Polis Oct 10 2020 Almost 50 years after the collapse of our thermo-industrial civilisation, our world has gone through some immense changes. Financial, economic, political, and societal crises, natural and climate catastrophes, mass human migrations, worldwide pandemics, and the disappearance or increasing scarcity of fossil fuels have taken centre stage over the last five decades. Human civilisation has halved in size and is trying to rebuild a new world. Grandpa Phil now lives in Polis, where the New Constitution, established in 2035, follows an absolute dogma of reverence towards Nature and Mother Earth. Political organisation and daily life are based on this founding principle. Jeremy, together with the team from the ground-breaking project Hypo, and Sylvia, the Minister of Mother Earth in Polis, will be forced to deal with an imminent threat. NEOM, an ultra-futuristic "Smart City" run by quantum computers, artificial intelligence, and biotechnology is based on a philosophy that is diametrically opposed to that which is followed in Polis. Humanoids and cyborgs outnumber human beings here. Human cloning is carried out on an industrial scale. All inhabitants and visitors in NEOM have to be injected with a subcutaneous identity microchip. Julie, a genius in quantum physics that is responsible for the Artificial Intelligence department, will try to alert the outside world about a terrible threat being planned by the Governor of NEOM. She will have to confront her fate. She will learn about her past and have to make a defining decision for the future. This social science fiction novel raises philosophical questions about human beings' place on planet Earth, the limits to growth at all costs, overconsumption and extreme consumerism. Will human civilisation finally live in harmony with Nature and planet Earth? Will it finally understand that it is only a guest here for an indeterminate amount of time and that it is therefore essential to protect and respect this original Eden that is our Mother Earth? Or will it continue to exploit, pillage, and overconsume, in a spirit of individualism and a headlong rush towards a belief in infinite growth? Is it able to muster some self-control, or does it need to be governed, conditioned, and manipulated? This is the message of POLIS, the first volume of the trilogy APRES DEMAIN: it is a story about a possible future, which is dramatic, realistic, and so close to now. [The After Dark Collection](#) May 17 2021 A delicious collection of the enticing books *The Engagement Gift*, *The Virgin Gift*, and *The Decadent Gift!* *The Engagement Gift*... Some fantasies are better left unsaid. Besides, I don't need to act on every wild thought that flits through my imagination, not when my fiancé and I have the kind of life I've always longed for -- passionate, intimate and oh so real. I can't risk losing him, so I focus on building our life together as a couple. But the more insistent my thoughts become, the closer I get to telling him what I want most... *** *The Virgin Gift* I might still carry my V-card, but I know exactly what I want in a man. Smart, charming and oh-so-skilled. Too bad I haven't found him yet. But maybe he's found me. Because when my charming, laid-back, next-door neighbor discovers a secret list I keep, he volunteers to work through every single item on it. Including the last one -- at the end, we walk away and stay friends. I say yes to his offer, and that's when I discover another side to him. A side I adore. A side I crave. He's commanding, intense, and everything I've ever wanted. But as we check things off one by one, I find myself breaking the most important rule of all. And I have no idea what it will do to my heart. *** *The Decadent Gift* The rules of the game were simple. One weekend. We play our roles. Actually, we play lots of roles. I get the info I need for a secret work project. We go back to how we were. That's what I proposed to handsome, clever, commanding Jake. That's what he said yes to — this decadent gift of a weekend that would get me out of trouble. But that's not what happened when our nights together in Vegas ended . . .

One Place after Another Nov 22 2021 A critical history of site-specific art since the late 1960s. Site-specific art emerged in the late 1960s in reaction to the growing commodification of art and the prevailing ideals of art's autonomy and universality. Throughout the 1970s and 1980s, as site-specific art intersected with land art, process art, performance art, conceptual art, installation art, institutional critique, community-based art, and public art, its creators insisted on the inseparability of the work and its context. In recent years, however, the presumption of unrepeatability and immobility encapsulated in Richard Serra's famous dictum "to remove the work is to destroy the work" is being challenged by new models of site specificity and changes in institutional and market forces. One Place after Another offers a critical history of site-specific art since the late 1960s and a theoretical framework for examining the rhetoric of aesthetic vanguardism and political progressivism associated with its many permutations. Informed by urban theory, postmodernist criticism in art and architecture, and debates concerning identity politics and the public sphere, the book addresses the siting of art as more than an artistic problem. It examines site specificity as a complex cipher of the unstable relationship between location and identity in the era of late capitalism. The book addresses the work of, among others, John Ahearn, Mark Dion, Andrea Fraser, Donald Judd, Renee Green, Suzanne Lacy, Inigo Mangano-Ovalle, Richard Serra, Mierle Laderman Ukeles, and Fred Wilson.

One Party After Another Mar 15 2021 'Enormously readable...excellent' Dominic Sandbrook, Sunday Times 'A superb piece of thorough journalism' David Aaronovitch, The Times Nigel Farage is arguably one of the most influential British politicians of the 21st century. His campaign to take the UK out of the EU began as a minority and extreme point of view, but in June 2016 it became the official policy of the nation after a divisive referendum. In Michael Crick's brilliant new biography, *One Party After Another*, we find out how he did it, despite never once managing to get elected to Parliament. Farage left public school at the age of 16 to go and work in the City, but in the 1990s he was drawn into politics, joining UKIP. Ironically, it was the electoral system for the European Parliament that gave him access to a platform, and he was elected an MEP in 1999. His everyman persona, combined with a natural ability as a maverick and outspoken performer on TV, ensured that he garnered plenty of media attention. His message resonated in ways that rattled the major parties - especially the Conservatives - and suddenly the UK's membership of the EU was up for debate. Controversy was never far away, with accusations of racism against the party and various scandals. But, having helped secure the referendum, Farage was largely sidelined by the successful official Brexit campaign. When Parliament struggled to find a way to leave, Farage created the Brexit Party to ensure Britain did eventually leave the EU early in 2020. Crick's compelling new study takes the reader into the heart of Farage's story, assessing his methods, uncovering remarkable hidden details and builds to an unmissable portrait of one of the most controversial characters in modern British politics.
