[Ramonst](#) Nov 30 2019 Hidden in the mountains of East Tennessee, an eleven-year old goes about the business of being a boy during the summer of 1970. Within a balance of terror and innocence, he bears silent witness to ghosts of the dead and the cruelties of a teenage killer while local justice plays out in a community carved from legacies of coal mining and religion.

[Indiana Trivia](#) Sep 28 2019 Indiana Trivia is the who, what, when, where, and how book of the great state of Indiana. Filled with interesting questions and answers regarding well-known and not so well-known facts about the Hoosier State, Indiana Trivia will provide hours of entertainment and education. Designed for use in a wide variety of settings?home, office, school, parties?it focuses on the history, culture, people, and places of Indiana. Indiana Trivia, is readily adaptable for use with trivia format games.

[Affective Health and Masculinities in South Africa](#) Mar 15 2021 [Affective Health and Masculinities in South Africa](#) explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

[Penicillin](#) Dec 12 2020 The author sets the discovery and use of penicillin in the broader context of social and cultural changes across the world. He examines the drug's contributions to medicine and agriculture, and investigates the global spread of resistant bacteria as antibiotic use continues to rise.

[Manga Majesty](#) Aug 08 2020 This last book in the six-volume series from NEXTmanga combines cutting-edge illustration with fast-paced storytelling to deliver biblical truth to an ever-changing, postmodern culture. More than 10 million books in over 40 different languages have been distributed worldwide in the series.

[A SECRET SORROW](#) Oct 22 2021 After her nightmarish recovery from a serious car accident, Faye gets horrible news from her doctor, and it hits her hard like a rock: she can't bear children. In extreme shock, she breaks off her engagement, leaves her job and confines herself in her family home. One day, she meets her brother's best friend , and her soul makes a first step to healing.

The Circulation of Penicillin in Spain Jul 19 2021 This book reconstructs the early circulation of penicillin in Spain, a country exhausted by civil war (1936–1939), and oppressed by Franco’s dictatorship. Embedded in the post-war recovery, penicillin’s voyages through time and across geographies – professional, political and social – were both material and symbolic. This powerful antimicrobial captivated the imagination of the general public, medical practice, science and industry, creating high expectations among patients, who at times experienced little or no effect. Penicillin’s lack of efficacy against some microbes fueled the search for new wonder drugs and sustained a decades-long research agenda built on the post-war concept of development through scientific and technological achievements. This historical reconstruction of the social life of penicillin between the 1940s and 1980s – through the dictatorship to democratic transition – explores political, public, medical, experimental and gender issues, and the rise of antibiotic resistance.

Biologics, A History of Agents Made From Living Organisms in the Twentieth Century Jul 27 2019 The use of biologics – drugs made from living organisms – has raised specific scientific, industrial, medical and legal issues. The essays contained in this collection each deal with a case study of a biologic substance, or group of biologics, and its use during the twentieth century.

Toilet Kid Dec 24 2021 Hungry? Need lunch? Want the perfect food to impress your girlfriend? Then you need to see Matt, because Matt has an amazing talent. It's called ... Tuckshop.Matt a.k.a. 'The Tuckshop Kid' is back! And he's smaller than ever! He's lost weight, is sort-of enjoying exercise and is going out with the perfect girl, Kayla, who loves food as much as he does. He can hardly believe his luck. But when Matt uncovers Kayla's secret, he realises that no one is perfect and sometimes problems can take on a life of their own. From the author of the award-winning book *The Tuckshop Kid* comes the companion adventure about food, friendship and finding your way.

