**IGCSE English as a Second Language** Feb 21 2022 Endorsed by Cambridge International Examinations. Additional support for the written part of the exam to help students improve their answers and overall grade, including authentic material written by students with critical comments from teachers. - Places attention on the importance of style and content, together with accuracy and the correct use of different registers - Explains relevant grammar points in easy-to-understand language, and are supported by exam-related examples - Illustrates each point by means of an example relevant to the exam - Contains a database of topic-related vocabulary and ideas Review "With sample examination questions after each skill, the book would even help teachers in assessing students after each skill taught... I highly recommend it." Mrs L Shana, Rainbow Secondary School, Botswana Also useful for: The clear explanations and extensive use of examples also make it extremely useful for students preparing for other advanced exams, such as First Certificate in English (FCE), Certificate in Advanced English (CAE) and IGCSE First Language English. Also available for the complete course: We also publish a core textbook that provides the most cost-effective way to teach both the speaking and listening components of the latest Cambridge syllabus. Search for ISBN 9781444191622.

**Cambridge Igcse Mathematics** Oct 20 2021 This second edition, written especially to support the University of Cambridge International Examinations IGCSE Mathematics (0580) syllabus, is now in full colour and includes a student's CD. The text is ideal for students following the Extended Curriculum. International contexts are used throughout to aid understanding and ensure this text is relevant to students everywhere.

Handbook of Skin Ultrasound Jul 25 2019 The first practical handbook of skin ultrasound! Thought for beginners and advanced ultrasound users wishing to strengthen their knowledge in skin ultrasound Ideal for dermatologists, sonographers, radiologists, aesthetic physicians and plastic surgeons.

*Archeologia e Calcolatori, Supplemento 6, 2014. ARCHEOSEMA. Artificial Adaptive Systems for the Analysis of Complex Phenomena. Collected Papers in Honour of David Leonard Clarke* Mar 13 2021 ARCHEOSEMA, a meta-disciplinary project of theoretical, analytical and experimental archaeology, has been recently awarded by La Sapienza University of Rome. The project title is an acronym which sums up its two main theoretical foundations: the openness of modern archaeology (ARCHEO) to the analysis of physical, historical, linguistic signs (SEMA) underlying natural and cultural systems reconstructed and simulated through Artificial Sciences. This volume edited by Marco Ramazzotti, a Supplement to «Archeologia e Calcolatori», is a Special Issue dedicated to the memory of the English archaeologist David Leonard Clarke (1937-1976), and is a further attempt to collect some applicative studies of complex natural and cultural phenomena following the Artificial Intelligence computational models through the lens of Analytical Archaeology.

**Imagine What I Could Do to You** Jun 03 2020 Pure T.N.T.: Tenacious. Nasty. Truthful. Guaranteed to spark controversy! But that's the story of my life. My adventure continues and I come face to face with the Wild, Wild Women of British Wrestling!!! Will I survive? Read and find out.

**Metals Abstracts** May 03 2020

*What's Wrong with Pauly?* Mar 01 2020 Billy Johnson doesn't give it a second thought when he joins in with his friends making fun of a little girl in a wheelchair. Then Pauly comes into his life, and Billy not only learns a valuable lesson about compassion and acceptance but he gets a new best friend! Grades 3-4

Research Handbook for Health Care Professionals Oct 27 2019 The Research Handbook for Health Care Professionals is the essential guide to the entire research process for students and practitioners alike. From conceiving an idea for a project to writing up the findings for publication, the book offers an overview of each stage plus hints and tips, recommendations for further reading and examples spanning a wide range of health professions. The book comprises three sections: Getting Started, Doing Your Research and Writing Up and Dissemination, and includes chapters on key topics such as formulating your research question, writing the initial research protocol, application for ethical approval, research governance, collecting your data, research methods and preparing a poster for a conference.

