Sep 27 2019 This is the ideal dictionary for GCSE students. Unlike other dictionaries, the terms here are all directly relevant to GCSE history. All the entries are clearly and concisely defined with diagrams and further explanation where appropriate. In many cases, entries are cross-referenced to related terms and concepts and include the guidance of the author, experienced examiner Hugh Jebson, on how the term should be used correctly. revising for their exams. *The Origins of the Modern World* Mar 14 2021 Robert B. [Imperialism in the Modern World](#) Feb 10 2021 Imperialism in the Modern World combines narrative, primary and secondary sources, and visual documents to examine global relations in the nineteenth and twentieth centuries. The three co-editors, Professors Bowman, Chiteji, and Greene, have taught for many years global history classes in a variety of institutions. They wrote *Imperialism in the Modern World* to solve the problem of allowing teachers to combine primary and secondary texts easily and systematically to follow major themes in global history (some readers use

primary materials exclusively. Some focus on secondary arguments). This book is more focused than other readers on the markets for those teachers who are offering more specialized world history courses - one important trend in global history is away from simply trying to cover everything to teaching real connections in more chronologically and thematically focused courses. The reader also provides a genuine diversity of global perspectives and invites students to study seriously world history from a critical framework. Too many readers offer a smorgasbord approach to world history that leaves students dazed and confused.

This reader avoids that approach and will therefore solve many problems that teachers have in constructing and teaching world history courses at the introductory or upper-division levels. The reader will allow show students how to read historical documents through a hands-on demonstration in the introduction. The book also incorporates images as visual documents. Finally, the book conceives of global history in the widest possible terms; it contains pieces on political, diplomatic, economic, and military history, to be sure, but it also has selections on technology, medicine, women, the environment, social changes, and cultural patterns. Other readers can not match this text's breadth because they are chronologically and thematically so extended.

*The 1992 Los Angeles Riots* Jul 26 2019 The American public was holding its collective breath as four officers of the Los Angeles Police Department were acquitted of excessive force in the arrest and beating of Rodney King. Upon the exhale came relief for some, but for many more came a crushing grief and anger. This essential volume gives readers a strong background on the events leading up to the 1992 Los Angeles Riots. Essays also present the controversies related to the event, including whether the police department protected its citizens during the riots. The last chapter shares first-person narratives and accounts of those impacted by the riots, giving your readers a chance to go beyond simple facts and experience the event for themselves.

**Climate, History and the Modern World** Jun 04 2020 We live in a world that is increasingly vulnerable to climatic shocks - affecting agriculture and industry, government and international trade, not to mention human health and happiness. Serious anxieties have been aroused by respected scientists warning of dire perils that could result from upsets of the climatic regime. In this internationally acclaimed book, Emeritus Professor Hubert Lamb examines what we know about climate, how the past record of climate can be reconstructed, the causes of climatic variation, and its impact on human affairs now and in the historical and prehistoric past. This 2nd Edition includes a new preface and postscript reviewing the wealth of literature to emerge in recent years, and discusses implications for a deeper understanding of the problems

[The Birth of the Modern World, 1780-1914](#) Mar 02 2020 This book is a thematic history of the world from 1780, the pivotal year of the revolutionary age, to the outbreak of the First World War in 1914. It brings together historical data and arguments from different societies in order to show how interconnected the world was, even before the onset of modern globalization. "The Birth of the Modern World, 1780-1914 demonstrates how events in Asia, Africa, and South America, from the decline of the eighteenth-century Islamic empires to the anti-European Boxer rebellion of 1900 in China, had a direct impact on European and American history. Conversely, it sketches the "ripple effects" of crises such as the European revolutions and the American Civil War. The book also considers the great themes of the nineteenth-century world: the rise of the modern state, industrialization, liberalism, and the progress of world

Apr 14 2021 Cross-Cultural Encounters in Modern World History explores cultural contact as an agent of change. It takes an encounters approach to world history since 1500, rather than a political one, to reveal different perspectives and experiences as well as key patterns and transformations. It studies the spaces between cultures historically to help us transcend human differences today in a rapidly globalizing world. The text focuses on first encounters that suggest long-term developments and particularly significant encounters that have changed the direction of world history. Because of the complexities of these encounters, the author takes a user-friendly approach to keep the text accessible to students with varying backgrounds in history.

### **A Concise History of the Modern World** Jan 24 2022

This book investigates the major changes in world history and world economy during the past five hundred years and explains to what extent world forces have been responsible for shaping both past and present. Its underlying theme is the struggle for power in which, since the sixteenth century, the West has prevailed. Many of the problems of the contemporary world - including terrorism - are the legacy of the period of Western domination. Until the rise of the West, and its incomparable impact on every branch of human activity, the centre of the world has been in Asia. By the nineteenth century world power was firmly in the hands of the West. America's later rise to world status was prompted by the two world wars. The most prominent of the Western nations, the US is now blamed for all the excesses of an earlier colonial age.

an ever-shrinking world, the need for a global perspective in dealing with the modern world has become acute. This book attempts to provide such a perspective by investigating the major changes in geopolitics and world economy during the past 500 years. However compact, it enables us to understand the present unravelling of Communism and the growing challenge from Asia to Western Superiority. It is shown that in so many ways the problems of the contemporary world spring from the unprecedented era of western domination, which the non-western world is now trying to unlive.
