The GCSE Mindset Nov 01 2022 The GCSE Mindset: 40 activities for transforming student commitment, motivation and productivity, written by Steve Oakes and Martin Griffin, offers a wealth of concrete, practical and applicable tools designed to supercharge GCSE students' resilience, positivity, organisation and determination. At a time when GCSE teaching can feel like a conveyor belt of micromanaged lessons and last-ditch interventions, Steve and Martin acclaimed authors of The A Level Mindset suggest a different approach, underpinned by their VESPA model of essential life skills: vision, effort, systems, practice and attitude. These five non-cognitive characteristics beat cognition hands down as predictors of academic success, and in The GCSE Mindset Steve and Martin take this simple model as their starting point and present a user-friendly month-by-month programme of activities, resources and strategies that will help students break through barriers, build resilience, better manage their workload and ultimately release their potential both in the classroom and beyond. The book's forty activities, while categorised thematically under the VESPA umbrella, have been sequenced chronologically by month in order to better chart the student's journey through the academic year and to help them navigate the psychological terrain ahead. Each activity can be delivered one-to-one, to a tutor group or to a whole cohort, has been designed to take fifteen to twenty minutes to complete, and has been written with a pupil audience in mind. However, to complement the tasks' practical utility, the authors also explore the underpinning research and theory including the pioneering work of Angela Duckworth, Dr Steve Bull and Carol Dweck in more detail in the introduction to each section. Informed by the authors' collective thirty-plus years of teaching and coaching, this essential handbook for GCSE success also suggests key coaching questions and interventions for use with pupils and includes expert guidance on how schools can implement and audit the core components and outcomes of the VESPA approach in their own settings. Additionally and indeed pertinently in the present educational environment where empirical data is valued so highly the book features a chapter dedicated to the measurement of mindset, written by guest contributors Dr Neil Dagnall and Dr Andrew Denovan from Manchester Metropolitan University. They present the twenty-eight-item VESPA questionnaire, which they helped Steve and Martin to design, and take the reader through the research process behind its origins before going on to describe how it can be used to identify areas for development and to measure the impact of interventions. Suitable for teachers, tutors and parents who want to boost 14 to 16-year-olds' academic outcomes and equip them with powerful tools and techniques in preparation for further education and employment

SWYK on the Common Core Math Gr. 8, Student Workbook Sep 18 2021 Assess student knowledge of the national Common Core State Standards (CCSS) for Reading and Mathematics with two full-length Assessments for each subject. Questions provide students with the necessary practice needed to achieve academic success with the CCSS. Chapters on test-taking strategies and test anxiety build students confidence and test-taking skills. Glossaries familiarize students with vocabulary terms and concepts found on state proficiency tests.

My First School Book Jul 29 2022 Pre-K level activity booklet

Contemporary English 3 Student Book Sep 26 2019 Contemporary English second edition has refined the content and skills adult ESL students need to know to survive and thrive living in the United States. The emphasis on grammar, vocabulary, graphic literacy, critical thinking skills, life skills, and workplace skills has all been retained and presented in meaningful contexts through topics of high interest to adult students. Lessons are self-contained, remaining appropriate for both standard and open enrollment situations. Student Book Features Student Book interiors are now in 4-color with more real-life photographs. New vocabulary is introduced twice in each student unit along with practice exercises. It is then recycled throughout the series for maximum exposure. Specific workbook practice, plus one activity master per unit in the Teacher's Edition extends this exposure. Grammar structures are presented then

recycled twice throughout the series - first in an informal review and second in a formal review - to enable students to revisit and expand upon their grammar acquisition. The 2nd edition provides for a more logical progression of grammar scope and sequence. Organizing Your Ideas (Books 1 and 2 only) teaches students how to think graphically using organizers like idea maps, Venn Diagrams, and T-charts. Graphic Literacy Activities (Books 3 and 4 only) familiarize students with bar graphs, tables, and charts to help them understand what they read on the job or in the newspapers. Community involvement focus - one page per unit, tied in specifically with the unit topic - helps students become more participatory in their jobs, communities, and families. Notes in the Annotated Teacher's Editions also provide more ideas for student participation. Components per Level Student Book Student Workbook Annotated Teacher's Edition Audiocassette Package Audio CD Package Conversation Cards (20 cards with instruction booklet)

