Adoption and impact of OER in the Global South Oct 24 2021 Education in the Global South faces several key interrelated challenges, for which Open Educational Resources (OER) are seen to be part of the solution. These challenges include: unequal access to education; variable quality of educational resources, teaching, and student performance; and increasing cost and concern about the sustainability of education. The Research on Open Educational Resources for Development (ROER4D) project seeks to build on and contribute to the body of research on how OER can help to improve access, enhance quality and reduce the cost of education in the Global South. This volume examines aspects of educator and student adoption of OER and engagement in Open Educational Practices (OEP) in secondary and tertiary education as well as teacher professional development in 21 countries in South America, Sub-Saharan Africa and South and Southeast Asia. The ROER4D studies and syntheses presented here aim to help inform Open Education advocacy, policy, practice and research in developing countries.

Transforming the Church in Africa: Aug 02 2022 This book is a must-read for serious Christians hoping to obey the Great Commission to make disciples in Africa. Vernon strikes an admirable balance between academic depth and practical application, helping us to appreciate the interface between the gospel of Jesus Christ and the traditional African worldview. I heartily recommend this book to all thinking Christian leaders in Africapastors, teachers, and missionaries. Kevin G. Smith, DLitt, PhD Vernon Light wrote this book with an apostolic passion in the way the apostles presented and proclaimed the Gospel to world religions and cultures. It is an exciting study of African traditional religion and its relation to Christianity. It shows that for Christianity to thrive and be relevant, biblically and transformationally, in Africa, firstly, Christian scholars and theologians are needed who understand and address Africa's traditional heritage and Western modern, postmodern, and pluralistic ideologies and, secondly, the Gospel must be contextually, relevantly, meaningfully, and practically taught through an effective discipleship program. The book, based on extensive research and massive use of resources, is a valuable tool for students, pastors, scholars, and theologians interested in the state of Christianity and religious change in Africa. Professor Yusufu Turaki, PhD Much more than being a useful resource, this is a book with a mission. Like Jeremiah of old (Jer 20:9), Vernon is a man with a passion and message from God to the society to which God has called him. Like Jeremiah, Vernon is totally convinced of the absolute truth of his message in the midst of a myriad of conflicting opinions and that his message will change society from disaster to hope. Would that it is heard! Professor David T. Williams, DTh The Rev. Vernon E. Light (BSc, BDHons, MTh) is a member of the academic staff at the South African Theological Seminary.

[Standards and Standardization: Concepts, Methodologies, Tools, and Applications](#) Jan 27 2022 Effective communication requires a common language, a truth that applies to science and mathematics as much as it does to culture and conversation. [Standards and Standardization: Concepts, Methodologies, Tools, and Applications](#) addresses the necessity of a common system of measurement in all technical communications and endeavors, in addition to the need for common rules and guidelines for regulating such enterprises. This multivolume reference will be of practical and theoretical significance to researchers, scientists, engineers, teachers, and students in a wide array of disciplines.

Palestine (West Bank and Gaza) Education System and Policy Handbook Volume 1 Strategic Information and Developments May 19 2021 Palestine Education System and Policy Handbook

Preparing to Teach Writing Apr 29 2022 Preparing to Teach Writing, Fourth Edition is a comprehensive survey of theories, research, and methods associated with teaching composition successfully at the middle, secondary, and college levels. Research and theory are examined with the aim of informing teaching. Practicing and prospective writing teachers need the information and strategies this text provides to be effective and well prepared for the many challenges they will face in the classroom. Features Current—combines discussions and references to foundational studies that helped define the field of rhetoric and composition, with updated research, theories, and applications Research based—thorough examination of relevant research in education, literacy, cognition, linguistics, and grammar Steadfast adherence to best practices based on how students learn and on how to provide the most effective writing instruction A Companion Website provides sample assignments and student papers that can be analyzed using the research and theory presented in the text.

Sustainable Agriculture Reviews Jan 03 2020 Sustainable agriculture is a rapidly growing field aiming at producing food and energy in a sustainable way for humans and their children. Sustainable agriculture is a discipline that addresses current issues such as climate change, increasing food and fuel prices, poor-nation starvation, rich-nation obesity, water pollution, soil erosion, fertility loss, pest control, and biodiversity depletion. Novel solutions are proposed based on integrated knowledge from sciences as diverse as agronomy, soil science, molecular biology, chemistry, toxicology, ecology, economy, philosophy and social sciences. Because actual society issues are now intertwined, global, and fast-developing, sustainable agriculture will bring solutions to build a safer world. This book series gathers review

articles that analyze current agricultural issues and knowledge, then propose alternative solutions. It will therefore help all scientists, decision-makers, professors, farmers and politicians who wish to build a safe agriculture, energy and food system for future generations.