Take Charge of Your Life Oct 02 2022 “A game changer for anyone ready to become the captain of their own ship.” —Dr. Phil McGraw, host of the nationally syndicated series *Dr. Phil* “Take Charge of Your Life urges readers to stop blaming and start accepting responsibility for choices.” —Jeannine Chartier Hanscom, *ForeWord Reviews* Are you seeking a happier and more satisfying life? In *Take Charge of Your Life*, author Dr. William Glasser explains choice theory—a science of human behavior and principles for regaining and maintaining a life you control—and how it can help you find personal freedom from relationship-destroying external control. *Take Charge of Your Life*, a revision of his 1984 book *Control Theory*, explains choice theory using personalized examples and illustrative stories that allow you to learn how to improve your relationships and take charge of your actions. Topics include marital and relationship problems, parenthood, addictions, pain management, and psychosomatic disorders. For each situation, Dr. Glasser ties behavior to the pictures people create in their minds of what they want. He explains how the pictures got there and how people can choose new behaviors to get what they really want. In *Take Charge of Your Life*, Glasser offers a real model of empowerment. He shows how you can become a part of the equation that adds happiness and connection to the world in which you live now and to the world of future generations.

Experimental Music Jul 07 2020 Composer Michael Nyman's classic 1974 account of the postwar experimental tradition in music.

101 Kruger Tales Sep 08 2020 " An enraged elephant flips a car onto its roof. A lioness prises open the door of a terrified couple. A leopard helps itself to a family's picnic breakfast. A fleeing impala leaps through an open car window. A lion charges around inside a busy rest camp. A hyaena snatches a baby from a tent. A tourist takes a bath in a croc-infested dam...These are just a few of the 101 jaw-dropping sightings, scrapes and encounters in this collection of extraordinary true stories from the roads, camps, picnic sites and walking trails of South Africa's Kruger National Park, as told by the very people who experienced them. There are no game ranger tales here - each and every story happened to an ordinary Kruger visitor doing what over a million tourists do in this spectacular reserve each year." -- Back cover.

The Ashgate Research Companion to the Globalization of Health Jun 25 2019 Global health has emerged as a distinct field of academic research and professional activity. Over the last decade, health has become an important element of many nations' foreign policies, a routine agenda item for the G8 and a rapidly expanding focus of bilateral and multilateral development assistance. Some aspects of health, like the spread of easily transmitted communicable diseases, are self-evidently global in an age of rapid, low-cost air travel. Many more reflect the influence of transnational economic integration ('globalization') and its effects on national economies, societies and health systems. In still other cases, like non-communicable diseases in most low- and middle-income countries, the lack of impact on the interests of more powerful actors outside the borders of the affected areas makes it difficult to generate the concern and action on the part of the global community that may be imperative for ethical reasons. This multinational volume of original contributed papers simultaneously provides an overview of the state of current global health scholarship, reflects the multidisciplinary nature of the field, and highlights the most significant issues

for research and policy.

The Fair Fight Apr 27 2022 I sat before my tambour hoop but I did not sew. I thought of split lips, flying teeth and red blood on white linen. Born in a Bristol brothel at the end of the eighteenth century, Ruth Webber, her toe upon the scratch, is ready to face all comers. Lady Charlotte Sinclair, scarred with small pox and bullied by her boorish brother, is on the verge of smashing the bonds of convention that have held her for so long. George Bowden, without inheritance or title, is prepared to do whatever it takes to make his way in the world. Let the fight begin . . .

Bibliographie de la France Apr 15 2021

The Theater of the Bauhaus Aug 27 2019 Few creative movements have been more influential than the Bauhaus, under the leadership of Walter Gropius. The art of the theater commanded special attention. The text in this volume is a loose collection of essays by Oskar Schlemmer, Laszlo Moholy-Nagy, and Farkas Molnár (who in an illustrated essay shares his vision of a total theatre space), with an introduction by Bauhaus leader Walter Gropius. Originally published in German in 1924, *Die Bühne im Bauhaus* was translated by A. S. Wensinger and published by Wesleyan in 1961. It was prepared with the full cooperation of Walter Gropius and his introduction was written specially for this edition. From Bauhaus experiments there emerged a new aesthetic of stage design and presentation, a new concept of "total theater." Its principles and practices, revolutionary in their time and far in advance of all but the most experimental stagecraft today, were largely the work of Oskar Schlemmer, Laszlo Moholy-Nagy, and their students. Profusely illustrated and startling in its typography (the work of Moholy-Nagy), the 1924 volume quickly became a collector's item and is now virtually unobtainable. Those interested in the stage, the modern visual arts, or in the bold steps of the men of genius who broadened the horizons of aesthetic experience will appreciate that this translation is available again.

