Open Access and Digital Libraries **Sep 22 2021** The social sciences have made fundamental contributions to the understanding of economic, political and social life of nations in the past century. Social science libraries now have an important role to play in the context of the information society as significant sources of academic and social knowledge. This work provides information on the development and use of digital resources in the social sciences emphasizing best practices; an articulation of some of the problems presented to providing these resources; and a view to the use of these resources to support sustainable development.

Attaining Sustainable Energy Access for All **Mar 29 2022** The energy policy of the Asian Development Bank (ADB) focuses on maximizing energy access, promoting energy efficiency and renewable energy, and promoting improved governance and capacity in the energy sector to strengthen the capacity of developing member countries to meet critical energy needs. This publication sees ADB's efforts to promote knowledge sharing among stakeholders and help identify the policy, regulatory, and legal barriers to energy access; design and implement effective frameworks; and develop strategies to scale up energy access for all. This publication is intended to serve as a reference for stakeholders and menu of options for further action.

Digital Libraries: Universal and Ubiquitous Access to Information **Apr 04 2021** This book constitutes the refereed proceedings of the 11th International Conference on Asian Digital Libraries (ICADL 2008) held in Bali, Indonesia, in December 2008. The objective of the conference series is to provide a forum for presentation of high-quality research in the field of digital libraries. ICADL 2008 provided an opportunity for digital libraries researchers and practitioners in the Asia Pacific area and beyond to gather to explore ideas, exchange and share experiences, and further build the research network in this region. ICADL 2008 was a truly international conference with presenters from 21 countries. A total of 63 papers were accepted for inclusion in the proceedings: 30 full papers, 20 short and extended abstracts of 13 posters. Submissions were subject to a rigorous, blind peer-review process. The research topics covered a spectrum of digital libraries, including multimedia digital libraries, usability and evaluation, information retrieval, ontologies, semantic tagging, metadata issues, multi- and cross-language retrieval, digital preservation, scholarly publishing and communities, and more. Additionally, three tutorials were offered in association with the conference by Andreas Rauber (Vienna University of Technology), David Bainbridge (University of Waikato), and George Buchanan (Swansea University).

Updated with all new case-based tutorials, New Perspectives Microsoft Access 2013 continues to engage students by applying skills to real-world situations, making concepts relevant. A new Troubleshoot case problem enhances critical thinking. A new tutorial on Managing Your Files helps students navigate Windows 8. As always, New Perspectives improves learning outcomes by helping students understand why what they're learning is important. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

[The Gifted and Talented](#) Jun 27 2019 The chapters that this book comprises represent what is known about the gifted and the talented from a developmental perspective. As one author after the other stresses, this volume is equally a testament to what is not known. Chapters in this section [Part I] reflect the lack of agreement in past research over the nature of giftedness, but the authors raise questions for future investigations. // These five chapters set forth major issues facing investigators in the field of giftedness. A diverse points of view emerges one commonality: the call for prospective developmental research, guided by theory, to aid our understanding of the complex of factors that contribute to gifted performance. // The authors of the chapters in this section discuss giftedness in a social perspective and suggest areas in which research and innovative action might be most useful. // In this section [Part III], authors explore approaches to studying the development of the gifted from diverse and innovative points of view. (PsycINFO Database Record (c) 2004 APA, all rights reserved).

[Artificial Intelligence in Education](#) Dec 26 2021 This publication covers papers presented at AIED2009, part of an ongoing series of biennial international conferences for top quality research in intelligent systems and cognitive science for educational computing applications. The conference provides opportunities for the cross-fertilization of techniques from many fields that make up this interdisciplinary research area, including: artificial intelligence, computer science, cognitive and learning sciences, education, educational technology, psychology, philosophy, sociology, anthropology, linguistics, and the many domain-specific areas for which AIED systems have been designed and evaluated. AIED2009 focuses on the theme "Building learning systems that care: from knowledge representation to affective modelling". The key research question is how to tackle the complex issues related to building learning systems that care, ranging from representing knowledge and context to modelling social, cognitive, metacognitive, and affective dimensions. This requires multidisciplinary research that links theory and technology from artificial intelligence, cognitive science, and computer science with theory and practice from education and the social sciences.