Models of Secondary Education and Social Inequality Jul 29 2019 From an international comparative perspective, this third book in the prestigious eduLIFE Lifelong Learning series provides a thorough investigation into how social inequalities arise during individuals' secondary schooling careers. Paying particular attention to the role of social origin and prior performance, it focuses on tracking and differentiation in secondary schooling examining the short- and long-term effects on inequality of opportunities. It looks at ways in which differentiation in secondary education might produce and reproduce social inequalities in educational opportunities and educational attainment. The international perspective allows illuminating comparison in light of the different models, rules and procedures that regulate admission selection and learning in different countries.

The Budget of the United States Government Dec 14 2020

Research for Educational Change Oct 12 2020 Research for Educational Change presents ways in which educational research can fulfil its commitments to educational practice. Focussing its discussion within the context of mathematics education, it argues that while research-generated insights can have beneficial effects on learning and teaching, the question of how these effects are to be generated and sustained is far from evident. The question of how to turn research into educational improvement is discussed here in the context of learning and teaching hindered by poverty and social injustice. In the first part of the book, four teams of researchers use different methodologies while analysing the same corpus of data, collected in a South African mathematics classroom. In the second part, each of these teams makes a specific proposal about what can be done and how so that its research-generated insights have a tangible, beneficial impact on what is happening in mathematical classrooms. Combining two discourses – that of researchers speaking to one another, and that of researchers communicating their insights to those responsible for educational practice – the book deals with the perennial question of communication between those who study educational processes and those who are directly responsible for teacher education, educational research and classroom practices. This book will be key reading for postgraduates, researchers and academics in education and particularly in the areas of mathematics education, education research, teacher education and classroom practice. It will also appeal to teacher educators, practitioners and undergraduate students interested in educational research.

Adult Intentions, Student Perceptions Dec 26 2021 Restorative justice (RJ) is an idea whose time may have finally arrived. Although the concept has ancient roots and the term has existed in Western societies since the 1970s, only recently has it gained general public recognition. In schools, RJ's popularity is rising world-wide. In fact, education is the fastest growing area for the practice of RJ. Despite an increasing number of schools embracing the approach, it is not clear what educational RJ practitioners are trying to achieve. Adult Intentions, Student Perceptions: How Restorative Justice is Used in Schools to Control and to Engage focuses on the use of RJ in one school in Scotland and one in Canada. While important to understand the intentions of educators in using RJ in schools, those aims must be examined alongside the actual impact that such practices have on students. RJ can be understood and experienced in dramatically different ways by those implementing it. For some, RJ is about creating an environment of and for student engagement that challenges traditional systems of discipline and facilitates learning. For others, RJ is simply another tool for solidifying compliance and meting out punishment, albeit in a kinder, gentler way. Adult Intentions, Student Perceptions provides the opportunity to delve deeply into the stories of two schools and the adults and young people who inhabit them, and consider the broad impact that differing educator understandings of RJ have on students. Adult Intentions, Student Perceptions is a timely book for RJ advocates and critics alike. It challenges a common assumption of some RJ advocates that implementing RJ necessarily creates a classroom environment of social engagement (where students are empowered to engage with one another and think critically, and school relationships and hierarchies are transformed). The student experience relayed in this book shows that RJ can as readily be mobilized to create classroom environments of social control (where students are taught obedience and compliance, and authority and hierarchy are reinforced). Reimer argues that RJ, by itself, does not guarantee certain qualities of relationship, but RJ does allow us to examine relational qualities and ask questions of how school relationships are used to engage and/or control students.