**BearCity** Jul 05 2020 Based on the award-winning feature-length movie, Bear City: The Novel follows the funny, romantic, and often dramatic adventures of a tight-knit pack of bears, cubs, and friends in New York City as they gear up for a big party weekend. A hirsute Sex and the City set in the "Bear" scene, this story brings together these men, their friends, tricks, and lovers, and a cast of colorful, hirsute characters. They experience comical mishaps, lusty and romantic encounters, and an impressive variety of male body types. Using satire and humor, the novel exposes their explores these men's self-image issues and pokes fun at aspects of urban gay lifestyles, all while celebrating the worldwide community of men who call themselves Bears.

**Additional Mathematics** Jul 29 2022 This textbook follows closely the latest syllabus issued by the Ministry of Education, Singapore. It emphasises the understanding of mathematical concepts using a clear and systematic approach.

**Image and Video Technology -- PSIVT 2013 Workshops** Nov 01 2022 This book constitutes the thoroughly refereed post-conference proceedings of the four workshops on Photographic Aesthetics and Non-Photorealistic Rendering (PAESNPR13), Geometric Properties from Incomplete Data (GPID), Quality Assessment and Control by Image and Video Analysis (QACIVA) and Geometric Computation for Computer Vision (GCCV2013), held

in conjunction with the 6th Pacific-Rim Symposium on Image and Video Technology (PSIVT) in Guanajuato, Mexico during October 28-November 1, 2013. The 38 revised full papers presented were carefully selected from numerous submissions and cover all aspects of Imaging and Graphics Hardware and Visualization, Image/Video Coding and Transmission; Processing and Analysis; Retrieval and Scene Understanding, but also Applications of Image and Video Technology, Biomedical Image Processing and Analysis, Biometrics and Image Forensics, Computational Photography and Arts, Computer and Robot Vision, Pattern Recognition and Video Surveillance.

**Virtual and Augmented Reality: Concepts, Methodologies, Tools, and Applications** Dec 10 2020 Virtual and augmented reality is the next frontier of technological innovation. As technology exponentially evolves, so do the ways in which humans interact and depend upon it. Virtual and Augmented Reality: Concepts, Methodologies, Tools, and Applications is a comprehensive reference source for the latest scholarly material on the trends, techniques, and uses of virtual and augmented reality in various fields, and examines the benefits and challenges of these developments. Highlighting a range of pertinent topics, such as human-computer interaction, digital self-identity, and virtual reconstruction, this multi-volume book is ideally designed for researchers, academics, professionals, theorists, students, and practitioners interested in emerging technology applications across the digital plane.

**Engaging Consumers through Branded Entertainment and Convergent Media** Sep 18 2021 Branded entertainment is gaining popularity within marketing communications strategies. Blurring the lines between advertisements and editorial content, branded marketing provides advertisers and consumers with highly engaging media content that benefits them both. Engaging Consumers through Branded Entertainment and Convergent Media provides an interdisciplinary approach to connecting with the consumer through branding strategies in the entertainment and media fields. Featuring information regarding emergent research and techniques, this publication is a critical reference source for academics, university teachers, researchers and post-graduate students, as well as universities, advertising agencies, marketing directors, brand managers, and professionals interested in the usage and benefits of branded entertainment.

**Unconventional Oil and Gas Resources** Dec 22 2021 As the shale revolution continues in North America, unconventional resource markets are emerging on every continent. In the next eight to ten years, more than 100,000 wells and one- to two-million hydraulic fracturing stages could be executed, resulting in close to one trillion dollars in industry spending. This growth has prompted professionals experienced in conventional oil and gas exploitation and development to acquire practical knowledge of the unconventional realm. Unconventional Oil and Gas Resources: Exploitation and Development provides a comprehensive understanding of the latest advances in the exploitation and development of unconventional resources. With an emphasis on shale, this book: Addresses all aspects of the exploitation and development process, from data mining and accounting to drilling, completion, stimulation, production, and environmental issues Offers in-depth coverage of sub-surface measurements (geological, geophysical, petrophysical, geochemical, and geomechanical) and their interpretation Discusses the use of microseismic, fiber optic, and tracer reservoir monitoring technologies and JewelSuite™ reservoir modeling software Presents the viewpoints of internationally respected experts and researchers from leading exploration and production (E&P) companies and academic institutions Explores future trends in reservoir technologies for unconventional resources development Unconventional Oil and Gas Resources: Exploitation and Development aids geologists, geophysicists, petrophysicists, geomechanic specialists, and drilling, completion, stimulation, production, and reservoir engineers in the environmentally safe exploitation and development of unconventional resources like shale.

