Training and Racing with a Power Meter, 2nd Ed. Oct 24 2021 Hunter Allen and Andy Coggan, PhD have completely revised the book that made power meters understandable for amateur and professional cyclists and triathletes. Power meters have become essential tools for competitive cyclists and triathletes. No training tool can unlock as much speed and endurance as a power meter--for those who understand how to interpret their data. A power meter displays and records exactly how much energy a cyclist expends, which lends unprecedented insight into that rider's abilities and fitness. With the proper baseline data, a cyclist can use a power meter to determine race strategy, pacing, and tactics. Training and Racing with a Power Meter makes it possible to exploit the incredible usefulness of the power meter by explaining how to profile strengths and weaknesses, measure fitness and fatigue, optimize workouts, time race readiness, and race using power. This new edition: Enables athletes to predict future performance and time peak form Introduces fatigue profiling, a new testing method to pinpoint weaknesses Includes two training plans to raise functional threshold power and time peaks for race day Offers 75 power-based workouts tuned for specific training goals This updated edition also includes new case studies, a full chapter on triathlon training and racing, and improved 2-color charts and tables throughout. Training and Racing with a Power Meter, will continue to be the definitive guide to the most important training tool ever developed for endurance sports.

Reliable Used Luxury Cars Under \$10,000 Feb 25 2022 Buy a world-class luxury car for under \$10,000. For about five thousand dollars, you can drive a top-of-the-line flagship luxury car that is classier, faster, and more comfortable than most brand new cars. The only downside may be that your friends think you have too much money to spend, because no one will be able to guess you only paid five thousand for a car that cost seventy thousand new Don't settle. Used luxury cars aren't scary, if you know which ones to buy and which ones to avoid, and how to choose them, buy them, and maintain them. The only thing better than cruising around in the comfort of a seventy thousand dollar car is knowing that you paid under ten thousand dollars for it. This book is an in-depth guide to: Why used luxury cars are underpriced ("the Uncle Howard effect") Why you shouldn't buy a used luxury car from the corner car lot Why you shouldn't spank yourself for wanting a luxury car Which used luxury cars are the best deals and which ones you must avoid just as assiduously as you'd avoid making eye contact with a clown What years, configurations, and options to choose on each car What specific pitfalls to avoid with each recommended car How to get parts and labor for a reasonable price, without compromising your sexual morals How to love life because you're driving an amazing luxury car and you paid only \$5,000 for it Doris bought her first used luxury car when she was still in high school, and has been obsessing over buying and selling used luxury cars since then. She loves cars, she loves bargains, and she loves helping people save money on car ownership. This book combines all three of her interests.