Children in South African Families Nov 24 2021 This book presents a comprehensive overview of African children's lives in times of transition, transformation, and change some twenty-two years after political emancipation in South Africa. With diverse family formations, non-marital childbearing, and diverse parenting situations prevalent in South Africa, the book covers both the conceptual and theoretical questions that explore the context of children's experiences. It uses examples from a range of primary and secondary data sources to illustrate how resilience in children faced with adversity could be nurtured, demonstrating the links between theory and practice, and critically commenting on questions of epistemology by drawing on research with children within different African social and cultural contexts. While the volume affirms the complexities of explaining child adversity or privilege, it stresses the diversity of South African children's experiences and the importance of adopting both children's rights and Afro-centric perspectives to account for the commonality and diversity of childhood and children's empowerment in diverse family systems. The contributions also provide recommendations on how to respond and intervene in children's issues, from both practical and policy levels, in a dedicated manner to ensure that children are protected from harm, nurtured to succeed, and assisted during and after traumatic experiences. This volume represents a valuable resource for scholars and students in the fields of humanities, social science, development studies and public health, as well as policy makers, child practitioners, and child rights advocates.

The Condition of Education in Brief May 07 2020

Academic Language in Diverse Classrooms: English Language Arts, Grades 3-5 Jun 07 2020 In line with the Common Core, learn to identify grade-level academic language, analyze its functions, connect it to grade-level standards, and incorporate it into assessments.

Marijuana: A Reference Handbook Mar 29 2022 The debate over the use of marijuana for recreational or medical purposes is not just a recent hot topic in America—it's been an ongoing issue and argument for centuries. This book examines the controversy from all angles.

Transnational Perspectives on Innovation in Teaching and Learning Technologies Jun 19 2021 The volume provides insights on strategies and technologies for teaching and learning that are being used in unique national/cultural contexts of Africa, Asia and the Middle East, Europe, Latin America, and North America.

Academic Language in Diverse Classrooms: Mathematics, Grades 6-8 Nov 12 2020 Make every student fluent in the language of learning. The Common Core and ELD standards provide pathways to academic success through academic language. Using an integrated Curricular Framework, districts, schools and professional learning communities can: Design and implement thematic units for learning Draw from content and language standards to set targets for all students Examine standards-centered materials for academic language Collaborate in planning instruction and assessment within and across lessons Consider linguistic and cultural resources of the students Create differentiated content and language objectives Delve deeply into instructional strategies involving academic language Reflect on teaching and learning

IB World Schools Yearbook 2012 Sep 22 2021

Multicultural Education in South Korea Jun 27 2019 This book examines the political, ideological, and socio-cultural politics underlying the 2009 National Multicultural Curriculum Reform and recent multicultural education policies in South Korea. Unlike the conservative groups in

Western countries who argue that supporting cultural diversity and the cultural rights of minority groups balkanizes ethnic differences and divides the community, the New Rights and the conservative groups in South Korea have been very supportive of multicultural discourses and practices and have created many multicultural policy agendas geared toward ushering in what have they called "the multicultural era." Through the Critical Discourse Analysis (CDA) of government multicultural policy documents, a range of media sources, the 2009 national curriculum reform policy documents, and the 200 Korean language arts textbooks from 23 textbook publishers, *Multicultural Education in South Korea: Language, ideology, and culture in Korean language arts education* examines how the conservative Korean government's interpretation and practices of multiculturalism have been infiltrated and challenged by progressive and migrant-led agents/agencies. The analysis of academic, official, and popular discourses on migrant Others is focused on, but not limited to: "The multicultural era" and struggles for hegemonic power; Politics of multicultural knowledge control in education and society; Formation of discourses on multicultural society and multicultural education; Examining the national curriculum: The politics of representing migrant Others; and The hidden curriculum of multicultural education: Limitations and possibilities. The author's insightful discussion on the politics of knowledge, education, and teaching in multicultural societies will prove particularly useful to policy makers, think-tank officials, and academic scholars in education.

English Language Education Policy in the Middle East and North Africa Sep 10 2020 This volume offers insights on English language education policies in Middle Eastern and North African countries, through state-of-the-art reports giving clear assessments of current policies and future trends, each expertly drafted by a specialist. Each chapter contains a general description of English education policies in the respective countries, and then expands on how the local English education policies play out in practice in the education system at all levels, in the curriculum, in teaching, and in teacher training. Essays cover issues such as the balance between English and the acquisition of the national language or the Arabic language, as well as political, cultural, economic and technical elements that strengthen or weaken the learning of English. This volume is essential reading for researchers, policy makers, and teacher trainers for its invaluable insights in the role of each of the stakeholders in the implementation of policies.