**Cambridge International A and AS Level Mathematics** May 27 2022 This brand new series has been written for the University of Cambridge International Examinations course for AS and A Level Mathematics (9709). This title covers the requirements of P1. The authors are experienced

examiners and teachers who have written extensively at this level, so have ensured all mathematical concepts are explained using language and terminology that is appropriate for students across the world. Students are provided with clear and detailed worked examples and questions from Cambridge International past papers, so they have the opportunity for plenty of essential exam practice. Each book contains a free CD-ROM which features the unique 'Personal Tutor' and 'Test Yourself' digital resources that will help students revise and reinforce concepts away from the classroom: - With Personal Tutor each student has access to audio-visual, step-by-step support through exam-style questions - The Test Yourself interactive multiple choice questions identify weaknesses and point students in the right direction

**Agent-Oriented Software Engineering XIII** Aug 06 2020 This book constitutes the thoroughly refereed post-proceedings of the 13th Agent-Oriented Software Engineering (AOSE) workshop, held at the 11th International Conference on Autonomous Agents and Multiagent Systems, AAMAS 2012, in Valencia, Spain, in June 2012. This volume presents 9 thoroughly revised papers selected from 24 submissions as well as two invited articles by leading researchers in the field. The papers cover a broad range of topics related to software engineering of agent-based systems, with particular attention to the integration of concepts and techniques from multi-agent systems with recent programming languages, platforms, and established software engineering methodologies.

**IGCSE Physics** Jan 11 2021 This highly respected and valued textbook has been the book of choice for Cambridge IGCSE students since its publication. This new edition, complete with CD-ROM, continues to provide comprehensive, up-to-date coverage of the core and extended curriculum specified in the IGCSE Physics syllabus, The book is supported by a CD-ROM containing extensive revision and exam practice questions, background information and reference material.

*Pacific Symposium on Biocomputing 2013* Sep 30 2022 The Pacific Symposium on Biocomputing (PSB) 2013 is an international, multidisciplinary conference for the presentation and discussion of current research in the theory and application of computational methods in problems of biological significance. Presentations are rigorously peer reviewed and are published in an archival proceedings volume. PSB 2013 will be held on January 3 OCo 7, 2013 in Kohala Coast, Hawaii. Tutorials and workshops will be offered prior to the start of the conference. PSB 2013 will bring together top researchers from the US, the Asian Pacific nations, and around the world to exchange research results and address open issues in all aspects of computational biology. It is a forum for the presentation of work in databases, algorithms, interfaces, visualization, modeling, and other computational methods, as applied to biological problems, with emphasis on applications in data-rich areas of molecular biology. The PSB has been designed to be responsive to the need for critical mass in sub-disciplines within biocomputing. For that reason, it is the only meeting whose sessions are defined dynamically each year in response to specific proposals. PSB sessions are organized by leaders of research in biocomputing's OC hot topics. OCO In this way, the meeting provides an early forum for serious examination of emerging methods and approaches in this rapidly changing field."

**Son of Sedonia** Aug 18 2021 Imagine growing up in the largest slum on the planet in the year 2080AD. Twenty million people are your neighbors, huddled together in an ocean of rusted dwellings made from whatever Sedonia City, the towering metropolis in the distance, decides to throw away. Gang members, known as the T99s, are the heads of your community: smuggling tech, trafficking drugs, and fighting a constant guerilla war against the City's bio-augmented EXO police force. There is little hope for survival. None for escape to a better life beyond the half-mile high Border between city and slum. This is Matteo's world. A bright kid, but sick and weak since childhood, he is painfully dependent on Jogun: loving older brother, and hardened soldier for the T99s. When a luxury transport from Sedonia's aerial traffic crash-lands in Rasalla, it threatens to change Matteo and Jogun's fate forever. And all fates are connected. The Dwellers of Rasalla, bound by family in the scrap, ashes, and dirt. The Citizens of Sedonia, oblivious to

