Five Patients Sep 21 2021 "ER has become the most succesful television series in the world since CHARLIE'S ANGELS. Michael Crichton created the series from his own experiences as a medical doctor in the emergency rooms, operating rooms and wards of Massachusetts General Hospital. FIVE PATIENTS is Michael Crichton's true account of the real life dramas so vividly portrayed in ER. A construction worker is seriously injured in a scaffold collapse- a middle-aged despatcher is brought in suffering from a fever that has reduced him to a delirious wreck; a young man nearly severs his hand in an accident; an airline traveller suffers chest pains; a mother of three is diagnosed with a life-threatening disease."

The Final Diagnosis Aug 01 2022 The #1 New York Times—bestselling author’s classic novel of life and death drama inside a major American hospital—“easy to read and hard to stop reading” (Kirkus Reviews). Change is in the air when a new board chairman sets out to modernize and expand Three Counties Hospital in Burlington, Pennsylvania—a once venerable institution whose standards have slipped. Dynamic Dr. Kent O’Donnell, a Harvard Medical School–trained surgeon, accepts the board’s offer to lead and reform the rundown, disorganized hospital because he wants to make his mark on the world. As medical-board president, O’Donnell faces his greatest challenge in Dr. Joe Pearson, Three Counties’ elderly head pathologist. Once an excellent diagnostician, Pearson is now out of touch with the latest research and procedures in laboratory medicine. But if the hospital lets the imperious doctor go, it risks losing an important benefactor’s financial support. Arthur Hailey’s fascinating, dramatic, and scrupulously researched story reveals both the professional, personal, and romantic aspects of an administrator-surgeon’s life, as well as the tragedies and moments of joy that occur every day in a hospital—a place where life often begins and ends.

Overload Apr 28 2022 The #1 New York Times—bestselling author of Hotel and Airport “hits with another blockbuster,” a terrorist takedown of California’s power grid (The Observer). Then, GSP&L’s newest and largest generator explodes. With four people

dead and a widespread loss of power, a fringe group takes responsibility. But for GSP&L vice president Nim Goldman and his family; his adversary, investigative reporter Nancy Molineaux; detective Harry London; and beautiful quadriplegic Karen Sloan, whose every breath depends on electric power, the terror is just beginning . . . A dramatic and timely story of the people and the events leading to a crisis, *Overload* presents a fascinating view of the little-known world of electric power production that is vital to contemporary life.

The Immortality Key Apr 04 2020 THE NEW YORK TIMES BESTSELLER As seen on The Joe Rogan Experience! A groundbreaking dive into the role psychedelics have played in the origins of Western civilization, and the real-life quest for the Holy Grail that could shake the Church to its foundations. The most influential religious historian of the 20th century, Huston Smith, once referred to it as the "best-kept secret" in history. Did the Ancient Greeks use drugs to find God? And did the earliest Christians inherit the same, secret tradition? A profound knowledge of visionary plants, herbs and fungi passed from one generation to the next, ever since the Stone Age? There is zero archaeological evidence for the original Eucharist – the sacred wine said to guarantee life after death for those who drink the blood of Jesus. The Holy Grail and its miraculous contents have never been found. In the absence of any hard data, whatever happened at the Last Supper remains an article of faith for today's 2.5 billion Christians. In an unprecedented search for answers, *The Immortality Key* examines the archaic roots of the ritual that is performed every Sunday for nearly one third of the planet. Religion and science converge to paint a radical picture of Christianity's founding event. And after centuries of debate, to solve history's greatest puzzle. Before the birth of Jesus, the Ancient Greeks found salvation in their own sacraments. Sacred beverages were routinely consumed as part of the so-called Ancient Mysteries – elaborate rites that led initiates to the brink of death. The best and brightest from Athens and Rome flocked to the spiritual capital of Eleusis, where a holy beer unleashed heavenly visions for two thousand years. Others drank the holy wine of Dionysus to become one with the god. In the 1970s, renegade scholars claimed this beer and wine – the original sacraments of Western civilization – were spiked with mind-altering drugs. In recent years, vindication for the disgraced theory has been quietly mounting in the laboratory. The constantly advancing fields of archaeobotany and archaeochemistry have hinted at the enduring use of hallucinogenic drinks in antiquity. And with a single dose of psilocybin, the psychopharmacologists at Johns Hopkins and NYU are now turning self-proclaimed atheists into instant believers. But the smoking gun remains elusive. If these sacraments survived for thousands of years in our remote prehistory, from the Stone Age to the Ancient Greeks, did they also survive into the age of Jesus? Was the Eucharist of the earliest Christians, in fact, a psychedelic Eucharist? With an unquenchable thirst for evidence, Muraresku takes the reader on his twelve-year global hunt for proof. He tours the ruins of Greece with its government archaeologists. He gains access to the hidden collections of the Louvre to show the continuity from pagan to Christian wine. He unravels the Ancient Greek of the New Testament with the world's most controversial priest. He spelunks into the catacombs under the streets of Rome to decipher the lost symbols of Christianity's oldest monuments. He breaches the secret archives of the Vatican to unearth manuscripts never before translated into English. And with leads from the archaeological chemists at UPenn and MIT, he unveils the first scientific data for the ritual use of psychedelic drugs in classical antiquity. *The Immortality Key* reconstructs the suppressed history of women consecrating a forbidden, drugged Eucharist that was later banned by the Church Fathers. Women who were then targeted as witches during the Inquisition, when Europe's sacred pharmacology largely disappeared. If the scientists of today have resurrected this technology, then Christianity is in crisis. Unless it returns to its roots. Featuring a Foreword by Graham Hancock, the NYT bestselling author of *America Before*.

Mortal Fear Aug 28 2019 Robin Cook, the man who invented medical techno-horror takes you on a startling and chilling odyssey into the origins of life and death in *Mortal Fear*. When an eminent biomolecular geneticist dies violently before his eyes, a doctor must use more than his medical knowledge to explain what he comes to believe is murder, and to stop a scientific breakthrough from becoming a curse instead of a miracle. There was a lot that internist Jason Howard didn't know about Dr. Alvin Hayes. But when the scientist met his sudden end, it all came out with a vengeance – for the academically respected geneticist had led a double life, and the private side was damning. Dismissing official police reports linking Hayes's death to his associations with the sordid side of society, Jason believes Hayes was silenced to keep him from revealing the results of his research, and the secret lies not in the back streets of Boston's erotic underworld, the Combat Zone, but in the high-tech genetics laboratories of the Good Health Plan clinic. Overcoming his own personal emotional problems, Jason turns his powers of diagnosis to deduction, vowing to solve the mystery no matter who tries to stop him . . . With this disturbing story, DNA research is shown to have a fearful potential, not only through possible mistakes and accidents, but ironically even through success. Splendidly researched and intricately plotted, *Mortal Fear* is Robin Cook at his prophetic and galvanizing best.