Projections of Educational Statistics to ... Oct 04 2022 Provides 10-year projections of statistics for elementary and secondary schools and institutions of higher education; includes enrollments, graduates, teachers, and expenditures.

Treating and Preventing Adolescent Mental Health Disorders Jul 09 2020 Sponsored by the Adolescent Mental Health Initiative of the Annenberg Public Policy Center (APPC) of the University of Pennsylvania and the Annenberg Foundation Trust at Sunnylands Trust, *Treating and Preventing Adolescent Mental Health Disorders, Second Edition*, provides a major update since the first edition in 2005. It addresses the current state of knowledge about the major mental health disorders that emerge during adolescence, including updated DSM-5 diagnostic criteria. Here, six commissions established by the APPC and the Sunnylands Trust pool their expertise on adolescent anxiety, schizophrenia, substance use disorders, depression and bipolar disorders, eating disorders, and suicidal behavior in sections that thoroughly define each disorder, outline and assess available treatments, discuss prevention strategies, and suggest a research agenda based on what we know and don't yet know about these various conditions. Two additional behavioral disorders--gambling and internet addiction--are covered in this second edition. As a meaningful counterpoint to its primary focus on mental illness, the volume also incorporates the latest research from a seventh commission--on positive youth development--which addresses how we can fully prepare young people to be happy and successful throughout their lives. Concluding chapters discuss overarching issues regarding the behavioral and mental health of adolescents: overcoming the stigma of mental illness, the research, policy, and practice context for the delivery of evidence-based treatments, and the development of a more robust agenda to advance adolescent health. Integrating the work of eminent scholars in both psychology and psychiatry, this work will be an essential volume for academics and practicing clinicians and will serve as a wake-up call to mental health professionals and policy makers alike about the state of our nation's response to the needs of adolescents with mental disorders.

The Condition of Education May 31 2022 Includes a section called Program and plans which describes the Center's activities for the current fiscal year and the projected activities for the succeeding fiscal year.

Academic Language in Diverse Classrooms: Mathematics, Grades 3 - 5 Sep 30 2019 Make every student fluent in the language of learning. The Common Core and ELD standards provide pathways to academic success through academic language. Using an integrated Curricular Framework, districts, schools and professional learning communities can: Design and implement thematic units for learning Draw from content and language standards to set targets for all students Examine standards-centered materials for academic language Collaborate in planning instruction and assessment within and across lessons Consider linguistic and cultural resources of the students Create differentiated content and language objectives Delve deeply into instructional strategies involving academic language Reflect on teaching and learning

Engineering Geology, 2nd Edition Jul 21 2021 Engineering Geology is a multidisciplinary subject that interacts with other disciplines, such as mineralogy, petrology, structural geology, hydrogeology, seismic engineering, rock engineering, soil mechanics, geophysics, remote sensing (RS-GIS-GPS) and environmental geology. This book is the only one of its kind in the Indian market that caters to the students of all these subjects. Engineers require a deep understanding, interpretation and analyses of earth sciences before suggesting engineering designs and remedial measures to combat natural disasters, such as earthquakes, volcanoes, landslides, debris flows, tsunamis and floods. This book covers all aspects of engineering geology and is intended to serve as a reference for practicing civil engineers, geotechnical engineers, marine engineers, geologists and mining engineers. Engineering Geology has also been designed as a textbook for students pursuing undergraduate and postgraduate courses in advanced/applied geology and earth sciences. A plethora of examples and case studies relevant to the Indian context have been included for better understanding of the geological challenges faced by engineers. New in this Edition • The concept of watershed and the depiction of watershed atlas of India • Latest findings by the Indian Bureau of Mines • Recent developments in coastal engineering and innovative structures • New types of protective structures to guard against tsunamis • Role of geology in building smart cities • Environmental legislation in India

Designing Services and Programs for High-Ability Learners Oct 31 2019 The updated, comprehensive guide to developing or enhancing gifted programming With new perspectives based on recent research and the updated National Association for Gifted Children Programming Standards, this second edition of *Designing Services and Programs for High-Ability Learners* provides educators with the comprehensive, practical advice they need to support today's gifted learners. Written by leading experts, each chapter focuses on a key feature of high-quality gifted programs and takes into account current educational trends, such as the Focus on diversity to ensure underrepresented populations are screened for gifted education Collaboration with special education to ensure students with disabilities have access to programming Use of technology Development of local policies to support gifted education