DK Eyewitness Top 10 Marrakech Oct 29 2019 Backed by the purple peaks of the Atlas Mountains, the pink ramparts, labyrinthine alleys and magnificent mosques of Marrakech hold a dramatic aura that have attracted visitors for centuries. Make the most of your trip to this magical city with DK Eyewitness Top 10. Planning is a breeze with our simple lists of ten, covering the very best that Marrakech has to offer and ensuring that you don't miss a thing. Best of all, the pocket-friendly format is light and easily portable; the perfect companion while out and about. DK Eyewitness Top 10 Marrakech is your ticket to the trip of a lifetime. Inside DK Eyewitness Top 10 Marrakech you will find: - Top 10 lists of Marrakech's must-sees, including Jemaa el Fna, Koutoubia Mosque, the Majorelle Gardens and Badii Palace. - Marrakech's most interesting areas, with the best places for sightseeing, food and drink, and shopping - Themed lists, including the best restaurants, day trips, nightlife and much more - Easy-to-follow itineraries, perfect for a day trip, a weekend or a week - A laminated pull-out map of Marrakech, plus five full-color area maps Planning on touring the country? Don't forget to check out DK Eyewitness Travel Guide Morocco. About DK Eyewitness: At DK Eyewitness, we believe in the power of discovery. We make it easy for you to explore your dream destinations. DK Eyewitness travel guides have been helping travellers to make the most of their breaks since 1993. DK Eyewitness travel guides have been helping travelers to make the most of their breaks since 1993. Filled with expert advice, striking photography and detailed illustrations, our highly visual DK Eyewitness guides will get you closer to your next adventure. We publish guides to more than 200 destinations, from pocket-sized city guides to comprehensive country guides. Named Top Guidebook Series at the 2020 Wanderlust Reader Travel Awards, we know that wherever you go next, your DK Eyewitness travel guides are the perfect companion.

Life After New Media Jul 31 2022 An argument for a shift in understanding new media--from a fascination with devices to an examination of the complex processes of mediation.

Identity Society Nov 03 2022 This interesting societal study by the father of Reality Therapy presents a view that since survival is no longer the major issue for humans, development of self and identity is a normal social quest.

Getting Together and Staying Together Jun 29 2022 The facts are nothing short of startling--no matter how many people seem to walk down the aisle, the divorce rate in America is at a record high. What's the secret to getting into a happy marriage and, even more important, staying in one? Now world-renowned psychiatrist Dr. William Glasser and his wife, Carleen Glasser, update their classic guide to successful marriages, *Staying Together*, for couples young and old. As they examine the questions of why some marriages work and others fail, the Glassers advise readers on how to create loving and happy relationships by applying Dr. Glasser's trademark "choice theory." The result is a wealth of new information about who would make a compatible partner and how to improve any relationship.

Nature Log Kids Aug 20 2021 Record your encounters with nature in this fantastic, interactive book! Kids can write about and draw the plants and animals they see. They can paste photos, postcards and feathers found on the ground. Plus, there's great info to learn about nature.

Introduction to Radar Using Python and MATLAB Sep 01 2022 This comprehensive resource provides readers with the tools necessary to perform analysis of various waveforms for use in radar systems. It provides information about how to produce synthetic aperture (SAR) images by giving a tomographic formulation and implementation for SAR

imaging. Tracking filter fundamentals, and each parameter associated with the filter and how each affects tracking performance are also presented. Various radar cross section measurement techniques are covered, along with waveform selection analysis through the study of the ambiguity function for each particular waveform from simple linear frequency modulation (LFM) waveforms to more complicated coded waveforms. The text includes the Python tool suite, which allows the reader to analyze and predict radar performance for various scenarios and applications. Also provided are MATLAB® scripts corresponding to the Python tools. The software includes a user-friendly graphical user interface (GUI) that provides visualizations of the concepts being covered. Users have full access to both the Python and MATLAB source code to modify for their application. With examples using the tool suite are given at the end of each chapter, this text gives readers a clear understanding of how important target scattering is in areas of target detection, target tracking, pulse integration, and target discrimination.

