Killer Queens Jul 30 2020 They put the SASS in ASSASSIN! Meet Max & Alex. Reformed intergalactic assassins-for-hire. On the run. Also super gay. Their former boss—a fluffy monkey with a jetpack—is hot on their tail to take back his stolen ship. They gotta eat (tacos preferably), so they take a mission from Alex's old flame. Your standard no-kill, casualty-free kidnapping recovery from a nearby moon. Only complication? Half the moon is ruled by a fascist dictator hostile to foreigners. They're the Killer Queens, so what could possibly go wrong? Pretty much everything. After their ship is forced to crash land way off target, they have to escape from a high-security detention center run by a race of alien xenophobes. Then it's all laser blasts and one-liners until they face the choice between getting paid for their mission or helping out a struggling group of refugees fighting a rebellion. Tacos are overrated, anyway. Join rising star David M. Booher (Canto, Alien Bounty Hunter) and an all-LGBTQ creative team as they tackle issues of love, xenophobia, and the terror of fascist dictatorships in this hilarious sci-fi epic.

Insider Guide to Easy Car Buying: Spend a Tenner Save a Grand

Jun 21 2022 Tony Willard has been--amongst many other things in motor publishing motoring correspondent of the Birmingham Evening Mail and Editor of Automotive Management (now called AM)--the best read trade paper for the motor retail trade. There are now stacks of ways to buy cars in the UK. So many that it is really hard for consumers to know where to get best choice, best value, best service, best after-care, best credit or whatever it is that they prioritise. In addition to franchised dealers there are: manufacturers selling direct to the public; rental car companies doing the same; car-buying agents; car supermarkets; used car dealers; internet traders; importers; auctions; and personal shoppers. Most car buying guides concentrate on WHAT to buy whether it be new or used. This book covers that, but assumes the buyer knows roughly what he wants. What has been missing until now is a guide through the jungle of places and prices which tells you WHERE to buy and HOW to pay not a penny more than necessary.

The Global Expatriate's Guide to Investing Sep 24 2022 Exploit your offshore status to build a robust investment portfolio Most of the world's 200 million expats float in stormy seas. Few can contribute to their home country social programs. They're often forced to fend for themselves when they retire. The Global Expatriate's Guide to Investing is the world's only book showing expats how to build wealth overseas with index funds. Written by bestselling author, Andrew Hallam, it's a guide for everyone, no matter where they are from. Warren Buffett says you should buy index funds. Nobel prize winners agree. But dangers lurk. Financial advisors overseas can be hungry wolves. They don't play by the same set of rules. They would rather earn whopping commissions than follow solid financial principles. The Global Expatriate's Guide To Investing shows how to avoid these jokers. It explains how to find an honest financial advisor: one that invests with index funds instead of commission paying windfalls. You don't want an advisor? Fair enough. Hallam shows three cutting edge index fund strategies. He compares costs and services of different brokerages, whether in the U.S. or offshore. And he shows every nationality how to invest in the best products for them. Some people want stability. Some want strong growth. Others want a dash of both. This book also answers the following questions: How much money do I need to retire? How much should I be saving each month? What investments will give me both strong returns, and safety? The Global Expatriate's Guide To Investing also profiles real expats and their stories. It shows the mistakes and successes that they want others to learn from. It's a humorous book. And it demonstrates how you can make the best of your hard-earned money.