Values and Valuing in Mathematics Education Feb 25 2022 This engaging open access book discusses how a values and valuing perspective can facilitate a more effective mathematics pedagogical experience, and allows readers to explore multiple applications of the values perspective across different education systems. It also clearly shows that teaching mathematics involves not only reasoning and feelings, but also students' interactions with their cultural setting and each other. The book brings together the work of world leaders and new thinkers in mathematics educational research to improve the learning and teaching of mathematics. Addressing themes such as discovering hidden

cultural values, a multicultural society and methodological issues in the investigation of values in mathematics, it stimulates readers to consider these topics in cross-cultural ways, and offers suggestions for research and classroom practice. It is a valuable resource for scholars of mathematics education, from early childhood through to higher education and an inspiring read for all mathematics teachers.

Improving Research-Based Knowledge of College Promise Programs Nov 05 2022 Also known as free tuition and free college programs, college promise programs are an emerging approach for increasing higher education attainment of people in particular places. To maximize the effectiveness of their efforts and investments, program leaders and policymakers need research-based evidence to inform program design, implementation, and evaluation. With the goal of addressing this knowledge need, this volume presents a collection of research studies that examine several categories and variations of college promise programs. These theoretically grounded empirical investigations use varied data sources and analytic techniques to examine the effects of college promise programs that have different design features and operate in different places. Individually and collectively, the results of these studies have implications for the design and implementation of promise programs if these programs are to create meaningful improvements in attainment for people from underserved groups. The authors' efforts also provide a useful foundation for the next generation of college promise research.

Health, United States, 2013 Jan 15 2021 This is the 37th annual report prepared for the Secretary of the Department of Health and Human Services by the Centers for Disease Control and Prevention's National Center for Health Statistics. The report includes a compilation of health data from state and federal health agencies and the private sector. Health, United States, 2013 features 135 tables on key health measures through 2012 from a number of sources within the federal government and in the private sector. The tables cover a range of topics, including birth rates and reproductive health, life expectancy and leading causes of death, health risk behaviors, health care utilization, and insurance coverage and health expenditures. The Health, United States series presents an annual overview of national trends in health statistics. The report contains a Chartbook that assesses the nation's health by presenting trends and current information on selected measures of morbidity, mortality, health care utilization and access, health risk factors, prevention, health insurance, and personal health care expenditures. This year's Chartbook includes a Special Feature on Prescription Drugs that contains an array of statistics. The report also contains 135 Trend Tables organized around four major subject areas: health status and determinants, health care utilization, health care resources, and health care expenditures. Keywords: Antibiotics; pain relievers; hydrocortisone; drug poisoning; acute pain; chronic pain; American Indian; Alaska Native; Hispanics; White/Caucasian; prescription drug spending; Affordable Care Act; ACA; insurance; private health insurance; private health insurance co-pays; co-pay spending; out-of-pocket spending; Medicare; Medicaid; Medicare Part D; physicians; dentists; nurses; nurse practitioners; cholesterol-lowering drugs; cardiovascular agents; high blood pressure; diabetes; heart disease; kidney disease; anti-acid reflux drugs; blood clots; depression and related disorders; Antidepressants; Anticoagulants; Analgesics; Central nervous system stimulants; attention deficit disorder; ADD; ADHD; Black origin; Mexican origin; Influenza; Influenza vaccinations; Health care visits; community hospitals; nursing homes; Life expectancy; Motor-Vehicle related death rates; automobile deaths; teenage childbearing; teenage child-bearing; cigarette smoking; obesity; Obesity; Adult Obesity; Child Obesity; Overweight; Vaccinations; Emergency Department use; Emergency Department Visits; Dental Care; Personal Healthcare Spending; personal healthcare spending; personal health care spending; Personal Health care spending; long term treatment; long term treatment of chronic conditions; Uninsured adults; medications; medicine; medicines; prescribed medicines; prescribed drugs; prescription medicine; prescription medicines; healthcare costs; insurance costs; health insurance costs; medicine costs; prescription drug costs; doctors; mental health specialists; psychologists; psychologist; doctor; physician; nurse; dentist; internal medicine doctor; gynecologists; OB-GYN doctor;