danger in the buzzing twilight of the Neuro-Social Revolution. The EXOs, placing themselves in harm's way to perform their duty to protect their homes and fellow officers. And the Ruling Elite, whose long-buried secrets and desperate plans could spell the end of civilization...or a new beginning. Son of Sedonia is an action-filled science fiction epic with a soul and a clear message. Its characters live, breathe, suffer, and love in their different worlds, each brought to the brink as the Third-World collides with the First. Their future could well be ours.

*Holding Back The Tears*  Mar 25 2022 This is true story about real people is set in Edinburgh City and Dundee, where a petite Scottish Lassie called Rosie Gilmour, mother to Finlay Sinclair, receives news of the death of her son - who tragically has taken his own life by hanging. Rosie pretends her son is still alive by talking to him, for that takes away the unbearable pain of her loss. But once she begins to face up to the fact that Finlay is not coming back, her conversations become more of a challenge than she can handle. When memories of her past are triggered by everyday life events, they take her mind back and forth in time - back to her own childhood days in 1960, when she flirted with the fairground boys, and to the day she gave birth to Finlay - "ME LADDIE". Rosie's Scottish accent becomes more apparent whenever her emotions are heightened and she begins to recite poetry. She goes on to reveal doubts about her own self-worth and how she re-unites her role as mother - a role she had denied herself for seven years prior to Finlay's death. Rosie learns how to forgive herself and how to accept her loss with using practical coping strategies that sometimes but not always work for her. Many voices of different natures and walks of life appear in Rosie's, story with each one offering a part of their own belief to try and console her in her misery - except that she turns her back on any advice or support offered. Rosie is convinced that she can cope with her loss on her own and "needs no help from anyone, thank you" - until a sweet, gentle, soft-spoken voice begins to travel with her throughout her ordeal, leaving her no other choice but to listen. Eventually moving to the countryside in Angus, Rosie finds the isolation gives her life a new meaning offering her the opportunity to re-value her beliefs about her own self values and decides the time has come to give her son a memorial service and invite a chosen few dance companions whom she met on a regular basis in Edinburgh to honour this day. Rosie begins to accept she will never be the same person she once had been and shall never be again, believing now her journey through grief taught her many lessons making her a stronger and better person than she imagined she could ever be.

The Airplane Effect Feb 09 2021

**Modelling and Simulation for Autonomous Systems** Apr 13 2021 This book constitutes the thoroughly refereed post-conference proceedings of the 8th International Conference on Modelling and Simulation for Autonomous Systems, MESAS 2021, held as a virtual event due COVID-19, in October 2021. The 30 full papers together with 2 short papers included in the volume were carefully reviewed and selected from 50 submissions. They are organized in the following topical sections: M&S of intelligent systems, R&D and application; and AxS/AI in context of future warfare and security environment and future challenges of Advance M&S Technology.

Corporate Power and Human Rights Dec 30 2019 There is ample evidence about the negative effects business activity of all types can have on the provision of human rights. Equally, there can be little doubt economic development, usually driven through business activity and trade, is necessary for any state to provide the institutions and infrastructure necessary to secure and provide human rights for their citizens. The United Nations and businesses recognise this tension and are collaborating to effect change in business behaviours through voluntary initiatives such as the Global Compact and John Ruggie's Guiding Principles. Yet voluntary approaches are evidently failing to prevent human rights violations and there are few alternatives in law for affected communities to seek justice. This book seeks to robustly challenge the current status quo of business approaches to human rights in order to develop meaningful alternatives in an attempt to breach the gap between the realities of business and human rights and its discourse. This book was previously published as a special issue of the International Journal of Human Rights.

**Heart of the Streets** Jun 23 2019 Corinne is running from the pain of her past but she can't seem to run fast enough. Jabari thought he had it all but even with everything, something is still missing. Follow Corinne and Jabari through the streets of Atlanta as she offers him a loyalty he's never had and he showers her in a love she never knew existed!