[Access 2003 For Dummies](#) Mar 03 2020 When you hear the word "database," do your eyes glaze over? Does the mention of fields and tables make your blood pressure skyrocket? Does the idea of entering and using hyperlinks make you hyperventilate? Whether you're running a business or a household . . . whether you need to be able to quickly access customer information, your recipe for a successful cacciatore, or the Little League team's records, Access 2003 holds the key. This friendly guide unlocks the secrets of using Access to store, manage, organize, reorganize, and use data! It gives you: The basics of the whole database concept Suggestions for solving problems with Access What you need to know to design, build, use, and change Access tables Info on the ten most common database fields The scoop on using queries to unearth the answers hiding somewhere in your data Guidelines for using the Access report wizard to make short work of long, previously time-consuming, reports In the relaxed, comfortable For Dummies style, this book has you follow, step-by-step instructions and lots of screen shots. If you want to create and manage a database for a huge auction, this guide will get you going . . . going . . . gone. If you want to create a database for your music collection, it gives you the score. You'll see how to use formatting and add graphics to jazz it up. You'll get the low-down on extracting all kinds of information from a database and putting that information to practical use. You'll discover how to: Use Label Wizard to create mailing labels, file labels, shipping labels, and more.

labels, or name tags Use Chart Wizard to create line charts, bar, cone, and column charts, pie and donut charts, area charts, and bubble charts Use Auto Reports to create columnar or tabular reports and then fine-tune them Export reports to Microsoft Excel Get your data Web-ready and put it on the Internet in either static or dynamic form Build forms with Form Wizard speaking of high-tech fun, Access 2003 For Dummies even tells you how to install and use speech recognition software with 2003. So if the idea of working with databases has you talking to yourself, this is just the book you need.

Teach Yourself Access 2 in 14 Days 31 2022 A beginning tutorial that develops the novice user's abilities with a logical step-by-step approach--21 lessons, 3 lessons per day. Tasks are presented through step-by-step exercises that teach the reader the important essentials of Access. Workshop sections at the end of each chapter reinforce the information.

Access and Inclusion for Children with Autistic Spectrum Disorders 2021 The authors explore the universal issues of access and inclusion in employment and education for children and young people with autism or Asperger's Syndrome. They describe challenges they faced in establishing and running an Integrated Resource for these children within a mainstream secondary school. Microsoft Access 2002 14 2020 SERIES TAGLINE: THE "HOW and WHY", PRACTICAL APPROACH TO LEARNING APPLICATIONS.

ICT Exercises for Key Stage 3 Mathematics 29 2019 This text provides an innovative range of ICT activities for KS3 maths, allowing students of all abilities to learn more maths through this exciting medium whilst developing their ICT skills. The interactive activities and maths resources on the CD-ROM can be networked for whole class teaching or individual student use. Extensive notes introduce the activities. Learning outcomes can be assessed from integral student assessment forms that can be saved to files on your school network or individual computer. Easy to set up and easy to use, Cut, Paste and Surf! is a straightforward integrating ICT into KS3 Maths.

Monthly Catalog of United States Government Publications 2020

Microsoft Office Access 2003 2022 Provides coverage of the features of Microsoft Access 2003, explaining how to use a data management tool to design databases, build advanced queries, program Access with Web Matrix and Server 2003, and export data.

Access 2013 All-in-One For Dummies 24 2021 Get started with the new Access 2013 with this impressive all-in-one reference. Microsoft Access allows you to store, organize, view, analyze, and share data; the new release enables you to build even more custom database solutions that integrate with the web and enterprise data sources. This compilation of nine indispensable minibooks exactly what you need to get up to speed on the latest changes to Access. This easy-to-understand resource provides both experienced Access users with invaluable advice for connecting Access to SQL Server, manipulating data locally, getting up to the latest features of Access 2013, creating queries and macros, and much more. From the basics to advanced functions, this is what you need to make Access more accessible. Shows you how to store, organize, view, analyze, and share data using Access. Includes nine minibooks that cover such topics as database design, tables, queries, forms, reports, macros, database administration, securing data, programming with Visual Basic for Applications (VBA), and using Access with the web. Helps you build database solutions that integrate with the web and other enterprise data solutions. Offers plenty of techniques, tips, and tricks to help you get the most out of Access. This all-in-one guide offers you access to all things Access 2013!

Universal Access in Human-Computer Interaction: Applications and Services for Quality of Life 2022 The three-volume set LNCS 8009-8011 constitutes the refereed proceedings of the 7th International Conference on Universal Access in Human-Computer Interaction, UAHCI 2013, held as part of the 15th International Conference on Human-Computer Interaction, HCII 2013, held in Las Vegas, USA in July 2013, jointly with 12 other thematically similar conferences. The total of 1666 papers and 303 posters presented at the HCII 2013 conferences was carefully reviewed and selected from 5210 submissions. These papers address the latest research, development efforts and highlight the human aspects of design and use of computing systems. The papers accepted for presentation thoroughly cover the entire field of human-computer interaction, addressing major advances in knowledge and effective use of computers in a variety of application areas. The total of 230 contributions included in the UAHCI proceedings were carefully reviewed and selected for inclusion in this three-volume set. The 78 papers included in this volume are organized in the following topic sections: universal access to smart environments and ambient assisted living; universal access to learning and education; universal access to text, books, ebooks and digital libraries; health, well-being, rehabilitation and medical applications; access to mobile devices and interaction.