Twenty Years of Education Transformation in Gauteng 1994 to 2014 Sep 03 2022 Twenty Years of Education Transformation in Gauteng 1994 to 2014: An Independent Review presents a collection of 15 important essays on different aspects of education in Gauteng since the advent of democracy in 1994. These essays talk to what a provincial education department does and how and why it does these things - whether it be about policy, resourcing or implementing projects. Each essay is written by one or more specialist in the relevant focus area. The book is written to be accessible to the general reader as well as being informative and an essential resource for the specialist reader. It sheds light on aspects of how a provincial department operates and why and with what consequences certain decisions have been made in education over the last 20 turbulent years, both nationally and provincially. There has been no attempt to fit the book's chapters into a particular ideological or educational paradigm, and as a result the reader will find differing views on various aspects of the Gauteng Department of Education's present and past. We leave the reader to decide to what extent the GDE has fulfilled its educational mandate over the last 20 years.

Guidelines for Laboratory Design Aug 22 2021 Proven and tested guidelines for designing ideal labs for scientific investigations Now in its Fourth Edition, Guidelines for Laboratory Design continues to enable readers to design labs that make it possible to conduct scientific investigations in a safe and healthy environment. The book brings together all the professionals who are critical to a successful lab design, discussing the roles of architects, engineers, health and safety professionals, and laboratory researchers. It provides the design team with the information needed to ask the right questions and then determine the best design, while complying with current regulations and best practices. Guidelines for Laboratory Design features concise, straightforward advice organized in an easy-to-use format that facilitates the design of safe, efficient laboratories. Divided into five sections, the book records some of the most important discoveries and achievements in: Part IA, Common Elements of Laboratory Design, sets forth technical specifications that apply to most laboratory buildings and modules Part IB, Common Elements of Renovations, offers general design principles for the renovation and modernization of existing labs Part II, Design Guidelines for a Number of Commonly Used Laboratories, explains specifications, best practices, and guidelines for nineteen types of laboratories, with three new chapters covering nanotechnology, engineering, and autopsy labs Part III, Laboratory Support Services, addresses design issues for imaging facilities, support shops, hazardous waste facilities, and laboratory storerooms Part IV, HVAC Systems, explains how to heat, cool, and ventilate labs with an eye towards energy conservation Part V, Administrative Procedures, deals with bidding procedures, final acceptance inspections, and sustainability The final part of the book features five appendices filled with commonly needed data and reference materials. This Fourth Edition is indispensable for all laboratory design teams, whether constructing a new laboratory or renovating an old facility to meet new objectives.

Health, United States Mar 17 2021

Cases on Educational Technology Planning, Design, and Implementation: A Project Management Perspective Feb 02 2020 Whether utilizing electronic tools for K-12 classrooms, learning management systems in higher education institutions, or training and performance improvement for business organizations, technology maintains an important aspect in the delivery of education and training in both school and non-school settings. Cases on Educational Technology Planning, Design, and Implementation: A Project Management Perspective provides strategies for addressing the challenges and pitfalls faced when planning, designing, and implementing learning and educational technology projects. The case studies in this publication aim to provide instructors, practitioners in K-12 and higher education, business managers as well as students interested in implementing education technology projects.

Evaluating Teacher Education Programs through Performance-Based Assessments Apr 05 2020 Performance-based assessments have become a critical component of every teacher education program. Such assessments allow teacher candidates to demonstrate their content and pedagogical knowledge, skills, and dispositions in an authentic setting. Evaluating Teacher Education Programs through Performance-Based Assessments analyzes and discusses the theory and concepts behind teacher education program evaluation using assessment tools such as lesson plans, classroom artifacts, student work examples, and video recordings of lessons. Emphasizing critical real-world examples and empirically-based studies, this research-based publication is an ideal reference source for university administrators, teacher educators, K-12 leaders, and graduate students in the field of education.

Promoting Academic Success with English Language Learners Aug 10 2020 Educators and school psychologists throughout the country are working with growing numbers of English language learners (ELLs), but often feel unprepared to help these students excel. This highly informative book presents evidence-based strategies for promoting proficiency in academic English and improving outcomes in a response-to-intervention (RTI) framework. Illustrated with a detailed case example, the book describes best practices for working with K-5 ELLs in all stages of RTI: universal screening, progress monitoring, data collection, decision making, and intensifying instruction. In a large-size format with lay-flat binding for easy photocopying, the book includes more than two dozen reproducible worksheets. Purchasers get access to a Web page where they can download and print the reproducible materials. This book is in The Guilford Practical Intervention in the Schools Series, edited by T. Chris Riley-Tillman.

