something about it, the guidance within will provide detailed blueprints to get you started in redesigning your life and relationships. Best of all, you can implement what you learn as you see fit, according to your own goals, value system, and moral principles. This book shows you how.