**A Sleeping Giant?** Jan 23 2022 This edited volume explores Nigeria's domestic and international politics and its implications for the country's national development and international status. Coinciding with the twenty year anniversary of Nigeria's return to democratic rule, this volume considers the state of democracy in Nigeria and examines its successes and challenges with a view towards offering possible solutions for the country's future development. The first half of the volume addresses domestic politics, focusing on current issues such as the 2019 elections, Nigerian federalism, media, state-civil society relations, and Boko Haram terrorism. The second half looks at Nigeria's relations with its African neighbors, discussing the relationships between Nigeria and South Africa, Egypt, Ghana, and Cameroon, among others. Engaging the full spectrum of the politics of a rising African power, this volume will be of interest to students and researchers of comparative politics, international relations, foreign policy, African studies, regional politics, peace, security, conflict, and development studies, as well as African policymakers.

**A Fistful of Rock & Roll** Aug 25 2019 Two survivors of a global catastrophe disguise themselves as corpses to survive in a land of the walking dead! From the mind of Mike Richardson, creator of *The Mask and The Secret*, comes this hilariously frightening tale of Straw and Whip who have lived through a plague that's left the world with seven billion brain-hungry zombies. Soon the two friends save a lovely young gun-crazy woman named Betty, who becomes a source of rivalry between them. With hundreds of zombies out for a snack, the three try their best to blend in so as not become the next item on the menu.

*Rural Rides* Sep 06 2020 *Rural Rides* is the book for which the English journalist, agriculturist and political reformer William Cobbett is best known. At the time of writing *Rural Rides*, in the early 1820s, Cobbett was a radical anti-Corn Law campaigner. He embarked on a series of journeys by horseback through the countryside of Southeast England and the English Midlands. He wrote down what he saw from the points of view both of a farmer and a social reformer. The result documents the early 19th-century countryside and its people as well as giving free vent to Cobbett's opinions

*Diary of Squandered Valor* Nov 08 2020 "A Gunner's Mate's gripping account of his ship's terrifying run through German U-boats' infamous gauntlet of death in the icy North Seas--in the U.S.'s first convoy to Russia before World War II was even declared"--Provided by publisher.

**Crisis Narratives, Institutional Change, and the Transformation of the Japanese State** Apr 25 2022 Looking at Japan, traces crisis narratives across three decades and ten policy fields, with the aim of disentangling discursively manufactured crises from actual policy failures. Mired in national crises since the early 1990s, Japan has had to respond to a rapid population decline; the Asian and global financial crises; the 2011 triple disaster of earthquake, tsunami, and the Fukushima nuclear meltdown; the COVID-19 pandemic; China's economic rise; threats from North Korea; and massive public debt. In *Crisis Narratives, Institutional Change, and the Transformation of the Japanese State*, established specialists in a variety of areas use a coherent set of methodologies, aligning their sociological, public policy, and political science and international relations perspectives, to account for discrepancies between official rhetoric and policy practice and actual perceptions of decline and crisis in contemporary Japan. Each chapter focuses on a distinct policy field to gauge the effectiveness and the implications of political responses through an analysis of how crises are narrated and used to justify policy interventions. Transcending boundaries between issue areas and domestic and international politics, these essays paint a dynamic picture of the contested but changing nature of social, economic, and, ultimately political institutions as they constitute the transforming Japanese state. Sebastian Maslow is Senior Lecturer in International Relations at Sendai Shirayuri Women's College in Japan. He is the coeditor (with Ra Mason and Paul O'Shea) of *Risk State: Japan's Foreign Policy in an Age of Uncertainty*. Christian Wirth is Research Fellow at the

German Institute for Global and Area Studies (GIGA) and Adjunct Research Fellow at the Griffith University Asia Institute. He is the author of *Danger, Development and Legitimacy in East Asian Maritime Politics: Securing the Seas, Securing the State*.