Who's who in the East and Eastern Canada Jan 25 2022

Warnings Unheeded Sep 20 2021 The true story of two mass-casualty incidents that occurred within days of each other at a US Air Force base. Using the words of the people who experienced the tragedies, the book provides in-depth look at the before, during and after of a preventable active-shooter incident and an avoidable fatal plane crash. The base psychiatrist knew the airman was dangerous. "This is the kind of patient who ... one day ... he's going to come back and kill you." Aircrews knew the rogue pilot was dangerous. "We predicted the worst air-show disaster in history when we found out that he was gonna fly." Written by Andy Brown, the man who ended the killing spree, the result of more than seven years of research. Brown "masterfully weaves" the two stories together in a powerful narrative. He also reveals the preparations he made that enabled him to end a pistol-versus-rifle gunfight with a 70 yard shot from his handgun. Part true crime, part law-enforcement biography memoir and part military history. **Warnings Unheeded** is presented in an objective style that shows what can happen when authorities become complacent, when the precursors of violence are ignored and the lessons from history are forgotten.

PC Magazine Mar 27 2022

Studies in the History of Statistics and Probability May 17 2021

The Antibiotic Era Jun 05 2020 During the post-World War II "wonder drug" revolution, antibiotics were viewed as a panacea for mastering infectious disease. This book narrates the far-reaching history of antibiotics, focusing particularly on reform efforts that attempted to fundamentally change how antibiotics are developed and prescribed

A Series of Plays Jan 31 2020

Kasher in the Rye Apr 03 2020 A hopeful and inspiring "act of comedic magic" from comedian—and now memoirist!—Moshe Kasher (Artie Lange, #1 New York Times bestselling author of *Too Fat to Fish*). Rising young comedian Moshe Kasher is lucky to be alive. He started using drugs when he was just 12. At that point, he had already been in psychoanalysis for 8 years. By the time he was 15, he had been in and out of several mental institutions, drifting from therapy to rehab to arrest to...you get the picture. But *Kasher in the Rye* is not an "eye opener" to the horrors of addiction. It's a hilarious memoir about the absurdity of it all. When he was a young boy, Kasher's mother took him on a vacation to the West Coast. Well it was more like an abduction. Only not officially. She stole them away from their father and they moved to Oakland, California. That's where the real fun begins, in the war zone of Oakland Public Schools. He was more than just out of control—his mother walked him around on a leash, which he chewed through and ran away. Those early years read like part Augusten Burroughs, part David Sedaris, with a touch of Jim Carrol...but a lot more Jewish. In fact, Kasher later spends time in a Brooklyn Hasidic community. Then came addiction... Brutally honest and laugh-out-loud funny, Kasher's first literary endeavor finds humor in even the most horrifying situations.

The Gospel of Germs Jan 01 2020 Traces Americans' awareness of microbes as an agent of disease and analyzes the resultant cultural construction of cleanliness from 1870 to the present

Women and Prostitution Oct 10 2020 This book looks at the social and historical context of prostitution, exploring the forms and practices prostitution has assumed in many cultures over many centuries. Based on the assumption that one cannot understand prostitution without first understanding the role of women in society, this volume examines the historical, sociological, and anthropological background of prostitution. The authors expose the inextricable interweaving of scores of cultural dilemmas: women as property, pornography and the fear of sexuality, religion and promiscuity, sex and social class, and the control of venereal disease.

Searchable Talk May 05 2020 Metadata such as the hashtag is an important dimension of social media communication. Despite its important role in practices such as curating, tagging, and searching content, there has been little research into how meanings are made with social metadata. This book considers how hashtags have expanded their reach from an information-locating resource to an interpersonal resource for coordinating social relationships and expressing solidarity, affinity, and affiliation. It adopts a social semiotic perspective to investigate the communicative functions of hashtags in relation to both language and images. This book is a follow up to

Zappavigna's 2012 model of ambient affiliation, providing an extended analytical framework for exploring how affiliation occurs, bond by bond, in online discourse. It focuses in particular on the communing function of hashtags in metacommentary and ridicule, using recent Twitter discourse about US President Donald Trump as a case study. It is essential reading for researchers as well as undergraduates studying social media on any academic course.