English File - Beginner Jun 15 2021 English File's unique, lively and enjoyable lessons are renowned for getting students talking English File, fourth edition, has been built on tried and trusted methodology and contains uniquely motivating lessons and activities that encourage students to discuss topics with confidence. NEW TO THIS EDITION New and updated texts, topics, and listenings, based on feedback from English File teachers Each Student Book comes with access to new Online Practice, providing learners with extra practice and activities for each File Online Practice includes new Sound Bank videos, with the unique opportunity to watch a native speaker pronounce the sound, and new interactive videos where students can take part in the drama themselves New video listening activities are integrated into each even-numbered File. These short documentaries and dramas make class time more dynamic and exciting The Classroom Presentation Tool shows the course content on screen, making it easier for you to deliver engaging lessons Teacher's Resource Centre allows you to manage all English File resources and download teaching materials in one place. Find out more here

The Level Mindset Dec 22 2021 In The A Level Mindset, Steve Oakes and Martin Griffin share the secrets of coaching students to develop the characteristics, habits and mindsets which will help them realise their potential. Those students who make real and sustained progress at A level aren't necessarily the ones with superb GCSEs. Some students leap from average results aged 16 to outstanding results aged 18. Others seem to hit a ceiling. But why? It was in trying to answer this question that the VESPA system emerged. Steve and Martin have cut through the noise surrounding character development and identified five key characteristics that all students need to be successful: vision, effort, systems, practice and attitude. These characteristics beat cognition hands down. Successful students approach their studies with the right behaviours, skills and attitudes: they understand how to learn and revise effectively, they're determined and organised, they give more discretionary effort and they get top results. Success at A level is a result of character, not intelligence. Much has been written about growth mindsets and character development in recent years, but teachers are still left wondering how to apply these ideas in their contexts: how can these theories help learners in practice? Taking cues from the work of Peter Clough, Carol Dweck and Angela Lee Duckworth, and informed by their collective 30 plus years of teaching and coaching, Steve and Martin have spent years researching how character and behaviours affect student outcomes in their sixth form. After identifying the core traits that contributed to student success, they developed practical activities to help every student develop the A Level Mindset. Discover 40 concrete, practical and applicable tools and strategies that will supercharge learners' ambition, organisation, productivity, persistence and determination. Suitable for teachers, tutors, heads of sixth form or anyone else who wants to help A level students achieve their potential, The A Level Mindset offers 40 easy-to-use activities to develop students' resilience, commitment, buoyancy, motivation and determination. It could be your key to transforming student outcomes.

SWYK on the Common Core Gr. 5, Student Workbook Jul 05 2020 Assess student knowledge of the national Common Core State Standards (CCSS) for Reading and Mathematics with two full-length Assessments for each subject. Questions provide students with the necessary practice needed to achieve academic success with the CCSS. Questions provide students with the necessary practice needed to achieve academic success on STAAR. Chapters on test-taking strategies and test anxiety build students' confidence and test-taking skills. Glossaries familiarize students with vocabulary terms and concepts found on state proficiency tests. Answers are provided in the Parent/Teacher Edition only.

Accounting: Management Accounting (NCEA 3) Sep 06 2020 The Senior Accounting Series is a range of student workbooks with extensive course notes that has been designed for senior secondary courses and introductory courses at tertiary level. Although it is primarily based on the prescriptions for the National Certificate of Educational Achievement, Levels 3 and 4, the series is suitable for use in other courses where students have already mastered the essential elements of the accounting cycle. Management Accounting provides coverage of two commonly used management accounting techniques: cash budgeting and cost-volume-profit analysis, together with a chapter introducing the job order costing system. An introduction to the decision-making process is included, with coverage of the different types of decisions made by managers and the information required to inform the process. The workbook provides detailed summary notes with fully worked examples and explanations at a level suitable for students who have no previous knowledge of management accounting. In addition to the study notes, the workbook provides a variety of tasks, giving students the opportunity to relate the conceptual framework to real world accounting scenarios. The tasks are interspersed with the course notes, resulting in logical flow and content development. Space for completing the tasks is included so that, upon completion of the tasks, the student has a compact summary of notes and applications in a single volume.