Optimizing Elementary Education for English Language Learners Mar 05 2020 Teaching English language learners has long presented challenges for teachers tasked with bringing these students to a level of language comprehension comparable to that of native speakers. These challenges and issues can lead to difficulty comprehending core academic topics for those learning the English language. Optimizing Elementary Education for English Language Learners is a critical scholarly publication that explores the importance of English as a Second Language (ESL) education as well as the challenges that can arise in striving for effective and engaging learning environments for the students involved. Featuring a broad scope of topics, such as effective lesson plans, teacher education and preparation, and the education achievement gap, this book is geared toward academicians, practitioners, and researchers seeking current research on effective teaching strategies for teachers of English language learners.

Informatics in Schools. Sustainable Informatics Education for Pupils of all Ages Feb 13 2021 This book constitutes the refereed proceedings of the 6th International Conference on Informatics in Schools: Situation, Evolution, and Perspectives, ISSEP 2013, held in Oldenburg, Germany, in February/March 2013. The 15 full papers included in this volume were carefully reviewed and selected from 48 submissions; in addition the book contains two keynote talks in full-paper length. The contributions are organized in topical sections named: from computer usage to computational thinking; algorithmic and computational thinking; games; informatics in the context of other disciplines; and competence-based learning and retention of competencies.

The Urban Uncanny Aug 29 2019 The Urban Uncanny explores through ten engaging essays the slippage or mismatch between our expectations of the city—as the organised and familiar environments in which citizens live, work, and go about their lives—and the often surprising and unsettling experiences it evokes. The city is uncanny when it reveals itself in new and unexpected light; when its streets, buildings, and people suddenly appear strange, out of place, and not quite right. Bringing together a variety of approaches, including psychoanalysis, historical and contemporary case study of cities, urban geography, film and literary critique, the essays explore some of the unsettling mismatches between city and citizen in order to make sense of each, and to gauge the wellbeing of city life more generally. Essays examine a number of cities, including Edmonton, London, Paris, Oxford, Las Vegas, Berlin and New York, and address a range of issues, including those of memory, death, anxiety, alienation, and identity. Delving into the complex repercussions of contemporary mass urban development, The Urban Uncanny opens up the pathological side of cities, both real and imaginary. This interdisciplinary collection provides unparalleled insights into the urban uncanny that will be of interest to academics and students of urban studies, urban geography, psychoanalysis, cultural studies, social studies and film studies, and to anyone interested in the darker side of city life.

Literacy Classrooms That S.O.A.R. Dec 02 2019 SOAR Teaching Frames for Literacy provides a unique approach to planning, implementing, and elevating instruction that drives improvement in teaching and learning. SOAR focuses on the high-impact teaching practices that research identifies as key to student learning. In this book, the authors present and unpack these practices within the context of Teaching Frames. The frames provide a common language and a set of tools to foster informal self-evaluation, as well as teacher-to-teacher and coach-to-teacher collaboration. All stages of implementation are illustrated with classroom examples from the authors' 15 years of research and professional development throughout the United States. School principals, coaches, and classroom teachers can use Literacy Classrooms That S.O.A.R. to support professional learning and growth across schools and districts. "The SOAR Teaching Frames have been an invaluable tool as we work to transform teaching practices in the Robla Elementary School District in Sacramento, California. Robla serves a community where families face the challenges of poverty every day, and nearly half of our students speak a language other than English at home. The SOAR Frameworks provided us with a tool to help students find their voice. Classrooms are now filled with many points of view and more high-level thinking. Our entire school system is more coherent as these teaching practices have become part of the school day in all grades." —Ruben Reyes, superintendent, Robla Elementary School District

Accessing Post-School Studies Jul 01 2022 "Accessing Post-School Studies: A student's GPS to successful learning makes a valuable contribution to often problematic and pertinent South African higher education issues such as student access and success, student learning, student support and student engagement. In this regard, the authors draw on the works of higher education theorists such as Kuh, Tinto, Marton and S., Ij". The book is primarily a helpful resource for South African learners in school, students at universities, life orientation teachers, as well as parents of prospective university students. It will especially assist students to adapt to the university environment." — Prof Victor N. Teise (Sol Plaatje University, Kimberley, South Africa)