Who was who in America May 29 2022

Soil Survey of Ashley County, Arkansas Jan 13 2021

Abnormal Psychology Feb 23 2022 Balancing biological, psychological, social, and cultural approaches, the Fourth Canadian Edition of Abnormal Psychology's groundbreaking integrative approach is the most modern, scientifically valid method for studying abnormal psychology. The author team--now including Dr. Martin Lalumière--continues to blend sophisticated research and an accessible writing style with the most widely recognized method of discussing psychopathology. Going beyond simply describing different schools of thought on psychological disorders, the authors explore the interactions of the various forces that contribute to psychopathology. A conversational writing style, consistent pedagogical elements, integrated case studies, and superior coverage of the DSM-5 (with insights from author David Barlow, an Advisor to the DSM-5 task force) help lead students to an unparalleled appreciation for the current state of what is a multidimensional and compelling clinical science.

Pneumonia Before Antibiotics Jun 17 2021 Pneumonia—Osler's "Captain of the Men of Death" and still the leading infectious cause of death in the United States—has until now received scant attention from historians. In *Pneumonia Before Antibiotics*, clinician-historian Scott H. Podolsky uses pneumonia's enduring prevalence and its centrality to the medical profession's therapeutic self-identity to examine the evolution of therapeutics in twentieth-century America. Focusing largely on the treatment of pneumonia in first half of the century with type-specific serotherapy, Podolsky provides insight into the rise and clinical evaluation of therapeutic "specifics," the contested domains of private practice and public health, and—as the treatment of pneumonia made the transition from serotherapy to chemotherapy and antibiotics—the tempo and mode of therapeutic change itself. Type-specific serotherapy, founded on the tenets of applied immunology, justified by controlled clinical trials, and grounded in a novel public ethos, was deemed revolutionary when it emerged to replace supportive therapeutics. With the advent of the even more revolutionary sulfa drugs and antibiotics, pneumonia ceased to be a public health concern and became instead an illness treated in individual patients by individual physicians. Podolsky describes the new therapeutics and the scientists and practitioners who developed and debated them. He finds that, rather than representing a barren era in anticipation of some unknown transformation to come, the first decades of the twentieth-century shaped the use of, and reliance upon, the therapeutic specific throughout the century and beyond. This intriguing study will interest historians of medicine and science, policymakers, and clinicians alike.

ASAP World History: A Quick-Review Study Guide for the AP Exam Feb 11 2021 LIKE CLASS NOTES—ONLY BETTER. The Princeton Review's ASAP World History is designed to help you zero in on just the information you need to know to successfully grapple with the AP test. Advanced Placement exams require students to have a firm grasp of content—you can't bluff or even logic your way to a 5. Like a set of class notes borrowed from the smartest student in your grade, this book gives you exactly that. No tricks or crazy stratagems, no sample essays or practice sets: Just the facts, presented with lots of helpful visuals. Inside ASAP World History, you'll find: • Essential concepts, people, events, dates, and ideas for AP World History—all explained clearly & concisely • Lists, charts, tables, and maps for quick visual reference • A three-pass icon system designed to help you prioritize learning what you MUST, SHOULD, and COULD know in the time you have available • "Ask Yourself" questions to help identify areas where you might need extra attention • A resource that's perfect for last-minute exam prep or as a handy resource for daily class work Topics covered in ASAP World History include: • All six time periods featured on the exam • Major ancient & classical civilizations, states, and empires • Globalization & exploration • Imperialism & capitalism • Revolutions & the formation of nations • 20th-century developments such as World War I and II and Communism • Independence movements in Asia & Africa ... and more! Looking for sample exams, practice questions, and test-taking strategies? Check out our extended, in-depth prep guide, *Cracking the AP World History Exam!*