*Delphi Complete Works of Ambrose Bierce (Illustrated)* Sep 26 2019 For the first time in publishing history, Delphi Classics is proud to present the complete works of master storyteller Ambrose Bierce. This comprehensive eBook is spiced with numerous illustrations, rare and forgotten texts, concise introductions and the usual Delphi bonus material. (Version 1) \* Beautifully illustrated with images relating to Bierce's life and works \* Concise introductions to the collections and other texts \* The rare novella THE DANCE OF DEATH appears here for the first time in digital print \* ALL the short story collections, with individual contents tables \* Featuring 475 tales, many appearing for the first time in digital print \* Images of how the books were first printed, giving your eReader a taste of the original texts \* Excellent formatting of the texts \* Famous works such as COBWEBS FROM AN EMPTY SKULL are fully illustrated with their original artwork \* Special chronological and alphabetical contents tables for the poetry, essays and the short stories \* Easily locate the works you want to read \* The complete non-fiction, with many scarce essays and newspaper articles \* Includes Bierce's letters - spend hours exploring the author's personal correspondence \* Special criticism section, with essays evaluating Bierce's contribution to literature \* Also provides a unique 'Biercian Texts' section with interesting articles on the works and disappearance of Ambrose Bierce \* Features a bonus full biography - discover Bierce's literary life \* Scholarly ordering of texts into chronological order and literary genres CONTENTS: The Novellas THE DANCE OF DEATH THE MONK AND THE HANGMAN'S DAUGHTER THE LAND BEYOND THE BLOW The Short Story Collections THE FIEND'S DELIGHT COBWEBS FROM AN EMPTY SKULL PRESENT AT A HANGING, AND OTHER GHOST STORIES IN THE MIDST OF LIFE: TALES OF SOLDIERS AND CIVILIANS CAN SUCH THINGS BE? Presentations are rigorously peer reviewed and are published in an archival proceedings volume. PSB 2013 will be held on January 3 - 7, 2013 in Kohala Coast, Hawaii. Tutorials and workshops will be offered prior to the start of the conference. PSB 2013 will bring together top researchers from the US, the Asian Pacific nations, and around the world to exchange research results and address open issues in all aspects of computational biology. It is a forum for the presentation of work in databases, algorithms, interfaces, visualization, modeling, and other computational methods, as applied to biological problems, with emphasis on applications in data-rich areas of molecular biology. The PSB has been designed to be responsive to the need for critical mass in sub-disciplines within biocomputing. For that reason, it is the only meeting whose sessions

are defined dynamically each year in response to specific proposals. PSB sessions are organized by leaders of research in biocomputing's "hot topics." In this way, the meeting provides an early forum for serious examination of emerging methods and approaches in this rapidly changing field. Don't go there. It's not safe. You'll die. And other more >> rational advice for overlanding Mexico & Central America Jun 15 2021 Your complete guide for overlanding in Mexico and Central America. This book provides detailed and up-to-date information by country. It also includes 11 chapters of information for planning and preparing your trip and 9 chapters on what to expect while driving through Mexico and Central America. Completed by the authors of LifeRemotely.com this is the most comprehensive guide for driving the Pan American yet!

**Information and Communication Technologies in Education, Research, and Industrial Applications** Aug 30 2022 This book constitutes the thoroughly refereed proceedings of the 9th International Conference on Information and Communication Technologies in Education, Research, and Industrial Applications, held in Kherson, Ukraine, in June 2013. The 18 revised full papers presented were carefully reviewed and selected from 125 submissions. The papers are organized in topical sections on systems, infrastructures, and integration; semantics, knowledge engineering and management; ICT in teaching methodologies and didactics; model-driven software development and verification.

**Edexcel Chemistry** Jul 17 2021 Revise for AS & A2 Biology with confidence! Providing complete study support throughout the two A Level years, this Edexcel Chemistry study guide matches the curriculum content and provides in-depth course coverage. Written by experienced AS and A2 examiners this book includes invaluable advice on how to get the best results in the exams. Providing plenty of exam practice and frequent progress checks and questions to consolidate learning, this AS & A2 Edexcel Chemistry study guide contains invaluable advice and preparation for the exam. Extensive coverage of the Edexcel course: \* AS & A2 specification checklists to organise your studies \* tick boxes to record your progress and plan your revision \* in-depth coverage of core AS & A2 topics Also included in this book: \* examiner's tips that reveal how to achieve higher marks \* exam board labels that allow students to identify content relevant to their course \* topics subdivided into short, manageable sections \* highlighted key points and terminology, and examiner's hints to offer guidance \* progress check questions to test recall and understanding \* sample questions and model answers that reveal what examiners are looking for \* exam-style questions and answers that provide crucial exam practice

Inclined to Liberty May 15 2021

**Backpacker** Oct 08 2020 Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often. The authority on active adventure, Backpacker is the world's first GPS-enabled magazine, and the only magazine whose editors personally test the hiking trails, camping gear, and survival tips they publish. Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature and product innovation, has become the gold standard against which all other outdoor-industry awards are measured.

**Pakistan-U.S. Relations** Nov 20 2021 A stable, democratic, economically thriving Pakistan is vital to U.S. interests in Asia. Key U.S. concerns regarding Pakistan include regional terrorism; weapons proliferation; the ongoing Kashmir problem and Pakistan-India tensions; human rights protection; and economic development. A U.S.-Pakistan relationship marked by periods of both cooperation and discord was transformed by the September 2001 terrorist attacks on the United States and the ensuing enlistment of Pakistan as a pivotal ally in the U.S.-led counterterrorism efforts. Top U.S. officials regularly praise Islamabad for its ongoing cooperation, although doubts exist about Islamabad's commitment to some core U.S. interests in the region. Pakistan is identified as a base for terrorist groups and their supporters fighting in Kashmir, India, and Afghanistan. Pakistan continues to face serious problems, including domestic terrorism and human rights violations. For more than one year, Pakistan's army has conducted unprecedented counterterrorism operations in the traditionally autonomous Federally Administered Tribal Areas.

Information Systems: Methods, Models, and Applications Apr 01 2020 This volume constitutes the proceedings of the 4th International United

Information Systems Conference, UNISCON 2012, which was held in Yalta, Ukraine, during June 1-3, 2012. UNISCON 2012 was affiliated with the 8th International Conference on ICT in Education, Research, and Industrial Applications, ICTERI 2012. The 14 full papers, four short papers, and three extended abstracts presented with a keynote speech were carefully reviewed and selected from 96 submissions. The topical sections covered are: data management; applications; modeling and semantics; and social issues in information systems.

*The God Portal* Jan 29 2020 It began as a vacation out west for Jim Wagner and his family...until Jim discovers his brother, particle physicist Dr. Warren Wagner, is missing from his Nevada home. The mystery leads to the desert laboratory of corporate giant Forsythe-Hammond. There Jim discovers the truth behind Warren's disappearance and its connection to the company's deepest secrets, a technology where faith and science collide. It's the beginning of a thrilling and dangerous adventure to rescue his brother. Jim is joined by the affable Lyle Bumgardner, particle physicist and atheist at heart; and by Dr. Lawrence Macklin, devout Christian and Biblical scholar. Their odyssey becomes destiny, a struggle for survival and a quest for truth, leading them to a place where Christian faith and secular atheism alike will be put to the test. Their journey puts them on the trail of the historical Jesus...

*The 20 Minute Business Analyst* Nov 28 2019 Who has time to read text books? As a busy business analysis consultant and instructor, my free time is short and precious. That is why I like to read articles. They are brief and to the point. I like quick reference cards for a similar reason - they offer immediate help. I also like humor in the context of the subject. Laughter keeps me interested and awake. If you're busy like me, this book is for you. It is a collection of short business analysis articles, humorous but pertinent stories and quick reference cards. • If you are a business analyst practitioner, these articles will confirm best practices or provide you additional insight as to why they are best practices; no matter how good you are at eliciting and documenting requirements, you can always improve. • If you are a professor at an institution of higher learning, these articles can serve as a source for discussion at both the graduate and undergraduate level.
